§ 1499.993 *Approval of maximum prices for sales of Old Mother Hubbard New Dry Vitaminized Cat Food by A. Hubbard & Son, Inc., as producer, and by Old Mother Hubbard Dog Food Company, Inc., as producer.* (a) A. Hubbard & Son, Inc., of Gloucester, Massachusetts, as producer, (and Old Mother Hubbard Dog Food Company Inc., of Gloucester, Massachusetts, as producer) may sell and deliver, and any person may buy and receive from A. Hubbard & Son, Inc., Old Mother Hubbard New Dry Vitaminized Cat Food (and from Old Mother Hubbard Dog Food Company Inc., the type of cat food heretofore produced by it like Old Mother Hubbard New Dry Vitaminized Cat Food) packed in 8-oz. bags at prices not exceeding 49 cents per dozen bags, f. o. b. plant of producer. This maximum price is only authorized for Old Mother Hubbard New Dry Vitaminized Cat Food when made according to the formula used by A. Hubbard and Son, Inc. in connection with its application for this order.

(b) No increase in the maximum price authorized by the above provision (a) may be made by any seller of Old Mother Hubbard New Dry Vitaminized Cat Food except in a sale at wholesale or retail. A sale at wholesale means only sales made to a person who makes sales at retail. A sale at retail means a sale made to a consumer.

(c) The maximum price which a seller may charge in a sale at wholesale or retail shall be figured as follows:

(1) If he sold any variety or brand of Old Mother Hubbard cat or dog food in March 1942, (i) he shall take the ceiling price of the variety or brand of which he sold the largest number of units, (ii) divide that ceiling price by the March 1942 net cost and (iii) then multiply the figure so obtained by the net delivered cost of Old Mother Hubbard New Dry Vitaminized Cat Food. ("Net delivered cost" means the net invoice cost at the customary receiving point less all discounts and allowances for prompt payment and shall not include any charges for local hauling.)

(2) If he did not sell any variety or brand of Old Mother Hubbard cat or dog food in March 1942 but did sell another cat or dog food, (i) he shall take the ceiling price of the cat or dog food of which he sold the largest number of units, (ii) divide that ceiling price by the March 1942 net cost and (iii) then multiply the figure so obtained by the net delivered cost of Old Mother Hubbard New Dry Vitaminized Cat Food. ("Net delivered cost" has the same meaning as in the previous subsection.)

(3) If he did not sell any dog or cat food in March 1942 he shall take the price that his most closely competitive seller of the same class has established or will establish for Old Mother Hubbard New Dry Vitaminized Cat Food.

(d) The maximum prices authorized by this order shall be subject to discounts, allowances and terms no less favorable than those in effect during March 1942 with respect to the sale of the cat or dog food which is used as a basis for fixing the price of Old Mother Hubbard New Dry Vitaminized Cat Food, shall include commissions, advertising or other allowances and all other charges and shall not be increased by any charges for the extension of credit.

(e) Records. Every person making a purchase or sale of Old Mother Hubbard New Dry Vitaminized Cat Food in the course of trade or business, except a seller at retail, shall keep for inspection by the Office of Price Administration, so long as the Emergency Price Control Act of 1942 remains in effect, complete and accurate records of each such purchase and sale including the date thereof, the name of the seller and purchaser, the price and the amount sold. Sellers at retail need not keep records of sales at retail but shall keep all invoices and notices received with the purchase of each shipping unit.

(f) On and after November 4, 1942, and on or before the time of first delivery of Old Mother Hubbard New Dry Vitaminized Cat Food to any person who makes sales at wholesale or retail, as above defined, A. Hubbard & Son, Inc., as producer (or Old Mother Hubbard Dog Food Company, Inc., as producer) shall supply to the buyer a written statement, and also include in or attach to each shipping unit of Old Mother Hubbard New Dry Vitaminized Cat Food a copy of such statement, to read as follows:

> The Office of Price Administration has authorized a ceiling price for Old Mother Hubbard New Dry Vitaminized Cat Food. You are authorized to establish your ceiling price at a price higher than the cost of Old Mother Hubbard New Dry Vitaminized Cat Food to you in the following manner:
>
> (1) If you sold in March 1942 any variety of Old Mother Hubbard cat or dog food, your ceiling price on Old Mother Hubbard New Dry Vitaminized Cat Food is to be arrived at by using the same percentage of markup over the net cost which you used for your fastest selling Old Mother Hubbard cat or dog food in March 1942.
>
> (2) If you did not sell any variety of Old Mother Hubbard cat or dog food in March 1942 but you did sell another cat or dog food, your ceiling price on Old Mother Hubbard New Dry Vitaminized Cat Food is to be arrived at by using the same percentage of markup over the net cost which you used for your fastest selling cat or dog food in March 1942.
>
> (3) If you did not sell any cat or dog food in March 1942, your ceiling price is the price that your most closely competitive seller of the same class has established or will establish for Old Mother Hubbard New Dry Vitaminized Cat Food.
>
> Your ceiling price shall be figured to the nearest cent. Net cost means the net invoice delivered cost at the usual receiving point less all discounts and allowances, except discounts and allowances for prompt payment, and does not include any charges for local hauling. A copy of this notice is enclosed in every packing unit of Old Mother Hubbard New Dry Vitaminized Cat Food.
>
> If the first sale made by a wholesaler or a retailer is a split case sale the wholesaler is required to supply the retailer with a copy of this notice. The Office of Price Administration requires that you keep this notice and all invoices for examination.

[No. 2]

NIAGARA EXPORT AND IMPORT CO.

ORDER DENYING LICENSING PRIVILEGES

Pursuant to Part 807 of the regulations adopted under section 6 of the Act of July 2, 1940, as amended, the Chief of the Trade Intelligence Division of the Export Control Branch, Office of Exports, has charged the Niagara Export & Import Co., 44 Beaver St., New York City, and W. R. Shepherd, at the same address, (hereinafter referred to as respondents) with violations of Proclamation 2497,[1] authorizing a Proclaimed List of Certain Blocked Nationals and Controlling Certain Exports issued in part under the authority of said Section. The respondents have filed a written answer to the charges set forth.

The Compliance Commissioner, duly designated under § 807.1[2] of the aforesaid regulations, has reviewed the record and filed his findings of fact and recommendations in the matter. The following facts have been found:

On December 13, 1940, a certificate for conducting an export business under the name of Niagara Export & Import Co. was filed in New York City listing Russell R. Shepherd as owner; William R. Shepherd, the father of Russell R. Shepherd, directed the business of the Niagara Export & Import Co. and at all times in the course of its negotiations with "Hauck" S. A., acted as owner thereof. Russell R. Shepherd, in whose name the Niagara Export & Import Co. was registered, did not engage in any of the activities of the company. The Niagara Export & Import Co. acted as agent for, and carried on business with "Hauck" S. A., of Caracas, Venezuela prior to July 17, 1941. On July 17, 1941, the name of "Hauck," S. A. (Sucesores de Ludwig Hauck & Co.) Dr. Diaz a Zamuro 57, Caracas, Venezuela, was placed on the Proclaimed List of Certain Blocked Nationals. Between the dates of August 29, 1941, and December 31, 1941, the Niagara Export & Import Co. exported merchandise for the account of and performed services for Carlos Niemtschik y Cia. of Caracas, Venezuela, amounting to $18,806.97. The books of account of the Niagara Export & Import Co. charge Carlos Niemtschik y Cia. with the sum of $400.00 per month for fees, office and overhead expenses from July 1, 1941, to October 31, 1941. These exportations, commissions and services were performed with the knowledge that Carlos Niemtschik y Cia, was an agent of, and was acting for, on account of, and on behalf of "Hauck" S. A. of Caracas, Venezuela.

The Compliance Commissioner has found that these exportations, payments of commissions, and services performed in connection therewith were made at a time when "Hauck" S. A. appeared on the Proclaimed List of Certain Blocked Nationals, and that such exportations were for and on behalf of "Hauck" S. A. were without license or certificate of hardship, and as such, violated section 6 of the Act of July 2, 1940, as amended, and section 3 of the aforesaid Proclamation 2497.

Upon consideration of the record, Findings of Fact and Recommendations, in this matter, *It is hereby ordered,* That

1. All export licenses heretofore issued to W. R. Shepherd, also known as William R. Shepherd, and to the Niagara Export & Import Co. for exports as yet not consummated, are hereby revoked, and

2. W. R. Shepherd, also known as William R. Shepherd, and the Niagara Export & Import Co. and any person, association, or organization acting on behalf of, or for the account of either of them, are denied the privilege of obtaining individual export licenses and the use of any general or unlimited export license for any exportation whatsoever from the United States for the duration of the war.

The respondents may appeal in writing to the Assistant Director in charge of the Office of Exports provided the appeal is taken within ten (10) days after receipt of this order.

More than 8 cents each and not more than 15 cents each	5.00
More than 15 cents each and not more than 20 cents each	4.50
More than 20 cents each	6.50

These rates are equal to the increases in the rates of tax made applicable to large cigars by section 2000 (c) of the Internal Revenue Code, as amended by section 605 of the Revenue Act of 1942.

(b) *Large and small cigarettes.* The rate of floor stocks tax applicable to large cigarettes is 60 cents per thousand, except that cigarettes measuring more than 6½ inches in length are taxable as small cigarettes counting each 2¾ inches (or fraction thereof) of the length of each cigarette as one small cigarette. The rate applicable to small cigarettes is 25 cents per thousand. These rates are equal to the increases in the rates of tax made applicable to large and small cigarettes by section 2000 (c) of the Internal Revenue Code, as amended by section 605 of the Revenue Act of 1942. [Art. 201]

§ 140.202 *Payment of tax.* The tax is payable on or before December 31, 1942, by every person who at the first moment of November 1, 1942, held large cigars, or large or small cigarettes for sale. The tax shall be paid at the time of filing the return. (See § 140.203 [article 203])

Manufacturers and importers holding unstamped large cigars or large or small cigarettes on November 1, 1942, shall pay the tax applicable thereto by affixing, at the time of the withdrawal of such articles from the factory or customs custody, stamps paid for at the rates in effect on and after November 1, 1942. To permit the use for this purpose of unattached large and small cigarette stamps and large cigar stamps of class A, purchased at the rates in effect prior to the first moment of November 1, 1942, manufacturers and importers shall, with respect to such stamps, pay as part of their floor stocks tax liability an amount equal to the difference between the amount paid for such stamps and the amount which would have been paid if the stamps had been purchased on or after November 1, 1942.

The floor stocks tax on unstamped large cigars intended to retail at more that 2½ cents but not more than 4 cents each, may be paid by the use of large cigar stamps of class B, purchased prior to November 1, 1942. The floor stocks tax on unstamped large cigars intended to retail at more than 4 cents each shall be paid only by the use of the appropriate large cigar stamps of classes C, D, E, F, and G purchased at the rates in effect on and after November 1, 1942. For this purpose, manufacturers and importers having large cigar stamps of the classes C, D, and E purchased at the rates in effect prior to November 1, 1942, may at their option surrender such stamps to the collector for the district in which the stamps are held to be exchanged for an equal value of new stamps, or to be redeemed in accordance with the provisions of § 140.116 [article 116]. [Art. 202]

§ 140.203 *Return*—(a) *General.* Every person who held stamped large cigars or large or small cigarettes for sale on the first moment of November 1, 1942, shall make and file a return of the cigars and cigarettes so held. The return shall be made on Form 188, Revised October 1942, by manufacturers and importers, and on Form 187, Revised October 1942, by persons other than manufacturers and importers.

Where taxable stamped cigars or cigarettes are held at only one place of business, the return shall be prepared in duplicate. The original return shall be filed with the collector of internal revenue for the district in which such place of business is located, while the duplicate shall be retained at such place of business.

Where taxable stamped cigars or cigarettes are held at more than one location or place of business, a separate return for each such location or place of business, or a consolidated return covering all such locations or places of business, may be filed at the option of the person liable to make return and pay tax. If a separate return is made for each location or place of business, the procedure set forth in the preceding paragraph shall be followed with respect to each such return.

If a consolidated return is made, the return shall be accompanied by separate inventories of the cigars and cigarettes held at each location or place of business covered by such return. Such separate inventories shall be prepared on the inventory portion of Form 187, or Form 188, whichever is applicable, in triplicate. Each separate inventory shall also show the taxpayer's name and the place of business where the cigars and cigarettes are held. The original and duplicate copies of the separate inventories shall be forwarded to the principal place of business for use in preparing the consolidated return, while the triplicate shall be retained at the premises where the cigars and cigarettes are held. The consolidated return shall be prepared in duplicate. The original return together with the original copies of the separate inventories shall be filed with the collector of internal revenue for the district in which the principal place of business is located, while the duplicate copies of the return and separate inventories shall be retained at such place of business.

Cigars and cigarettes, subject to floor stocks tax, are regarded as held by the owner thereof at the first moment of November 1, 1942, although at that time the articles are in transit to the owner, or in a warehouse, storeroom, or distributing depot, and shall be included in the inventory and return of the owner. Where title does not pass to the consignee until delivery, articles in transit at the first moment of November 1, 1942, are regarded as owned or held by the consignor at that time.

The required return shall be filed and tax shall be paid on or before December 31, 1942. Failure to file the return and pay the tax due thereon within the time specified will subject the taxpayer to the penalties set forth in § 140.205 [article 205].

The oath required on Form 187, Revised October 1942, or Form 188, Revised October 1942, may be administered by any person authorized to administer oaths for general purposes, or by a deputy collector or internal revenue agent. If the amount of tax shown to be due by the return is $10 or less, the return may be acknowledged before two subscribing witnesses instead of under oath.

(b) *Manufacturers and Importers.* In addition to the requirements set forth in subsection (a) of this article, a manufacturer or importer shall, for the purpose of the payment of the tax specified in § 140.202 [article 202] include in his return an inventory of all unattached cigarette stamps and all large cigar stamps of class A held at the first moment of November 1, 1942, and of all such stamps ordered and paid for at the rates in effect on October 31, 1942, but not received until after the first moment of November 1, 1942.

(c) *Records.* Every person required by this chapter to keep any copy of any return or separate inventory, shall keep such copy as part of his records, and in addition shall keep at each separate premises for which inventory is filed, complete and accurate records showing the details of the inventory, and how and by whom the inventory was taken. Such records shall be retained for a period of at least four years from December 31, 1942, and shall at all times be open for inspection by internal revenue officers. [Art. 203]

§ 140.204 *Refunds.* A claim for refund may be filed by any person who has paid a floor stocks tax on cigars or cigarettes (including unattached cigar and cigarette stamps) and who claims that he made an overpayment or an erroneous payment of such tax. Such claim must be made under oath on Form 843, contain the information required by the form, and be supported by a statement of the facts and evidence upon which the claim is based. The claim shall be filed with the collector of internal revenue to whom the tax was paid. [Art. 204]

§ 140.205 *Penalties and interest.* The penalty under section 3612 (d) (1) and (e) of the Internal Revenue Code for delinquency in filing a return is 5 per cent of the amount of the tax if the failure is for not more than 30 days, with an additional 5 per cent for each additional 30 days or fraction thereof during which failure continues, not to exceed 25 per cent in the aggregate. The penalty does not apply where the return is later filed and failure to file the return within the prescribed time is shown to the satisfaction of the Commissioner to be due to reasonable cause and not to willful neglect.

Where an assessment of the floor stocks tax is made, and payment is not made in full within 10 days after issuance of the first notice and demand (Form 17), there will accrue, under section 3655 of the Internal Revenue Code, a 5 per cent penalty and interest at the rate of 6 per cent per annum computed upon the entire unpaid portion of the assessment from the date of issuance of Form 17 until date of payment.

In case a false or fraudulent inventory and return is willfully made, the penalty under section 3612 (d) (2) and (e) of the Internal Revenue Code is 50 per cent of the total tax due.

The several criminal penalties set out in § 140.113 [article 113], are also applicable to the floor stocks tax. [Art. 205]

[Docket No. A–1657]

PART 338—MINIMUM PRICE SCHEDULE, DISTRICT NO. 18

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 18 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 18.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 18; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 338.2 (*Code member price index*) is amended by adding thereto Supplement T–I, and § 338.21 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–II, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

The price classifications and minimum prices set forth in the attached schedule marked Supplement T–I and T–II are based upon the price classifications and minimum prices in effect on October 1, 1942 for comparable and analogous coals and already reflect the changes, if any, made in minimum prices by the Acting Director's Order of August 28, 1942, 7 F.R. 6943, in General Docket No. 21. Except as otherwise stated herein, the minimum prices in the attached schedule do not differ, except in this regard, from the minimum prices proposed by petitioner.

Petitioner requests the establishment of a minimum price of $2.35 per ton for the coals of the Llaves Mine (Mine Index No. 173) in Size Group 16 (railroad fuel) for shipment by truck, and by a footnote limits the proposed price to apply only to coals 8″ x 0 in size. However, no minimum prices have heretofore been established for the coals in Size Group 16, produced from other mines in Subdistrict 4 of District No. 18, for shipment by truck, nor does the original petition in this matter contain facts sufficient to warrant the establishment of the minimum price requested therein for the coals of the Llaves Mine in that size group. Accordingly, since no clear showing has been made that the granting of such relief is necessary, no minimum price is established herein for the coals of Llaves Mine in Size Group 16.

Dated: October 29, 1942.

Director.

Paragraph (c) of *General Preference Order E–1–b*[1] (§ 997.2) is hereby amended to read as follows:

(c) *Production and delivery of machine tools during November 1942 and until further notice.* Notwithstanding any other provisions of this order, each producer shall schedule 75 percent of his production and delivery of each size of each type of machine tool during the balance of the calendar month of November 1942 and each month thereafter as follows, until further notice:

(1) Each producer forthwith shall divide into two types all purchase orders placed by each of the seven groups of Service purchasers (Bureau of Ships, Bureau of Ordnance, Ordnance Department, Air Services, Miscellaneous Bureaus and Branches, Maritime Commission, and Signal Corps) which specify as the required delivery date the month being scheduled or a previous month, such types being designated as Type 1 orders and Type 2 orders. The "required delivery date" is the date specified on the endorsement accompanying the purchase order, as changed by any subsequent instruction given on Form WPB–27, Form WPB–1588, or otherwise, by the War Production Board, or by any postponement thereof by the purchaser.

Type 1 orders shall include the following:

(i) Any purchase order for delivery to any Service Purchaser in the "Air Services" group (called "Air Forces" in Exhibits A and B to General Preference Order E–1–b). "Air Services" includes the Army Air Forces, the Navy Bureau of Aeronautics, their respective prime contractors and subcontractors, and the U. S. Corps of Engineers with respect to purchases made for the account of the Army Air Forces; and in addition thereto,

(ii) Any purchase order for delivery to any prime contractor listed on the preferred customers list (Exhibit C attached to this order) or any subcontractor of such a prime contractor. No purchase order from a prime contractor on the preferred customers list, or from his subcontractors, shall be classed as a Type 1 order, however, unless the endorsement required by paragraph (b) of this order to be placed by such purchaser on his purchase order, or the preference rating certificate itself if transferred to the producer, shows that the machine tool ordered is for use on the prime contract specified opposite the prime contractor's name on such Preferred Customers List.

Type 2 orders shall include all other purchase orders placed by Service purchasers which do not fall in Type 1 orders.

(2) The producer shall total all Type 1 orders from Service purchasers for the size and type of tool being scheduled, which specify as the required delivery date the month being scheduled or a previous month. Where 75 percent of the production of the size and type of tool being scheduled for delivery in any month is greater than the total Type 1 orders received from all Service purchaser groups specifying that month or a previous month as the required delivery date, all such Type 1 orders shall be scheduled for delivery in that month regardless of the effect on any Type 2 orders. The residue of such 75 percent shall be scheduled for delivery against Type 2 orders from the remaining Service purchaser groups in accordance with the percentage quotas established by Exhibit A to this order, the "Air Services" quota becoming an unabsorbed quota distributable in accordance with paragraph (e) (5) of this order.

(3) Where 75 percent of the production of the size and type of tool being scheduled for delivery in any month is less than the total Type 1 orders received from all Service purchaser groups specifying that month or a previous month as the required delivery date, no Type 2 orders shall be scheduled for delivery in that month. Where the Type 1 orders in such case are from more than one Service purchaser group, the distribution of such 75 percent of production between the Type 1 orders from such groups shall be determined as follows: The percentage which 75 percent of the production for that month constitutes of the total Type 1 orders from all such Service purchaser groups shall be determined. Such percentage shall then be applied to the number of such Type 1 orders from each Service purchaser group involved, and the resultant number of Type 1 orders shall accordingly be scheduled for delivery to such group. The particular Type 1 orders to be scheduled for each such Service purchaser group and the sequence of their delivery shall be determined by the Numerical Master Preference List, as amended by Revision No. 4 and corrections and additions thereto, the operation of which is set forth in paragraph (i) of this order.

(4) 25 percent of each producer's production for each month of each size of each type of tool shall continue to be scheduled for delivery to foreign purchasers and other purchasers in accordance with the other provisions of this order.

(5) Immediately upon scheduling machines for delivery in accordance with paragraphs (c) (2), (c) (3), and (c) (4) of this order, each producer shall notify all purchasers of the new scheduled delivery dates which fall within the period ending February 28, 1943.

(6) Notwithstanding the provisions of this paragraph (c), the War Production Board from time to time may issue specific scheduling instructions to any producer.

(7) The four months rule established by paragraphs (d) (4) and (e) (5) of this order, and the thirty and sixty day "frozen" periods established by paragraph (l) of this order, shall not be applied to Type 1 orders. All Type 1 orders on hand on November 5, 1942 or received in the future shall immediately be scheduled for delivery on their

required delivery dates or as soon thereafter as posible without retarding production. All Type 2 orders remain subject to the terms of this General Preference Order E–1–b except as the delivery dates on such orders may be extended by the rescheduling of Type 1 orders in accordance with this paragraph (c).

(8) All other provisions of this General Preference Order E–1–b not modified by this paragraph (c) shall remain in full force and effect.

PART 3046—LOW PRESSURE CAST IRON BOILERS

[Limitation Order L–187]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of metals for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3046.1 *General Limitation Order L–187*—(a) *Definitions.* For the purposes of this order:

(1) "Low pressure cast iron boiler" means any boiler designed for the purpose of heating water so as to provide heat for the interior of a building by means of circulating steam or hot water, which boiler:

(i) Operates at a maximum working pressure not exceeding fifteen pounds per square inch of steam pressure or thirty pounds per square inch of water pressure, and

(ii) Is composed preponderantly of cast iron.

(2) "Parts" includes all materials used as repair parts for low pressure cast iron boilers.

(3) "Military low pressure cast iron boiler" means any low pressure cast iron boiler which is manufactured for delivery to or for the account of the Army, Navy, War Shipping Administration or the Maritime Commission of the United States or the Defense Plant Corporation.

(b) *Restrictions.* On and after the 16th day of November 1942, no person shall manufacture any low pressure cast iron boiler built to use exclusively gas or exclusively oil as a fuel, and no person shall manufacture any other low pressure cast iron boiler except to fulfill a specific contract or subcontract for delivery:

(1) Of a military low pressure cast iron boiler upon specific authorization of the Director General for Operations after written application has been made on Form PD–704;

(2) For use in a hospital constructed, to be constructed or under construction, upon specific authorization of the Director General for Operations after written application has been made on Form PD–704.

(c) *Replacement parts.* Nothing in this order shall restrict the production of any repair or replacement parts for any cast iron boiler.

(d) *Avoidance of excessive inventories.* No person shall accumulate, for use in the manufacture of low pressure cast iron boilers, inventories of any materials (whether raw, semi-processed or processed) in the excess of the minimum amounts necessary to maintain production at the rates permitted by this order.

(e) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(f) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(g) *Reports.* All persons affected by this order shall execute and file with the War Production Board on or before the tenth day of each calendar month a report on Form PD–639, and shall keep a copy of such monthly report in their own files for a period not less than two years.

(h) *Violations and false statements.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment or both. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(i) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may apply for relief by addressing a letter to the War Production Board, setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(j) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(k) *Applicability of other orders.* Insofar as any other order issued by the Director General for Operations, or to be issued by him hereafter, limits the use of any material to a greater extent than the limitations imposed by this order, the restriction of such other order shall govern unless otherwise specified therein.

(l) *Communications.* All reports, to be filed, appeals and other communications concerning this order, shall be addressed to the War Production Board, Plumbing and Heating Branch, Washington, D. C., Ref: L–187.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

(1) AA–2x to deliveries to a processor of material for repair of equipment used for any of the purposes set forth in the first paragraph of this order, when and only when there has been an actual breakdown or suspension of operations because of damage, wear and tear, destruction or failure of parts, or the like, and the essential repair parts are not otherwise available.

He shall not be deemed to require such material if he can make his rated delivery and still retain a practicable working minimum inventory thereof; and if, in making such delivery, he reduced his inventory below such minimum, he may apply the rating only to the extent necessary to restore his inventory to such minimum.

(ii) A supplier who supplies material which he has not in whole or in part manufactured, processed, assembled or otherwise physically changed may defer applications of the rating hereunder to purchase orders or contracts for such material to be placed by him until he can place a purchase order or contract for the minimum quantity procurable on his customary terms; provided, that he shall not defer the application of any rating for more than three months after he becomes entitled to apply it.

(f) *Restrictions of inventory.* (1) A processor shall not, during any calendar quarter, accept, and a supplier shall not knowingly make to a processor, deliveries (whether or not rated pursuant to this order) of any material to be used as operating supplies or for maintenance or repair the aggregate dollar volume of which shall exceed 55 percent of the aggregate dollar volume of the withdrawals for such purposes by the processor from stores or inventory during the preceding calendar half-year unless such deliveries shall be specifically authorized in advance by the War Production Board on the processor's application therefor.

(2) A processor shall not at any time accept deliveries (whether or not rated pursuant to this order) of any material to be used as operating supplies or for maintenance or repair until the processor's inventory and stores of such material have been reduced to a reasonable minimum, unless such delivery shall be specifically authorized in advance by the War Production Board on the processor's application therefor. Such reasonable minimum shall in no case exceed 125 percent of the aggregate dollar volume of such material in inventory and stores on the last day of the preceding calendar half-year.

(g) *Relief.* If the sound working condition of a processor is adversely affected by any provision or application of this order or by inability to obtain material essential for repair, maintenance or operating supplies, the processor may apply for relief to the Director General for Operations. (h) *Resale of material prohibited.* Except with specific permission of the Director General for Operations, a processor shall not resell any material acquired for repair, maintenance or operating supplies (whether or not obtained pursuant to rating assigned by this order); provided, that nothing herein contained shall prohibit sale by the processor of used material acquired prior to October 31, 1942.

(i) *Records, audits and reports.* Each processor and each supplier shall keep and preserve for a period of not less than two years accurate and complete records of all transactions affected by this order and shall submit from time to time to audit and inspection by duly authorized representatives of the War Production Board. Each processor and each supplier shall execute and file with the War Production Board or other designated agency such reports and in such form as the War Production Board shall from time to time require.

[Supp. Reg. 14, Amendment 49]

MANUFACTURERS' PRICES FOR SPECIFIED ITEMS OF FALL AND WINTER OUTER CLOTHING

Amendment 49 to Supplementary Regulation 14 to the General Maximum Price Regulation.

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.* A new subparagraph (37) is added to paragraph (a) of § 1499.73 as set forth below:

§ 1499.73 *Modification of maximum prices established by § 1499.2 of the General Maximum Price Regulation for certain commodities, services and transactions.* (a) The maximum prices established by § 1499.2 of the General Maximum Price Regulation for the commodities, services and transactions listed below are modified as hereinafter provided:

* * * * *

(37) *Manufacturers' prices for fall and winter outer clothing*—(i) *Definition of manufacturer.* As used in this subparagraph (37), a "manufacturer" of a garment means a seller otherwise than at wholesale or at retail.

(ii) *Definition of fall and winter outer clothing.* "Fall and winter outer clothing" means any of the following garments:

(*a*) Coats, jackets and vests when fully lined or entire body is lined with cotton flannel, cotton suede, cotton blanket or any wool or part wool materials, but not including tailored garments covered by Maximum Price Regulation No. 177[1] or rainwear garments (men's and boys' only; all sizes except infants' garments);

(*b*) Mackinaws, swagger and finger-tip coats, but not including tailored garments covered by Maximum Price Regulation No. 177 (men's and boys' only; all sizes);

(*c*) Shirts made of wool, part wool, cotton flannel or cotton suede (men's and boys' only; all sizes except infants' garments);

(*d*) Jackets, loafer coats and pants made of wool or part-wool kersey, melton, plaid or fleece weighing 18 ounces or more per yard on 54 inch width basis, excepting tailored garments covered by Maximum Price Regulation No. 177 (men's and boys' only; all sizes);

(*e*) Jackets and coats made of leather or of leather combined with wool or part-wool kersey, melton, plaid or fleece weighing 18 ounces or more per yard on 54 inch width basis (men's and boys' only; all sizes, excepting infants' garments);

(*f*) Leather coats and jackets when bodies and sleeves are made entirely of leather (women's and girls' only; all sizes except infants' garments);

(*g*) Corduroy coats, suits, jackets, vests, pants and overalls (men's and boys' only; all sizes except infants' garments);

(*h*) Water repellent duck clothing and all hunting clothing including coats, vests, pants, caps and hats (men's and boys' only; all sizes);

(*i*) Ski and skating outerwear clothing including pants, jackets, mittens, caps and hoods, and combinations of these (for both sexes and in all sizes; except women's, girls' and children's jackets, skirts, coats and skating suits covered by Maximum Price Regulation No. 153, as amended[2] and except infants' and children's ski pants up to and including size 14);

(*j*) Husking gloves and husking mittens;

(*k*) Fully lined work gloves;

(*l*) Gloves and mittens made of or fully lined with fur, wool, part wool, brushed rayon or leather, but not including females' unlined leather gloves and unlined leather work gloves;

(*m*) Single thickness jersey work gloves made of 9 ounce material or heavier;

(*n*) Parka hoods;

(*o*) Leather and leatherette helmets, excepting athletic helmets.

(iii) For the purpose of determining a manufacturer's maximum price under the General Maximum Price Regulation for fall and winter outer clothing, the "highest price charged during March 1942" by any seller means the price at which, from December 1941 to March 1942, inclusive, the seller first accepted an order from a purchaser of the same class for garments intended for the 1942 fall and winter season. But if the seller did not accept an order from a purchaser of a particular class, the "highest price charged during March 1942" to purchasers of that class means the price at which the seller first accepted an order during those months from a purchaser of any class, adjusted to reflect the manufacturer's established allowances, discounts and price differentials. No seller shall change his customary allowances, discounts, or other price differentials, if such change results in a higher price. No manufacturer shall require any purchaser, and no purchaser shall be permitted, to pay a larger proportion of transportation costs incurred in the delivery or supply of any fall and winter outer clothing than the seller required purchasers of the same class to pay from December 1941 to March 1942, inclusive, on deliveries of such clothing.

(iv) On or before December 1, 1942, every manufacturer of fall and winter outer clothing shall prepare a statement and keep it available for examination by the Office of Price Administration. This statement shall list each garment of fall and winter outer clothing which the manufacturer has sold, delivered or offered for sale after November 10, 1942, the seller's maximum price for the garment to each class of purchaser, to whom it was sold, delivered or offered, and the manner in which the manufacturer determined his maximum price. This statement shall be kept up to date with respect to garments offered for sale on and after December 1, 1942. If the garment is one for which the seller from December 1941 to March 1942, inclusive, accepted orders for the 1942 fall and winter season, the statement shall show the price at which the seller first accepted an order for it from each class of purchaser.

STANDARD FOOD PRODUCTS, INC.

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.988 *Authorization of maximum prices for sales of "Top-O" Hamburger Spread, a blend of sweet pickle relish, mustard, starch and condiments, by Standard Food Products, Inc., by wholesalers and retailers.* (a) On and after November 5, 1942, the maximum prices for sales by Standard Food Products, Incorporated, of Indianapolis, Indiana, of "Top-O" Hamburger Spread shall be:

$1.95 per shipping case of 24/8 ounce jars,
$3.55 per shipping case of 4/1 gallon jars,

These prices shall include prepaid freight to purchasers' stations.

(b) Sellers at wholesale shall determine their maximum delivered selling prices of "Top-O" Hamburger Spread by adding to their net cost of each size a maximum profit margin of 20% of this net cost. The maximum delivered prices so determined shall not exceed $2.34 per case of 24/8 ounce jars and shall not exceed $4.26 per case of 4/1 gallon jars. Where a maximum price per selling unit determined by the provisions of this paragraph is a fractional cent price and the fraction of a cent is less than one-half cent, the price per selling unit shall be lowered to the next lower cent. If the fraction is one-half cent or larger, the wholesaler is permitted to increase his maximum price per selling unit to the next higher cent.

"Net cost for a wholesaler" as mentioned in this paragraph shall be his invoice price for "Top-O" Hamburger Spread delivered at his customary receiving point, less all discounts allowed him except discount for prompt payment. No charge or cost for unloading or local trucking shall be included in net cost.

(c) Sellers at retail shall determine their maximum selling prices of "Top-O" Hamburger Spread by adding to their net cost of each size a maximum profit margin of 33⅓% of this net cost. The maximum prices so determined shall not exceed 13 cents per 8 ounce jar and shall not exceed $1.32 per one gallon jar. Where a maximum price per jar determined by the provisions of this paragraph is a fractional cent price and the fraction of a cent is less than one-half cent, the price per jar shall be lowered to the next lower cent. "Net cost" for a retailer as mentioned in this paragraph shall be his invoice price for "Top-O" Hamburger Spread delivered to his customary receiving point less all discounts allowed him except the discount for prompt payment. No charge or cost for unloading or local trucking shall be included. Net cost for a retailer shall be based on a purchase of a customary quantity of this type of item from his customary supplier and on the customary mode of transportation.

(d) Wholesalers and retailers shall apply to their maximum selling prices for "Top-O" Hamburger Spread the same discounts, allowances and price differentials which they customarily apply to comparable items of sandwich spreads and meat seasoning sauces, unless a change in these customary discounts, allowances and price differentials results in lower selling prices.

(e) Standard Food Products, Incorporated, shall distribute or cause to be distributed at the time of or before each initial sale to all purchasers from this company of "Top-O" Hamburger Spread written notice as follows:

> The Office of Price Administration has authorized us by order to sell "Top-O" Hamburger Spread for the following maximum prices delivered at purchasers' stations:

If the fraction is one-half cent or larger, the wholesaler is permitted to increase his maximum price per selling unit to the next higher cent. Maximum prices determined by this procedure shall not exceed $2.34 per case of 24/8 ounce jars and shall not exceed $4.26 per case of 4/1 gallon jars.

You, as a wholesaler, are not required to give similar notification to retailers with full shipping case sales. However, you are required on any broken case sales to provide the retailer with a copy of this retailer notification, if such broken case sale is an initial sale.
>
> You are required to keep this notice for examination.

(f) Standard Food Products, Incorporated, shall print on, include in or securely attach to each shipping case of "Top-O" Hamburger Spread for a period of three months after the initial offering of this product written notice as follows:

> The Office of Price Administration has authorized for us and for wholesalers maximum selling prices of "Top-O" Hamburger Spread, packed in shipping cases of 24/8 ounce and 4/1 gallon jars.

2 ounce bottles—per dozen	1.22

Transportation charges to buyer's station to be included in the above prices.

(b) Sellers at wholesale shall determine their maximum delivered selling prices for "McCormick's Baking Magic" by adding to their net cost per dozen of each size, a maximum profit of 20 percent of this net cost. "Net cost" for a wholesaler as mentioned in this paragraph shall be his invoice cost at his customary station of destination less all discounts allowed him except the discount for prompt payment. No drayage, loading or unloading charges shall be included in "net cost".

(c) Sellers at retail shall determine their maximum delivered selling prices per bottle for "McCormick's Baking Magic" by adding to their net cost per dozen for each size a maximum profit margin of 35 percent to this net cost and dividing the figure so obtained by twelve. The maximum prices so determined shall not exceed 10¢ per bottle for the one ounce size and 16¢ per bottle for the two ounce size. "Net cost" to a retailer shall mean his invoice price paid for a purchase of a customary quantity of this type of commodity from his customary supplier and by the customary mode of transportation, if any. This order permits retailers to add to their "net cost" per dozen of each size, a maximum profit margin of 35 percent of this net cost for each size and dividing the resulting figure by twelve to arrive at the maximum selling price per bottle. When the maximum prices so determined result in fractions of one cent, the price per bottle may be adjusted to the next highest cent if the fraction is one half cent or more, and shall be adjusted downward to the next lower cent if the fraction is less than one half cent. Maximum selling prices per bottle shall not exceed 10¢ for the one ounce size and 16¢ for the two ounce size. PART 1381—SOFTWOOD LUMBER

[MPR 19, Amendment 5]

SOUTHERN PINE LUMBER

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

In § 1381.212 (a), the title of Table 2 is amended; the column of prices entitled "Standard Lengths" is revoked; items 11a, 11b, 11c and 11d are added, and items 13, 15, 16 and 18 are amended; in Table 3, the column of prices entitled "Random Lengths" is revoked; the prices of 2'' x 6'' are amended to equal the 2'' x 8'' prices; items 11a and 21a are added; and items 2, 12, 18 and 21 are amended; in Table 16, item 6a is added; and Table 17 is amended in its entirety.

In § 1381.212 (b), the title of Table 2 is amended; items 12a, 12b, 12c and 12d are added, and item 14 is amended; in Table 3, item 2 is amended; in Table 14, item 6a is added; and in Table 15, items 21 and 22 are amended, and item 35a is added.

In § 1381.212 (d) (4) (iii), weights for dry timbers are added under weights of "Heavy Joists, Timbers Etc. (Over 2'' Thick)", and a new subparagraph (5) is added.

In § 1381.212 (e), a list of qualified producers is added to subparagraph (1).

§ 1381.212 *Appendix A: Maximum prices for Southern pine lumber where shipment originates at a mill.* (a) * * *

11a. 11/16, resawn, rough, take the price of the corresponding item of 6/4 rough, add $1.00 for extra thickness, add $1.00 for resawing and deduct 25% of the total 6/4 price so obtained. The result obtained by deducting the 25% from the "total 6/4 price" is the price per M for 11/16, rough. Footage shall be computed as though the 11/16 boards were one inch thick. An example of how to apply this formula is set out below:

To arrive at the price of #1 Common 11/16 x 8, rough, air dried, standard lengths:

First: Take the price of the corresponding item of 6/4 #1 Common 6/4 x 8, Rough, AD, Standard Lengths	$39.00
Second: Add $1.00 for extra thickness	1.00
Third: Add $1.00 for resawing	1.00
Fourth: Total 6/4 price	41.00
Fifth: Deduct 25% from "total 6/4 price"	10.25
Result: Maximum price for 11/16 x 8, Rough, AD, Standard Length	$30.75

These computations need not be shown on the invoice.

11b. 11/16, resawn, S1S, S2S, S3S, take the price of the corresponding item of 6/4, S4S, add $1.00 for extra thickness, add $1.00 for resawing, and deduct 25% from the total 6/4 price so obtained. Compute footage as though the boards were one inch thick. See example in Note 11a.

11c. 11/16, resawn, S4S, take the price of the corresponding item of 6/4, S4S, add $1.00 for extra thickness, add $1.00 for resawing, add $1.00 for dressing after resawing, and deduct 25% from the total 6/4 price so obtained. Compute footage as though the boards were one inch thick. See example in Note 11a.

11d. 5/8, figure price just as you would for 11/16 except that you do not add anything for extra thickness. The price will therefore be 75¢ per M less than the corresponding item of 11/16. Compute footage as though the boards were one inch thick. See example in Note 11a.

* * * * *

13. Where the buyer requires an average width, charge the price which would have been charged had the purchaser ordered the various widths which were shipped.

* * * * *

For Length:

15. The price for "random lengths" is the same as the price for 12' lengths. Random lengths must average at least 12'. If the lengths do not average at least 12' (with a tolerance of 3''), the price may not be higher than the 10' price. Random lengths are 4 to 20', inclusive, in multiples of 2', and may not contain more than the following percentages of short lengths:

	4'	6'	8'
	Percent	*Percent*	*Percent*
No. 1	None	None	5
No. 2	5	5	5
No. 3, No. 4 & Dunnage, 8'' & Wider	5	5	5
No. 3, No. 4 & Dunnage, 3'' to 6'' Widths.	May contain total of 25% under 10'		

16. Where the buyer specifies any restricted standard length, 8 to 16', 10 to 16', or otherwise, charge the specified length price for the lengths actually shipped.

* * * * *

18. Where the buyer requires an average length, charge the price for the specified length corresponding to the average length required.

C., a list of the estimated weights used by him during the first eight months of 1941, together with a sworn statement that these are the weights used by him during that period, and that he believes them to be the nearest possible estimate to the present average actual weights. After such list has been approved or adjusted, and approved as adjusted, and an order has been published in the FEDERAL REGISTER listing such producer's name as having filed a list of weights which has been approved and is subject to inspection by any interested person, the seller of such producer's lumber may use the approved estimated weights in computing transportation charges.

Chapter II—Division of Public Contracts

PART 202—MINIMUM WAGE DETERMINATIONS

THE TOBACCO INDUSTRY

In the matter of the determination of the prevailing minimum wage in the Tobacco Industry.

This matter is before me pursuant to section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Supp. III 35), entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes," otherwise known as the Walsh-Healey Public Contracts Act.

On August 29, 1942, the Assistant Administrator of the Division of Public Contracts of the Department of Labor issued a Notice of Opportunity To Show Cause on or before September 19, 1942, why I should not amend the prevailing minimum wage determination for the Tobacco Industry, issued by me on April 17, 1939, and amended August 12, 1942, by (1) increasing the prevailing minimum wage from 32½ cents an hour to 40 cents an hour, and (2) providing that learners may be employed at subminimum rates in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division.

The notice sets forth that: (1) The minimum wage regularly to be paid by tobacco manufacturers subject to the provisions of the Fair Labor Standards Act of 1938 became 40 cents an hour on August 10, 1942, pursuant to the wage order of the Administrator of the Wage and Hour Division for the Tobacco Industry; (2) substantially all employees subject to my prevailing wage determination for the Tobacco Industry, are engaged in commerce or in the production of goods for commerce, and consequently the wage order has the effect of establishing 40 cents an hour as the prevailing minimum wage in the Tobacco Industry; and (3) it appears desirable, for the purpose of co-ordinating the administration of the Fair Labor Standards Act of 1938 and the Public Contracts Act, to provide that learners may be employed at subminimum rates under this determination in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division.

This notice was sent to trade unions, trade associations, and publications and was duly published in the FEDERAL REGISTER (7 F.R. 6908). No objections, protests, or any statements in opposition to the proposed amendments have been received.

Upon consideration of all the facts and circumstances, I hereby determine:

§ 202.26 *Tobacco.* (a) The Tobacco Industry, for the purpose of this determination, is defined to include the manufacture of cigarettes, of chewing and smoking tobaccos, and of snuff, but to exclude the manufacture of cigars.

(b) The minimum wage for employees engaged in the performance of contracts with agencies of the United States Government subject to the provisions of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U.S.C. Supp. III 35) for the manufacture or supply of the products of the Tobacco Industry as herein defined shall be 40 cents an hour, or $16 per week of 40 hours, arrived at either upon a time or piece-work basis, provided that learners may be employed at subminimum rates in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act of 1938 which I hereby adopt for the purposes of this determination. (Sec. 1 (b), 49 Stat. 2036; 41 U.S.C. 35 (b))

This determination shall be effective and the minimum wage hereby established shall apply to all contracts subject to the Public Contracts Act, bids for which are solicited or negotiations otherwise commenced by the contracting agency on or after December 4, 1942.

Nothing in this determination shall affect such obligations for the payment of minimum wages as an employer may have under the Fair Labor Standards Act of 1938, or any wage order thereunder, or under any other law or agreement more favorable to employees than the requirements of this determination.

PART 202—MINIMUM WAGE DETERMINATIONS

RAINWEAR INDUSTRY

In the matter of the determination of the prevailing minimum wage in the rainwear industry.

This matter is before me pursuant to section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Supp. III 35), entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes," otherwise known as the Walsh-Healey Public Contracts Act.

On September 2, 1942, the Assistant Administrator of the Division of Public Contracts of the Department of Labor issued a Notice of Opportunity To Show Cause on or before September 22, 1942, why I should not amend the prevailing minimum wage determination for the Men's Raincoat Industry issued by me on July 28, 1937, and amended September 18, 1939, February 8, 1941, and August 12, 1942, by changing the description of the industry in the title of this determination from the "Men's Raincoat Industry" to the "Rainwear Industry" and by providing that learners may be employed at subminimum rates in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division issued under the Fair Labor Standards Act of 1938.

This notice was sent to members of the industry, to trade unions, trade associations and publications, and was duly published in the FEDERAL REGISTER (7 F.R. 7019). No objections, protests, or any statements in opposition to the proposed amendments have been received. The only communication received in answer to the notice was a memorandum on behalf of the International Ladies' Garment Workers' Union in support of the proposed amendment.

Upon consideration of all the facts and circumstances, I hereby determine:

§ 202.4 *Rainwear.* (a) The title of this determination shall be "In the Matter of the Determination of the Prevailing Minimum Wage in the Rainwear Industry."

(b) The minimum wage for employees engaged in the performance of contracts with agencies of the United States Government subject to the provisions of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U. S. C. Supp. III 35), for the manufacture or supply of men's raincoats, including vulcanized and rubberized raincoats and raincoats made from material known under the registered trade-mark of "Cravenette" or from fabric chemically or otherwise treated so as to render it water-resistant, of oiled waterproof cotton outer garments, and of all other types of rainwear, shall be 40 cents an hour, or $16 per week of 40 hours, arrived at either upon a time or piece-work basis, provided that learners may be employed at subminimum rates in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act of 1938 which I hereby adopt for the purposes of this determination. (Sec. 1 (b), 49 Stat. 2036; 41 U.S.C. 35 (b))

This determination shall be effective and the minimum wage hereby established shall apply to all contracts subject to the Public Contracts Act, bids for which are solicited or negotiations otherwise commenced by the contracting agency, on or after December 4, 1942, except that learners may be employed at subminimum rates, in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division, on or after December 4, 1942, in the performance of contracts, bids for which were solicited or negotiations otherwise commenced by the contracting agency prior to that date.

Nothing in this determination shall affect such obligations for the payment of minimum wages as an employer may have under the Fair Labor Standards Act of 1938 or any wage order thereunder, or under any other law or agreement more favorable to employees than the requirements of this determination.

TECUMSEH COAL CORPORATION

MEMORANDUM OPINION AND ORDER GRANTING RELIEF

In the matter of the petition of Tecumseh Coal Corporation for revision of the effective minimum prices for the coals of Mine Index No. 105, District No. 11, in Size Groups 17 to 25, inclusive, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division (the "Division") on October 3, 1940, by Tecumseh Coal Corporation ("Tecumseh"), a code member in District 11, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937 (the "Act"). Amendments to the petition were likewise filed on October 10 and 15, 1940. The petition, as amended, requested that petitioner's Tecumseh Mine (Mine Index No. 105) coals in the washed industrial sizes (Size Groups 17 to 25, inclusive), when sold to the Indianapolis Power and Light Company (the "Power Company"), have the same minimum f. o. b. mine prices as are established for District No. 11 Price Group 10 raw industrial coals of similar size. Both temporary and permanent relief were requested.

Petitions of intervention were filed by District Board 11; Ayrshire Patoka Collieries Corporation, Black Hawk Coal Corporation, The Enos Coal Mining Company, Hickory Grove Coal Mining Corporation, and Princeton Mining Company, code members in District 11; Old

Ben Coal Corporation, et al. (five others), code members in District 10; and jointly by Snow Hill Coal Corporation, a code member in District 11, and Midland Electric Coal Corporation, et al. (five others), code members in District 10. Consumers' Counsel Division ("Consumers' Counsel") entered an appearance.[1]

Pursuant to an appropriate order and after due notice to all interested persons, a hearing in this matter was held on October 11–12, 1940, before H. A. Gray, Director, at a hearing room of the Division in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. Appearances were entered by the petitioner; District Board 11; Ayrshire Patoka Collieries Corporation, The Enos Coal Mining Company, Hickory Grove Coal Mining Corporation, Princeton Mining Company, and Snow Hill Coal Corporation, code members in District 11; and Old Ben Coal Corporation, et al., and Midland Electric Coal Corporation, et al., code members in District 10; and Consumers' Counsel. At the close of the hearing on October 12, 1940, the proceeding was continued to November 22, 1940, for the purpose of hearing additional evidence.

On October 24, 1940, on the basis of the record, the Director entered an order granting the relief prayed for, temporarily, pending a final determination of the proceeding. The order granting temporary relief required the petitioner to file with the Division a verified weekly statement showing the tonnage shipped to the Power Company, prices, and data showing all other producers from whom the Power Company purchases coal, together with tonnages purchased and prices paid, such statement to become a part of the record in this proceeding. Motions were filed by Black Hawk Coal Corporation and Ayrshire Patoka Collieries Corporation, with respective supporting briefs, and by Consumers' Counsel to dismiss the proceeding.

On November 19 to December 10, 1940, stipulations by the parties were filed limiting the issue in this proceeding to the propriety of the minimum prices theretofore established for petitioner's coals in Size Groups 17 to 25, inclusive, when sold to the Power Company. On the basis of these stipulations petitioner filed a motion to close the hearing. On January 15, 1941, an order was entered so limiting the issue and closing the hearing.

Intervener Black Hawk Coal Corporation now (on October 5, 1942) files a "Motion for Final Hearing and Termination of Temporary Order pending Final Hearing." Intervener argues that the temporary relief granted to petitioner is preferential to it and prejudicial to intervener and other producers, in that the latter are barred by the differential between the prices for their washed screenings and those of petitioner from selling coals to the Power Company. It urges that a sufficient period of time has elapsed for the Director to determine if petitioner is entitled to the temporary relief already granted and states that the facts have changed since relief was granted, in that petitioner who then stated that its mine was shut down because of its inability to sell screenings to the Power Company is now one of the largest producers of coal in Indiana. Because of the alleged preference to petitioner and because it contends that the establishment of an individual consumer price is not contemplated by the Coal Act, intervener argues that the temporary relief granted petitioner is contrary to the provisions of the Act. Intervener states that "while this intervener did not desire to introduce any additional evidence two years ago, the facts have materially changed since that time." Accordingly, it urges that the reasons for the granting of the temporary relief have terminated and that the temporary relief should be cancelled without further testimony, or, in the alternative, that the hearing should be reopened and temporary relief terminated pending such final hearing in this matter.

On October 24, 1942, petitioner, Tecumseh Coal Corporation, filed a document indicating its opposition to intervener's motion, specifically denying many of the allegations made in the moving papers and contending that the temporary relief granted in the Order of October 24, 1940, should be continued to permit it to sell to the Power Company at special minimum prices. In the final paragraph petitioner states, "If the Director should determine in his decision in this proceeding that, as a matter of law, the authorization of specific prices to a specific consumer is not permissible under the Act, petitioner will of course be forced to petition for an enlargement of the issues in this proceeding."

The hearing in this proceeding was held on October 11–12, 1940, shortly after the establishment of minimum prices. Petitioner at that time had had practically no experience in the sale of its coal under the established minimum prices. It was impossible to determine then what effect decreases in petitioner's minimum prices might have on the status of competitive coals. Moreover, whether the price relationship between petitioner's washed screenings and Standard Fifth Vein raw screenings in District No. 11 should be varied for one consumer, the Power Company, on the basis of experience with that one consumer, posed new and difficult problems. Nevertheless, apparently, need for relief was urgent; petitioner's mine was shut down. Accordingly, temporary relief was granted.

As heretofore noted, the problems raised by this proceeding were novel in character. Their proper resolution was extremely important to effective administration of the Act. Therefore, the effect of the temporary relief granted to petitioner upon the distribution of Indiana coals was closely scrutinized. The weekly reports required from petitioner by the Order granting temporary relief have been carefully studied. Indeed, since January 15, 1941, when the Order was entered closing the hearing in this matter, all the problems which it presents have been under careful consideration. Considering both the difficulty and novelty of the problem and the great care necessary in its resolution, the time taken in study has been well spent. I believe that experience under established minimum prices both by the Division[2] and petitioner is now sufficient to permit full consideration and a complete disposition of the subject matter of this proceeding.

On the basis of the present record I do not feel inclined to establish a special minimum price for petitioner's coals for shipment to a single consumer. I am reluctant to enter a final order in this proceeding, however, until petitioner is afforded an opportunity to present any additional evidence which may be pertinent on this issue, as well as on the broader question of whether general relief is justified. It is desirable that no permanent order be entered without consideration of petitioner's experience in the sale of its washed coals subsequent to the original hearing. This experience will prove helpful in considering the effect of the differential between prices of petitioner's washed coal in the industrial sizes and prices for standard Fifth Vein raw coal in similar sizes in Price Group 10, based upon shipments to the several market areas, rather than to a single customer.

Therefore, pursuant to what may be termed the alternative prayer in petitioner's papers filed in opposition to intervener's motion, I find that petitioner should be given leave to amend its petition within thirty (30) days from the date of this order in accordance with the above opinion, and that the temporary relief granted herein shall remain effective until otherwise ordered by the Director.

Accordingly, it is so ordered.

Dated: November 2, 1942.

COLUMBIA GAS & ELECTRIC CORP. AND COLUMBIA OIL & GASOLINE CORP.

ORDER GRANTING APPLICATIONS, ETC.

Order granting applications and permitting declarations to become effective in part and reserving jurisdiction.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 3d of November, 1942.

The above-named parties having filed applications or declarations, pursuant to the Public Utility Holding Company Act of 1935, particularly sections 9, 10, 12 (c), 12 (d) and Rules U-42, U-43, regarding the following transactions:

Columbia Gas & Electric Corporation, a registered holding company and a subsidiary of The United Corporation, also a registered holding company, and Columbia Oil & Gasoline Corporation, a subsidiary of Columbia Gas & Electric Corporation, propose by separate applications or declarations that Columbia Gas & Electric Corporation dispose of, and Columbia Oil & Gasoline Corporation acquire, $300,000 face amount of Columbia Oil & Gasoline Corporation's debentures held by Columbia Gas & Electric Corporation, for $312,000 in cash plus accrued interest, such amount being the redemption price specified in the indenture securing such debentures; the debentures so acquired to be tendered to the Trustee under the indenture in lieu of the semi-annual cash sinking fund required under the provisions of said indenture.

Notice of said filings having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act, and the Commission not having received a request for a hearing with respect to said declarations or applications within the period specified in said notices or otherwise, and not having ordered hearings thereon; and

The above-named parties having stated in their declarations that there may be problems in connection with the payment of the $12,000 premium in addition to the face amount of $300,000 for the said debentures, which would be time consuming and which are present in other pending proceedings (Files Nos. 59-33, 70-438), concerning the payment of a more substantial principal amount of debentures than is here involved; and having therefore suggested that an order be entered permitting the sale by Columbia Gas & Electric Corporation to Columbia Oil & Gasoline Corporation of the $300,000 principal amount of debentures for immediate payment of $300,000 plus accrued interest in cash, the Commission reserving jurisdiction over the payment of the additional amount of $12,000 for consideration and determination at a later date; and having requested the acceleration of the effective date of such declarations or applications; and

The Commission deeming it appropriate in the public interest and in the interests of investors and consumers to permit such declarations or applications to become effective to the extent suggested by the parties and that the date should be advanced;

It is ordered, pursuant to Rule U-23 and the applicable provisions of the Act and subject to the terms and conditions prescribed in Rule U-24 that the aforesaid declarations or applications be, and they hereby are, permitted to become effective and are granted forthwith, to the extent that they contemplate the sale by Columbia Gas & Electric Corporation and the corresponding purchase by Columbia Oil & Gasoline Corporation of $300,000 face amount of the latter's debentures for $300,000 in cash plus accrued interest, jurisdiction being reserved with respect to the payment of the $12,000 premium prescribed under the terms of the indenture securing the said debentures.

By the Commission (Commissioner Healy dissenting for reasons set forth in his memorandum of April 1, 1940).

It is further proposed that Central Maine redeem or otherwise retire its presently outstanding 7% Preferred Stock in direct ratio to the par value of its $50 Preferred Stock, 5% Dividend Series, issued in such exchange of Cumberland Preferred Stock.

C. It is further proposed: (1) that Central Maine issue and sell for cash 261,910 shares of Common Stock, $10 par value, at the price of $10 per share, and that Nepsco purchase such shares (less any shares taken by holders of Common Stock and 6% Preferred Stock of Central Maine upon the exercise of their respective preemptive rights); (2) that Nepsco tender for conversion its present holdings of 54,699 shares of Common Stock of Cumberland and 638 shares of 6% Preferred Stock of Central Maine and receive therefor 404,575 shares and 6,380 shares (total 410,955 shares) respectively of Common Stock, $10 par value, of Central Maine.

D. It is further proposed that Central Maine's bank loans be paid off and necessary funds provided for the purchase and construction of property with cash derived from the transactions described above.

For the purposes of this order, the Territory of Alaska shall be considered as outside the continental limits of the United States.

EXECUTIVE ORDER 9266

ESTABLISHING BUZZARDS BAY AND VINEYARD SOUND DEFENSIVE SEA AREA

By virtue of the authority vested in me by section 44 of the Criminal Code, as amended (U.S.C., title 18, sec. 96), the following-described area is hereby established and reserved, for purposes of national defense, as a defensive sea area, to be known as "Buzzards Bay and Vineyard Sound Defensive Sea Area":

All United States territorial waters of Buzzards Bay and Vineyard Sound and their seaward approaches and tributaries from the contour line of extreme high water on the shores of these waters as shown on the latest U.S.C.&G.S. Charts to:

A line running from the southernmost tip of Sakonnet Point;

thence to Bell buoy #2 off Schuyler Ledge in approximate position Latitude 41° 26′ 24″ North, Longitude 71° 11′ 39″ West;

thence on a side line due south to approximate position Latitude 41° 18′ 03″ North, Longitude 71° 11′ 39″ West;

thence due east to the southernmost tip of Squibnocket Point on Martha's Vineyard;

thence along the western and northern shore line of Martha's Vineyard to West Chop Light;

thence due north to the mainland in approximate Latitude 41° 32′ 36″ North, Longitude 70° 36′ 00″ West.

No vessel not proceeding under United States Naval or other United States authorized supervision shall enter or navigate the waters of the said Defensive Sea Area, except during daylight when good visibility conditions prevail, and then only after specific permission has been obtained. Such permission for entry into or navigation through or within the said Area must be obtained in advance of entry, preferably by application at a United States Naval District Headquarters prior to leaving port of origin of voyage, or by radio or visual communication on approaching the seaward limits of the Area. If radio telegraphy is used, the call "NQO" shall be made on a frequency of 500 kcs., and permission to enter the port requested. The name of the vessel, purpose of entry, and name of the master must be given in the request, which should be addressed to the Commandant of the Naval District or his local representative as may be designated and published in local regulations issued by the District Commandant. If visual communications are used, the procedure shall be essentially the same.

A vessel entering or navigating the waters of the Buzzards Bay and Vineyard Sound Defensive Sea Area does so at its own risk.

Even though permission has been obtained, it is incumbent upon a vessel entering the Buzzards Bay and Vineyard Sound Defensive Sea Area to obey any further instructions received from the United States Navy, or other United States authority.

The movements of vessels within the Buzzards Bay and Vineyard Sound Defensive Sea Area shall be subject to supervision, either through surface craft or aircraft. Such controlling surface craft or aircraft shall be identified by a prominent display of the Union Jack.

In the event that a United States Maritime Control Area is established adjacent to or abutting upon the above-established defensive sea area, permission to enter, and other instructions issued by proper authority, shall apply to any one continuous passage through or within both areas.

Any master of a vessel or other person within the Buzzards Bay and Vineyard Sound Defensive Sea Area who disregards these regulations, or fails to obey an order of United States Naval authority to stop or heave to, or performs any act threatening the efficiency of mine or other defenses or the safety of navigation, or takes any action inimical to the interests of the United States, may be detained therein by force of arms and shall be liable to attack by United States armed forces, and liable to prosecution as provided for in section 44 of the Criminal Code as amended (U.S.C., title 18, sec. 96).

All United States Government authorities shall place at the disposal of the Naval authorities their facilities for aiding in the enforcement of these regulations. The Governor of the State of Massachusetts, the local municipal authorities, and the local civilian defense agencies are called upon to render the local Naval authorities all possible assistance in the enforcement of these regulations.

These regulations are subject to amplification by the local United States Naval authority as necessary to meet local circumstances and conditions.

The Secretary of the Navy is charged with the publication and enforcement of these regulations.

Chapter VII—Agricultural Adjustment Agency

PART 722—COTTON

COTTON MARKETING QUOTAS, 1943-44 MARKETING YEAR

Whereas the Agricultural Adjustment Act of 1938, as amended, provides:

> SEC. 342. Not later than November 15 of each year the Secretary [of Agriculture] shall find and proclaim (a) the total supply, the normal supply, and the carry-over of cotton as of August 1 of such year, (b) the probable domestic consumption of American cotton during the marketing year commencing August 1 of such year, (c) the probable exports of American cotton during such marketing year, and (d) the estimated carry-over of cotton as of the next succeeding August 1. * * *
>
> SEC. 345. Whenever the Secretary determines that the total supply of cotton for any marketing year exceeds by more than 7 per centum the normal supply thereof for such marketing year, the Secretary shall proclaim such fact not later than November

15 of such marketing year * * *, and marketing quotas shall be in effect during the next succeeding marketing year with respect to the marketing of cotton. Cotton produced in the calendar year in which such marketing year begins shall be subject to the quotas in effect for such marketing year notwithstanding that it may be marketed prior to August 1.

SEC. 343. (a) Not later than November 15 of each year the Secretary shall find and proclaim the amount of the national allotment of cotton for the succeeding calendar year in terms of standard bales of five hundred pounds gross weight. The national allotment shall be the number of bales of cotton adequate, together with the estimated carry-over as of August 1 of such succeeding calendar year, to make available a supply of cotton, for the marketing year beginning on such August 1, equal to the normal supply. * * *

(b) * * *. The national allotment for any year (after 1939) shall be not less than ten million bales.

(c) Notwithstanding the foregoing provisions of this section, the national allotment for any year shall be increased by a number of bales equal to the production of the acres allotted under section 344 (e) for such year.

SEC. 344. (a) The national allotment for cotton for each year (excluding that portion of the national allotment provided for in section 343 (c)) shall be apportioned by the Secretary among the several States on the basis of the average, for the five years preceding the year in which the national allotment is determined, of the normal production of cotton in each State. The normal production of a State for a year shall be (1) the quantity produced therein plus (2) the normal yield of the acres diverted in each county in the State under the previous agricultural adjustment or conservation programs. The normal yield of the acres diverted in any county in any year shall be the average yield per acre of the planted acres in such county in such year times the number of acres diverted in such county in such year.

(b) The Secretary shall ascertain, on the basis of the average yield per acre in each State, a number of acres in such State which will produce a number of bales equal to the allotment made to the State under subsection (a). Such number of acres plus the number of acres allotted to the State pursuant to subsection (e) (2) is referred to as the "State acreage allotment." The average yield per acre for any State shall be determined on the basis of the average of the normal production for the State for the years used in computing the allotment to the State, and the average, for the same period, of the acres planted and the acres diverted in the State.

(c) (1) The State acreage allotment (less the amount required for apportionment under paragraph (2)) shall be apportioned annually by the Secretary to the counties in the State. The apportionment to the counties shall be made on the basis of the acreage planted to cotton during the five calendar years immediately preceding the calendar year in which the State allotment is apportioned (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs) with adjustments for abnormal weather conditions and trends in acreage during such five-year period.

(2) Not more than 2 per centum of the State acreage allotment shall be apportioned to farms in such State which were not used for cotton production during any of the three calendar years immediately preceding the year for which the allotment is made, on the basis of land, labor, and equipment available for the production of cotton; crop rotation practices; and the soil and other physical facilities affecting the production of cotton.

* * * * *

(e) (1) For 1938, 1939, and any subsequent year, the Secretary shall allot to the several counties, to which an apportionment is made under subsection (c), a number of acres required to provide a total acreage for allotment under this section to such counties of not less than 60 per centum of the sum of (1) the acreage planted to cotton in such counties in 1937, plus (2) the acreage therein diverted from cotton production in 1937 under the agricultural adjustment and conservation program. The acreage so diverted shall be estimated in case data are not available at the time of making such allotment.

(2) The Secretary shall allot to each State to which an allotment is made under subsection (b), and in which at least three thousand five hundred bales were produced in any of the five years immediately preceding the year for which the allotment is made, a number of acres sufficient to provide a total State acreage allotment for such State of not less than five thousand acres.

Whereas said Act contains, in section 301 (b), the following definitions of terms pertinent herein:

"Carry-over" of cotton for any marketing year shall be the quantity of cotton on hand either within or without the United States at the beginning of such marketing year, which was produced in the United States prior to the beginning of the calendar year then current.

"Marketing year" means, in the case of the following commodities, the period beginning on the first and ending with the second date specified below:

* * * * *

Cotton, August 1–July 31 * * *

"Normal supply" in the case of * * * cotton * * * shall be a normal year's domestic consumption and exports of the commodity, plus * * * 40 per centum in the case of cotton * * * of a normal year's domestic consumption and exports, as an allowance for a normal carry-over.

"Normal year's domestic consumption", in the case of cotton * * *, shall be the yearly average quantity of the commodity produced in the United States that was consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption.

"Normal year's exports" in the case of * * * cotton * * * shall be the yearly average quantity of the commodity produced in the United States that was exported from the United States during the ten marketing years * * * immediately preceding the marketing year in which such exports are determined adjusted for current trends in such exports.

"Total supply" of * * * cotton * * * for any marketing year shall be the carry-over of the commodity for such marketing year plus the estimated production of the commodity in the United States during the calendar year in which such marketing year begins;

Whereas said Act provides, in section 301 (c), that "The latest available statistics of the Federal Government shall be used by the Secretary [of Agriculture] in making the determinations required to be made by the Secretary under this Act"; and

Whereas said Act provides, in section 350, that the provisions of Part IV (Marketing Quotas; Cotton) of subtitle B of Title III thereof "shall not apply to cotton the staple of which is 1½ inches or more in length";

§ 722.501 *Findings and determinations.* Now, therefore, be it known that I, Claude R. Wickard, Secretary of Agriculture of the United States of America, acting under and pursuant to, and by virtue of, the authority vested in me by the Act of Congress known as the Agricultural Adjustment Act of 1938, as amended, upon the basis of the latest available statistics of the Federal Government, do hereby find, determine, and proclaim under sections 342, 343, and 345 of said Act (52 Stat. 56, 58, 203; 53 Stat. 1125; 7 U.S.C., Sup., 1342, 1343, 1345) (within limitations imposed by wartime policy regarding the publication of information on foreign trade);

(a) That the "total supply" of American cotton as of August 1, 1942, was 24.7 million running bales;

(b) That the "normal supply" of American cotton as of August 1, 1942, was 18.2 million running bales;

(c) That the "carry-over" of American cotton as of August 1, 1942, was 11.1 million running bales;

(d) That the "probable domestic consumption of American cotton" during the marketing year commencing August 1, 1942, is 11.4 million running bales;

(e) That the "probable exports of American cotton" during the marketing year beginning August 1, 1942, is expected to be somewhat larger than in 1941–42;

(f) That the "estimated carry-over" of American cotton as of August 1, 1943, is expected to be above the level at the beginning of the 1942–43 season;

(g) That the "total supply" of American cotton for the marketing year beginning August 1, 1942, exceeds by more than 7 per centum the "normal supply" of cotton for such marketing year;

(h) That the national allotment of cotton for the calendar year beginning on January 1, 1943, shall be 10,000,000 standard bales of 500 pounds gross weight, increased by that number of standard bales of 500 pounds gross weight equal to the production in the calendar year 1942 of that number of acres required to be allotted for 1942 under the terms of section 344 (e) of said Act.

Done at Washington, D. C., this 6th day of November 1942. Witness my hand and the seal of the Department of Agriculture.

PART 802—SUGAR DETERMINATIONS

SUGAR YIELD CALCULATIONS FOR VIRGIN ISLANDS

Determination of (1) normal yields of commercially recoverable sugar per acre and (2) eligibility for payment with respect to abandonment and crop deficiency for farms in the Virgin Islands, pursuant to section 303 of the Sugar Act of 1937, as amended.

Pursuant to the provisions of section 303 of the Sugar Act of 1937, the following determination is hereby issued:

§ 802.56 *Normal yield of commercially recoverable sugar per acre and eligibility for payment with respect to abandonment and crop deficiency for farms in the Virgin Islands*—(a) *Normal yield calculation.* The normal yield of commercially recoverable sugar per acre for any farm in the Virgin Islands in which sugarcane is grown and marketed (or processed by the producer) for the extraction of sugar shall be:

(1) For any farm on which sugarcane was grown and marketed (or processed by the producer) for the extraction of sugar during all three of the crop years 1935, 1936, and 1939, the product of:

(i) The average number of hundredweights of sugar, raw value, recovered per short ton of sugarcane processed for the extraction of sugar during such crop years by the mill, or mills, where such sugarcane was ground, and

(ii) The average number of short tons of sugarcane per acre harvested on the farm for the extraction of sugar during the said three crop years; or

(2) For any farm on which sugarcane was not grown and marketed (or processed by the producer) for the extraction of sugar during all three of the crop years 1935, 1936, and 1939, the average of the normal yields per acre, computed as in (1) above, for all farms within the same mill area on which sugarcane was harvested for the extraction of sugar during all three such crop years.

(b) *Eligibility for abandonment and deficiency payments.* That any farm located in a mill area in which the actual yields of commercially recoverable sugar per acre for farms comprising 10%, or more, of the total acreage of sugarcane for the extraction of sugar were 80%, or less, of the normal yields therefor, because of drought, flood, storm, freeze, disease, or insects, shall be eligible for abandonment and deficiency payments. (Sec. 303, 50 Stat. 910; 7 U.S.C. 1940 ed. 1132).

PART 927—MILK IN THE NEW YORK METROPOLITAN MARKETING AREA

CERTAIN PROVISIONS OF ORDER TERMINATED

Order terminating certain provisions of § 927.7 of the order, as amended, regulating the handling of milk in the New York Metropolitan Marketing Area.

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (7 U. S. C. 1940 ed. 601 *et seq.*), hereinafter referred to as the "act", and the provisions of the order, as amended, regulating the handling of milk in the New York metropolitan marketing area, it is hereby determined that the provisions of such order which provide for diversion payments to certain handlers of milk under the said order are provisions which obstruct and do not tend to effectuate the declared policy of the act with respect to the producers of milk defined in the said order.

It is, therefore, ordered, That (a) the provisions of § 927.7 (e) [1] of the order, as amended, regulating the handling of milk in the New York metropolitan marketing area, except subparagraph (4) of the said § 927.7 (e), and (b) the words and figures "for the purpose of this § 927.7 (e)" which appear in the said subparagraph (4), shall be, and hereby are, terminated, effective as of 12:01 a. m., e. w. t., November 16, 1942.

SCOPE OF REGULATIONS

§ 197.1 *Scope.* These regulations govern the allowance of drawback of internal revenue tax at the rate of $3.75 on each proof gallon of fully taxpaid distilled spirits used on and after November 1, 1942, in the manufacture or production of medicines, medicinal preparations, food products, flavors, or flavoring extracts which are unfit for beverage purposes and are sold or otherwise transferred for use for other than beverage purposes. (Sec. 3250 (1), I.R.C.)

§ 197.2 *Domestic distilled spirits only.* The drawback is applicable only to distilled spirits produced in domestic registered distilleries, including fruit distilleries, or industrial alcohol plants. (Sec. 3250 (1), I.R.C.)

§ 197.3 *Definition of term "fully taxpaid."* The term "fully taxpaid," as used herein, means that the internal revenue tax imposed and levied on distilled spirits must have been paid according to the rates existing on and after November 1, 1942. (Sec. 3250 (1), I.R.C.)

§ 197.4 *Definition of term "nonbeverage products."* The term "nonbeverage products," as used herein, refers to medicines, medicinal preparations, food products, flavors, or flavoring extracts, in the manufacture or production of which fully taxpaid distilled spirits are used, and which are unfit for use for beverage purposes. (Sec. 3250 (1), I.R.C.)

SPECIAL TAX

§ 197.5 *Payment of special tax required.* Each person, partnership, or corporation that uses fully taxpaid distilled spirits, produced in a domestic registered distillery or industrial alcohol plant, in the manufacture or production of medicines, medicinal preparations, food products, flavors, or flavoring extracts which are unfit for beverage purposes and are sold or otherwise transferred for use for other than beverage purposes, in order to be eligible to claim and receive the drawback on the distilled spirits so used, must pay special tax at the rate of $25 per annum for total annual withdrawals not exceeding 25 proof gallons of distilled spirits; $50 per annum for total annual withdrawals not exceeding 50 proof gallons; or $100 per annum for total annual withdrawals of more than 50 proof gallons. The year means the period from July 1 of each year to June 30 following. The manufacturer is not required to pay the special tax if he does not desire to claim the drawback on the distilled spirits used by him. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.6 *Special tax for each place.* A separate special tax must be paid for each place at which fully taxpaid distilled spirits are used in the manufacture or production of nonbeverage products if a claim is filed for drawback of tax at the rate of $3.75 a proof gallon on distilled spirits so used at each such place. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.7 *Date special tax due.* The special tax must be paid prior to the filing of the first claim for drawback during any fiscal year commencing July 1 and ending with June 30 following. Notwithstanding the month of the fiscal year in which the claim is filed, the full annual special tax of $25, $50, or $100, as the case may be, must be paid. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.8 *Rates of special tax.* The rates of special tax per annum (July 1 of each year to June 30 following) are (a) $25 for total annual withdrawals not exceeding 25 proof gallons of distilled spirits; (b) $50 for total annual withdrawals not exceeding 50 proof gallons; and (c) $100 for total annual withdrawals of more than 50 proof gallons. The term "total annual withdrawals" means the total quantity of fully taxpaid distilled spirits in proof gallons removed from the stocks of the manufacturer and used in the manufacture and production of nonbeverage products during the fiscal year for which the special tax is paid. Special tax, based upon estimated withdrawals, may be paid in advance of actual withdrawals. Where a claim is presented in any fiscal year other than the fiscal year in which the spirits were withdrawn and used, and special tax has not been paid for such latter year, it must be paid in at least the minimum amount at the time of filing the claim. Adjustments of the special tax where improperly paid will be made in accordance with § 197.17. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.9 *Filing of return and payment of special tax.* Persons intending to file claims for drawback shall file returns on Form 11, "Special Tax Return," with remittances, with the Collector of Internal Revenue for the district in which the place of manufacture is located. The remittance must be in the form of cash, United States Post Office Money Order, or certified check. Uncertified checks will not be accepted by the Collector. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.10 *Execution of Form 11, "Special Tax Return."* (a) *General.* Special tax returns, Form 11, may be procured from any Collector or deputy collector, and shall disclose, in the space provided, the following:

(1) The true name of the taxpayer, which may be followed by the words "trading as" and any trade name under which the business is conducted.

(2) The exact location of the place of business, as by name and number of building or street, and where these do not exist, by some particularization in addition to the post office address.

(3) The kind of business carried on.

(4) Except in the case of a corporation, the true names of all persons having a proprietary interest in the business. While it is not necessary that the names of all persons having a proprietary interest in the business appear on the special tax stamp, the names must be disclosed on the return, Form 11.

(b) *Signature.* The return of an individual proprietor shall be signed by the proprietor; the return of a partnership shall be signed by a member of the firm; and the return of a corporation shall be signed by an officer thereof. In each case, the person signing the return shall designate his capacity, as "individual owner," "member of firm," or, in the case of corporation, the title of the officer. Receivers, trustees, assignees, executors, administrators, and other legal representatives who continue the business of a bankrupt, insolvent, deceased person, etc., will indicate the fiduciary capacity in which they act. Returns signed and sworn to by persons as agents will not be accepted unless they file with the Collector a power of attorney authorizing them so to act.

(c) *Oaths.* Special tax returns shall be made under oath, and sworn to before a deputy collector, notary public, or other person legally qualified to administer oaths. Deputy collectors and other internal revenue officers will make no charge for this service. (Secs. 3250 (1), 3270, and 4041 (a), I.R.C.)

SPECIAL TAX STAMPS

§ 197.11 *Issuance of stamps.* Upon receipt of a return on Form 11, properly executed, together with proper remittance, the Collector will issue a special tax stamp designated "Manufacturer of Nonbeverage Products." Collectors and their deputies may not issue the special tax stamp before the tax is fully paid. Such special tax stamp may not be sold or otherwise transferred to another person. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.12 *Posting of stamps.* A special taxpayer shall conspicuously display his special tax stamp in the place of business for which the special tax was paid. If such stamp is lost or accidentally destroyed, the taxpayer should immediately notify the Collector from whom the stamp was purchased, who will issue to the taxpayer a certificate, Form 785, in lieu thereof, which must be kept in the same manner as the stamp. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.13 *Corrections of errors on stamps.* On receipt of a special tax stamp, the taxpayer will examine it to insure that the name and address are correctly stated thereon. If an error has been made, the stamp should be returned to the Collector, with a statement showing the nature of the error and setting forth the proper name or address. The Collector, on receipt of such stamp and statement, will compare the data with that on Form 11, and if an error on the part of the Collector has been made, he will make the necessary correction and return the stamp to the taxpayer. If the Form 11 agrees with the data on the stamp, the Collector will require the taxpayer to file a new Form 11, designated "Amended Return," disclosing the proper name and address, and, on receipt of the amended Form 11, will amend his Record 10 accordingly, attach the amended Form 11 to the original Form 11, make the proper correction on the stamp, and return it to the taxpayer. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.14 *Change in location*—(a) *General.* A special taxpayer who, during the fiscal year for which special tax was paid, removes his place of manufacture to a place other than that specified in his special tax stamp, must register the change with the Collector from whom the special tax stamp was purchased, within 90 days after he moves into the new premises, by executing a new return on Form 11, designated as "Amended Return," setting for the time, when and place to which such removal was made, and shall surrender the special tax stamp to the Collector for endorsement of the change in location.

(b) *Removal in same collection district.* When a special taxpayer removes his place of manufacture to another address within the same collection district, the

Collector will enter on his Record 10 the new address and the date of removal into the new premises, and will note the change on the face of the special tax stamp, stating clearly thereon the new location, and will return the special tax stamp to the taxpayer.

(c) *Removal to another collection district.* When a taxpayer removes his place of manufacture to a location within a collection district other than that in which the special tax stamp was issued, the Collector who issued the special tax stamp will enter on his Record 10 the new address and date of removal into the new premises, stating clearly the new location where the business is to be carried on, and will transmit the stamp to the Collector in charge of the district to which the taxpayer removed. The Collector of that district will make entry on his Record 10, as in the case of a new registrant, and note the taxpayer's new address and the Collector's name, title, and district, and the date of removal on the special tax stamp, which will be returned to the taxpayer.

(d) *Failure of registration.* A person who removes his place of manufacture and fails to register such removal with the Collector, as required by paragraph (a), must pay a new special tax for the new location if a claim for drawback is filed by him during the fiscal year for which the original special tax was paid.

(e) *Form 785.* The provisions of this section shall apply to certificates on Form 785 issued in lieu of lost or destroyed special tax stamps. (Secs. 3250 (1), 3280, and 4041 (a), I.R.C.)

§ 197.15 *Change in control*—(a) *General.* Certain persons other than the special taxpayer may, without paying additional special tax, be eligible to the same privileges granted by law to the taxpayer during the remainder of the fiscal year for which the special tax was paid. To secure such right, such person or persons must file with the Collector from whom the special tax was purchased, within 90 days after the date on which the successor or successors assume control, a return on Form 11, showing the basis of the succession.

(b) *Persons eligible.* Under the conditions indicated above, persons such as those listed below have the right of succession:

Death: The widow or child, or executor, administrator, or other legal representative of the taxpayer.

Husband and wife: A husband or wife succeeding to the business of his or her spouse (living).

Insolvency: A receiver or trustee in bankruptcy, or an assignee for benefit of creditors.

Withdrawal from firm: The partner or partners remaining after death or withdrawal of a member.

(c) *Failure of registration.* A person so succeeding, who fails to register such succession with the Collector, as required by paragraph (a), must pay a new special tax if a claim for drawback is filed by him during the fiscal year for which the original special tax was paid.

(d) *Form 785.* The provisions of this section shall apply to certificates on Form 785 issued in lieu of lost or destroyed special tax stamps. (Secs. 3250 (1), 3280, and 4041 (a), I.R.C.)

§ 197.16 *Change in name or style*—(a) *General.* A special taxpayer does not incur liability to additional special tax by reason of a mere change in the trade name or style under which such business is conducted, nor by reason of a change in management which involves no change in the proprietorship of the business.

(b) *Change in capital stock.* Additional special tax is not required by reason of a change of name or increase in the capital stock of a corporation if the laws of the state of incorporation provide for such changes without creating a new corporation.

(c) *Sale of stock.* No additional special tax is required by reason of the sale or transfer of all or a controlling interest in the capital stock of a corporation. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.17 *Change to higher or lower rate of special tax*—(a) *Change to higher rate.* A special taxpayer who pays special tax of $25 per annum, and who has filed a claim for drawback during the fiscal year for which the special tax was paid, and who, during such fiscal year, withdraws from his stocks and uses more than 25 proof gallons of distilled spirits in the manufacture of nonbeverage products must pay special tax of $50 or $100, as the case may be, and obtain a stamp therefor. The manufacturer may thereupon submit the special tax stamp of $25 to the Collector with a claim on Form 843 for refund of the value thereof. Similar procedure will govern in the case of a taxpayer who pays special tax of $50 and who, during the fiscal year for which the special tax was paid, withdraws from his stocks and uses more than 50 proof gallons of distilled spirits.

(b) *Change to lower rate.* A special taxpayer who pays special tax of $100 or $50 per annum, as the case may be, and who, during the fiscal year for which the special tax was paid, withdraws from his stocks and uses in the manufacture or production of nonbeverage products not more than 50 or 25 proof gallons of distilled spirits, as the case may be, may file a claim on Form 843 for refund of the difference between the special tax paid and the special tax due. The special tax stamp shall be attached to the claim. (Secs. 3250 (1), 3304, 3770, and 4041 (a), I.R.C.)

§ 197.18 *Refund of special tax.* A special taxpayer is not entitled to a refund of special tax, unless it is established that he has not filed a claim for drawback during the period for which the stamp was issued. (Secs. 3250 (1) and 3770, I.R.C.)

§ 197.19 *Claims for refund of special tax*—(a) *General.* Claims for refund of the special tax alleged to have been erroneously or improperly paid shall be filed on Form 843, in duplicate, with the Collector to whom the special tax was paid. The claim must set forth in detail and under oath each ground upon which it is made, and facts sufficient to apprise the Commissioner of the exact basis thereof. The special tax stamp shall be attached to the claim.

(b) *Limitation.* No claim for refund of the special tax shall be allowed unless presented within four years next after the payment of such tax. (Secs. 3304 and 4041 (a), I.R.C.)

CLAIMS FOR DRAWBACK

§ 197.20 *Drawback.* Drawback at the rate of $3.75 on each proof gallon of fully taxpaid distilled spirits used in the manufacture of medicines, medicinal preparations, food products, flavors, or flavoring extracts which are unfit for use for beverage purposes and which were sold or otherwise transferred for use for other than beverage purposes will be allowed to any person who has become eligible for such drawback by payment of the special tax at the rates prescribed in § 197.8, and upon the filing of a claim therefor as hereinafter provided. (Sec. 3250 (1), I.R.C.)

§ 197.21 *Claims.* The claim shall be filed on Form 843, "Claim," in triplicate, with the Collector of Internal Revenue for the district in which the place of manufacture is located, and shall pertain only to nonbeverage products sold or otherwise transferred during any one quarter of the fiscal year, and only one claim may be filed for each quarter. (Sec. 3250 (1), I.R.C.)

§ 197.22 *Date of filing claim.* The claim must be filed within the three months next succeeding the quarter in which the nonbeverage products covered by the claim were sold or otherwise transferred. No claim will be allowed unless filed within the time so stated. (Sec. 3250 (1), I.R.C.)

§ 197.23 *Preparation of claim.* The claim must set forth, under oath, the following information:

(a) That the distilled spirits used in the manufacture of the nonbeverage products on which drawback is claimed were fully taxpaid and were produced in a domestic registered distillery or an industrial alcohol plant.

(b) That the distilled spirits on which the drawback is claimed were used in the manufacture or production of nonbeverage products which were unfit for use for beverage purposes.

(c) That the products produced were sold or otherwise transferred for use for other than beverage purposes in the quarter next preceding the quarter in which the claim is filed, and that (except as provided by § 197.31) the names and addresses of the persons to whom such products were sold or otherwise transferred are on file and are available for examination at the place covered by the special tax stamp.

(d) That the special tax has been paid. (Sec. 3250 (1), I.R.C.)

§ 197.24 *Supporting data.* Each claim will be accompanied by the following data in support of the request for drawback. The statements of supporting data shall also be prepared in triplicate and one copy attached to each copy of the claim.

(a) *Data with respect to taxpayment of the distilled spirits on which the drawback is claimed.* (1) If the distilled spirits were received in tank cars, the claimant will furnish the serial number of the certificate of taxpayment (Form 1595), the date of issuance of the certificate, the name and address of the vendor, and the kind and proof of the spirits.

(2) If the distilled spirits were received in containers, such as barrels, drums, cans, or cases, bearing taxpaid stamps, the claimant will furnish the serial number of the taxpaid stamp affixed to the container, the date of taxpayment appearing on the stamp, serial number of the container, if any, the name and address of the vendor, and the kind and proof of the spirits. (When the package is emptied, the stamp shall be scalped and attached to the next claim filed for drawback on the spirits which were in such package. The scalped stamp will be retained by the District Supervisor with the claims record of the claimant.)

(3) If the distilled spirits were received in bottles, the claimant will furnish the name and address of the bottler, and the kind and proof of the spirits as shown on the label, the serial number of the strip stamp affixed over the mouth and neck of the bottle, and the name and address of the vendor.

(b) *Data with respect to use in and sale or transfer of nonbeverage products.* (1) Name and description of the product manufactured in which the distilled spirits were used, and the alcoholic content by volume of such product.

(2) If the product is a medicinal preparation, tincture or fluid extract, manufactured in accordance with a formula prescribed by the United States Pharmacopoeia, the National Formulary, or the American Institute of Homeopathy, or if the product is a flavoring extract, manufactured in accordance with the advisory standards for flavoring extracts of the United States Food and Drug Administration, Federal Security Agency, the letters "U. S. P.," "N. F.," "A. I. H.," or "U. S. F. D. A.," as the case may be, should follow the name and description of the product.

(3) Quantity of product sold or otherwise transferred.

(4) Number of proof gallons of distilled spirits used in each product.

(c) *Data with respect to payment of special tax.* (1) Serial number of special tax stamp.

(2) Fiscal year for which issued.

(3) Date of issuance.

(4) Collection district where issued.

(d) *Data with respect to formula and process.* (1) If the claim is the first one filed with respect to any one product involved in the claim, the quantitative formula for each such product shall be attached to the claim; except that such quantitative formula need not be given if (i) the product is a medicinal preparation, tincture, or fluid extract produced under formulas prescribed by the United States Pharmacopoeia, the National Formulary, or the American Institute of Homeopathy, or (ii) the product is a flavoring extract, manufactured in accordance with the advisory standards for flavoring extracts of the United States Food and Drug Administration, Federal Security Agency, and (iii) the products are identified in the claim in the manner stated in paragraph (b) (2) of this section.

(2) Each formula will be given a serial number by the claimant beginning with number 1. Subsequent claims for drawback covering the same product need not be accompanied by the quantitative formula, unless there has been a modification or revision thereof. Where there has been no change, the claimant will refer to the serial number given the formula.

(3) In the case of food products, such as preserved fruits, cakes, buns, soups, etc., it will be sufficient to show the quantity of proof gallons of distilled spirits used in the production of a given quantity of finished product. (Sec. 3250 (1), I.R.C.)

§ 197.25 *Handling of claims.* The Collector will date-stamp each copy of the claim, and after recording, will forward the original and duplicate copies to the District Supervisor, Alcohol Tax Unit, and retain the triplicate copy for his files. The District Supervisor will examine the claim for the purpose of determining whether it is properly executed and that all supporting data have been submitted. He will return to the claimant any claim requiring amendment with appropriate instructions as to proper execution or amendment. (Sec. 4041 (a), I.R.C.)

§ 197.26 *Verification by District Supervisor.* The District Supervisor will conduct such inquiries and investigations as may be necessary to verify that drawback is allowable on the distilled spirits involved in the claim. After completion of such verification, he will forward the original copies of the claim and supporting data, and a copy of the report of investigation, with his recommendation as to the merit of the claim, to the Commissioner. (Sec. 4041 (a), I.R.C.)

§ 197.27 *When drawback not allowable.* Drawback is not allowable on distilled spirits lost by causes such as spillage, leakage, breakage, etc., prior to or during the process of manufacture of nonbeverage products, or on distilled spirits used in the manufacture of nonbeverage products if such products are lost or destroyed prior to sale or transfer. (Sec. 3250 (1), I.R.C.)

FORMULAS AND SAMPLES

§ 197.28 *Statement of process.* The Commissioner, at his discretion, may at any time require any person claiming drawback under these regulations to file the statement of process used in the manufacture or production of a nonbeverage product, and such other data as he may deem necessary for use in connection with the consideration of such person's claim for drawback. The statement of process should be submitted in triplicate with copies of the commercial labels used on the finished products. (Sec. 3250 (1), I.R.C.)

§ 197.29 *Samples.* The Commissioner, at his discretion, may also at any time require any person claiming drawback under these regulations to submit a sample of each nonbeverage product for examination. Where the applicant proposes to use a mixture of oil or other ingredients, the composition of which is unknown to him, a one-ounce sample should be submitted with the sample of finished product when so required by the Commissioner. (h) Name and address of the purchaser.

(i) Quantity of each product sold to each purchaser.

(j) Date of sale of product to each purchaser. (Sec. 3250 (1), I.R.C.)

§ 197.31 *Exception.* The manufacturer need not keep the records required by paragraphs (h), (i), and (j) of § 197.30 where the nonbeverage product contains less than 3 per cent of distilled spirits by volume, nor shall such records be required where nonbeverage products are sold by the producer direct to the consumer in retail quantities. The Commissioner may at any time require the keeping of such records upon at least 5 days' notice to the taxpayer. (Sec. 3250 (1), I.R.C.)

§ 197.32 *Form of record.* No particular form of record is prescribed, but the data required to be shown shall be readily ascertainable from the records kept by the manufacturer. Such records shall be kept complete and current at all times, and shall be retained by the manufacturer on the place covered by the special tax stamp, and shall be open to inspection by Government officers during regular business hours. Chapter III—Bituminous Coal Division

PART 324—MINIMUM PRICE SCHEDULE, DISTRICT NO. 4

[Docket No. A-1648]

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 4 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 4.

PART 992—LAUNDRY EQUIPMENT

[Interpretation 1 of General Limitation Order L-6]

The following official interpretation is hereby issued by the Director General for Operations with respect to § 992.1 *General Limitation Order L-6*:[2]

Paragraph (a) (1) of § 992.1 *General Limitation Order L-6* defines "domestic laundry equipment" to mean "washing machines and ironing machines for home use." The phrase, "for home use", refers to the type of machine and not to the purpose for which a particular machine is eventually used.

All machines of a style or model designed and built by the manufacturer for marketing principally to home users are machines "for home use", and their production is therefore prohibited, regardless of the purposes for which some of them may be bought and used by commercial establishments, institutions or governmental agencies.

PART 1001—TIN

[Interpretation 1 of Conservation Order M-43-a, as Amended June 5, 1942]

The following official interpretation is hereby issued by the Director General for Operations with respect to § 1001.2, *Conservation Order M–43–a*[1] as amended June 5, 1942:

The phrase "Individual and organizational equipment" appearing in the definition of implements of war, as contained in paragraph (c) (2) (i) of Conservation Order M–43–a as amended June 5, 1942, is construed to include radio and radar equipment prescribed for field or combat use by the Army or Navy of the United States, the Coast Guard, or the United States Maritime Commission. Consequently, when such radio and radar equipment (including parts, assemblies and materials to be physically incorporated therein) is being produced for purchase by or for the account of the Army or Navy of the United States, the United States Maritime Commission, or the Coast Guard, it is, by the terms of paragraph (c) (2) (i) of Conservation Order M–43–a as amended June 5, 1942, exempt from the restrictions on the use of tin contained in paragraphs (b) (1) and (b) (2) of said order, where the use of tin to the extent employed is required by the specifications (including performance specifications) of the Army or Navy of the United States, the United States Maritime Commission or the Coast Guard applicable to the contract, subcontract or purchase order.

PART 1010—SUSPENSION ORDER S–136

E. E. ANDERSON LUMBER CO.

E. E. Anderson Lumber Company, Detroit, Michigan, is a Michigan corporation engaged in the wholesale distribution of lumber and mill work. From May 13, 1942, to June 25, 1942, the company accepted delivery of substantial quantities of construction lumber from producers, the delivery of which had not been authorized by the Director of Industry Operations, without having furnished said producers with the endorsements as to uses necessary under Limitation Order L–121.

The acceptance of these deliveries as aforesaid constituted a wilful violation of Limitation Order L–121.

The foregoing violations of War Production Board orders have impeded and hampered the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board.

It is hereby ordered:

§ 1010.136 *Suspension order No. S–136.* (a) E. E. Anderson Lumber Company, its successors and assigns, shall not accept, directly or indirectly, deliveries of lumber on any orders or contracts to which preference ratings have been assigned or applied, except as specifically authorized by the Director General for Operations: *Provided, however,* That the provisions of this paragraph shall not apply to deliveries of lumber which are in transit as of the effective date hereof.

(b) No person shall ship or deliver lumber on orders placed by E. E. Anderson Lumber Company for delivery to it or to any other person, to which orders preference ratings have been assigned or applied, except as specifically authorized by the Director General for Operations: *Provided, however,* the provisions of this paragraph shall not apply to deliveries of lumber which are in transit as of the effective date hereof.

(c) Deliveries of lumber on orders or contracts placed directly or indirectly, by E. E. Anderson Lumber Company, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other orders or regulations of the Director of Industry Operations, or the Director General for Operations, except as specifically authorized by the Director General for Operations: *Provided however,* That the provisions of this paragraph shall not apply to deliveries of lumber which are in transit as of the effective date hereof.

(d) No allocation shall be made, nor any specific authorization be granted to E. E. Anderson Lumber Company, its successors or assigns, of any lumber the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(e) Nothing contained in this order shall be deemed to relieve E. E. Anderson Lumber Company, its successors and assigns, from any restriction, prohibition, or provision contained in any order or regulation of the Director of Industry Operations or the Director General for Operations, whether now in force or hereafter issued, except in so far as the same may be inconsistent with the provisions hereof.

(f) This order is to take effect November 10, 1942, and is to expire on February 10, 1943, at which time the restrictions contained in this order are to be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 7th day of November 1942.

Director General for Operations.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-138]

M. PASHELINSKY & SONS

M. Pashelinsky & Sons, Jersey City, New Jersey, is a partnership engaged in the business of buying and selling scrap metals. This concern was familiar with the restrictions contained in Supplementary Order M–1–c and knew that the order prohibited the unauthorized delivery of aluminum scrap for melting or other processing. Nevertheless, in wilful violation of this order, M. Pashelinsky & Sons made deliveries, during the period of October 28, through December 16, 1941, of a total of 25,204 pounds of aluminum scrap to Manning, Bowman & Company for melting and other processing, despite the fact that no authorization for such deliveries had been obtained from the Director of Priorities. In connection with the deliveries of aluminum scrap made during this period, M. Pashelinsky & Sons, in wilful violation of Priorities Regulation No. 1, falsely described in its records and invoices such aluminum scrap as brass, copper, and white metal scrap, and in two instances falsely invoiced the aluminum scrap and entered records of such transactions in the firm's books in the individual name of Meyer Pashelinsky, a partner, rather than in the firm's name.

These violations of Supplementary Order M–1–c and of Priorities Regulation No. 1 have impeded the war effort of the United States by diverting scarce materials to uses unauthorized by the War Production Board. In view of the foregoing facts, *It is hereby ordered:*

§ 1010.138 *Suspension Order S–138.* (a) Meyer Pashelinsky, Morris Pashelinsky, Bernard Pashelinsky, David T. Pash, Rose Pashelinsky Blau, individually, or doing business as M. Pashelinsky & Sons, or as successors or assigns of M. Pashelinsky & Sons, shall not purchase or accept delivery from any source of any metal, including scrap, regardless of the form or condition thereof, specified in the Metals List of Priorities Regulation No. 11, except as specifically authorized by the Director General for Operations.

(b) Meyer Pashelinsky, Morris Pashelinsky, Bernard Pashelinsky, David T. Pash, Rose Pashelinsky Blau, individually, or doing business as M. Pashelinsky & Sons, or as successors or assigns of M. Pashelinsky & Sons, shall not sell, transfer, deliver, fabricate, use, or consume any metal, including scrap, regardless of the form or condition thereof, specified in the Metals List of Priorities Regulation No. 11, except as specifically authorized by the Director General for Operations.

(c) Nothing contained in this order shall be deemed to relieve Meyer Pashelinsky, Morris Pashelinsky, Bernard Pashelinsky, David T. Pash, Rose Pashelinsky Blau, individually, or doing business as M. Pashelinsky & Sons, or as successors or assigns of M. Pashelinsky & Sons from any restriction, prohibition or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on November 9, 1942, and shall remain in effect until revoked.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 7th day of November 1942.

Director General for Operations.

PART 3037—ELECTRONIC EQUIPMENT

[Interpretation 1 of General Limitation Order L–183]

The following official interpretation is hereby issued by the Director General for Operations with respect to § 3037.1, *General Limitation Order L–183*[1]:

A "manufacturer" as defined in paragraph (a) (1) does not include one who merely distributes or maintains and repairs electronic equipment.

A "manufacturer" does, however, include one who converts or modifies electronic equipment so as to change the use of such equipment, or so as to change its mode of operation.

A person, corporation, or other legal entity may be a manufacturer and also may be engaged in the business of maintaining and repairing electronic equipment, and supplying parts for the maintenance and repair thereof. Where such is the case, and two distinct enterprises are in good faith conducted by the same person or entity, that person or entity as a manufacturer and as concerns its manufacturing branch is subject to the limitations of L–183; but such person or entity, as a servicing agent performing the services of maintenance and repair and supplying parts therefor, and as concerns that branch of its business, is not subject to the limitations of L–183 with respect to such servicing activities nor with respect to distribution and transfers effected in the normal course of its functions of servicing electronic equipment and supplying parts for maintenance and repair.

PART 3007—GLYCERINE RECOVERY

[Conservation Order M–193]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of glycerine for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3007.1 *Conservation Order No. M–193*—(a) *Definitions.* (1) "Fats and oils" means all of the raw, crude and refined fats and fatty oils and greases.

(2) "Domestic glycerides" means all fats and oils which are normally produced in the continental United States.

(3) "Neutral fats or oils content" means that saponifiable portion of fats or oils at point of saponification or hydrolysis obtained by subtracting from the total weight of such fats and oils the sum of the following: free fatty acids, moisture, insoluble impurities, and unsaponifiables. Free fatty acids, moisture, insoluble impurities, and unsaponifiables shall be determined by the official methods of the American Oil Chemists Society.

(4) "Fair average quality crude glycerine" means soap lye crude glycerine and saponification crude glycerine meeting the following specifications:

Soap lye crude glycerine:
  Glycerol content—not less than 80%.
  Ash—not more than 10%.
  Organic Residue—not more than 2%.
Saponification crude glycerine:
  Glycerol content—not less than 88%.
  Ash—not more than 2%.
  Organic Residue—not more than 1.5%.

Glycerol content, ash and organic residue shall be determined by the official methods of the American Oil Chemists Society.

(b) *Required recovery of crude glycerine.* (1) Except as provided in paragraphs (b) (2), (b) (3) and (d) hereof, no person shall saponify or hydrolyze any fat or oil in any process in which glycerine is produced unless:

(i) The amount of glycerol (either free or combined) remaining in the finished product shall be one percent (1.0%) or less, calculated on an anhydrous soap basis, and

(ii) Not less than 92% of the glycerol content of the spent lyes (where the product is boiled settled soap) shall be recovered as crude glycerine (100% glycerol basis). The glycerol content of such spent lyes shall be considered to be the glycerol theoretically contained in the neutral fats or oils content of the stock originally used less the maximum amount of glycerol permitted in the soap.

(iii) Where the glycerine is produced by the hydrolysis of fats or oils (fat splitting), the split shall be not less than 95% complete, except that where split fats or oils are to be used in soaps under paragraph (b) (2), the permitted glycerine in the finished product, on an anhydrous soap basis, shall be the limiting factor on the percentage of split. Not less than 94% of the glycerol content of the glycerine sweet water resulting from such splitting process shall be recovered as crude glycerine (100% glycerol basis). The glycerol content of such sweet water shall be considered to be the glycerol theoretically contained in the neutral fat or oil content of the stock originally used, less the maximum permitted amount (based on 95% split) of glycerol contained in the split fat or oil.

(2) Notwithstanding the provisions of paragraph (b) (1) (i) hereof, any person may use domestic glycerides in the manufacture of any liquid, potash, cold-made or half-boiled soap, provided that the glycerol remaining in the finished product shall not exceed 2.75% on an anhydrous soap basis, and provided further that his use of such glycerides and fatty acids in any calendar quarter does not exceed 90% of his average quarterly consumption of such glycerides and fatty acids in the production of such types of soap during the two year period January 1, 1940 to December 31, 1941. If any manufacturer in any quarter in the production of such types of soap does not use the quantity of such glycerides or fatty acids permitted by this paragraph (b) (2), he may carry forward to the succeeding quarter or quarters the unused part of his quota; except that no carry forward shall be permitted beyond June 30, 1943 or beyond the 30th day of June of any year thereafter.

(3) In the event that the product manufactured is a mixture of boiled settled soap and half-boiled soap, the permitted glycerol in the mixture shall be calculated in the manner provided by paragraphs (b) (1) (i) and (b) (2) hereof on the portion of each class of soap making up such product; namely, 1% of the boiled settled soap portion and 2.75% of the half-boiled soap portion, in each case on an anhydrous basis.

(c) *Required standard of refining of crude glycerine.* In the refining of fair average quality crude glycerine, not less than 96% of the glycerol content of the crude glycerine shall be recovered as refined glycerine (100% glycerol basis).

(d) *Operations not subject to standard of glycerine recovery.* The provisions of paragraph (b) hereof shall not be applicable to:

(1) Any person in any calendar month whose consumption of fats and oils or fatty acids in the aggregate in the preceding calendar month did not exceed 10,000 lbs.;

(2) Any person whom the Director General for Operations may specifically authorize to operate, on such person's establishing to the satisfaction of the Director General for Operations, by letter addressed to the War Production Board, Chemicals Branch, Washington, D. C., Ref: M–193, that he is recovering the maximum amount of glycerine that is reasonably possible with the facilities which he has or may reasonably be expected to secure or utilize;

(3) The sulfonation of any fats and oils, alkali or acid refining of fats or oils, manufacture of lubricating greases, or processing of food;

(4) The manufacture of medicinal soap U. S. P. XII to fill orders for medicinal use only.

(e) *Reports.* (1) Each refiner of glycerine regardless of amount, and each person who saponifies or hydrolyzes more than 3500 lbs. of oils, fats or fatty acids in any month in a process in which glycerine is recovered (not including any operation referred to in paragraph (d) (3) hereof) shall file with the War Production Board, Chemicals Branch, Washington, D. C., Ref: M–193, not later than the 15th day of the succeeding month, commencing December 15, 1942, Form PD–712, properly executed by him. Such Form PD–712 shall be filed by each person who saponifies or hydrolyzes more than such 3500 lbs. of oils, fats and fatty acids in such month, whether or not he is exempted under paragraphs (d) (1), (d) (2) or (d) (4) hereof.

(2) Where a person is both a manufacturer and refiner he shall file a separate form in each capacity.

(3) Each person affected by this order shall file such other reports at such times in such forms and with respect to such matters as the Chemicals Branch of the War Production Board may from time to time direct.

(f) *Effect on other orders.* Where different standards of recovery are imposed by this order and any other order or orders, the provisions of the order requiring the highest glycerine recovery shall control.

(g) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board Priorities Regulations, as amended from time to time.

(2) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C., Ref: M–193.

(3) *Violations.* Any person who wilfully violates any provisions of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

This order shall take effect December 1, 1942.

PART 1388—DEFENSE-RENTAL AREAS

[Eviction Regulation 1]

HOUSING ACCOMMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES IN A PORTION OF THE NEBRASKA DEFENSE-RENTAL AREA

The Emergency Price Control Act of 1942 provides that whenever in the judgment of the Administrator such action is necessary or proper in order to effectuate the purposes of the Act, the Administrator may, by regulation or order, regulate or prohibit speculative or manipulative practices or renting or leasing practices (including practices relating to recovery of the possession) in connection with any Defense-Area housing accommodations, which in his judgment are equivalent to or likely to result in rent increases inconsistent with the purposes of the Act.

By a designation and rent declaration issued by the Administrator on October 5, 1942, the Administrator designated as Defense-Rental Area certain localities including the Nebraska Defense-Rental Area, consisting of that portion of the State of Nebraska not theretofore designated by the Administrator as part of any Defense-Rental Area. Since the issuance of said designation and declaration, the number of removals of tenants from possession, by means of evictions, actions to evict, and notices to quit or vacate has sharply increased in the portion of said Nebraska Defense-Rental Area set out in § 1388.531 of this eviction regulation. The purpose and effect of such removals of tenants from possession is to increase the rents of the housing accommodations involved.

In the judgment of the Administrator such increased removals of tenants from possession constitute speculative or manipulative practices or renting or leasing practices which are equivalent to or likely to result in rent increases inconsistent with the purposes of said Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act this Eviction Regulation No. 1 is hereby issued.

AUTHORITY: §§ 1388.531 to 1388.535, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.531 *Scope of regulation.* (a) This Eviction Regulation No. 1 applies to all housing accommodations within that portion of the Nebraska Defense-Rental Area consisting of the Counties of Adams and Clay, said area having been designated in the designation and rent declaration (§§ 1388.1341 to 1388.1345, inclusive) issued by the Administrator on October 5, 1942, except as provided in paragraph (b) of this section.

(b) This eviction regulation does not apply to the following:

(1) Housing accommodations situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 3178, 3242, 3482, 3554, 4176, 4668, 5712, 5780, 5943, 7974.

(2) Dwelling space occupied by domestic servants, caretakers, managers, or other employees to whom the space is provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the dwelling space is a part;

(3) Rooms or other housing accommodations within hotels or rooming houses: *Provided*, That this eviction regulation does apply to entire structures or premises though used as hotels or rooming houses.

(c) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this eviction regulation.

(d) An agreement by the tenant to waive the benefit of any provision of this eviction regulation is void.

§ 1388.532 *Restrictions on removal of tenant.* (a) So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant shall be removed from any housing accommodations, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated, and regardless of any contract, lease, agreement or obligation heretofore or hereafter entered into which provides for entry of judgment upon the tenant's confession for breach of the covenants thereof or which otherwise provides contrary hereto, unless:

(1) The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this Eviction Regulation No. 1; or

(2) The tenant has unreasonably refused the landlord access to the housing accommodations for the purpose of inspection or of showing the accommodations to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however*, That such refusal shall not be ground for removal or eviction if such inspection or showing of the accommodations is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure, such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the housing accommodations for an immoral or illegal purpose; or

(4) The tenant's lease or other rental agreement has expired or otherwise terminated, and at the time of termination the housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons who occupied under a rental agreement with the tenant; or

(5) The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the housing accommodations or of substantial altering or remodeling it in a manner which cannot practicably be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(6) The landlord owned, or acquired an enforceable right to buy or the right to possession of, the housing accommodations prior to the effective date of this eviction regulation, and seeks in good faith to recover possession of such accommodations for immediate use and occupancy as a dwelling for himself. If a tenant has been removed or evicted under this paragraph (a) (6) from housing accommodations, the landlord shall file a written report on a form provided therefore before renting the accommodations or any part thereof during a period of six months after such removal or eviction.

(b) (1) No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this eviction regulation and would not be likely to result in the circumvention or evasion thereof.

(2) Removal or eviction of a tenant for occupancy by a purchaser who has acquired his rights in the housing accommodations on or after the effective date of this eviction regulation, is inconsistent with the purposes of the Act and this eviction regulation and would be likely to result in the circumvention or evasion thereof, unless (i) the payment or payments of principal made by the purchaser, excluding any payments made from funds borrowed for the purpose of making such principal payments, aggregate 33⅓% or more of the purchase price, and (ii) a period of three months has elapsed after the issuance of a certificate by the Administrator as hereinafter provided. For the purposes of this paragraph (b) (2), the payments of principal may be made by the purchaser conditionally or in escrow to the end that they shall be returned to the purchaser in the event the Administrator denies a petition for a certificate. If the Administrator finds that the required payments of principal have been made, he shall, on petition of either the vendor or purchaser, issue a certificate authorizing the purchaser to pursue his remedies for removal or eviction of the tenant in accordance with the requirements of the local law at the expiration of three months after the date of issuance of such certificate. In no other case shall the Administrator issue a certificate for occupancy by a purchaser who has acquired his rights in the housing accommodations on or after the effective date of this eviction regulation, unless he finds that the vendor has or had a substantial necessity requiring the sale and that a reasonable sale or disposition of the accommodations could not be made without removal or eviction of the tenant, or unless he finds that other special hardship would result; under such circumstances the payment by the purchaser of 33⅓% of the purchase price shall not be a condition to the issuance of a certificate, and the certificate shall authorize the vendor or purchaser to pursue his remedies for removal or eviction of the tenant in accordance with the requirements of the local law.

(c) The provisions of this section do not apply to a subtenant or other person who occupied under a rental agreement with the tenant, where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant.

The provisions of this section shall not apply to housing accommodations rented to either Army or Navy personnel, including civilian employees of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department.

(d) (1) Every notice to a tenant to vacate or surrender possession of housing accommodations shall state the ground under this section upon which the landlord relies for removal or eviction of the tenant. A written copy of such notice shall be given to the Area Rent Office within 24 hours after the notice is given to the tenant.

No tenant shall be removed or evicted from housing accommodations, by court process or otherwise, unless, at least ten days prior to the time specified for surrender of possession and to the commencement of any action for removal or eviction, the landlord has given written notices of the proposed removal or eviction to the tenant and to the Area Rent Office, stating the ground under this section upon which such removal or eviction is sought and specifying the time when the tenant is required to surrender possession.

Where the ground for removal or eviction of a tenant is non-payment of rent, every notice under this paragraph (d) (1) shall state the rent for the housing accommodations, the amount of rent due and the rental period or periods for which such rent is due. The provisions of this paragraph (d) (1) shall not apply where a certificate has been issued by the Administrator pursuant to the provisions of paragraph (b) of this section.

(2) At the time of commencing any action to remove or evict a tenant, including an action based upon non-payment of rent, the landlord shall give written notice thereof to the Area Rent Office stating the title of the case, the number of the case where that is possible, the court in which it is filed, the name and address of the tenant, and the ground under this section on which removal or eviction is sought.

(e) No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

§ 1388.533 *Procedure.* The Rules set forth in Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive) with respect to Maximum Rent Regulations shall apply, whenever appropriate, to this Eviction Regulation No. 1 and any proceedings hereunder.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[Ration Order 5C]

MILEAGE RATIONING: GASOLINE REGULATIONS

Preamble. The Office of Price Administration has been directed by the Rubber Director to carry out the recommendations contained in the report of the President's Special Committee to Study the Rubber Situation.

The Committee stated: "We are faced with certainties as to demands: with grave insecurity as to supply. Therefore, this Committee conceives its first duty to be the maintenance of a rubber reserve that will keep our armed forces fighting and our essential civilian wheels turning. This can best be done by 'bulling through' the present synthetic program and by safeguarding jealousy every ounce of rubber in the county."

The recommendations of the Committee include:

1. Immediate institution of a tire replacement and recapping program with the allocation of reclaimed rubber for that purpose.
2. Nation-wide gasoline rationing to hold the average annual mileage to 5,000 miles * * *
3. Prompt and strict enforcement of a Nation-wide speed limit not exceeding thirty-five miles an hour * * *
4. Compulsory periodic tire inspection.

This Ration Order No. 5C has been adopted pursuant to the direction of the Rubber Director to complement the mileage rationing: Tire Regulations (Ration Order No. 1A). Wear and destruction of tires now in use must be reduced by curtailing the national average automobile mileage to a maximum of 5,000 miles per year. To accomplish this purpose, the Committee recommended:

> That a new rationing system of gasoline be devised, based on this 5,000 miles a year to save tires.
>
> That the restrictions as to gasoline and mileage be national in their application.

The Committee said:

> Gas rationing is the only way of saving rubber. Every way of avoiding this method was explored but it was found to be inescapable. This must be kept in mind: The limitation in the use of gasoline is not due to shortage of that commodity—it is wholly a measure of rubber saving. That is why the restriction is to be Nation-wide. Any localized measure would be unfair and futile.

The mileage rationing: Gasoline Regulations (Ration Order No. 5C) control the use and acquisition of gasoline as a means to conserve rubber and to maintain our transportation system. To safeguard against violation of the fundamental scheme, control is extended to gasoline generally, whether or not for motor vehicles.

Control over commercial motor vehicle mileage is shared jointly by the Office of Defense Transportation and the Office of Price Administration. The mileage to be driven by, and accordingly the amount of wear of tires used on, trucks, busses, taxis, and other like vehicles used for transporting property or available for hire or rental will be determined by the Office of Defense Transportation, and evidenced by Certificates of War Necessity setting forth the maximum mileage and gasoline gallonage allowed for the vehicles operated. On the basis of such certificates, local War Price and Rationing Boards will issue transport rations, filling the requirements of such vehicles up to the maximum fixed by the certificate.

The Office of Price Administration, through its local War Price and Rationing Boards, will regulate the use and allowable mileage of passenger automobiles. All passenger automobiles, with certain exceptions, will receive a small, basic, mileage allowance, in order, primarily, to prevent casting all persons normally using such facilities on to public transportation systems not equipped to handle tremendously increased loads. The private passenger automobile is, in this sense, an integral and indispensable part of the Nation's system of transportation.

Above this basic ration, mileage will be allowed for occupational uses of the vehicle. But this supplemental allowance is strictly tailored in accordance with need. Moreover, carrying out the program of the Committee that essential driving be given first place, a maximum allowance of 470 miles per month is placed upon the occupational use of vehicles. The list of those users who may be allowed mileage above this maximum is limited to those who use their vehicles for purposes essential to the war effort or to the civilian economy.

Certain exceptional, non-occupational, necessary motor vehicle uses, such as the procuring of food and supplies, or medical care are recognized and special rations are allowed for such purposes. Further, since the desire for conservation of gasoline is not the chief factor motivating these regulations, gasoline rations for purposes not involving wear of rubber tires are given virtually without restriction, to meet the demonstrated requirements of the user.

However, passenger car rations are not issued unless the applicant has disposed of all idle tires which he owns, so that they may be available to meet the present needs of others. No one should be permitted to withhold an idle tire from use when that tire may be necessary to avoid deprivation of another's transportation. There should be no tires which are not either in use, immediately available for use, or in process of being made usable.

[2] 7 F.R. 2966, 3242, 3783, 4545, 4618, 5193, 5361, 6084, 6473, 6828, 6937, 7289, 7321, 7406, 7510, 7557, 8402, 8655, 8739, 8809, 8710.

Finally, in order more effectively to serve the end desired, the allowance of gasoline for motor vehicle use is made dependent, as is the issuance of tires, upon use of the vehicle in a manner best calculated to conserve its tires. Thus, periodic tire inspections, observance of a 35 mile per hour maximum speed limit, and avoidance of abuse and neglect of tires, are made prerequisite to continuance of any ration issued.

By these means and through control of the motive power of rubber-using vehicles, the vital rubber supply of this country will be utilized for purposes most essential to the public welfare, and will be made to last, if possible, beyond the period of critical shortage. There is, of course, no assurance that the rubber supply situation in the future will not require further curtailment and enforce conservation of tire use. To a great extent, this will depend upon whether the driving public will alter and restrict its driving habits, and conserve to the utmost extent the tires now in use. The Committee said:

> Let there be no doubt that only actual needs, not fancied wants, can, or should, be satisfied. To dissipate our stocks of rubber is to destroy one of our chief weapons of war. We have the choice!
>
> Discomfort or defeat. There is no middle course.

Accordingly, pursuant to the authority vested in me by War Production Board Directive No. 1, issued January 24, 1942, and by Supplementary Directive No. 1Q issued November 6, 1942.

Class A books shall be issued for passenger automobiles and Class D books for motorcycles. Subject to the provisions of § 1394.7653 (d) each Class A and Class D ration book shall contain thirty-two (32) coupons. Each coupon contained in a basic ration book shall have a value of one unit. Coupons contained in Class A books shall be valid for the transfer of gasoline to a consumer only during the periods indicated below.

Coupons numbered	*Valid period*
3	November 2, 1942, to January 21, 1943, inclusive.
4	January 22, 1943, to March 21, 1943, inclusive.
5	March 22, 1943, to May 21, 1943, inclusive.
6	May 22, 1943, to July 21, 1943, inclusive.

Coupons in Basic Class D books shall be valid for the transfer of gasoline to a consumer at any time prior to July 22, 1943.

§ 1394.7653 *Application for and issuance of basic rations.* (a) Application for a basic ration book shall be made on Form OPA R-534. During the period from November 9, 1942, to November 11, 1942, inclusive, application shall be made at any application site designated by the Office of Price Administration. After November 11, application shall be made to a Board: *Provided,* That, except for good cause shown for failure to apply at an application site, application may not be made to a Board prior to November 25, 1942. A separate application shall be made for each passenger automobile or motorcycle for which a basic ration is sought.

(b) The application must be signed by the registered owner of the vehicle for which a ration is sought and may not be signed by an agent: *Provided,* That the Board may accept an application signed by a duly authorized agent of the registered owner if the applicant for whom the agent is acting is physically unable to sign or is outside the jurisdiction of the Board with which application is filed.

(c) Each applicant for a basic ration shall state:

(1) The serial number of all tires mounted (including one spare) on the vehicle for which application is made; and

(2) The number and serial number of passenger-type tires (excluding motorcycle tires but including scrap tires) which are owned by the registered owner of the vehicle or by any person living in the household of such owner and related to him by blood, marriage or adoption, other than tires reported on OPA Form R-17 or R-17 Revised or reported by a manufacturer to the War Production Board or tires mounted (including one spare per motor vehicle) on motor vehicles or equipment.

(d) Pursuant to such application, a basic ration shall be issued during the period from November 9, 1942, to November 11, 1942, inclusive, by any registrar appointed under paragraph (a) or (b) of § 1394.7601. After November 11, a basic ration shall be issued by a Board. The Board shall remove from any Class A book issued subsequent to November 22, 1942, all expired coupons and one currently valid coupon for each full eight days which have elapsed in the "valid period" during which such book is issued. In the case of a Basic D book issued after November 22, 1942, one coupon shall be removed for each full eight days which have elapsed since November 22, 1942.

(e) No basic ration shall be issued by a registrar or a Board unless the applicant has certified in the application that no passenger-type tires required to be reported in such application pursuant to paragraph (c) (2) of this section are owned by the registered owner of the vehicle or by any person living in his household and related to him by blood, marriage or adoption. No person shall be entitled to a basic ration if, at the time of issuance, the registered owner of the vehicle or any person living in his household and related to him by blood, marriage or adoption owns tires required to be reported in an application pursuant to paragraph (c) (2) of this section.

(f) No more than one basic ration may be issued for a vehicle, except as provided in §§ 1394.8007 and 1394.8103, and no person shall be entitled to more than one basic ration for the same vehicle, during the period from July 22, 1942, to July 21, 1943: *Provided,* That any person who has surrendered a basic ration to a Board by reason of having ceased to use the motor vehicle for which the ration was issued, or by reason of having removed such motor vehicle from the limitation area prior to November 22, 1942, may apply to a Board for reissuance thereof. Application for reissuance shall be made on Part A of Form OPA R-534, and the applicant shall attach thereto a certification in which he shall set forth the date and place of issuance of the ration surrendered, together with the date and place of surrender thereof, the reason therefor, and the number of unused coupons remaining in the book at the time of surrender. In the event that the Board is satisfied that the applicant surrendered such a ration in good faith the Board shall issue a basic ration book to the applicant pursuant to the provisions of § 1394.7653: *Provided,* That no coupon book reissued pursuant to the provisions of this paragraph shall contain coupons in excess of the number of coupons contained in the coupon book surrendered.

(g) Notwithstanding any other provision of Ration Order No. 5C, the period of time during which basic rations may be issued at application sites referred to in § 1394.7653 may be extended by the Office of Price Administration, its War Price and Rationing Boards or such other administrative personnel as it may select.

SUPPLEMENTAL RATIONS

§ 1394.7701 *Supplemental rations.* (a) The following coupon books may be issued by a Board as Supplemental rations to the owner or person entitled to the use of a registered passenger automobile or registered motorcycle (other than those specified in § 1394.7702), to provide for occupational mileage driven in such vehicle by anyone, to the extent that such mileage is allowed by the Board pursuant to § 1394.7704:

(1) Class B or Class C coupon books for use with passenger automobiles.

(2) Class D coupon books marked "Supplemental" for use with motorcycles.

(b) When issued as a supplemental ration, Class B books shall contain sixteen (16) coupons, and Class C and D books shall contain the number of coupons, specified in the tables set forth in § 1394.7705, necessary to provide the mileage allowed by the Board. Each coupon in a Class B, Class C or Supplemental Class D book shall have a value of one unit. Coupons contained in such books shall authorize the transfer of gasoline to consumers only during the valid period of such books noted thereon by the Board. Class B rations and books shall be valid only for the period ascertained pursuant to § 1394.7705. Class C and Supplemental Class D rations and books issued pursuant to Ration Order No. 5C shall be valid for a period of three months commencing on November 22, 1942, or on the date of issuance, whichever is later.

(c) Applicants for supplemental rations are deemed to have available 150 miles per month of occupational driving by using the basic ration t which they are entitled; and supplemental rations may be issued to provide only occupational mileage allowed by a Board in excess of 150 miles per month. However, no deduction for such 150 miles shall be made by the applicant in stating his required occupational mileage or by the Board in allowing occupational mileage, since a deduction of 150 miles from the total mileage allowed by the Board is automatically made when the Board applies the tables set forth in § 1394.7705 pursuant to which supplemental rations are to be issued.

§ 1394.7702 *Passenger automobiles or motorcycles for which supplemental rations may not be issued.* No supplemental rations may be obtained or shall be issued for use with a passenger automobile or motorcycle for which no basic ration has been issued or which is:

(a) Owned or leased by a Federal, State, local or foreign government or government agency; or

(b) Part of a fleet of passenger automobiles or motorcycles; or

(c) Held by a motor vehicle dealer for sale or resale.

§ 1394.7703 *Application for supplemental ration.* (a) Application for a supplemental ration may be made to a Board on or after November 12, 1942, on Form OPA R-535, by the owner or a person entitled to the use of a registered passenger automobile or registered motorcycle. A separate application shall be made for each vehicle. Application on behalf of an individual may not be signed by an agent.

(b) An applicant shall establish the average monthly occupational mileage driven within the continental United States and required for each of the following purposes, for the three-month period beginning with the date on which such ration is required:

(1) Driving between home and a fixed place of work in connection with the principal occupation of the applicant or principal user of the vehicle;

(2) Driving in the course of such principal occupation;

(3) Driving to and from or in the course of any other occupation or occupations for which the vehicle is used.

(c) In the event that two or more passenger automobiles for which supplemental rations are desired, are owned by persons living in the same household and related to each other by blood, marriage, or adoption, all applications for supplemental rations for such vehicles shall, except for good cause shown, be submitted at the same time to the same Board. Where two or more vehicles are used in a ride-sharing arrangement of the type described in paragraph (a) of § 1394.7704, a separate application for a supplemental ration shall be made for each such vehicle. Each such application shall include only the mileage driven in the vehicle for which it is made and, if such vehicles are all within the jurisdiction of one Board, all such applications must be submitted to it at the same time. If such vehicles are within the jurisdiction of different Boards, each application must be accompanied by duplicate copies of the applications for other vehicles used in such ride-sharing arrangement, and such duplicate copies shall show, if possible, the action taken by the respective Boards on the originals thereof.

§ 1394.7704 *Allowance of mileage.* (a) Except as provided in paragraph (c) of this section occupational mileage shall be allowed by a Board for a purpose specified in paragraph (b) of § 1394.7703 if the applicant establishes, in connection with the use of the vehicle for that purpose, either:

(1) That a bona fide ride-sharing arrangement has been made pursuant to which at least four persons (including the operator) will regularly be carried in the vehicle for the purpose of going to and from or carrying on their occupations and that transportation is needed for such purpose: *Provided,* That each person must certify to his participation in the ride-sharing arrangement by signing the application; or

(2) That no such ride-sharing arrangement could reasonably be made but that the vehicle carries as many persons as could reasonably be expected in the light of the circumstances in which and the purpose for which it is used; that transportation is needed for such purpose; and that no alternative means of transportation are available which would be reasonably adequate for such purpose.

(i) An applicant may establish that four or more persons cannot regularly be carried in the vehicle for which application is made by showing: the limited capacity of the vehicle; the necessity of traveling at unusual or irregular hours; the necessity of traveling over routes not feasible for other persons who might be carried; or such other reasons as the Board may find sufficient.

(ii) An applicant may establish the lack of reasonably adequate alternative means of transportation by showing the unavailability of other public or private means of transportation; or by showing that such alternative means, if available, are inadequate by reason of location, schedules or overcrowded conditions, by reason of physical disability of the person needing transportation, by reason of the nature of the work for which transportation is needed, or for such other reasons as the Board may find sufficient.

(3) In the event the applicant or principal user is employed at a power generation or transmission facility, public utility, transportation or communication facility, or agricultural, extractive, industrial, military or naval establishment at which more than one hundred (100) persons are employed, the application, if made for a ration to be used for transporting such applicant or principal user to and from such place of employment, must be certified as indicated thereon by an official in charge of an organized transportation plan at such establishment.

(4) In the event application is made for a supplemental ration in order to permit the use of the vehicle for which application is made in the pursuit of an occupation other than a gainful occupation, the application must be certified, as indicated thereon, by a responsible official of the organization, if any, for or under the direction of which the work is performed.

(b) Upon the basis of the application and such other facts as the Board may require, the Board shall allow mileage for driving within the continental United States for any of the purposes listed in paragraph (b) of § 1394.7703 for which applicant has applied, with respect to which the applicant has established the facts required by paragraph (a) hereof. The Board shall allow only that portion of the claimed mileage (in the absence of a ride-sharing arrangement) with respect to which the applicant has established the inadequacy of alternative means of transportation (in accordance with paragraph (a) (2) (ii) of this section). The Board shall then determine the total occupational mileage per month required by the applicant and allowed by it for the three-months' period specified in paragraph (b) of § 1394.7703 and shall issue a supplemental ration, in accordance with the provisions of § 1394.7705, to provide such mileage: *Provided,* That the Board may not allow an average of more than 470 miles per month for any occupational mileage other than preferred mileage as defined in § 1394.7706. The Board may allow an average mileage in excess of 470 miles per month only if such excess consists of such preferred mileage.

(c) A Board having jurisdiction over an area which is adequately served by subway, elevated railroad, or railroad commutation service shall allow mileage claimed with respect to which a ride-sharing arrangement has been made only if the applicant establishes that the use of such subway, elevated railroad, or railroad commutation service would not be reasonably adequate for the purpose for which such mileage is claimed.

(d) The Board shall deduct from the mileage it allows for a passenger automobile, in accordance with paragraph (b) above, 150 miles per month for each additional passenger automobile (other than a fleet passenger automobile) owned by the applicant or by any person living in his household and related to him by blood, marriage or adoption, if the Board finds that such automobile is available to and adequate for the use of the applicant for the purpose for which the supplemental ration is sought. No such automobile shall be deemed available to the applicant if it is used, to a substantial extent, for an occupational purpose of another person; nor shall such automobile be deemed available to the applicant during the effective period of a supplemental ration issued to another person whose mileage allowance was reduced on account of such automobile.

§ 1394.7705 *Issuance of supplemental rations.* (a) Supplemental rations shall be issued to provide the total mileage allowed by the Board in accordance with § 1394.7704.

(1) In the case of a passenger automobile, the Board shall issue:

(i) In the event that the mileage allowed by the Board is 470 miles per month or less: one Class B book having the valid period specified in Table I for the mileage allowed:

(ii) In the event that the mileage allowed by the Board pursuant to paragraph (b) of § 1394.7704 exceeds 470 miles per month: one or more Class C books bearing expiration dates three months from the date of issuance or November 22, 1942, whichever is later, and containing the number of coupons specified in Table II for the mileage allowed.

(2) In the case of a motorcycle: one or more Class D books (to be marked "Supplemental") bearing expiration dates three months from the date of issuance or November 22, 1942, whichever is later, and containing the number of coupons specified in Table I, if the mileage allowed is 470 miles per month or less, or specified in Table II, if the mileage allowed is in excess of 470 miles per month.

§ 1394.7753 *Application for official and fleet rations.* Application for official and fleet rations shall be made to a Board on or after November 9, 1942, on Form OPA R–551. An application may cover one or more vehicles and may be signed by an agent. An applicant shall establish the average monthly occupational mileage within the continental United States required for each vehicle covered in the application or required for each of a group of vehicles used interchangeably for carrying on the same or a related occupation or occupations during the three-month period beginning with the date on which the ration is required. Each application for an official or fleet ration shall contain a certification by the owner or by a responsible representative of the owner as to (a) the serial numbers of the tires mounted on each vehicle for which application is made, and (b) except in the case of an application for an official ration, the number and serial number of passenger-type tires (excluding motorcycle tires but including scrap tires) owned by the registered owner of the vehicles in excess of those mounted (including one spare per motor vehicle) on motor vehicles or equipment other than tires reported on OPA Form R–17 or R–17 Revised or reported by a manufacturer to the War Production Board.

§ 1394.7754 *Allowance of mileage.* (a) No occupational mileage shall be allowed by a Board unless the applicant establishes in connection with such mileage, either:

(1) That transportation is needed for such occupational purposes, and that no alternative means of transportation are available which would be reasonably adequate within the meaning of § 1394.7704; or

(2) That a bona fide ride-sharing arrangement has been made in connection with the use of the vehicle or vehicles for such purposes, pursuant to which at least four persons (including the driver) will regularly be carried in the vehicle in connection with their occupations, and that transportation is required for such purposes: *Provided,* That the names and addresses of all persons (other than the drivers of the vehicles) participating in the ride-sharing arrangement shall be set forth on separate sheets and attached to the application: *Provided further,* That a Board having jurisdiction over an area which is adequately served by subway, elevated railroad or railroad commutation service shall allow mileage claimed with respect to which a ride-sharing arrangement has been made only if the applicant also establishes that the use of such subway, elevated railroad or railroad commutation service would not be reasonably adequate for the purpose for which such mileage is claimed.

(b) Subject to the provisions of paragraph (a) of this section, the Board shall allow the total average occupational mileage per month determined by it to be required for driving within the continental United States, during the three-month period specified in § 1394.7753 and shall issue a ration in accordance with the provisions of § 1394.7755 to provide such mileage: *Provided,* That the Board may not allow an average of more than 470 miles per month for any vehicle nor an average of more than 470 miles per month per vehicle for any group of vehicles, for any occupational mileage other than preferred mileage as defined in § 1394.7706.

§ 1394.7755 *Issuance of official and fleet rations.* (a) Official and fleet rations shall be issued to provide the total mileage allowed by the Board in accordance with § 1394.7754.

(1) In the case of passenger automobiles, the Board shall issue:

(i) In the event that the mileage allowed by the Board is 470 miles per month or less: Class B books having the valid period specified in Table III for the mileage allowed;

(ii) In the event that the mileage allowed by the Board pursuant to paragraph (b) of § 1394.7754 exceeds 470 miles per month: Class C books bearing expiration dates three months from the date of issuance or November 22, 1942, whichever is later, and containing the number of coupons specified in Table IV for the mileage allowed;

(2) In the case of motorcycles: Class D books (to be marked "fleet" if issued for use with a fleet motorcycle and "official" if issued for use with an official motorcycle) bearing expiration dates three months from the date of issuance or November 22, 1942, whichever is later, and containing the number of coupons specified in Table III, if the mileage allowed is 470 miles per month or less, or specified in Table IV, if the mileage allowed is in excess of 470 miles per month.

[1] To be used only for official or fleet passenger automobiles and motorcycles and other specified passenger automobiles and motorcycles not entitled to basic rations.

In the event allowed mileage exceeds 960 miles, one additional coupon shall be issued for each 20 miles, or fraction thereof, of allowed mileage in excess of 960 miles. Additional books may be issued if necessary to provide additional coupons.

(b) The Board shall remove and cancel all coupons in Class C or Class D books in excess of the number to be issued hereunder. If the applicant has requested that bulk coupons be issued to him, the Board shall issue such bulk coupons in lieu of coupons in books, in accordance with the procedure set forth in paragraphs (a) and (b) of § 1394.8006.

(c) For the purposes of paragraph (a) of this section, a passenger automobile is conclusively presumed to operate 15 miles, and a motorcycle 40 miles, per gallon of gasoline.

(d) No fleet ration shall be issued by a Board unless the registered owner of the vehicle or vehicles for which such ration is required or his responsible agent, has certified in the application that no passenger-type tires (excluding motorcycle tires but including scrap tires) are owned by the registered owner of the vehicle other than tires reported on OPA Form R–17 or R–17 Revised or reported by a manufacturer to the War Production Board or tires mounted (including one spare per motor vehicle) on motor vehicles or equipment. No person shall be entitled to a fleet ration if, at the time of issuance, the registered owner of the vehicles for which the ration is sought owns passenger-type tires (excluding motorcycle tires but including scrap tires) other than tires reported on OPA Form R-17 or R-17 Revised or reported by a manufacturer to the War Production Board or tires mounted (including one spare per motor vehicle) on motor vehicles or equipment.

§ 1394.7756 *Interchangeable official or fleet ration books.* An applicant for an official or a fleet ration may request the Board to note on the ration books issued, the name or other identification of the official vehicles or the fleet, in lieu of the registration number of a particular vehicle. The Board may grant such request with respect to any official or fleet vehicles which are used interchangeably and which bear a clearly discernible official or fleet name, identification or designation. Any book on which such an identification is noted may be used, interchangeably, for all official or fleet vehicles bearing such identification.

§1394.7757 *Issuance of rations for use with vehicles operated on dealer plates.* (a) Notwithstanding any other provision of Ration Order No. 5C a ration may be issued by a Board to provide solely for the occupational mileage (other than for demonstration purposes) to be driven in an unregistered passenger automobile or motorcycle regularly operated on dealer or other interchangeable license plates if the operation of such vehicle on such plates is permissible under the law of the state issuing the plates.

(b) Such ration shall be issued in the same manner as fleet ration under the conditions provided in §§ 1394.7754 and 1394.7755 (a), (b), (c) and (d) and application for such ration shall be made to a Board on Form OPA R–551: *Provided,* That the certification therein contained as to ownership of tires by the registered owner of the vehicle shall be revised to constitute a certification as to tires owned by the owner of the vehicle. The applicant shall annex to the application a written statement showing the Federal Use Tax Stamp number and the engine number of such vehicle.

(c) If the Board finds the facts stated on the application to be true, it shall determine the allowed mileage for such vehicle in accordance with the provisions of § 1394.7754, and shall issue a ration in accordance with § 1394.7755 (a), (b) and (c). The Board issuing the ration book shall, at the time of issuance, make a clear notation of the Use Tax Stamp number on the cover of such book and, in the space provided for the license number, shall insert the engine number of such vehicle and the words "dealer plates." The Board shall note on the cover of the book the name and address of the person to whom the book is issued and shall note on the book and on the application the date on which the book becomes valid and the date on which it expires.

Transport Rations

§ 1394.7801 *Transport rations.* (a) Subject to the provisions of § 1394.7802, transport rations shall be issued by a Board to permit the acquisition of gasoline required for the propulsion of registered and unregistered commercial motor vehicles and motor vehicles owned or leased by the military or naval forces of the United States or State military forces organized pursuant to section 61 of the National Defense Act, as amended. Except as otherwise provided in §§ 1394.7802 and 1394.7805, transport rations shall be issued for use during fixed calendar quarterly periods of three months, the first of which shall commence on January 1, 1943.

§ 1394.7802 *Persons entitled to transport rations.* Subject to the provisions of § 1394.7805, the owner or the person entitled to the use of a commercial motor vehicle for which a Certificate of War Necessity has been issued may obtain a transport ration authorizing the acquisition of the maximum number of gallons of gasoline allowed for the operation of such vehicle for the quarterly period during which the ration is to be used, as set forth in such certificate. The owner or the person entitled to the use of a motor vehicle but which is owned or leased by the military or naval forces of the United States or the State military forces organized pursuant to section 61 of the National Defense Act, as amended, may obtain a transport ration authorizing the acquisition of the number of gallons of gasoline required for the operation of such vehicle during the quarterly period for which the ration is to be used.

§ 1394.7803 *Transport ration books.* (a) Class T–1 and Class T–2 coupon books and, in the case of motorcycles owned or leased by the armed forces, Class D books marked "Transport" shall be issued as transport rations. Coupons in Class T–1 and T–2 books shall each have a value of one unit.

(b) Coupons contained in a transport ration book shall authorize the transfer of gasoline to a consumer only during the period noted thereon by the Board.

§ 1394.7804 *Application for transport rations.* (a) Application for a transport ration may be made to a Board, on and after November 9, 1942, on Form OPA R–536. Application may be made by the owner or person entitled to the use of the vehicle, or by the authorized agent of either of them. A single application may be used for each fleet of vehicles or each group of fleet vehicles for which the applicant seeks a transport ration. A separate application must be used for each vehicle which is not a part of a fleet.

(b) In the event application is made for a transport ration for use with a commercial motor vehicle for which a Certificate of War Necessity has been issued, the application shall be accompanied by the single unit certificate issued for the vehicle or, in the case of a fleet of commercial vehicles, by the fleet certificate issued for such fleet. If the applicant requires, during the period, less than the maximum number of gallons of gasoline allowed by such certificate for the vehicles covered by the application, the applicant shall state the amount of gasoline required by him.

(c) In the event application is made for a transport ration for use with a motor vehicle owned or leased by the military or naval forces of the United States or State military forces organized pursuant to section 61 of the National Defense Act, as amended, the application shall state the number of gallons of gasoline required during the quarterly period for which the ration is sought for all operations of the vehicle, or in the case of a fleet, for all of the vehicles for which a ration is sought: *Provided,* That in the case of a ration for use prior to January 1, 1943 the application shall state the number of gallons of gasoline required for all operations of the vehicle, or in the case of a fleet, for all of the vehicles for which a ration is sought, during the period between the date on which the ration is required or November 22, 1942, whichever is later, and April 1, 1943.

§ 1394.7805 *Issuance of transport rations.* (a) Except as provided in paragraph (c) of this section, no transport ration shall be issued unless the applicant has presented to the Board, at the time of application, a currently valid single unit certificate or, in the case of a fleet, a fleet certificate issued for the fleet for which a ration is sought. Except as provided in § 1394.7806, no transport ration may be issued which will allow the applicant to acquire gasoline in excess of the maximum allowed by such certificate for the quarterly period for which the ration is sought and no transport ration shall be issued more than thirty (30) days prior to the beginning of the quarterly period during which it is to be used: *Provided,* That transport rations issued for use prior to January 1, 1943, shall not allow an amount of gasoline (other than gasoline allowed pursuant to § 1394.7806) in excess of the maximum number of gallons of gasoline allowed by the certificate for the remaining portion of the year 1942 and the first quarter of 1943.

(b) The Board shall examine the single unit certificate or the fleet certificate submitted and shall insert at the appropriate place provided in the application the maximum number of gallons of gasoline allowed by such certificate for the period for which the ration is sought. The Board shall allow the maximum number of gallons of gasoline set forth in the certificate for the period or periods for which the ration is sought, or the quantity of gasoline required by the applicant during such period as stated in the application, whichever is less. The Board shall issue Class T–1 or T–2 books or bulk coupons in sufficient number to provide the number of gallons of gasoline allowed by it.

(c) In the event application is made for a ration for use with a motor vehicle which is owned or leased by the military or naval forces of the United States or State military forces organized pursuant to section 61 of the National Defense Act, as amended, the Board shall not require the presentation of a Certificate of War Necessity and shall issue Class T–1 or T–2 books or, in the case of motorcycles, D books marked "Transport" containing coupons in sufficient number to provide the number of gallons of gasoline requested for the fixed quarterly period during which the ration is to be used, or, in the case of a ration to be used prior to January 1, 1943, the Board shall issue books containing coupons in sufficient number to provide the number of gallons of gasoline requested for the operation of the vehicle during the period between the date on which the ration is required or November 22, 1942, whichever is later, and April 1, 1943.

(d) The Board shall, when issuing Class T–1, T–2 or D books as transport rations, remove and cancel all coupons in excess of the number required to supply the gallonage allowed. The Board shall note on the face of the books the date of issuance or November 22, 1942, whichever is later, and the date of expiration of such books. At the time of issuance of any transport ration for use with a vehicle for which a Certificate of War Necessity is required to be presented, the Board shall note on the face of the single unit certificate the Board number, the period for which the ration is issued, the serial number of the ration book or books and the initials of the person issuing such books. In the case of a fleet certificate the Board shall note on the reverse side thereof the same information and shall also note the total gallonage for which coupons are issued, and the name or number and address of the issuing Board. If the applicant has requested that bulk coupons be issued to him, and if the applicant meets the requirements of paragraph (a) of § 1394.8006, the Board shall issue bulk coupons to the extent of the gallonage allowed by it for which bulk coupons are requested.

(e) No transport ration issued for a vehicle for the operation of which a Certificate of War Necessity is required may be used with any vehicle which does not comply with the orders of the Office of Defense Transportation, nor with any vehicles on which the tires have not been inspected and approved in accordance with any applicable rule, regulation, or order of the Office of Defense Transportation, or of the Office of Price Administration.

§ 1394.7806 *Transport ration for equipment mounted on commercial motor vehicles.* Notwithstanding any other provisions of Ration Order No. 5C, the applicant for a ration for use with a commercial motor vehicle upon which is mounted and permanently attached machinery or equipment which is operated by gasoline supplied from a fuel tank other than the fuel supply tank of the motor vehicle may set forth in his application for a transport ration for such vehicle the amount of gasoline needed for the operation of such machinery or equipment during the period for which the transport ration is sought. The Board shall ascertain and allow the amount of gasoline needed for such purpose during such period and shall include in the transport ration issued for such vehicle a sufficient number of coupons to provide gasoline to operate such machinery or equipment during such period.

§ 1394.7807 *Interchangeable transport ration books.* An applicant for a transport ration for use with fleet vehicles may request the Board to note, on the ration books issued, a clearly discernible name or other identification of the fleet or, if the vehicles bear no clearly discernible name or identification, the serial number of the fleet certificate issued for such vehicles, in lieu of the registration number of a particular vehicle. The Board may grant such a request with respect to any vehicles in the fleet which are used interchangeably and which bear a clearly discernible fleet name, identification or designation or, in the absence of such designation, with respect to any vehicles for which a fleet certificate has been issued. Any book on which a fleet identification or fleet certificate number is noted may be used interchangeably for all vehicles in the fleet bearing such identification or covered by such fleet certificate.

§ 1394.7808 *Temporary transport rations.* (a) Any person requiring gasoline for the operation of a commercial motor vehicle who has made application for a Certificate of War Necessity but who has received no notice of any action thereon may apply between November 15, 1942, and December 31, 1942, inclusive, for a temporary transport ration pursuant to the provisions of paragraph (b) of this section, and no Certificate of War Necessity shall be required to be presented in connection therewith.

(b) An application for a temporary transport ration may be made, in duplicate, to any Board during the period from November 15, 1942, to December 31, 1942, inclusive. Such application shall be made on Form OPA R-536, and may be made by an agent. The applicant shall state the mileage and gallonage required for the operation of such motor vehicle from the date the ration is required to December 31, 1942, inclusive, and shall specify the address of the Local Allocation Office of the Office of Defense Transportation with which the application for a Certificate of War Necessity has been filed, the date on which such application was filed, and the address of the Board with which his application pursuant to § 1394.7804 is to be filed. The applicant shall also state that no ration pursuant to § 1394.7805 has been issued, and that he has received no notice of any action on his application for a Certificate of War Necessity for the vehicle or vehicles for which a ration is sought. The word "temporary" shall be clearly noted on the application.

(c) The Board shall determine the number of gallons of gasoline required during such period for the operation of such motor vehicle. The Board shall then issue "T-1" or "T-2" books containing coupons in sufficient number to provide the gallonage needed. Such books shall expire at 12:01 A. M. on January 1, 1943.

(d) In the event that the Board issuing the temporary ration is not the Board with which the application for a transport ration pursuant to § 1394.7804 is to be filed, it shall return to the applicant the duplicate of such temporary application with its notations endorsed thereon. The applicant shall forthwith forward such duplicate to the Board with which the application pursuant to § 1394.7804 is to be filed. The original of such temporary application shall be transmitted to such Board by the issuing Board.

(e) No transport ration may be issued under § 1394.7805, for use prior to January 1, 1943, to any person obtaining a ration pursuant to this section: *Provided*, That if the Certificate of War Necessity for the vehicle for which such ration was issued allows gallonage for the period ending December 31, 1942, greater than the quantity allowed by the temporary transport ration issued for such period, a further transport ration may be issued representing such difference.

SPECIAL RATIONS

§ 1394.7851 *Application for special ration.* (a) The owner or person entitled to the use of a motor vehicle, or of a boat or outboard motor who finds that transportation in such vehicle, or boat, is necessary for one or more of the purposes specified in paragraph (b) of this section, and who finds that a ration issued for such vehicle or boat is not sufficient to permit its necessary use for such purpose, may apply to a Board for a special ration. Application for a special ration on behalf of an individual may not be signed by an agent. A special ration may be issued for any period up to six months from the date of application.

(b) Special rations shall be issued in order to permit the acquisition of gasoline for one or more of the following purposes:

(1) For use with a passenger automobile, motorcycle, or motorboat:

(i) To obtain necessary medical attention or therapeutic treatment or to procure necessary food or supplies;

(ii) To move such a vehicle or boat in connection with a bona fide change of the regular place of residence of the person entitled to the use thereof; or to return such a vehicle or boat to the regular place of residence of the person entitled to the use thereof on November 22, 1942 if such vehicle or boat has been continuously away from such place of residence since that date: *Provided*, That if such place of residence and such vehicle or boat were, on November 22, 1942, within the limitation area, no such ration shall be issued unless such vehicle or boat has been continuously away from the regular place of residence of the person entitled to the use thereof since August 22, 1942;

(iii) To move such vehicle or boat to a place of storage upon repossession or upon seizure by a Government authority;

(iv) To deliver such vehicle or boat after bona fide sale thereof or pursuant to a bona fide lease of more than ninety (90) days;

(v) To move such vehicle or boat from a sales establishment or place of storage to another sales establishment or place of storage: *Provided*, That no ration in excess of five (5) gallons per month per vehicle or boat shall be granted for such purpose.

(2) For use with a passenger automobile or motorcycle:

(i) To operate such vehicle in the course of manufacture or assembly for the purpose of testing such vehicle or moving it within or between plants engaged in its manufacture or assembly;

(ii) To transport the personnel and equipment of a scientific expedition organized or sponsored by a recognized scientific or educational institution or organization, if the Board finds that such expedition is in the public interest;

(iii) To carry persons to and from the polls for the purpose of voting in public elections (including primary elections); or to act as duly appointed election officials or poll watchers; or by a bona fide candidate for public office for purposes

essential to the prosecution of his candidacy;

(iv) To operate such vehicle for the purpose of bona fide tests or experiments contributing to the war effort, which require the use of such vehicle therein.

(3) To operate a motor vehicle or motorboat held by a motor vehicle or boat dealer for sale or resale, for the purpose of demonstrating such vehicle or boat to prospective purchasers: *Provided*, That no ration in excess of five (5) gallons per month per vehicle or boat shall be granted for purposes of demonstration.

(c) Application shall be made on Form OPA R-552 and the application shall state, in addition to such other information as may be required;

(1) The purpose for which a special ration is sought and the period (not exceeding six months) during which such ration will be needed;

(2) The type and number of ration books already issued for the vehicle, boat, or outboard motor, for which the application is made;

(3) The facts supporting the claim that transportation is necessary for the purpose;

(4) If application is made pursuant to paragraph (b) (1) (i) or (iv) or paragraph (b) (2) (ii) or (iii) of this section, the alternative means of transportation which are available and the reasons, if any, why such alternative means are not reasonably adequate for the purpose.

(5) The number of miles of driving, or, in the case of a boat or outboard motor, the amount of gasoline, claimed to be essential to the accomplishment of the purpose or purposes stated during the period for which the special ration is needed.

§ 1394.7852 *Form and issuance of special rations.* (a) The Board may grant a special ration only if it finds:

(1) That such special ration is needed by the applicant for the purpose claimed;

(2) That a ration (if any) previously issued for such vehicle, boat or outboard motor is not reasonably adequate or cannot be used for such purpose;

(3) That transportation is necessary to the accomplishment of such purpose; and

(4) That no reasonably adequate alternative means of transportation are available, if proof thereof is required by paragraph (c) of § 1394.7851.

(b) If the Board grants the application, it shall determine the quantity of gasoline which is essential to the applicant for accomplishment of the purpose or purposes stated from the date of its decision to the end of the period (not exceeding six months) for which such ration is sought, and shall issue to the applicant a coupon book or books of any appropriate class, except Class A books, containing coupons in sufficient number to allow to the applicant the quantity of gasoline determined by it to be essential on the basis of the current gallonage value of a unit in such book. It shall mark "special" any book which it so issues. It shall remove from the book and cancel any coupons in excess of the number representing the gallonage which it determines should be granted in accordance with the provisions of this paragraph.

(c) No special ration may be issued for the operation of a vehicle if such operation violates any order of the Office of Defense Transportation.

NON-HIGHWAY RATIONS

§ 1394.7901 *Persons entitled to non-highway rations.* Any person who requires gasoline for a non-highway purpose may obtain a non-highway ration authorizing the acquisition of the amount of gasoline required for such purpose, except as provided in paragraphs (b) and (c) of § 1394.7904. Non-highway rations shall be issued for three-month periods.

§ 1394.7902 *Non-highway ration books.* (a) Class E and Class R coupon books shall be issued as non-highway rations. Coupons in Class E and Class R books shall each have a value of one unit, and shall be valid for the transfer of gasoline to a non-highway consumer during the three-month period noted on such books by the Board.

(b) Each non-highway ration book issued for use with a motorboat for non-occupational purposes in the limitation area or in the States specified in paragraph (b) of § 1394.7904 shall be so designated on the inside cover.

§ 1394.7903 *Application for non-highway ration.* (a) Application for a non-highway ration may be made to a Board on or after November 9, 1942, on Form OPA R-537. Application may be signed by an agent.

(b) The applicant shall state the amount of gasoline needed for non-highway use during the three-month period following the date on which such ration is required, and the non-highway purpose or purposes for which such gasoline is needed.

§ 1394.7904 *Issuance of non-highway rations.* (a) The Board shall determine the amount of gasoline required for the three-month period referred to in paragraph (b) of § 1394.7903, and, subject to the provisions of paragraphs (b) and (c) of this section, shall issue to the applicant one or more Class E or Class R books, or any combination of them, containing a sufficient number of coupons to enable the applicant to acquire the amount of gasoline so determined to be necessary for such period. The Board shall remove from the book and cancel any coupons in excess of the number allotted.

(b) If application is made for a non-highway ration for use with an inboard motorboat or outboard motor operated wholly or in part for a non-occupational purpose within the limitation area or within any of the states of Georgia, North Carolina, Virginia, West Virginia, Maryland, Pennsylvania, New York, Ohio, Kentucky, Indiana, Michigan, Illinois, Wisconsin, Missouri, Iowa, Minnesota, North Dakota, South Dakota, Nebraska or Kansas, the Board shall not allow for the non-occupational purpose an amount of gasoline in excess of the number of gallons determined by the following formulae:

(1) In the case of an inboard motorboat, the number of gallons equal to two times the manufacturer's rated horsepower of the motor or motors, but in any event not more than one hundred and twenty-five (125) gallons;

(2) In the case of an outboard motor, the number of gallons equal to two and one-half times the manufacturer's rated horsepower of such motor, but not in excess of twenty (20) gallons.

The Board shall, in such case, issue a separate book for such non-occupational purpose, containing coupons in sufficient number to allow the quantity of gasoline so determined, and shall note on such book that it is issued for a non-occupational purpose. For purposes of this paragraph non-occupational uses shall include use of a motor boat or outboard motor for sightseeing, guiding pleasure parties or conducting fishing parties other than to procure fish for sale or processing.

(c) If application is made for a non-highway ration for the operation of a gasoline engine (other than an outboard motor or an engine used to operate an airplane or inboard motorboat) the Board shall not allow more than one-tenth of one gallon of gasoline for each horsepower hour of operation set forth in the application.

(d) Except as provided in paragraph (a) of § 1394.8103, no more than one non-occupational ration may be issued for an inboard motorboat or an outboard motor during any three-month period.

(e) Each applicant for a non-highway ration who acquires such gasoline for consumption free from state motor fuel taxes, or who applies for refunds of such taxes paid with respect to gasoline used for non-highway purposes, shall execute the application for non-highway rations in duplicate. The Board shall transmit the duplicate copy of such application, with a record of its action thereon, through the State Director to the State Motor Fuel Tax Administration of the State in which the gasoline is to be procured. If after examination by the Tax Administrator of such application, unexplained discrepancies are noted between the amount of gasoline issued as a non-highway ration and the amount of gasoline as to which tax exemption is permitted or refunds of taxes made, such discrepancies shall be reported to the State Director of the Office of Price Administration for appropriate action.

ISSUANCE OF COUPON BOOKS AND ACKNOWLEDGMENTS OF DELIVERY BY THE OFFICE OF PRICE ADMINISTRATION, WASHINGTON, D. C.

§ 1394.7951 *Issuance of ration books by the Office of Price Administration.* (a) Coupon books of all types designated in Ration Order No. 5C may be issued by the Office of Price Administration, Washington, D. C., in its discretion, to the Army, Navy, Marine Corps, Coast Guard and the law-enforcement agencies of the United States, solely for the use of such agencies and for distribution to and use by their officers, agents or employees in the performance of official duties which depend upon secrecy.

(b) Any agency enumerated in paragraph (a) of this section which requires coupon books for use by such officers, agents or employees, shall make written application therefor to the Office of Price Administration, Washington, D. C., and shall state the number and type of books required, and the use for which such books are intended.

(c) If it grants the application, the Office of Price Administration, Washington, D. C., will issue such books in blank.

§ 1394.7952 *Acknowledgments of delivery.* (a) Forms OPA R–544 and OPA R–544 Revised, for acknowledgment of delivery, to be used for the acquisition of gasoline by or on behalf of the Army, Navy, Marine Corps, Coast Guard, Maritime Commission and War Shipping Administration of the United States, will be issued by the Washington Office to the Washington headquarters of such agencies. Any such form bearing the signature of an authorized officer, agent or employee of any such agencies shall be valid as an authorization of transfer of gasoline by any person to whom it is presented, to the extent of the gallonage thereon stated.

(b) In the event that an acknowledgment of delivery form should not be available, gasoline may be transferred into the fuel tank of a motor vehicle clearly identifiable as owned by or leased to one of such agencies, in exchange for an emergency acknowldgment on an official letterhead of the agency on whose behalf the gasoline is acquired, or on any other form if such a letterhead is unavailable, if such emergency acknowledgment supplies the information required by Form OPA R–544 Revised and is signed by an authorized officer, agent, or employee of such agency; such emergency acknowledgment shall show the address of the activity of the agency on whose behalf such emergency acknowledgment was issued. Such emergency acknowledgment may be used as an evidence for the purpose of replenishment by the transferor.

(c) Any Board by which such acknowledgments are received shall submit them within thirty (30) days to the activity of the agency named thereon, for verification. In the event any acknowledgment or emergency acknowledgment is found by such agency to have been used improperly, or by an unauthorized person, the agency will immediately notify the Board from which it was received, and such Board shall notify the State Director or District Manager of such facts for appropriate action.

(d) An acknowledgment or other evidence shall be transmitted in exchange for all gasoline received directly by one of the agencies authorized to use such acknowledgment, even though part of such gasoline may be intended for transfer to, or may be transferred to, a facility such as a Post Exchange or Ships' Service Store for transfer to consumers for non-official use.

General Provisions With Respect to Issuance of Rations and Tire Inspection Records

§ 1394.8001 *Appearance before Boards.* The Board may require any applicant for a ration to appear before it for examination and to produce such witnesses or evidence as it may deem material.

§ 1394.8002 *Presentation of registration card.* (a) Except as provided in paragraph (b) of this section, no gasoline ration (other than a transport, official, fleet or non-highway ration or a ration issued pursuant to § 1394.7757 or pursuant to subparagraphs (1) (iii) (iv) (v), (2) (i) (iv) and (3) of paragraph (b) of § 1394.7851) shall be issued for any motor vehicle unless a registration card or registration certificate authorizing the operation of such vehicle during all or part of the period for which such ration is to be issued, is presented to the registrar or the Board, as the case may be.

(b) If no currently valid registration card or registration certificate has been issued or is outstanding for such motor vehicle, or if such card or certificate has been lost, stolen or destroyed, and such motor vehicle is currently registered for operation on public highways under the law of the Federal government or of any State, territorial or foreign government, the applicant may sign and submit a certification, on such form as may be designated by the Office of Price Administration, stating the reasons why no registration card or registration certificate is outstanding. If the Board (or the registrar) is satisfied that such motor vehicle is currently registered but that no registration card or registration certificate therefor has been issued or is outstanding, it may issue a gasoline ration for such vehicle. Such certification shall be filed with the application for such ration.

§ 1394.8003 *Notation on registration cards.* At the time of issuing a gasoline ration in connection with which the presentation of a registration card is required pursuant to paragraph (a) of § 1394.8002, the person issuing such ration shall make a clear notation in ink, indelible pencil, or by typewriter, on the back of the motor vehicle registration card or registration certificate presented by the applicant, showing the date of issuance, the class of ration and the serial number of the ration book (if any) issued. If a ration has been issued on the basis of a temporary registration card or registration certificate, the applicant shall submit the permanent card or certificate, when issued, to a Board, for such notation. If a ration is issued without presentation of a registration card or registration certificate pursuant to the provisions of paragraph (b) of § 1394.8002, no notation will be made at the time of issuance of the ration but the applicant shall submit such card, within five (5) days of issuance of such card or certificate, to a Board for such notation.

§ 1394.8004 *Notation on ration books, applications and coupons.* (a) At the time of issuance of any ration book for a registered or commercial motor vehicle, the person issuing such book shall, unless an official or a fleet identification is used, make a clear notation on the cover thereof, in ink, indelible pencil or by typewriter, of the registration number, if any, of the vehicle for which it is issued, and the name and address of the owner of such vehicle. The Board shall make a notation on the cover of such book (other than a basic book) and on the application therefor, of the date on which it becomes valid and of its expiration date.

(b) At the time of issuance of a non-highway ration book, the Board shall make a clear notation on such book in ink, indelible pencil or by typewriter, of the name and address of the applicant and of the period during which such book shall be valid. Such period shall also be noted on the application.

(c) The person to whom a ration book is issued for use with a motor vehicle (other than an interchangeable book issued for an official or a fleet vehicle) shall note on the face of such book in the space provided therefor the serial number of the Use Tax Stamp, if any, issued for such vehicle.

(d) Each person to whom a ration book has heretofore been or is hereafter issued shall clearly write in ink (or in the case of interchangeable coupon books issued for official or fleet vehicles, shall clearly write in ink or stamp in ink) on the reverse side of each coupon issued to him, before accepting a transfer of gasoline in exchange for such coupon, the following information:

(1) In the case of A, B, C, D, T–1 or T–2 books; license number and state of registration of the vehicle for which such ration was issued, except that in the case of interchangeable coupon books issued for official or fleet vehicles the information shall be the official or fleet designation (or the Certificate of War Necessity number in the case of commercial vehicles not bearing fleet designations) and the state and city or town in which the principal office of the fleet operator is located.

(2) In the case of E and R books or bulk coupons; his name and address as they appear on the front cover of the ration book.

(e) Each person to whom bulk coupons have heretofore been or are hereafter issued shall clearly write his name and address in ink on the reverse side of each coupon issued to him, before accepting a transfer of gasoline in exchange for such coupon.

§ 1394.8005 *Change in motor vehicle registration number.* (a) The holder of a ration book or tire inspection record issued for a registered motor vehicle (other than a ration book bearing an official or a fleet identification) shall, upon any change in the registration number of such vehicle, submit such ration book and record either to an appropriate State motor vehicle registration official or to a Board for the purpose of having the notation thereon changed to correspond to the new registration number. The book or record shall be submitted to such official at the time of issuance of the new registration number, or to such Board within five (5) days thereafter; if such submission is made to a Board, the registration card or registration certificate (or in lieu thereof, an appropriate certification in such form as may be designated by the Office of Price Administration) evidencing the

new registration number shall be presented with the book or record. A State official to whom such book or record is presented may, and a Board to which such book or record is presented shall, obliterate the registration number appearing thereon and note thereon, in ink, indelible pencil or by typewriter, the new registration number issued for such vehicle. Notation on such new registration card shall also be made, as prescribed in § 1394.8003. Such notation shall be countersigned or initialed by the person making the change.

(b) The holder of any book bearing an official or fleet identification shall upon any change in the name, identification or designation of such official or fleet vehicles, submit such book to the Board which issued it for appropriate modification. Upon ascertaining the new name, identification or designation of such official or fleet vehicles, the Board shall change the designation on such book to correspond thereto.

(c) Nothing in this section shall be construed to authorize the continued use of a ration book after a change in ownership of the vehicle for which it was issued.

§ 1394.8006 *Authorization of bulk purchase.* (a) Any person who establishes to the satisfaction of a Board that he maintains a storage tank for supplying gasoline to one or more motor vehicles operated by him or for non-highway use, and that he has maintained such tank for such purposes prior to July 1, 1942, or that it has since become necessary to maintain a storage tank or to acquire gasoline in a tank, tank truck, drum, or other container for supplying gasoline to such vehicles or for such use, may, when applying for a ration, request the Board to issue such ration in the form of bulk coupons, or partly in bulk coupons and partly in coupon books. Such person may also request the Board to make a notation on any coupon books issued to him indicating that coupons in such books may be used for a bulk transfer of gasoline.

(b) If applicant establishes the facts required by paragraph (a) hereof, the Board shall issue bulk coupons to the extent of the gallonage allowed by it for which bulk coupons are requested: *Provided,* That, with respect to applications for supplemental rations, or for official or fleet rations for passenger automobiles or motorcycles, as provided in §§ 1394.7705 or 1394.7755, the Board shall first determine the type, number and expiration date of the coupon books to which the applicant is entitled; it shall then issue bulk coupons, to the extent requested by the applicant, having a gallonage value equal to the value in units of the coupons in the coupon books to which the applicant is entitled and in lieu of which such bulk coupons are issued; such bulk coupons shall expire on, and may not be used for the transfer of gasoline to a consumer after, the date on which such coupon books would expire: *Provided further,* That bulk coupons shall not be issued unless the applicant establishes the necessity for acquiring two hundred and fifty (250) gallons or more per month by bulk transfer.

§ 1394.8007 *Lost or destroyed coupons or coupon books.* (a) In the event of theft, accidental loss, destruction or mutilation of any coupon book or bulk coupons, the holder thereof may apply to the Board having jurisdiction under § 1394.7602, for replacement thereof.

(b) Such application shall be made in writing, under oath or affirmation, and shall set forth:

(1) The name and address of the applicant;

(2) The class, date and place of issuance and expiration date of such book or coupons;

(3) A description of the motor vehicle, boat, equipment or process for which the book or coupons were issued;

(4) A statement of the number and type of unused coupons so lost, destroyed or mutilated;

(5) A description of the manner and circumstances of the theft, loss, destruction or mutilation.

(c) If the Board is satisfied that such book or coupons have been stolen, lost or destroyed, or so damaged or mutilated as to be rendered unfit for use, it may, in its discretion, issue a duplicate book or duplicate bulk coupons of the same class and in the same quantity as those sought to be replaced; it shall clearly note on the cover of any duplicate book issued the same expiration date, if any, that appeared on the original book.

(d) No person receiving a duplicate book or coupons under paragraph (c) hereof shall use, attempt to use, or permit the use of the original book or coupons, but shall surrender such original book or coupons, if damaged or mutilated, to the Board at the time of issuance of the duplicate book; in the event that a stolen book or stolen coupons are recovered, or a lost book or lost coupons are found after duplicates have been issued, such original book or coupons shall be surrendered to the Board forthwith.

§ 1394.8008 *Disposition of lost coupon books.* (a) Any person who finds a gasoline coupon book, coupon or other evidence shall, within five (5) days, surrender such coupon book, coupon or other evidence to a Board.

(b) The Board to which a coupon book, coupon or other evidence is surrendered pursuant to paragraph (a) of this section shall forward such coupon book, coupon or other evidence through the State Director to the Board having jurisdiction over the issuance thereof. The Board having jurisdiction shall return such coupon book, coupon or other evidence to the person to whom it was originally issued, or, if a duplicate thereof has already been issued, shall destroy such coupon book, coupon or other evidence.

§ 1394.8009 *Issuance of tire inspection records.* (a) Upon the issuance of any basic, official or fleet ration (or a ration issued pursuant to the provisions of § 1394.7757) during the period between November 9, 1942 and December 12, 1942, inclusive, the Board or registrar, as the case may be, shall issue one tire inspection record on Part B of Form OPA R–534 for each vehicle for which a ration is issued unless a tire inspection record has previously been issued for such vehicle.

(b) During the period between November 9, 1942, and December 12, 1942, inclusive, the registered owner (or an agent of the registered owner, as provided in § 1394.7653) of a motor vehicle for which a basic ration has been issued pursuant to Ration Order No. 5A may apply on Form OPA R–534 for a tire inspection record. The applicant shall set forth the serial numbers of the tires mounted (including one spare per motor vehicle) on the vehicle for which the tire inspection record is sought. The Board shall issue one tire inspection record for each vehicle for which a basic ration has been issued pursuant to Ration Order No. 5A: *Provided,* That no such record shall be issued unless the registered owner or, under the conditions permited by paragraph (b) of § 1394.7653, an agent of the registered owner, certifies as required by the application that no passenger-type tires (excluding motorcycle tires but including scrap tires) are owned by the registered owner of the vehicle or by any person living in the household of the registered owner and related to him by blood, marriage or adoption, other than tires reported on Form OPA R–17 or R–17 Revised or reported by a manufacturer to the War Production Board, or tires mounted (including one spare per motor vehicle) on motor vehicles or equipment.

(c) During the period between November 9, 1942, and December 12, 1942, inclusive, the registered owner or a responsible representative of the registered owner of a fleet vehicle for which a fleet ration has been issued pursuant to Ration Order No. 5A, or a person to whom a ration has been issued pursuant to § 1394.1309 of Ration Order No. 5A, may make application on Form OPA R–551 for a tire inspection record. The applicant shall set forth the number of vehicles for which such rations are outstanding, the number and serial numbers of the tires mounted (including one spare per motor vehicle) on each such vehicle, and shall execute the certificate with respect to tires owned by the registered owner of the vehicles for which such fleet rations have been issued (or, in the case of a ration issued pursuant to § 1394.1309 of Ration Order No. 5A with respect to tires owned by the owner of the vehicle). The Board shall issue one tire inspection record for each such vehicle as to which there is outstanding a currently valid ration pursuant to Ration Order No. 5A: *Provided,* That no tire inspection record shall be issued pursuant to the provisions of this paragraph unless the registered owner or a responsible representative of the registered owner (or, in the case of a ration issued pursuant to § 1394.1309 of Ration Order No. 5A, the person to whom the ration was issued) certifies, as required by the application, that the registered owner of the vehicle or vehicles described in the application (or, in the case of a ration issued pursuant to § 1394.1309 of Ration Order No. 5A, the owner of the vehicle, owns no passenger type tires (excluding motorcycle tires but including scrap tires) other than tires reported on Form OPA R–17 or R–17 Revised, or reported by a manufacturer to the War Production Board, or tires mounted (including one spare per motor vehicle) on motor vehicles or equipment.

(d) After December 12, 1942, no tire inspection record shall be applied for pursuant to this section unless the applicant shows good cause why such record was not applied for on or before December 12, 1942.

§ 1394.8010 *Presentation of tire inspection records and records required to be maintained by Office of Defense Transportation.* (a) After December 12, 1942, no supplemental, official or fleet ration or ration issued pursuant to the provisions of § 1394.7757 shall be issued or renewed unless the applicant presents to the Board a tire inspection record on Part B of Form OPA R-534 for each vehicle for which a ration is sought indicating that odometer readings have been taken and that the tires on such vehicle have been inspected and approved in accordance with the requirements of Ration Order No. 1A: *Provided*, That in the event the applicant shows that the required readings, inspections or approvals could not be taken, made or obtained, because of the serious illness of the applicant or the physical condition or location of the vehicle, the Board may in its discretion issue a ration if the current inspection shows no evidence of abuse or neglect of any of the tires upon the vehicle.

(b) On and after March 1, 1943, no transport ration shall be issued for use with a motor vehicle for the operation of which a Certificate of War Necessity is required unless the applicant presents to the Board a record of inspections or a certificate as to inspections showing inspections as required by the Office of Defense Transportation.

§ 1394.8011 *Denial of rations.* (a) No person whose name has been recorded by a Board, in accordance with the provisions of § 1394.46 of Ration Order No. 5 or § 1394.1406 of Ration Order No. 5A for refusal to surrender a ration card, book, coupon or other evidences upon direction of the Board, or for failure or refusal, without good cause shown, to appear before such Board for examination, shall be entitled to obtain a ration of any type under Ration Order No. 5C, while his name remains thus recorded.

(b) Any Board which has reason to believe that any applicant for a ration has used a special ration issued under Ration Order No. 5A or Ration Order No. 5C for a purpose other than that for which such ration was issued, or used any other ration issued under Ration Order No. 5A or Ration Order No. 5C for a purpose other than one for which such ration could be obtained under Ration Order No. 5A or Ration Order No. 5C, or has violated the provisions of §§ 1394.8171, 1394.8175, or 1394.8181, may refuse to issue a ration to or renew a ration of any such applicant and may declare that he shall not be eligible to receive a ration for such period as it shall deem appropriate in the public interest. In any such case of refusal to issue or renew a ration, the Board shall serve upon such person a written statement of the grounds upon which the ration was denied, and shall state therein the effective period of such denial.

§ 1394.8012 *Earliest effective date of rations.* Notwithstanding any other provision of Ration Order No. 5C, no ration shall be issued pursuant to Ration Order No. 5C for use prior to November 22, 1942.

§ 1394.8013 *Consumer declaration of gasoline on hand.* A Board may require any applicant for a supplemental, fleet, official, transport or non-highway ration to set forth on his application the amount of gasoline held by him other than gasoline in the fuel supply tank of a motor vehicle, motorboat or equipment, and other than gasoline held by a dealer or distributor for transfer, or gasoline obtained in exchange for valid coupons or other evidences. No deduction may be made by the Board in issuing a ration on account of any such gasoline on hand.

Renewal of Rations and Issuance of Further Rations

§ 1394.8051 *Renewal of rations.* (a) Rations shall expire as provided in §§ 1394.8054 (b), 1394.8102, and 1394.8103. At any time within thirty (30) days prior to the expiration of any ration, or at any time thereafter, application for a renewal of a ration may be made. Such application shall be made in the same manner as the original application, except as provided in paragraph (b) of this section.

(b) If there have been no substantial changes since the date of the original application in the applicant's gasoline needs, or in the nature, amount, and conditions of use of the motor vehicle for which the original ration was issued, and if such original application accurately calculated the applicant's requirements, application for a renewal thereof (except in the case of a basic, special or transport ration) may be made by executing the renewal certificate on such original application. The applicant shall in such case note on such renewal certificate any changes in the nature or amount of his use since the date of the original application. An applicant may renew a transport ration by filling in the pertinent information on the face of the form for the period for which the ration is required and executing the renewal certificate: *Provided*, That if the Certificate of War Necessity, if any, effective at the time of the original ration, has been revoked or modified in any manner the applicant shall execute a new application.

(c) When renewing a ration prior to the expiration date of a current ration of the same class, the Board shall note on the application and on the front cover of the coupon book (if any) representing such renewed ration the date on which such book shall become valid. Such date shall be the day following the expiration date of the current ration.

(d) Except as provided in §§ 1394.8052 and 1394.8053, no ration of any class may be renewed for use prior to (or may be used prior to) the expiration of the current ration of the same class.

§ 1394.8052 *Issuance of further ration for use prior to expiration date of current ration.* (a) Any person who finds that, due to a change in occupation or in the location of place of business or residence, or other change in circumstances, or due to seasonal variation in the amount of occupational mileage needed, or miscalculation of needs, a ration of any class (other than a basic ration) issued to him fails to meet his requirements, may apply for a further ration of such class for use prior to the expiration date of his current ration. Such application shall be made in the same manner as the application for the current ration.

(b) The applicant shall append to the application a statement showing:

(1) That the current ration is insufficient to meet his needs for more than thirty (30) days from the date of the application;

(2) The reason or reasons why a further ration will be needed for use prior to the expiration date of the current ration.

(c) If the Board determines that, for one or more of the reasons specified in paragraph (a) of this section, more mileage is needed or, in the case of a non-highway ration, more gasoline is required, than that stated in the application on the basis of which the current ration was issued, it may grant a further ration in accordance with the provisions of paragraph (b) of § 1394.8054.

(d) No further supplemental ration under § 1394.7705, or official or fleet ration under § 1394.7755, or non-highway ration, shall be granted, pursuant to this section, which would permit the applicant to exceed the maximum mileage or gallonage to which he would be entitled under the provisions of paragraph (b) of § 1394.7704, or paragraph (b) of § 1394.7754, or § 1394.7904 as the case may be. No further transport ration shall be granted pursuant to this section which would allow a vehicle or fleet for the operation of which a Certificate of War Necessity is required more gasoline than the maximum amount authorized by the Certificate of War Necessity issued for such vehicle or fleet.

§ 1394.8053 *Special cases.* (a) Any person to whom a ration of a class specified in paragraph (b) of this section has been issued, who finds that the vehicle or vehicles for which such ration was granted cannot be operated for fifteen (15) miles (or, in the case of a motorcycle, for forty (40) miles) or more on a gallon of gasoline, may apply for a further ration for use prior to the expiration of such current ration.

(b) Such application shall be made in the same manner as the application for the current ration and may be granted only if such current ration is in one of the following categories:

(1) A supplemental ration based on an allowed mileage in excess of 470 miles per month;

(2) An official or fleet ration, issued pursuant to § 1394.7755.

(3) A transport ration other than one issued on the basis of a Certificate of War Necessity.

(c) The applicant shall append to the application a statement showing:

(1) That the current ration is insufficient to meet his needs for more than thirty (30) days from the date of the application;

(2) The nature of the use of the vehicle or vehicles for which the further ration is sought and the driving conditions under which such vehicle or vehicles are operated;

(3) The reason or reasons why a further ration is sought for use prior to the expiration of the current ration;

(4) That the vehicle or vehicles for which the application is made are in sound mechanical condition and are being operated in such manner as to secure maximum economy of gasoline.

(d) If the Board determines that the vehicle or vehicles for which application is made are being operated in such fashion as to obtain the maximum mileage per gallon of gasoline reasonably possible, it may grant a further ration in accordance with the provisions of paragraph (b) of § 1394.8054.

(e) No further supplemental ration under § 1394.7705, or official or fleet ration under § 1394.7755, shall be granted, pursuant to this section, which would permit the applicant to exceed the maximum mileage to which he would be entitled under the provisions of paragraph (b) of § 1394.7704, or paragraph (b) of § 1394.7754, as the case may be.

§ 1394.8054 *General provisions.* (a) All of the provisions of Ration Order No. 5C applicable to the issuance of an original ration shall apply to the renewal of a ration and to the issuance of a further ration pursuant to §§ 1394.8051, 1394.8052 and 1394.8053, except as otherwise expressly provided in those sections.

(b) Except as provided in paragraph (c) of this section, when granting a further ration for use prior to the original expiration date of a current ration, pursuant to the provisions of §§ 1394.8052 or 1394.8053, the Board shall redetermine the expiration date of such current ration. Such redetermination shall be based on the Board's estimate of the date on which such current ration will be exhausted. The Board shall thereupon note such redetermined expiration date on the application for such current ration and on the coupon books issued therefor. The redetermined date shall be deemed the expiration date of such current ration for all the purposes of Ration Order No. 5C. The further ration shall then be issued in accordance with the provisions of paragraph (c) of § 1394.8051.

(c) When granting a further ration as a transport ration for use prior to the expiration date of the current ration the Board shall allow subject to the provisions of paragraph (d) of § 1394.8052, the amount of gasoline required by the applicant prior to the expiration of the calendar quarterly period during which the further ration is to be used.

Expiration, Revocation and Redetermination of Rations

§ 1394.8101 *Surrender of expired coupons.* (a) No ration may be used and no coupon book shall be valid for the transfer of gasoline to a consumer after the expiration thereof.

(b) The person to whom a ration has been issued shall, within five (5) days after the expiration thereof, surrender to the issuing Board all unused coupons representing such ration.

§ 1394.8102 *Expiration of rations.* All basic rations shall expire at midnight, July 21, 1943. All transport rations shall expire at midnight of the last day of the calendar quarterly period for which they are issued except that transport rations issued for use prior to January 1, 1943, shall expire at midnight, March 31, 1943. Other rations shall expire as noted on the books or applications.

§ 1394.8103 *Expiration of rations upon cessation of use, change in ownership, revocation of Certificates of War Necessity.* (a) Upon cessation of use or change of ownership of any vehicle, boat or equipment, any ration issued for such vehicle, boat or equipment shall expire and all unused coupons and books issued therefor shall, within five (5) days after such cessation or change, be surrendered to the issuing Board, by the person to whom such ration was issued. The transferee of such vehicle, boat or equipment may apply for a ration therefor on his own behalf, in accordance with the applicable provisions of Ration Order No. 5C: *Provided*, That such transferee may not obtain a ration unless a bona fide transfer is involved.

(b) Upon cessation of use of a ration (other than a basic ration) for a purpose for which such ration may be obtained, such ration shall expire and all unused coupons and books issued therefor shall, within five (5) days after such cessation, be surrendered to the issuing Board by the person to whom such ration was issued.

(c) Upon revocation by the Office of Defense Transportation of any Certificate of War Necessity all rations issued for use with the vehicle or vehicles to which such certificate pertains shall expire.

§ 1394.8104 *Coupon books property of Office of Price Administration; Summary revocations.* (a) All coupon books, bulk coupons, inventory coupons, and other evidences are, and when issued shall remain, the property of the Office of Price Administration. The Office of Price Administration may refuse to issue, and may suspend, cancel, revoke, or recall any ration and may require the surrender and return of any coupon book, bulk coupon, inventory coupons or other evidences during suspension or pursuant to revocation or cancellation, whenever it deems it to be in the public interest to do so.

(b) Upon certification by the Office of Defense Transportation that any person to whom a ration has been issued has been bound by it to have violated an order of such Office, and upon recommendation by such Office that a ration or any part thereof, issued to such person, be revoked, the Office of Price Administration may revoke such ration, or such part thereof, pursuant to the provisions of paragraph (a) of this section.

(c) In the event that any person to whom a ration has been issued is convicted by a court of competent jurisdiction of driving a motor vehicle at a speed in excess of thirty-five (35) miles per hour, the issuing Board, upon receipt of a certified copy of the judgment of conviction or other official certification as to the fact of such conviction, may revoke the ration of such person and order such person to surrender to it all of his coupons or coupon books.

(d) Any ration issued to a person not entitled thereto on the basis of the facts stated in the application, may be revoked by the issuing Board, and the Board may order that any coupons or coupon books issued therefor be surrendered. If the Board finds that the holder is entitled to a ration of a different class or quantity than that issued, it shall issue such ration in lieu of the ration revoked.

§ 1394.8105 *Revocation of ration after hearing.* (a) When any Board has reason to believe that any holder of a ration has used a special ration issued under Ration Order No. 5A or Ration Order No. 5C for a purpose other than that for which such ration was issued, or used any other ration issued under Ration Order No. 5A or Ration Order No. 5C for a purpose other than one for which such ration could be obtained under Ration Order No. 5A or Ration Order No. 5C, or has violated the provisions of §§ 1394.8171, 1394.8175, or 1394.8181, it, or any other Board acting at its request, may serve written notice of hearing upon such person. Such notice shall be served at least three days prior to the date fixed for such hearing. The notice shall state the time and place of the hearing, the charges against the holder of the ration, and the purpose for which the hearing is to be held. If the holder of the ration admits the charges or fails to appear at the hearing, or if the Board determines on the basis of the evidence presented before it at the hearing that such person has committed any of the acts specified above, the Board shall by order revoke, for a period which shall be stated therein, the rations issued to him in whole or in part and direct him to surrender to it the coupons or coupon books issued to him to the extent required to make such revocation effective: *Provided*, That if any person whose ration was revoked for failure to appear at the hearing shows good cause to the Board for such failure, within five days from the effective date of the order, the revocation of his ration shall be cancelled and the Board shall grant him a full hearing on the charges made. A copy of the order of revocation shall promptly be served on the holder of a ration personally or by mail directly to his last known address, and copies thereof shall be sent to the District and State offices which have jurisdiction over the area in which the Board is located. Such order shall, if personally served, become effective twenty-four (24) hours after such service, and if served by mail, three (3) days after the date of mailing. The Board may designate one or more of its members to perform the functions prescribed in this paragraph.

(b) Any person against whom an order has been issued pursuant to the provisions of paragraph (a) of this section may, within five (5) days after the effective date thereof, request a hearing on the charges and a review of such order by filing a statement of objections to the order with the Board which issued it. Within three (3) days after receipt of the statement the Board shall forward it, together with the application and a copy of the notice served to the District Office, or if there is no District Office with jurisdiction over the area in which the Board is located, to the State Director. Within three (3) days after receipt of such statement from the Board the District Manager, or the State Director, as the case may be, shall set a date for a hearing on the charges and at least three (3) days prior to the hearing notify the holder of the ration personally or by registered mail directed to his last known address of the time and place set for the hearing. Such hearing shall be conducted by a presiding officer appointed by the Regional Administrator or by such person as he may designate to make such appointment. The presiding officer may administer oaths and affirmations and rule on the admission and exclusion of evidence. The provisions of paragraphs (b) (3) and (4) of § 1394.8109 shall apply in the conduct of such hearing.

If after such hearing it is determined by the District Manager, or State Director (as the case may be), that the ration holder has used a special ration for a purpose other than that for which it was issued or any other ration for a purpose other than the one for which such ration could be obtained or has violated the provisions of §§ 1394.8171, 1394.8175 or 1394.8181, he shall affirm the order or modify it to provide for such revocation in whole or in part as he shall deem appropriate. If he finds that the charges have not been proved he shall rescind the order. A copy of his decision shall promptly be served upon the person against whom the order was issued and upon the Board.

(c) The District Manager or the State Director, as the case may be, may for good cause shown upon application by the holder of the ration, stay or suspend the operation of any order issued pursuant to the provisions of paragraph (a) of this section pending the hearing and determination of the proceedings provided for in paragraph (b) hereof.

(d) An appeal from an affirmance or modification of the order of the Board may be taken by the holder of the ration by filing in the Office of the Secretary, Office of Price Administration, Washington, D. C., a notice of appeal, which may be accompanied by any affidavits or briefs which the person filing the notice desires to submit. Within a reasonable time after the filing of the notice of appeal, the Administrator, or such person as he may designate for such purpose, shall affirm, modify, rescind or stay the order, or direct that a further hearing be held.

(e) Whenever an order issued by a Board pursuant to the provisions of this section has been rescinded or modified, the Board shall, if any part of the ration has been surrendered, reissue all or part of such ration for the remaining portion of the period for which such ration was originally issued, or shall order the surrender of additional evidences, in accordance with the decision modifying such order.

§1394.8106 *Effective period of order revoking ration.* Whenever any Board, pursuant to the provisions of § 1394.8104 (b) or (c) or §1394.8105 (a), has revoked the ration of a ration holder in whole or in part, no ration shall be issued to such person or to any other persons for his use, and no ration theretofore issued to him or to any other person for his use shall be renewed during the period of such revocation, except in accordance with the provisions of such order, or as otherwise provided in Ration Order No. 5C.

§ 1394.8107 *Restoration of revoked rations upon application* A person whose ration has been revoked in whole or in part and who has surrendered coupons and coupon books to any Board as required by an order of the Board pursuant to the provisions of §§ 1394.8104 (c) or 1394.8105 (a) may apply in writing to the State Director for a restoration of his ration. Such application shall be granted if the State Director finds that the violation on the basis of which such ration has been revoked was excusable under the circumstances, or that the reissuance of the ration is necesary to the war effort or in the interest of public health or safety. In such case, the State Director shall direct the Board which revoked such ration to issue to such person, and such Board shall issue, any ration to which he may be entitled under the provisions of Ration Order No. 5C.

§ 1394.8108 *Presentation of registration cards upon revocation of ration and notations thereon.* Whenever a ration is revoked in whole or in part and the person to whom such ration has been issued is directed to surrender any coupons or coupon books pursuant to the provisions of Ration Order No. 5C, such person shall, if the ration was issued for the operation of a motor vehicle, present the registration card or registration certificate, if any, of the motor vehicle for which such ration was issued, at the time of surrendering to the Board such coupons or coupon books. The Board shall make a clear notation in ink, indelible pencil, or by typewriter on the back of the motor vehicle registration card or certificate stating that such ration has been revoked, or, if it has been revoked in part, the extent to which it has been revoked.

§ 1394.8109 *Authority of Regional Administrators, State Directors and District Managers to suspend and revoke rations and require the surrender of coupon books and coupons.* (a) The several Regional Administrators of the Office of Price Administration within their respective regions, and such State Directors or District Managers as may be designated by the Regional Administrators for such purpose, are authorized to determine whether any ration, coupon book, or any bulk, inventory, or other coupon (whether or not such book was issued as a ration book and whether or not such coupon was issued as a ration or as part of a ration book) should be suspended, cancelled, revoked, recalled, or surrendered, and may, after a hearing held in accordance with the provisions of this section, suspend, cancel, revoke, recall, or require the surrender of any such ration, coupon book, or coupon in any case in which the Regional Administrator, State Director, or District Manager, as the case may be, finds either:

(1) That a ration holder was not entitled to receive the ration issued; or

(2) That a ration holder has violated any provision of Ration Order No. 5A or 5C; or

(3) That a person has transferred, assigned, received or accepted, or has in has possession any coupon book or coupon (whether or not such book was issued as a ration book and whether or not such coupon was issued as a ration or a part of a ration book) otherwise than in accordance with the provisions of Ration Order No. 5A or 5C.

(b) (1) The hearing shall be conducted by a presiding officer who shall be appointed or designated by the Regional Administrator or such person as he may authorize to make such appointment or designation. The presiding officer shall preside at the hearing, administer oaths and affirmations, and rule on the admission and exclusion of evidence.

(2) Notice of any hearing to be held pursuant to this section shall be served on the respondent not less than three (3) days prior to such hearing. The notice shall state the time and place of the hearing, the charges against the respondent, and the purpose for which the hearing is to be held.

(3) The hearing shall be conducted by the presiding officer in such manner as will permit the respondent to present evidence and argument to the fullest extent compatible with fair and expeditious determination of the issues raised in the hearing. To this end:

(iii) The presiding officer, having due regard to the need for expeditious decision, shall afford reasonable opportunity for cross-examination of witnesses.

(4) A stenographic transcript of the hearing shall be made, a copy of which shall be made available to the respondent at his request upon the payment of a reasonable fee.

(5) A copy of any order issued pursuant to this section shall promptly be served on the respondent.

(c) Any holder of a ration against whom an order is issued pursuant to the provisions of this section, on the ground that he was not entitled to such ration on the basis of the facts stated in the application, may appeal to the Regional Administrator from an order of a District Manager or State Director, and to the Deputy Administrator in charge of Rationing from an order or decision of the Regional Administrator on such appeal. In making any such appeal the

appellant shall file with the official who issued the order appealed from, a statement in writing setting forth his objections to the decision and the grounds for the appeal. The statement must be filed not later than thirty (30) days after receipt of notice of the decision. Within five (5) days after receipt of the statement, such official shall send it to the official appealed to together with the entire record. The official appealed to may request the appellant to appear before him or to furnish such additional information as he may deem pertinent and shall render his decision on the appeal within five (5) days after receipt of the statement and record, and, in cases of apparent emergency, within twenty-four (24) hours, if possible. If such application is not available at the Board the Board shall require the applicant to file a new application. If the Board finds the applicant to be entitled, under Ration Order No. 5C to a ration of a different class or different allowed mileage than the ration held by him it shall require the applicant to surrender such ration and shall issue a ration of the class and mileage to which the Board finds the applicant to be entitled.

§ 1394.8152 *Transfers to consumers.* On and after November 22, 1942, and notwithstanding the terms of any contract, agreement, or commitment, regardless of when made, a dealer or distributor may transfer gasoline to a consumer, and a consumer may accept such transfer of gasoline, only in exchange for valid coupons, except as provided in §§ 1394.8154, 1394.8155, and 1394.8156.

(1) At the time of transfer, the transferor must require presentation of the coupon book and must detach therefrom coupons having an aggregate unit value equal to the amount of gasoline transferred: *Provided,* That if the transferee is able to accept only a portion of the amount of gasoline represented by the unit value of a coupon, the transferor shall nevertheless detach an entire coupon. No transfer may be made pursuant to this paragraph in exchange for a coupon detached prior to the presentation of the coupon book to the transferor.

(2) Transfer may be made only into the fuel tank of a motor vehicle identified on the coupon book presented and only if a sticker coresponding to the class of book presented is conspicuously displayed on such vehicle, as required by the provisions of § 1394.8165, except that on presentation of a Class A book, transfer may be made into the fuel tank of a motor vehicle on which a Class B, or C sticker is displayed: *Provided,* That if such book bears a notation by a Board indicating that bulk transfer is authorized, a bulk transfer may be made in exchange for coupons in such book: *Provided further,* That bulk transfer may also be made, of an amount of gasoline not in excess of one unit, to enable a vehicle stranded for lack of fuel to reach a source of supply; in such case the transferor shall retain the ration book presented until the vehicle is brought to the place of transfer for identification.

(3) Transfer may be made only during the valid period noted on the cover of the book presented or, in the case of a Class A book, only during the period of validity of the coupon in exchange for which the transfer is to be made.

§ 1394.8154 *Transfers in exchange for Acknowledgment of Delivery.* Transfer may be made in exchange for an acknowledgment of delivery, on Form OPA R–514, or OPA R–544 Revised, or in exchange for an emergency acknowledgment issued in lieu thereof, in accordance with the provisions of § 1394.7952.

§ 1394.8155 *Transfers for export.* (a) Any person (other than a licensed distributor) who desires to obtain gasoline for export to any insular or territorial possession of the United States, or to any foreign country, may execute and submit Part A of an Export Certificate on Form OPA R–560, in duplicate, to any Board. Such certificate shall state the amount of gasoline required for export, the proposed date and port of exportation and the name and address of the person desiring to export the gasoline. The Board shall retain the duplicate copy of the certificate and shall endorse and return the original copy to such person. The original copy, bearing the endorsement of the Board, shall constitute an evidence to authorize the transfer of the amount of gasoline stated thereon: *Provided,* That such certificate bearing the endorsement of an authorized official of the Federal government or any agency thereof shall be valid without endorsement by a Board, as an evidence to authorize the transfer to such government or agency for the purpose of export, or for re-transfer by such government or agency for such purpose.

(b) Within thirty (30) days after submission to and endorsement of such certificate by a Board, the person who has acquired gasoline pursuant to the provisions of paragraph (a) of this section shall submit to the Board which endorsed the certificate, a copy of a Shippers' Export Declaration (Commerce Form 7525) bearing the notation of an authorized customs official that to the best of his knowledge and belief the amount of gasoline thereon stated has been exported. The Board shall attach the copy of the declaration submitted to the copy of the certificate on file. If the Board is not satisfied with the authenticity of the copy of the declaration, or in the event none has been presented to the Board within thirty (30) days after endorsement of the certificate, the Board shall send the file of the case to the Office of Price Administration in Washington, D. C., for investigation.

(c) Any dealer or intermediate distributor who has exported gasoline from within the limitation area, or who has exported gasoline from outside the limitation area on or after November 22, 1942, to an insular or territorial possession of the United States or to a foreign country, who has not acquired such gasoline pursuant to the provisions of paragraph (a) of this section, may obtain replenishment for the amount of gasoline exported by executing and presenting to a Board Part B of an export certificate on Form OPA R–560 submitting therewith a copy of a Shippers' Export Declaration (Commerce Form 7525), bearing the notation of an authorized customs official that to the best of his knowledge and belief the amount of gasoline thereon stated was so exported. The Board, if it is satisfied with the authenticity of the copy of such declaration, shall endorse such certificate and return it to such person, and shall retain a copy of the declaration for its files. Such certificate bearing the endorsement of a Board shall be valid to authorize a transfer of the amount of gasoline thereon stated, and may be used by the transferor of such gasoline as evidence for purposes of replenishment.

(d) No person acquiring gasoline pursuant to the provisions of paragraph (a) of this section may use such gasoline for any purpose other than for export to an insular or territorial possession of the United States or to a foreign country.

(e) Nothing in this section shall be construed to authorize the export of gasoline other than in accordance with the laws of the United States and the rules and regulations of the Board of Economic Warfare or of any other department or agency of the United States.

§ 1394.8156 *Emergency transfers.* (a) Transfer may be made in exchange for an emergency receipt on Form OPA R–555, of the amount of gasoline stated thereon, subject to the provisions of paragraphs (b) and (c) of this section.

(b) Any person requiring gasoline in order to meet an emergency involving serious threat to life, health or valuable property, may obtain such gasoline by signing an emergency receipt on Form OPA R–555, in duplicate, and stating thereon the emergency purpose for which such gasoline is required and the reason why he is unable to present coupons in exchange for such gasoline. If such gasoline is required for use in a registered motor vehicle, he shall also state the license number of the vehicle in which such gasoline is to be used.

(c) Any dealer or distributor who has transferred gasoline in exchange for an emergency receipt, shall transmit such emergency receipt, in duplicate, to the Board having jurisdiction over the area in which his place of business is located. The Board, if it is satisfied that such dealer or distributor made a transfer, in good faith, of the amount of gasoline specified in such emergency receipt, shall issue to him, in exchange therefor, inventory coupons equal in gallonage value to the amount of gasoline so transferred. The Board shall retain one copy of such receipt in its own files and shall transmit the second copy to the Board having jurisdiction over the area in which the transferee resides, as stated on the receipt. If the Board is not satisfied that such dealer or distributor made a transfer, in good faith, of the amount of gasoline specified in such emergency receipt, it shall not issue to him any inventory coupons therefor. In such case, the Board shall return one copy of the emergency receipt to the dealer or distributor, and shall transmit the second copy of such receipt to the State Director for appropriate action.

(d) Any Regional Administrator of the Office of Price Administration who finds that there has been such delay in the issuance of rations as of November 22, 1942, as to jeopardize the movement of trucks, busses, or other essential vehicles for which no basic ration is issuable, may by declaration designate the States within his region in which such delay has occurred and specify the types of vehicles affected thereby. Such declaration shall continue in effect until December 4, 1942, or such earlier date as he may determine. During the effective period of such declaration, the operator of a vehicle of a type specified therein, licensed or operated in a State designated therein, may acquire gasoline for use in such vehicle by signing an emergency receipt on Form OPA R–555, in duplicate: *Provided,* That gasoline may be so acquired for a vehicle only during the interval between the date of application for a ration for such vehicle and the date of receipt or denial of such ration. Any dealer who has made a transfer of gasoline in exchange for an emergency receipt pursuant to this paragraph shall transmit such receipt, in duplicate, to the Board having jurisdiction over the area in which his place of business is located and such Board shall issue inventory coupons to him, in exchange for such receipt, in accordance with the procedure specified in paragraph (c) of this section.

§ 1394.8157 *Transfer of vehicle, boat or equipment.* Nothing in Ration Order No. 5C shall be deemed to forbid the transfer of gasoline in the fuel supply tank of a vehicle, boat or equipment, in conjunction with a lawful and bona fide transfer of such vehicle, boat or equipment; or the use by the transferee in such vehicle, boat or equipment of gasoline actually in the fuel supply tank thereof at the time of transfer.

§ 1394.8158 *Transfer of consumer establishments; transfer by operation of law.* (a) Nothing in Ration Order No. 5C shall be deemed to forbid the transfer of gasoline actually in a storage tank or other container maintained by a consumer as part of an enterprise or establishment, in conjunction with a lawful and bona fide transfer of such enterprise or establishment itself, or a transfer of gasoline by legal process or operation of law.

(b) Any person to whom a transfer of the character described in paragraph (a) is made, shall forthwith report such transfer and the amount of gasoline involved, to the Board having jurisdiction over the area in which such gasoline is located. Such person, if a dealer or distributor, shall surrender to the Board, together with such report, coupons or other evidences having a value equal to the number of gallons of gasoline transferred. Such person, if not a dealer or distributor, may either:

(1) Transfer all or any part of such gasoline in exchange for coupons or other evidences having a value equal to the number of gallons of gasoline so transferred: *Provided,* That such coupons or other evidences shall forthwith be surrendered by him to the Board for cancellation; or

(2) Consume such gasoline to the extent of any gasoline ration issued to him: *Provided,* That he may consume such gasoline only for the purpose for which such ration may be issued or, in the case of a special ration, for a purpose for which such ration was issued and shall surrender to the Board, for cancellation, coupons equal in value to the amount of gasoline consumed or to be consumed.

§ 1394.8159 *Rights of parties to contracts for transfer of gasoline.* If the performance of any contract or agreement for the transfer of gasoline is prevented by Ration Order No. 5A or 5C, no party thereto shall be liable for failure to perform such contract or agreement: *Provided,* That any persons who has received or has had the benefit of any deposit or other consideration on account of such contract, shall be liable upon demand to return such deposit or other consideration or to pay the fair value thereof, in the event the consideration has been materially altered in condition or cannot be returned.

§ 1394.8160 *Signature on coupon book.* No coupon book may be used until the person to whom such book is issued has signed the certification provided for therein.

PROHIBITED ACTS

§ 1394.8161 *General restrictions on use.* (a) No person to whom a special ration has been issued may use or permit the use of such ration for any purpose other than the one for which it was issued. No person to whom a supplemental, official, fleet, or non-highway ration, or ration issued pursuant to the provisions of § 1394.7757, has been issued may use or permit the use of such ration for a purpose other than one for which such ration could be obtained pursuant to the ration order under which it was issued.

(b) No transport ration issued for a vehicle for the operation of which a Certificate of War Necessity is required may be used other than for a purpose permitted by, or to an extent greater than that permitted by, the Certificate of War Necessity issued for such vehicle.

§ 1394.8162 *Change of occupation of ration holder.* The holder of a ration based on allowed mileage in excess of 470 miles per month shall report to the issuing Board any change in the principal occupation for the pursuit of which such ration was issued. Such report shall be transmitted to the Board within five (5) days after such change and shall describe fully the nature of the new occupation, the exact type of work performed, the business or industry in which such work is performed, and the purpose, if any, for which the motor vehicle will be used in such new occupation. If, on the basis of such report, the Board finds reason to believe that such motor vehicle will no longer be used for a preferred purpose listed in § 1394.7706, it shall notify such holder, in writing, that his right to such ration is to be reexamined. Such notice shall be mailed to such holder at the address shown on his application (or at the address shown on his report), and shall require him to file a new application for a ration within ten (10) days after the mailing date shown on such notice. If no new application is filed within such time, the Board shall revoke such ration and shall recall all Class C books or coupons (or Class D books or coupons based on an allowed mileage in excess of 470 miles per month) issued in connection therewith. If a new application is filed, and if the Board determines that the motor vehicle will be used for a preferred purpose listed in § 1394.7706, it shall take no further action. If the Board finds that the vehicle will no linger be used for a preferred purpose listed in § 1394.7706, it shall revoke the ration and recall the coupons or coupon book originally issued and shall issue, in lieu thereof, such ration (if any) as it determines that the holder is entitled to receive on the basis of his new application and in accordance with the provisions of §§ 1394.7705 or 1394.7755, as the case may be.

§ 1394.8163 *Restriction on use of rations or gasoline for racing or exhibition purposes.* No ration shall be issued or used, and no gasoline shall be used, or knowingly transferred for use, for the operation of any boat in the limitation area, or in the States set forth in § 1394.7904 (b), or of any motor vehicle in exhibitions or races for public entertainment or prizes.

§ 1394.8165 *Display of stickers.* No person may use a Class A, B, C, T–1 or T–2 coupon book, other than one representing a special ration, issued for a registered or commercial motor vehicle unless a sticker identifying the class of ration issued for use with such vehicle, in such form as may be prescribed by the Office of Price Administration, is affixed to and conspicuously displayed on such vehicle. Such sticker shall be displayed on such vehicle at all times, but the display of such sticker shall be in accordance with the laws of the State in which such vehicle is operated. A person to whom any ration in addition to a Class A ration has been issued shall display only the sticker identifying such additional ration.

§ 1394.8166 *Restrictions on blending of gasoline.* No person other than a licensed distributor or a consumer shall blend, dilute, or otherwise mix gasoline with any other liquid or combustible, and no person shall knowingly transfer or accept a transfer of gasoline blended, diluted, or mixed in violation of this section.

§ 1394.8167 *Restrictions on consumption of gasoline.* (a) Except as provided in § 1394.8157, no person shall consume gasoline unless such gasoline was acquired by him or on his behalf in exchange for valid coupons or other valid evidences authorizing a transfer to a consumer: *Provided,* That:

(1) Any consumer may use for non-highway purposes (other than non-occupational boat operations in the limitation area and in the States set forth in § 1394.7904) gasoline owned by him and in his possession within the limitation area prior to August 22, 1942, or without the limitation area prior to November 22, 1942.

(2) Any consumer may use gasoline owned by him and in his possession within the limitation area prior to August 22, 1942, or without the limitation area prior to November 22, 1942, for the operation of a registered or commercial motor vehicle, or for non-occupational boat operation in the limitation area and in the States set forth in § 1394.7904 (b) if, at the time of transfer of such gasoline into the fuel tank of such vehicle or boat, he destroys currently valid coupons issued therefor equal in value to the number of gallons of gasoline so transferred: *Provided,* That, gasoline placed in the fuel supply tank of such vehicle or boat within the limitation area prior to August 22, 1942, or without the limitation area prior to November 22, 1942, may be used therein without restriction.

(b) The provisions of this section shall not be applicable to the consumption of gasoline by the Army, Navy, Marine Corps, Coast Guard or Maritime Commission or the War Shipping Administration of the United States.

§ 1394.8168 *Transfers from fuel tank to fuel tank of vehicles and boats forbidden.* No gasoline contained in the fuel tank of any motor vehicle, inboard motorboat, outboard motor or non-highway equipment shall be transferred therefrom to the fuel tank of any registered or commercial motor vehicle, or of any inboard motorboat or outboard motor operated for nonoccupational purposes in the limitation area or in the States set forth in § 1394.7904 (b).

§ 1394.8169 *Discrimination by dealers and distributors.* (a) On and after November 22, 1942, no distributor shall discriminate in the transfer of gasoline among distributors or dealers lawfully entitled to acquire gasoline under Ration Order No. 5C. Any refusal on the part of a distributor to transfer gasoline to a distributor or dealer to whom he has made a transfer on or subsequent to May 15, 1942, shall be prima facie evidence of a discrimination: *Provided,* That nothing herein shall be construed to require a transfer of gasoline which would result in a violation of any statute enacted or contract made to protect a trade-mark or trade name; nor a transfer to any dealer or distributor of an amount of gasoline in excess of that permitted by any regulation or order of any department or agency of the United States.

(b) On and after November 22, 1942, no dealer or distributor shall discriminate, in the transfer of gasoline, among any consumers lawfully entitled to acquire gasoline under the provisions of Ration Order No. 5C.

§ 1394.8170 *Mileage limitation.* No passenger automobile shall be operated in excess of mileage which can be obtained in the vehicle on the basis of the ration issued for use with such vehicle.

§ 1394.8171 *Limitation on speed.* (a) No person shall use or permit the use of gasoline in the operation of a motor vehicle at any rate of speed in excess of thirty-five (35) miles per hour.

(b) This restriction shall not apply to the operation of a motor vehicle by the Army, Navy, Marine Corps, Coast Guard or by the State military forces organized pursuant to section 61 of the National Defense Act, as amended, or to meet an emergency involving serious threat to life, health or public safety.

§ 1394.8172 *Tire certification, inspection and surrender of excess tires.* After December 12, 1942, no person shall use or permit the use of gasoline in a passenger automobile or motorcycle for which a basic, supplemental, fleet or official ration, or a ration pursuant to the provisions of § 1394.1309 of Ration Order No. 5A or § 1394.7757 of Ration Order No. 5C has been issued, unless a certification of passenger-type tires has been filed under § 1394.8009 of Ration Order No. 5C, nor unless a tire inspection record has been issued and is currently maintained as required by the Office of Price Administration; nor may gasoline be used on and after November 22, 1942, in any such passenger automobile or motorcycle, other than an official vehicle, if the registered owner (or, in the case of a ration issued pursuant to § 1394.1309 of Ration Order No. 5A or § 1394.7757 of Ration Order No. 5C, if the owner) of such vehicle owns passenger type tires other than tires reported on OPA Form R–17 or R–17 Revised or tires reported by a manufacturer to the War Production Board, or tires mounted (including one spare per motor vehicle) on motor vehicles or equipment. On and after

November 22, 1942, no person shall use or permit the use of gasoline in a motor vehicle for which a basic ration has been issued, if any person living in the household of the registered owner and related to such owner by blood, marriage or adoption owns passenger type tires other than tires reported on OPA Form R–17 or R–17 Revised, or tires reported by a manufacturer to the War Production Board, or tires mounted (including one spare per motor vehicle) or motor vehicles or equipment.

§ 1394.8173 *Use in violation of Ration Order 1A.* No person shall use gasoline for the operation of any motor vehicle which results in use of tires in violation of Ration Order No. 1A.

§ 1394.8174 *Tires unlawfully acquired.* No person shall use gasoline for the operation of any motor vehicle which results in use of any tire or tube acquired in violation of Ration Order No. 1A.

§ 1394.8175 *Abuse or neglect of tires.* No person shall use gasoline in a motor vehicle in such a manner as to result in abuse or neglect of any tire or tube. Driving of a motor vehicle beyond the point where tires are recappable may be found to be abuse within the meaning of this section.

§1394.8176 *Offers, solicitations, attempts, or agreements.* No person shall solicit, offer, attempt, or agree to do any act in violation of Ration Order No. 5C.

§ 1394.8177 *Rations not transferable.* (a) No person shall transfer or assign any ration, and no person shall accept such transfer or assignment.

(b) No person shall transfer or assign and no person shall accept a transfer or assignment of any coupon book or any bulb, inventory or other coupon (whether or not such book was issued as a ration book and whether or not such coupon was issued as a ration or as part of a ration book) or other evidence, except in accordance with the provisions of Ration Order No. 5C.

(c) No person shall have in his possession any coupon book or bulk, inventory or other coupon (whether or not such book was issued as a ration book and whether or not such coupon was issued as a ration or as part of a ration book) or other evidence, except the person, or the agent of the person, to whom such book, coupon, or certificate was issued or by whom it was acquired in accordance with the provisions of Ration Order No. 5C.

(d) Notwithstanding the provisions of this section, a ration, other than a special ration, may be used by anyone entitled to use the vehicle, boat or equipment for which it was issued, if such use is for a purpose for which such ration may be obtained and so long as there is no change in ownership of such vehicle, boat or equipment.

(e) The provisions of paragraphs (a), (b), and (c) of this section shall not be applicable to public officials acting in the performance of their official duties.

§ 1394.8178 *Mutilation, destruction, or counterfeiting of coupon books or certificates.* (a) No person other than a person authorized pursuant to Ration Order No. 5C shall deface, mutilate, alter, burn or otherwise destroy any coupon book or bulk, inventory or other coupons (whether or not such book was issued as a ration book and whether or not such coupon was issued as a ration or as part of a ration book) or other evidence.

(b) No person shall counterfeit or forge any coupon book, or bulk, inventory, or other coupon, or any other evidence.

(c) No person shall transfer, receive a transfer of, possess, or use any forged, altered, or counterfeited coupon book or bulk, inventory or other coupon or other evidence.

(d) Any defacement, mutilation or alteration of a coupon or ration book in violation of any provision of this section shall render such coupon or book and the coupons therein, invalid. The detachment of any coupon from a ration book, except in accordance with the provisions of § 1394.8153, shall render such coupon invalid.

(e) The provisions of paragraphs (a), (c), and (d) of this section shall not be applicable to public officials acting in the performance of their official duties.

§ 1394.8179 *Compliance with O. D. T. orders.* No person owning or controlling any motor vehicle shall use or permit the use of gasoline therein for operations in violation of any order, rule or regulation issued by the Office of Defense Transportation.

Any Board discovering such an untrue statement of fact, or any such omission to state any such fact shall report it and transmit the evidence thereof, to the State Director or District Manager for appropriate action, whether or not such Board has proceeded with respect thereto under the provisions of § 1394.8105.

Replenishment and Audit

REGISTRATION OF PLACE OF BUSINESS

§ 1394.8201 *Registration of inventory and capacity.* (a) Every dealer and intermediate distributor shall take a physical inventory of his total gasoline supplies on hand as of 12:01 a. m., November 22, 1942, and shall, on November 23 or 24, 1942, register (on Form OPA R–545) with the Board having jurisdiction of the area in which such a place of business is located, at the hours provided by the Board, the following matters, together with such other information as may be required:

(1) His name, firm name, business address and type of business.

(2) His total gasoline storage capacity.

(3) His total inventory of gasoline on hand as of 12:01 a. m., November 22, 1942.

(4) A certification as to the truth of each of the foregoing items of information.

(b) Separate registration shall be made by such dealer or intermediate distributor for each place of business operated by him at which gasoline is transferred, and shall be made at each respective Board having jurisdiction of the area in which each such place of business is located.

(c) Every licensed distributor who operates a place of business at which functions corresponding to those of a dealer or intermediate distributor are performed, and which, under the terms of § 1394.7551 (a) (17), is deemed to be a part of his facilities as a licensed distributor, and every person who receives gasoline from a licensed distributor on consignment for purposes of sale, shall register each such place of business (on Form OPA R–545) on November 23 and 24, 1942, with the Board having jurisdiction of the area in which each such place of business is located: *Provided,* That neither the inventory of gasoline on hand nor the gasoline storage capacity shall be registered, but only the name of the licensed distributor or consignee operating such place of business, a statement that the place of business is operated by a licensed distributor or by a consignee, and a certification as to the truth of this information.

(d) Notwithstanding the provisions of paragraph (a), (b) and (c) of this section, no dealer or distributor whose place of business has been registered with a Board pursuant to the provisions of Ration Order No. 5A shall, except as provided in §§ 1394.8220, 1394.8224, 1394.8225 and 1394.8226, again register such place of business or receive inventory coupons representing the unfilled gasoline storage capacity of such place of business: *Provided,* That any licensed distributor who registered, pursuant to the provisions of Ration Order No. 5A, facilities which, under the terms of § 1394.7551 (a) (17), are deemed for purposes of Ration Order No. 5C to be a part of his facilities as a licensed distributor, and received inventory coupons for the unfilled gasoline storage capacity of such facilities, shall reregister such facilities on November 23 or 24, 1942, as licensed distributor facilities, and surrender to the Board for cancellation inventory coupons or other evidences equal in gallonage value to the coupons originally issued to represent his unfilled gasoline storage capacity.

§ 1394.8202 *What constitutes gasoline on hand.* The registrant shall register all gasoline on hand, whether in storage tanks, tank trucks, tank cars delivered to railroad sidings, drums, or other containers, except gasoline in the fuel tank of a motor vehicle. The registrant shall not register gasoline in transit which did not arrive at his place of business prior to 12:01 a. m., November 22, 1942. Gasoline shipped to a dealer or intermediate distributor prior to November 22, 1942, but received by him at any time after November 21, 1942, shall be deemed to be gasoline transferred to him subsequent to November 21, 1942, and shall require an exchange therefor of coupons or other evidences in the manner provided in §§ 1394.8207 and 1394.8209.

§ 1394.8203 *What constitutes gasoline storage capacity.* The registrant shall register the total capacity of all immobile gasoline storage facilities, but not the capacity of tank trucks, tank wagons, drums or other movable containers: *Provided, however,* That a dealer or intermediate distributor who maintains no stationary gasoline storage tanks shall register the total capacity of all his delivery facilities.

§ 1394.8204 *Issuance of registration certificates.* The Board, on determining that the information submitted by the registrant is correct, and that the registrant is in fact engaged in business as a dealer or distributor, shall by authorized signature approve the certificate, file Part B thereof, and return Part A of the certificate to the registrant, who shall retain it as a certificate of registration at the place of business to which it applies, and shall present it as an identification at the time of transacting business with any Board.

§ 1394.8205 *Issuance of inventory coupons.* (a) The Board shall, at the time of its approval of the registration certificate of a dealer or intermediate distributor, issue to the registrant inventory coupons in an amount equal to the number of gallons, if any, by which the total gasoline storage capacity for each place of business exceeds the total inventory of gasoline on hand. A one-hundred gallon inventory coupon or a quantity of Class A coupons may at any time subsequent to registration be exchanged at any Board by a dealer or intermediate distributor for an equivalent amount of one-gallon inventory coupons.

(b) In any case in which the total inventory of gasoline on hand exceeds the total gasoline storage capacity of the registrant's place of business, the Board shall require the registrant to surrender for cancellation, and the registrant shall so surrender, at the earliest possible moment thereafter, consumer coupons or other evidences equal in gallonage value to the amount of gasoline by which his inventory of gasoline on hand as of 12:01 a. m., November 22, 1942 exceeds his total gasoline storage capacity.

§ 1394.8206 *Restriction on use of inventory coupons.* (a) Every dealer and intermediate distributor shall retain all inventory coupons issued to him at the place of business for which they were issued, and shall not exchange his inventory coupons except to the extent that any delivery exceeds the amount of consumer coupons or other evidences available for exchange: *Provided, however,* That one-gallon inventory coupons may be used to make up the difference between the number of gallons in any delivery and the number of gallons represented by the nearest composable sum of the values of consumer coupons or other evidences.

(b) Every dealer and intermediate distributor shall clearly write in ink on the reverse side of each inventory coupon issued to him, the name and address of his establishment as shown on his certificate of registration, and no inventory coupon shall be used in exchange for gasoline, and no gasoline may be transferred in exchange for inventory coupons, unless such notations appear on such coupons.

RESTRICTIONS ON TRANSFERS BETWEEN DEALERS AND DISTRIBUTORS

§ 1394.8207 *Restriction on transfers.* Except as provided in § 1394.8209, no dealer or distributor shall transfer or offer to transfer gasoline to any other dealer or distributor and no dealer or distributor shall receive a transfer of gasoline, except in exchange for a quantity of coupons or other evidences, at the time of the actual delivery of the gasoline or in advance thereof, equal in gallonage value to the amount of the gasoline so transferred, or, in cases in which gasoline is regularly transferred to him on a temperature adjustment basis, equal in gallonage value to the adjusted quantity of gasoline so transferred: *Provided, however,* That coupons or other evidences need not be exchanged for a transfer of gasoline between licensed distributors unless in the course of transit between such licensed distributors the gasoline is delivered to a dealer or intermediate distributor for redelivery to the transferee: *Provided further,* That transfers of gasoline may be made only in exchange for coupons bearing the notations required by paragraphs (d) and (e) of § 1394.8004 and paragraph (b) of § 1394.8206.

§ 1394.8208 *Same: Other applicable provisions.* Nothing in Ration Order No. 5C shall be construed to authorize any transfer of gasoline which would be in contravention of any regulation or order of any department or agency of the United States.

§ 1394.8209 *Absentee deliveries: Third party deliveries.* Where a distributor elects to make delivery of gasoline during hours when the transferee is not open for business, the transferee shall, where the exact amount of delivery is known in advance, mail or deliver in advance to the distributor, or, at the discretion of the distributor, within twenty-four (24) hours of delivery, coupons or other evidences equal in gallonage value to the amount, or adjusted amount, of the delivery. Where delivery of gasoline to a dealer or intermediate distributor is made by common or contract carrier or by pipe line, or where the billing for gasoline transferred is not received by the transferee at the same time as or prior to receipt of the transfer by him, the transferee shall, where the exact amount of the delivery is known in advance, mail or deliver in advance to his distributor coupons or other evidences equal in gallonage value to the amount, or adjusted amount, of the delivery, or may, at the discretion of the transferor, forward to the transferor within five (5) days after receipt of such delivery an amount of coupons or other evidences equal in gallonage value to the number, or adjusted number, of gallons so delivered.

§ 1394.8210 *Upstream transfers.* (a) Any distributor who receives a transfer or return of gasoline from a dealer or intermediate distributor, other than in connection with a transfer to him of the place of business of such dealer or intermediate distributor, shall deliver to such dealer or intermediate distributor a quantity of coupons or other evidences equal in gallonage value to the amount of gasoline so transferred or returned.

(b) Except as provided in paragraph (c) of this section, any dealer or distributor who receives a transfer or return of gasoline from a consumer, other than in connection with a transfer to him of the place of business of such consumer, shall deliver for cancellation to the Board having jurisdiction over the area in which the place of business of such dealer or distributor is located a quantity of coupons or other evidences equal in gallonage value to the quantity of gasoline so transferred or returned, together with a signed statement in duplicate setting forth the name and address of the consumer from whom the gasoline was acquired, and the quantity of gasoline so acquired. The Board shall retain the original of such statement in its files, and shall forward the duplicate thereof, through the State Director, to the Board having jurisdiction over the area in which such consumer is located, as shown on such statement. Any consumer who transfers or returns gasoline to a dealer or distributor may, if the gasoline so transferred or returned represents all or part of a ration issued to such consumer, apply, on the appropriate form, to the Board for reissuance of such ration or part thereof. Such application shall contain a statement of the nature and quantity of the ration originally issued, the name and address of the dealer or distributor to whom gasoline was transferred or returned, the quantity of gasoline so transferred or returned, and a certification as to the truth of such statements. If the Board finds that the consumer transferred or returned to a dealer or distributor gasoline originally issued to the consumer as a ration, that such ration has not yet expired, and that the consumer still requires such ration, it shall issue to the consumer coupon books or coupons of the same type as the ration originally issued equal in gallonage value to the quantity of gasoline so transferred or returned. The Board, at the time of issuance of such coupon books or coupons shall, in addition to such other notations as may be required, note on the face of the coupon books issued, and on the application, the expiration date of the ration, which shall be the same expiration date as that applicable to the ration originally issued.

(c) If gasoline is transferred by a military or naval post or station to a facility such as a post exchange or ships' service store for transfer to consumers for nonofficial use, and if such facility is a licensed distributor, such facility shall not surrender coupons or other evidences to a Board as required in paragraph (b) of this section, but shall merely attach coupons or other evidences acquired from consumers to its monthly State motor fuel tax report. If a military or naval post or station transfers gasoline directly to consumers such post or station shall execute a State motor fuel tax report in the manner required of licensed distributors, and shall attach thereto all coupons or other evidences acquired from consumers in exchange for such gasoline.

§ 1394.8211 *Preservation of coupons; Coupon sheets.* Each dealer and distributor shall affix all coupons received by him to a coupon sheet (Form OPA R–120) in the manner directed thereon, prior to any transfer of such coupons. Separate coupon sheets shall be maintained for coupons of each separate type, only coupons of the same class and gallonage value being attached to any one such sheet.

§ 1394.8212 *Preservation of acknowledgments; Summaries of acknowledgments.* Each dealer and distributor shall attach the acknowledgments of delivery delivered to him by authorized purchasers to a Summary of Coupons and Other Evidences (Form OPA R–541), on which he shall enter in order for each such acknowledgment the date of purchase, name of purchaser, and number of gallons sold.

§ 1394.8213 *Summary of Coupons.* Each dealer and distributor shall, prior to every delivery by him of coupons or other evidences, except exchange certificates, to a transferor of gasoline, prepare in duplicate on Form OPA R–541 a Summary of Coupons and Other Evidences in the manner directed thereon, certifying the number of each type of coupon or other evidences to be delivered. The original of this summary shall be delivered to the transferor attached to the coupons and other evidences. The copy shall be retained by him at his place of business for a period of not less than one year. All such summaries received by a distributor upon his delivery of gasoline to a dealer or intermediate distributor shall be recapitulated in his own summary, one such summary equalling the total gallonage represented by all coupons and other evidences (less the gallonage represented by exchange certificates, except as provided in § 1394.8214) forwarded by him. Summaries received by a distributor from dealers or intermediate distributors shall be included with the coupons and other evidences attached thereto when forwarded by him.

§ 1394.8214 *Exchange of coupons for certificates.* A distributor may at any time deliver to a Board coupons or other evidences (including exchange certificates) and obtain in return an exchange certificate or certificates equal to the gallonage value of the valid coupons or other evidences remitted. The remitter shall attach to such coupons or other evidences a Summary of Coupons and Other Evidences on Form OPA R–541, on which such evidences shall be listed by type and value, in addition to the summaries already attached thereto by the dealer or distributor from which such coupons or other evidences were received. In any case in which a distributor desires to exchange one or more exchange certificates for a greater number of exchange certificates, or certificates of different value, he shall, in addition to the summary for the certificates to be exchanged, prepare and submit summaries showing the types and values of the evidences to be represented by the exchange certificates to be issued. The Board shall furnish him in return one or more exchange certificates (Form OPA R–548) equal in gallonage value to the total gallonage value of the coupons or other evidences remitted by him: *Provided, however,* That every licensed distributor shall segregate all coupons or other evidences remitted by him according to the States to which are due the State motor fuel taxes on his own transfers which such coupons or other evidences represent, shall prepare a separate Summary of Coupons and Other Evidences for each such State, and shall receive from the Board a separate exchange certificate for each such State. The Board shall on request furnish more than one such certificate for transfers within any given State, each representing any fraction of the total gallonage value remitted for such State, so long as the sum of all such certificates equal the total gallonage value of the coupons or other evidences remitted. Exchange certificates shall be prepared in duplicate by the Board and shall be signed both by the distributor and by an authorized member or agent of the Board. The Board shall retain for its files the duplicate copy of each exchange certificate issued by it.

§ 1394.8215 *Transfer and surrender of expired coupons.* (a) No dealer shall accept from a consumer in exchange for a transfer of gasoline any Class S ration coupon issued pursuant to Ration Order No. 5A, or any Class A coupon the period of validity of which, as shown on the face thereof, has expired: and no such coupon shall be an evidence of any gallonage value, except on coupon sheets to which it has been attached prior, in the case of Class S coupons, to November 22, 1942, or in the case of Class A coupons, to the expiration of its period of validity.

(b) Every dealer or distributor who has in his possession or control any Class S ration coupons on or after November 22, 1942, or any Class A ration coupons the valid period of which has elapsed, shall dispose of such coupons in preference to others in his possession or control, when exchanging coupons for transfers of gasoline or for exchange certificates, or when otherwise disposing of coupons pursuant to the terms of Ration Order No. 5C.

(c) On and after December 2, 1942, but not later than December 7, 1942, in the case of Class S ration coupons, and on and after ten (10) days but not later than fifteen (15) days after the expiration dates of Class A ration coupons, each dealer or distributor who has in his possession or control Class S or expired Class A ration coupons shall surrender such coupons to the Board having jurisdiction over the area in which his place of business is located. The Board shall issue to a distributor in exchange for such coupons one or more exchange certificates, in accordance with the provisions of § 1394.8214. The Board shall issue to a dealer in exchange for such coupons inventory coupons equal in gallonage value to the coupons so surrendered. After December 7, 1942, in the case of Class S ration coupons, and after fifteen (15) days from the expiration date of any Class A ration coupon, such coupons are void, and no gasoline may be transferred in exchange therefor, and no exchange certificate, inventory coupons, or other evidence may be issued to a dealer or distributor in exchange for Class S or expired Class A ration coupons.

§ 1394.8216 *Certification of shortage.* Dealers and intermediate distributors shall be permitted from time to time to apply by certification (on Form OPA R–549) for replenishment for losses of gasoline through evaporation, handling, accident, or other extraordinary circumstance, and for unavoidable loss of coupons or other evidences. The certification of shortage shall be submitted to the Board having jurisdiction of the area in which such dealer or intermediate distributor has the place of business to which the shortage is to be attributed, and shall show the nature and quantity of such shortage with a full explanation of reasons therefor. If, on consideration of the certification presented and of such other facts as it may require of the applicant, the Board finds that the applicant has incurred the shortages claimed, that such shortages were not incurred as a result of any acts performed in violation of Ration Order No. 5A or 5C, and that any claimed shortage of gasoline is reasonable, the Board shall file the certification and issue to the applicant a quantity of inventory coupons equal to the amount of the proven shortage. A copy of the certification may be retained by the dealer or intermediate distributor for his records.

RECORDS AND AUDITS

§ 1394.8217 *Records to be kept by dealers and intermediate distributors.* At the time of making any delivery of gasoline to any dealer or intermediate distributor, every distributor shall furnish to such dealer or intermediate distributor an invoice, delivery ticket, or other customary evidence of transfer, showing the name and address of the transferee and the date and quantity of the transfer; and every such transferee shall retain at his place of business for a period of at least one year from the date of his receipt of such gasoline the invoice, delivery ticket, or other evidence so furnished him.

§ 1394.8218 *Reports by licensed distributors.* (a) Every licensed distributor shall prepare an additional copy of each of his monthly State motor fuel tax reports (and supporting schedules), which he shall submit to the State motor fuel tax administration at the time and

in the manner required by such administration for the usual monthly report, and shall attach to such copy a single exchange certificate, except as provided in paragraph (c) of § 1394.8210, in an amount equal to the total gallonage value of coupons or other evidences for which he is required to account for the period for which such return is made. Gasoline which has been shipped and billed in exact amount to a transferee during a calendar month, and which is included by the licensed distributor in the State motor fuel tax report for such month, shall be treated both by the transferor and transferee as gasoline transferred during such month, even though actual receipt of such gasoline by the transferee may take place during the following calendar month.

(b) The licensed distributor shall also prepare in triplicate a reconciliation statement (Form OPA R–550), reconciling the difference between the gallonage value of the exchange certificate so submitted and the total gallonage disposed of by him as reported by the tax return. He shall attach the original and one copy of the reconciliation form to the additional copy of his tax report, and shall retain the other copy of the reconciliation form at his place of business for a period of not less than one year; *Provided, however,* That, where special hardship results from the necessity of submitting the reconciliation form at the time that the State motor fuel tax report is due, application may be made, showing all relevant facts, to the Office of Price Administration, Washington, D. C., for leave to defer, for a period of not more than ten (10) days, the submission of the additional copy of his motor fuel tax report, the attached certificate, and the reconciliation form.

(c) Any licensed distributor who is not required by the State to which he is required to account for State motor fuel taxes to include his monthly opening and closing gasoline inventories in his motor fuel tax return shall take a physical inventory of his gasoline on hand at the beginning or ending of each month, and shall include in such inventory all gasoline in transit and billed to him. Such distributor, in addition to other information which may be required, shall include such monthly opening and closing gasoline inventories on the reconciliation form prepared by him.

(d) Licensed distributors required to make reports pursuant to Ration Order No. 5A for the month of November, 1942, shall make one combined report for such month including all transactions during such month covered by Ration Order No. 5A and Ration Order No. 5C. Licensed distributors not required to make reports pursuant to Ration Order No. 5A shall not make a separate report under Ration Order No. 5C for the month of November, 1942, but shall include all transactions from November 22 through November 30, 1942 in their report for the month of December, 1942, in accordance with the provisions of this section.

§ 1394.8219 *Audit by State motor fuel tax administration.* On completion of its usual office audit of a licensed distributor's monthly motor fuel tax report, each State motor fuel tax administration will by authorized signature either verify or note errors on the additional copy of the tax report received by it, will inspect the reconciliation form and attached exchange certificate in order to determine whether there are any apparent irregularities, and will retain the copy of the reconciliation form for its own files. It will, within the shortest possible time, forward the additional copy of the tax return, the attached certificates or other evidences and the original of the reconciliation form and supporting statements, to the Control and Audit Unit, Gasoline Rationing Branch, Office of Price Administration, Washington, D. C. In the event of discovery of any error, discrepancy, misrepresentation or other irregularity in the monthly report by later inspection or audits, the motor fuel tax administration will notify the Control and Audit Unit of all the facts relating to any such irregularity.

NEW REGISTRATIONS

§ 1394.8220 *Registration of new or reopened place of business.* Any dealer or distributor who opens or reopens a place of business not currently registered by such dealer or distributor under the provisions of § 1394.8201, shall, prior to receipt or transfer of any gasoline at such place of business, register such place of business in the manner provided in § 1394.8201, and shall be issued, if not a licensed distributor, inventory coupons equal in gallonage value to the total capacity of his unfilled gasoline storage facilities as of the time of registration.

§ 1394.8221 *Cessation of business.* Any dealer or intermediate distributor who ceases to operate as such, disposes of his stocks of gasoline, and closes his place of business without transferring it to another for continued operation, shall, at the time of final closing, deliver to the Board having jurisdiction of the area in which his place of business is located the certificate of registration of such place of business and a quantity of coupons or other evidences equal in gallonage value to the total capacity of the gasoline storage facilities of such place of business.

§ 1394.8222 *Acquisition of place of business from licensed distributor.* Any person acquiring a place of business from a licensed distributor for continued operation for the transfer of gasoline may accept a transfer of all gasoline on hand at such place of business. The transferee of such place of business shall obtain from such licensed distributor, and such distributor shall furnish, the certificate of registration, if any, for such place of business. The transferee shall, immediately after the transfer, deliver such certificate to the Board having jurisdiction of the area in which such place of business is located, and shall endorse such certificate of registration and the duplicate thereof on file with the Board. Such endorsement shall constitute a certification by the transferee that he has acquired the place of business described in such certificate and the total quantity of gasoline on hand at such place of business as of the time of transfer. The transferee shall then register as of the time of acquisition of such place of business in the manner provided in §§ 1394.8201 to 1394.8205, inclusive, at the Board having jurisdiction of the area in which such place of business is located, prior to receipt or transfer of any gasoline at such place of business.

§ 1394.8223 *Acquisition of dealer's or intermediate distributor's place of business.* Any person who acquires for continued operation for the transfer of gasoline a place of business from a dealer or intermediate distributor may accept a transfer of all gasoline on hand at such place of business. The transferee of such place of business shall, at the time of acquisition, obtain from such dealer or intermediate distributor, and such dealer or intermediate distributor shall furnish, the certificate of registration of such place of business and coupons or other evidence equal in gallonage value to the unfilled gasoline storage capacity as of the time of transfer of such place of business. The transferee of such place of business shall, immediately after the transfer, deliver to the Board having jurisdiction of the area in which the place of business is located, the certificate of registration so delivered, and, if the transferee is a licensed distributor, shall also deliver at such time the coupons or other evidence acquired by him from such dealer or intermediate distributor, and shall endorse such certificate of registration and the duplicate thereof on file with the Board. Such endorsement shall constitute a certification by the distributor that he has acquired from the transferor of such place of business the place of business described in such certificate, the total quantity of gasoline on hand at such place of business, and coupons or other evidences equal in gallonage value to the unfilled gasoline storage capacity of such place of business as of the time of transfer. The place of business so acquired shall be registered by the transferee in accordance with the provisions of §§ 1394.8201 to 1394.8205, inclusive, as of the time of acquisition thereof.

§ 1394.8224 *Surrender or revocation of license of licensed distributor.* Any licensed distributor who ceases to do business as such, although continuing in the business of transferring gasoline, shall, on the day on which he ceases to do business as a licensed distributor, register as a dealer or intermediate distributor, as the case may be, in the manner provided by §§ 1394.8201 to 1394.8205, inclusive, each of his places of business which has not already been so registered, certifying to the Board the total gasoline storage capacity of and the quantity of gasoline on hand at each such place of bussiness as of the date on which he ceased to do business as a licensed distributor.

§ 1394.8225 *Newly licensed distributor.* Any dealer or intermediate distributor who becomes a licensed distributor shall forthwith deliver to the Board having jurisdiction of the area in which such place of business is located the certificate of registration as a dealer or intermediate distributor of such place of business and coupons or other evidences equal in gallonage value to the total unfilled capacity of the gasoline storage facilities of such place of business as of the date on which he commenced operations as a licensed distributor, and shall register as a licensed distributor in accordance with the provisions of paragraph (c) of § 1394.8201.

§ 1394.8226 *Change of storage capacity.* Any dealer or intermediate distributor in any manner altering the total gasoline storage capacity of his place of business shall deliver for cancellation to the Board having jurisdiction of the area in which such place of business is located, his currently valid certificate of registration, and shall register for and obtain a new certificate of registration in the manner provided by §§ 1394.8201 to 1394.8204 inclusive. The Board shall attach to its copy of the new certificate the original and copy of the cancelled certificate. If the total gasoline storage capacity of the place of business is decreased, the dealer or intermediate distributor shall surrender to the Board a quantity of coupons or other evidences equal in gallonage value to the amount of such decrease. If the total gasoline storage capacity of such place of business is increased, the Board shall issue to the dealer or intermediate distributor a quantity of inventory coupons equal in gallonage value to the amount of such increase.

Any person who claims that a basic ration book was denied or was incorrectly issued to him by a registrar, by reason of an error in his application, may make a new application, to a Board, for a basic ration book. Application pursuant to this paragraph shall be made to the Board having jurisdiction over the area in which such original application was made, or in which the motor vehicle for which the application was made is customarily garaged or stationed.

(b) The Board shall obtain and examine the original application, or, if such original application cannot expeditiously be found, it shall require the applicant to prepare a duplicate of such application and to certify that it is an exact duplicate thereof. If the Board finds that an error was made, by the applicant or by the registrar, it shall issue a basic ration book, or correct the book issued by the registrar, or issue a new book in place of the one issued by the registrar, or take such other action in accordance with the provisions of Ration Order No. 5C, as may be necessary to correct the error. The Board shall, if it replaces a book, remove from the book issued by it coupons having a unit value equal, as nearly as possible, to the value in gallons of the coupons found to be detached from the book to be replaced.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[Ration Order 1A]

TIRES, TUBES, RECAPPING, AND CAMELBACK

Preamble. This Ration Order No. 1A is issued pursuant to the direction of the Rubber Director to carry out the recommendations of the report of the President's Special Committee to study the rubber situation.

The Committee's report states:

> We are faced with certainties as to demands; with grave insecurity as to supply. Therefore, this Committee conceives its first duty to be the maintenance of a rubber reserve that will keep our armed forces fighting and our essential civilian wheels turning. This can best be done by "bulling through" the present synthetic program and by safeguarding jealously every ounce of rubber in the country.

The Committee points out that the tires on civilian cars have been wearing down at a rate eight times greater than they have been replaced. If this rate were permitted to continue "by far the larger number of cars will be off the road next year and in 1944 there will be all but complete collapse of the 27 million passenger cars in America." The conservation program recommended by the Committee includes "more rubber to those who need it; less to those who don't. * * * Only actual needs, not fancied wants, can or should be satisfied."

This order, along with the new Mileage Rationing: Gasoline Regulations, (Ration Order No. 5C) puts into practice the various recommendations of the Committee. These recommendations include:

> 1. Immediate institution of a tire replacement and recapping program with the allocation of reclaimed rubber for that purpose.
> 2. Nation-wide gasoline rationing to hold the average annual mileage to 5,000 miles * * *
> 3. Prompt and strict enforcement of a nation-wide speed limit not exceeding thirty-five miles an hour * * *
> 4. Compulsory periodic tire inspection.

The Mileage Rationing: Tire Regulations (Ration Order No. 1A) controls the use, care and acquisition of tires, tubes, and recapping services for all types and classes of rubber borne motor vehicles.

Control over commercial motor vehicles is shared with the Office of Defense Transportation. The mileage to be allowed for and the consequent wear of tires by trucks, taxis and like vehicles used for transporting property or available for rental or hire will be determined by the Office of Defense Transportation and evidenced by Certificates of War Necessity. Whether or not such commercial motor vehicles shall receive tires or recapping services remains the responsibility of the Office of Price Administration. Tires and camelback for these vehicles require crude rubber. The present supply of tires and camelback for commercial motor vehicles is now gravely limited. It may not be possible, therefore, to furnish tires or recapping services for every vehicle for which a Certificate of War Necessity is issued by the Office of Defense Transportation, and only the most essential commercial motor vehicles can be designated as eligible for tires or recapping services.

The situation with respect to passenger automobiles, although acute, at present allows a less stringent solution. Unlike truck-type camelback, camelback suitable for recapping passenger automobile tires can be manufactured almost entirely from reclaimed rubber. By rationing all tires, new and used, and all recapping services, and by strictly controlling the mileage driven by passenger automobiles through gasoline rationing, we can, within quota limits periodically fixed, make it possible to provide tires or recapping services for essential mileage. All passenger automobile gasoline rations other than the basic ration are strictly tailored in accordance with need, with a maximum allowance of 470 miles of occupational driving for all who do not fall within those classes of essential users described in the preferred mileage list. The passenger automobile is an integral part of the nation's transportation system and must be kept running. As pointed out by the Committee: "Necessary civilian needs are a part of the war effort. With the increased availability of motor transportation men have moved their residences farther from their place of work. With the growth and spread of war plants and demands for war workers, housing facilities of city and town have become overcrowded, increasing the transportation needs of the country. Nor can public transportation systems alone meet that need. The Committee has remarked:

> We realize full well that beyond some point we cannot limit the amount of (passenger car) transportation * * * without severe effects on our war program. Indeed we have been given estimates that point to the fact that unless 50 percent of our normal car mileage can be maintained our normal productive effort would be seriously retarded.

In order to maintain our essential passenger-car mileage and to prevent a collapse of the transportation system, idle tires must be put to use. To protect that system, none may hoard. Tires must be spread among all who need them. To accomplish this every idle tire must be made available for use. The Government has undertaken a purchase plan designed to bring into the market and make available for use every idle tire. A second means of using to the greatest advantage our existing supply of tires, is to preserve and restore those tire carcasses that are in need of recapping. These tires if recapped in time can continue to be used for essential purposes; if not recapped in time they become useless scrap. As said by the Committee, "The nation is now driving on rubber borrowed from a happier past. Without recaps and replacements the majority of civilian cars would be forced off the road by irreplaceable tire failures."

Conservation measures to protect our present stock of rubber now on running wheels, both of commercial motor vehicles and passenger automobiles have been stressed by the Committee. As such a measure the Mileage Rationing: Tire Regulations institute a system of compulsory periodic tire inspection. The equipment and tires of each car will be checked periodically to make sure that the tires are being used as efficiently as possible and to insure that they will not be used beyond the stage where they can be recapped. The War Price and Rationing Boards are empowered to treat driving over 35 miles per hour as evidence of tire abuse.

Each car owner should limit the use of his car to the most essential purposes. There is no assurance that the rubber supply will be sufficient to cover even the most essential needs, and further restrictions may be necessary in the future. This will depend in large part upon whether or not the American public rigidly restricts its driving habits, and uses the utmost care to prevent any abuse or neglect of its tires. In the words of the Committee report, "we have the choice: discomfort or defeat. There is no middle course."

Accordingly, pursuant to the authority vested in me by War Production Board Directive No. 1, issued January 24, 1942, and by Supplementary Directive No. 1Q, issued November 6, 1942.

It is hereby ordered, That:

(b) *Self interest shall disqualify official.* No person participating in the administration of Ration Order No. 1A shall act officially in any matter arising thereunder as to which he has any interest, by reason of business connection or relationship by blood, marriage or adoption.

§ 1315.302 *Jurisdiction of War Price and Rationing Boards.* A Board shall have jurisdiction to receive and act upon applications with respect to:

(a) A vehicle normally stationed or garaged within the area served by the Board, unless such vehicle is subject to the jurisdiction of a different Board as provided in paragraph (c) or in § 1315.303.

QUOTAS

§ 1315.401 *Quotas*—(a) *Quotas to be fixed.* The Office of Price Administration, Washinton, D. C., may from time to time set and allocate quotas and reserve quotas fixing the maximum number of tires or tubes and the maximum amount of recapping services or camelback for the acquisition of which certificates may be issued, and may administer, adjust, and revoke such quotas.

(b) *Quotas not to be exceeded by Boards.* No Board shall issue a certificate for the acquisition of tires, tubes, recapping services, or camelback in excess of its quotas.

(c) *Basis for Board consideration.* If the Board has before it applications from persons eligible for tires, tubes, or recapping service which in its judgment satisfy all the conditions of this order but which together call for the issuance of certificates for tires, tubes, or recapping service in excess of the applicable quota of the Board, the Board, in determining which of the competing needs are to be satisfied, shall be governed by the relative importance to the war program, public safety, and public health, of the operation of a vehicle in one use as compared with the importance of the operation of a vehicle in another use. The Board shall base its determination upon the application for a certificate, the application for a gasoline ration for the vehicle for which tires, tubes, or recapping service are sought, and all other information which comes to its knowledge. The Board shall at all times serve the objectives sought to be accomplished by the tire rationing program and allot certificates for the most vital civilian uses and for uses essential to the war effort.

(d) *Passenger automobile spare tires.* No Board shall issue a certificate for a spare tire (other than for recapping service only) to an applicant for a passenger automobile for which there has been issued only a basic ration currently valid under Ration Order No. 5C, unless the mileage driven in such vehicle is necessary for carrying out one or more of the purposes described in § 1394.7706 of Ration Order No. 5C, except between the twenty-fifth and the last day of a month, and then only if there are no pending applications for tires for running wheels using passenger-type tires. PROOF OF NEED AND ELIGIBILITY

§ 1315.501 *General proof of need.* No Board shall grant a certificate authorizing any consumer to acquire a tire, tube, or recapping service, and no consumer shall accept such a certificate, unless the applicant is eligible under either §§ 1315.503, 1315.505, 1315.506, or 1315.507 and in addition meets each of the following conditions:

(a) *Immediate need.* That the tire, tube, or recapping service for which application is made is to equip a vehicle held for use and not for resale and is:

(1) To equip a vehicle which requires tires or tubes because of alteration, or reconstruction, or which, for reasons satisfactory to the Board, does not already have the number of tires permitted for such vehicle by the Office of Price Administration; or

(2) To replace a lost or stolen tire or tube; or

(3) To replace a tube which cannot be repaired, or a tire which cannot be repaired or recapped or which would be unsafe when recapped for operation at the speeds at which the applicant may reasonably be expected to operate; or

(4) To replace a tire or tube which is not serviceable for the use to which the vehicle is to be put; or

(5) To recap a tire which requires recapping or which will require recapping by the date the applicant may reasonably be expected to secure recapping.

(b) *No abuse or neglect.* That the applicant has not in any manner abused or neglected or permitted to be abused or neglected the tire or tube which he seeks to replace or recap. However, the Board may waive this condition if it finds that the community or the nation would suffer serious loss if the application were denied.

(1) The Board may consider, among other things, as evidence of tire abuse:

(i) That the vehicle for which a certificate is sought has been operated at a speed in excess of thirty-five (35) miles per hour; or

(ii) That the tire for which replacement is sought has become unfit for recapping through the fault of the applicant, such as failure to make timely application for a tire, failure to replace a tire as promptly as possible or driving for unnecessary purposes or when other means of transportation are available.

(c) *Unlawful mileage.* That the applicant has not used the tires or tubes which he seeks to replace on a vehicle which has been used for purposes prohibited by or for mileage in excess of that allowed under Ration Order No. 5C.

(d) *Ply construction.* That, if the application is for a certificate for a new passenger-type tire of six or more ply construction, the vehicle upon which the tire is to be mounted cannot be operated satisfactorily in the use to which it is to be put with a tire of less than six-ply construction.

(e) *No available tire or tube.* That the applicant, other than a Federal, State, local, or foreign government or government agency, does not own or control a tire or tube, other than tires or tubes mounted upon vehicles in current use (including one spare for each size wheel per vehicle) which can be used, or repaired for use, in lieu of the tire or tube sought to be replaced or the tire sought to be recapped. In computing the number of tires or tubes owned or controlled, applicant need not include emergency reserves acquired in accordance with § 1315.507, tires or tubes reported on OPA Form R–17 or R–17 (revised) or reported by a manufacturer to the War Production Board, or tires or tubes in a public warehouse and removable only upon certificate.

(f) *No excess tires.* That the applicant owns, possesses or controls no tires, the ownership, possession or control of which would render him ineligible for a Basic, Fleet, or dealer's ration under Ration Order No. 5C.

§ 1315.502 *Additional proof of need for passenger automobile.* In addition to meeting all the conditions of § 1315.501, an applicant for a tire, tube, or recapping service for a passenger automobile must meet the following conditions:

(a) *Gasoline ration.* That he has a gasoline ration currently valid under Ration Order No. 5C for a passenger automobile;

(b) *Inspection record.* That the applicant has a Tire Inspection Record, signed by an authorized tire inspector, showing that the required tire inspections have been made; and that either the serial number of the tire to be replaced has been entered upon such record or the applicant has Part D of a certificate authorizing acquisition of such tire: *Provided, however,* That the Board may waive the requirement that applicant have a Tire Inspection Record showing the required tire inspections if the applicant can establish that serious illness of the applicant or the physical condition or location of the automobile made it impossible to obtain the required inspections, and if the current inspection shows no evidence of abuse or neglect of any of the tires or tubes upon the vehicle.

§ 1315.503 *Eligibility of passenger automobile*—(a) *Reconsideration of gasoline ration.* When application is made for a tire, tube, or recapping service for a passenger automobile, the Board shall reconsider the applicant's gasoline ration before passing upon his application. Such reconsideration shall be made as follows:

(1) *Basic ration.* When only a basic gasoline ration has been issued for the passenger automobile, the applicant shall set forth in his application for tires, in addition to such other information as may be required, information concerning the uses to be made of the passenger automobile.

(2) *Supplemental ration.* If the applicant has a current supplemental ration, the Board shall reconsider the application for such ration for such vehicle, if available at the Board. If such application is not available at the Board, the applicant shall provide such information upon OPA Form R–535 as to his occupation and mileage requirements as the Board may require.

(3) *Fleet and official ration.* When application is made for a tire, tube, or recapping service for a fleet passenger automobile, or a passenger automobile owned by or leased to a Federal, State, local, or foreign government or governmental agency, the Board shall reconsider the application for the current Fleet or official ration, if available at the Board. If such application is not available at the Board, the applicant shall provide such information upon OPA Form R–551 as to the use and mileage requirements of such vehicle as the Board may require.

(b) *Redetermination of supplemental fleet or official gasoline ration.* If upon reconsideration of the gasoline ration as provided in paragraphs (a) (2) and (a) (3) of this section, the Board finds that the applicant has been granted either a larger or a smaller gasoline ration than he is entitled to under Ration Order No. 5C, or a ration of a class other than that to which he is entitled under Ration Order No. 5C, it shall recall excess gasoline coupons or issue an additional or a different gasoline ration for the corrected mileage: *Provided, however,* That no gasoline coupons shall be recalled if application is made for a fleet or official passenger automobile using an interchangeable gasoline ration book, but such mileage redetermination shall be used as a basis for determining whether the applicant is entitled to a Grade I, Grade II, or a Grade III tire.

(c) *Eligibility determined on basis of adjusted gasoline ration.* When the Board has adjusted an applicant's mileage requirements pursuant to paragraphs (a) and (b) of this section, it shall determine the applicant's eligibility for a tire, tube, or recapping service on the basis of such adjusted mileage, and not on the basis of his former allowed gasoline mileage, in accordance with the following table:

Total gasoline mileage	Kind of tire or recapping service	Kind of tube
560 or less miles per month	Recapping service with passenger-type camelback if applicant has a recappable tire carcass; otherwise a Grade III tire.	New or used at applicant's option.
561 to 1,000 miles per month	Recapping service with passenger-type camelback if the applicant has a recappable tire carcass; otherwise a Grade II or Grade III tire at applicant's option.	New or used at applicant's option.
1,000 miles per month or over	Recapping service with passenger-type camelback if the applicant has a recappable tire carcass; otherwise a Grade I, Grade II or Grade III tire at applicant's option.	New or used at applicant's option.
For fleet passenger automobiles or official passenger automobiles for which interchangeable gasoline ration books have been currently issued.	Recapping service with passenger-type camelback if applicant has a recappable tire carcass; otherwise a Grade III tire.	New or used at applicant's option.

Provided, That an applicant applying for a fleet or official passenger automobile for which an interchangeable gasoline ration book has been currently issued may receive a certificate for a Grade II or Grade I tire only if he establishes that the particular vehicle will be operated for the requisite number of (560 or 1,000) miles per month; *And provided further,* That, in applying the mileage requirements stated in this paragraph, mileage allowed on a special ration shall not be included.

(d) *Exceptions to eligibility, mileage not governing.* (1) An applicant may obtain a certificate for any grade of tire or tube if he clearly establishes that he must answer emergency calls which require him to operate a passenger automobile at high rates of speed, and that the vehicle is:

(i) Used exclusively for maintaining fire-fighting services or in investigation or patrolling necessary to the maintenance of public police services; or

(ii) Used for making necessary professional calls by a physician, surgeon, chiropractor, osteopath, midwife, or dentist, licensed as such by the appropriate governmental authorities and regularly rendering necessary professional services of an emergency nature outside his office; or

(iii) Used as an emergency maintenance vehicle by a public utility and is clearly and permanently marked as such.

(2) An applicant whose allowed gasoline mileage would entitled him to either a Grade I or Grade II tire may be limited to a certificate for a Grade III tire if the length of time for which he will need his allowed monthly mileage will be substantially less than the normal life of a Grade I or Grade II tire.

(3) An applicant who applies for an "obsolete type" tire or a tire to be mounted on a motorcycle to replace a tire which cannot be recapped, either because of its physical condition or the lack of adequate recapping facilities, shall be entitled to a certificate for a new tire of an "obsolete type," or a new motorcycle tire, but only if a currently valid suplemental gasoline ration is outstanding for the vehicle for which such tire is sought or, in the absence of a currently valid supplemental gasoline ration for such vehicle, if the mileage driven in such vehicle is necessary for carrying out one or more of the purposes described in § 1394.7706 of Ration Order No. 5C. The applicant's need, standing alone, no matter how pressing, shall not be a basis for granting a certificate; and

(c) *Comparative need.* That the issuance of the certificate to the applicant will not deprive other applicants of tires, tubes, or recapping service needed to perform functions deemed by the Board to be more essential to the war effort, public health or public safety than the functions performed by the applicant; and

(d) *Recapping if possible.* That, if the applicant is seeking to replace a tire, it is not capable of being recapped or that it cannot be recapped for safe use at the speeds at which the applicant may reasonably be expected to operate; and

(e) *Passenger-type tires unavailable or wasteful.* That, if application is made for a truck-type tire, a passenger-type tire of suitable size is not available, or that the use of a passenger-type tire would constitute a waste of rubber; and

(f) *No other vehicle available.* That, if application is made with respect to a commercial motor vehicle eligible under § 1315.505 (a) (List A), all other commercial motor vehicles owned or controlled by the applicant are either eligible under § 1315.505 (a) (List A) or cannot practicably be used to perform the services for which a certificate is sought.

No such certificate shall be granted if its issuance would exceed the the quota applicable to recapping services or tubes, or if there is pending any application for such services or tubes for a commercial motor vehicle eligible under § 1315.505 (a) (List A) which has not been satisfied.

(c) *Truck-type camelback.* No certificate shall be issued authorizing the acquisition of truck-type camelback for recapping a tire to be mounted on any station wagon or on a passenger vehicle originally designed to carry seven passengers or less, whether or not rebuilt, unless rebuilt as a bus or unless the vehicle is a taxicab or jitney.

§ 1315.506 *Eligibility of farm implement, industrial equipment and non-highway vehicle.*—(a) *Eligibility requirements.* A certificate authorizing the acquisition of a tire, tube, or recapping service necessary to equip a vehicle which meets the applicable conditions of § 1315.501 and is designed and used as one of the following may be granted, provided tires are essential for its operation:

(1) A farm tractor or other farm implement.

(i) Tractors or combines may be issued certificates for the purchase of tractor tires or implement tires only. Other types of farm equipment may be issued certificates for implement tires only: *Provided, however,* That if an implement or front wheel tractor tire of suitable size is not available, the Board may issue a certificate for a Grade III passenger-type tire.

(ii) Notwithstanding the provisions of § 1315.501 (a) (3), certificates for the purchase of rear wheel tractor tires and not certificates for recapping service may be issued, even though the applicant possesses a recappable carcass.

(2) Industrial, mining and construction equipment, other than passenger automobiles or commercial motor vehicles.

(3) Non-highway vehicles for road-grading, earth-moving, or similar off-the-road purposes.

§ 1315.507 *Eligibility for emergency reserve of tires and tubes*—(a) *Eligibility requirements.* A Board may issue emergency certificates on OPA Form R–20 or regular certificates on OPA Form R–2 (revised) to enable any person who owns, operates, or controls a vehicle which meets the conditions of paragraph (b) of this section to establish, increase or maintain an emergency reserve of tires and tubes equivalent to ten percent of the number of running wheels on vehicles which satisfy the requirements of paragraph (b) (3).

(b) *Conditions.* An applicant must meet the following conditions:

(1) That all commercial motor vehicles which he owns, operates, or controls, are operated exclusively for one or more of the purposes specified in § 1315.505 (a) (List A);

(2) That the vehicle for which application is made is eligible under §§ 1315.503 or 1315.505 (a) (List A);

(3) That over 50 percent of the vehicle's mileage results from regular operations in runs of more than fifty (50) miles from the closest source controlled by the applicant at which tires and tubes are available for his immediate use and more than fifty (50) miles from the place where such vehicle is garaged or normally stationed;

(4) That the vehicle is owned by a State, or is owned or operated by an applicant who has been granted by the Interstate Commerce Commission either a certificate of public convenience and necessity as a common carrier or a permit as a contract carrier.

(i) The holder of a certificate or permit issued by the Interstate Commerce Commission may apply only for those vehicles which he owns and operates.

(ii) An owner of vehicles who is not the holder of a certificate or permit issued by the Interstate Commerce Commission may apply for an emergency reserve based only on those vehicles leased for exclusive use for a period of at least six months to the holder of a certificate or permit issued by the Interstate Commerce Commission: *Provided,* That the owner may permit the lessee to act as his agent in the physical distribution of the tires, tubes, or certificates among the lessee's vehicles during the term of the lease.

(iii) Application under this section shall be made by the State, and not by any subdivision or agency of the State.

(5) That the total number of tires and tubes which he owns and which are or can be mounted on his vehicles eligible under § 1315.503 or § 1315.505 (a) (List A) (excluding tires on running wheels and one spare of a given size for each vehicle operated for such purposes), amounts to less than ten percent of the running wheels on vehicles which satisfy the requirements of paragraph (b) (3).

(ii) An applicant who has increased the number of his vehicles operated for purposes specified in § 1315.503 or § 1315.505 (a) may apply to the Board for an emergency reserve based on such increase. He shall not be required to trade in or sell any tire or tube upon acquiring tires, tubes, or certificates to increase his emergency reserve, since such acquisition is not for replacement but is an addition to his stock.

(6) That he has satisfied all the applicable provisions of §§ 1315.501, 1315.502, and 1315.504.

(c) *Inspection and proof of sale.* An applicant who has been found by a Board to be entitled to an emergency reserve under paragraph (b) may, in order to replenish his allowable stock of tires or tubes, apply for a certificate for a tire, tube or recapping service. The applicant must present a certification by an inspector on OPA Form R–21 for each tire or tube to be recapped or replaced. (i) His inventory of such camelback as of midnight, February 18, 1942, irrespective of its location, and

§ 1315.509 *Eligibility for allotment of Grade III tires*—(a) *Applicant must be a dealer.* The Board may issue a certificate authorizing any applicant who is a dealer to acquire an allotment of Grade III tires for each establishment operated by him for which OPA Form R–17 has been filed in the quarter preceding his application, or for each establishment operated by him for which he was not required to file OPA Form R–17 under § 1315.1007 (b), or for each establishment which has been established pursuant to an authorization of the Office of Price Administration since October 1, 1942.

(b) *Amount of allotment.* Each applicant may be allotted one Grade III tire for each $1,000 of his 1941 retail and wholesale net dollar sales of passenger-type tires and tubes from the establishment for which the allotment is sought, but no allotment shall be in excess of two hundred (200) Grade III tires and any applicant shall be entitled to at least twelve (12) Grade III tires: *Provided,* That a certificate shall be granted to authorize the acquisition of no more than the difference between such allotment and his inventory of Grade III tires (including Parts B of certificates authorizing the acquisition of Grade III tires which he received in exchange for Grade III tires, but upon which he has not yet obtained replenishment) as of the date of his application.

(c) *One allotment only.* The Board shall grant only one allotment to an applicant for each establishment for which an allotment is sought.

§ 1315.510 *Eligibility of recappers for curing tubes.* Any recapper may file an application for authority to acquire tubes for use solely in recapping. The applicant must establish that he does not have more than one serviceable air bag or tube of the required size for each mold operated by him and that the tube applied for is necessary to the operation of the mold. No recapper shall be authorized to acquire in any one calendar month more than four tubes for each mold operated by him.

APPLICATIONS AND CERTIFICATES

§ 1315.601 *Application for certificates*—(a) *Who may execute and file.* Any person may file with the Board having jurisdiction an application for a certificate authorizing the acquisition of tires, tubes, recapping services or camelback. Application may be made by an agent; but if the agent is not an employee of the applicant, he may sign the application only if the applicant for whom he is acting is physically unable to sign or is outside the jurisdiction of the appropriate Board. No member or employee of the Board to whom application is made and no authorized tire inspector shall act as agent of an applicant. The Board may require that principal and agent, or owner and operator join in an application.

(b) *Contents of application.* Each applicant shall set forth (1) facts showing jurisdiction of the Board; (2) facts showing need and eligibility for the tires, tubes, recapping service or camelback for which application is made; and (3) such additional information and commitments as may be required by the application or by the Board.

(c) *Presentation of Tire Inspection Record.* Any applicant for a certificate who is required to have a Tire Inspection Record (OPA Form R–534–B) shall present to the Board such record at the time of filing his application. If the serial numbers of any tire shown on the Tire Inspection Record are different from those previously entered on the record, the applicant shall produce the Part D of a certificate authorizing the acquisition of such tire.

§ 1315.603 *Certification by inspector prior to filing application*—(a) *Inspection of tires and tubes.* No consumer may file an application for a certificate, and no such application shall be considered by a Board, until an inspector authorized by the Office of Price Administration has currently inspected the tires or tubes to be replaced or recapped and has executed and signed the "Certification by Inspector" contained in OPA Form R–1 (revised). This paragraph shall not apply when application is made for the following purposes:

(1) To establish or increase an emergency reserve; or

(2) To acquire a tire or tube necessary to equip a vehicle not equipped with the number of tires or tubes permitted in § 1315.501 (a); or

(3) To replace a lost or stolen tire or tube.

(b) *Thorough inspection required.* No inspector may certify any fact concerning the condition of a tire or tube without making a personal and adequate inspection to determine such fact, and no inspector shall certify that a tire can be recapped unless he removes the tire from the wheel or rim. The Board may in its discretion require an additional inspection and certification by an inspector named by the Board.

(c) *No compensation to be paid for inspection.* No applicant may pay any compensation for the certification or the inspection required by this section, except that sums, not in excess of those set forth in the following schedule, may be paid the inspector, or any other person, for the service of removing and replacing a tire when such service is necessary for inspection purposes:

§ 1315.604 *Investigation of facts by Board*—(a) *Power of the Board.* Before issuing a certificate the Board may require such assurances and proof of such facts as it may deem necessary to determine whether an applicant should be issued a certificate. For this purpose the Board may make inquiries and investigations and may require an applicant to appear in person or by agent at the office of the Board at a designated time and supply such additional evidence and information and furnish such records and affidavits as may relate to the application.

(b) *Additional information.* If the applicant is applying for tires or tubes to be mounted on a vehicle which has less than the number of tires and tubes permitted by § 1315.501 (a) and which he has purchased or contracted to purchase, the Board shall require him to submit together with his application an affidavit from the vendor of the vehicle stating in full the reasons why the vehicle is not equipped with a sufficient number of tires or tubes. The Board must be satisfied from such affidavit before it may grant a certificate that the vendor is not responsible for the lack of a sufficient number of tires or tubes for such vehicle.

§ 1315.605 *Notation of reasons for action.* Whenever the Board acts upon an application, it shall note the reasons for its action upon the application. If the application is granted, the number, grade, and type of tires or tubes, or the type of recapping service or camelback shall be noted upon the application.

(b) *For emergency reserve.* OPA Form R–20 authorizing an applicant to acquire tires or tubes in order to establish, increase or replenish an emergency reserve.

(c) *For curing tubes.* OPA Form R–2 (revised) authorizing an applicant to acquire tubes to be used in molds.

§ 1315.609 *Execution and issuance of certificate*—(a) *Execution of certificates.* It shall be the responsibility of the Board, prior to issuing any certificate, to fill in Part A and Part B of the certificate setting forth the information required, except that the item on OPA Form R–20 which calls for the specification of the sizes of the tires or tubes to be purchased, need not be filled in unless requested by the applicant. It shall also be the responsibility of the Board to indicate on Parts C and D of the certificate issued the number of the Board and its address. No certificate shall be valid unless Part A is signed by the issuing officer of the Board, who may be either a member of the Board or one of its clerks designated to act as issuing officer.

(1) The Board shall indicate on the certificate the tubes or the serial number of the tires to be replaced (including scrap tires or tubes), which the applicant must turn in. If the tire to be replaced is a recappable carcass, the Board shall write on the certificate after the serial number of such tire "recappable carcass".

(i) The applicant shall turn in all tires and tubes to be replaced, except when he is having his tire recapped, or if he can establish that he has no tires or tubes to turn in because he is establishing or increasing an emergency reserve, is acquiring a tire or tube necessary to equip a vehicle not equipped with the number of tires or tubes permitted by § 1315.501 (a), is replacing a lost or stolen tire or tube, or is a government agency forbidden by law to make such disposition.

(2) The Board shall indicate on the certificate the exact number, type, grade, and size of the tires or tubes, or the amount and type of recapping service or camelback which may be acquired in exchange for the certificate.

(b) *Issuance of certificates.* When all of the foregoing steps have been taken, the Board shall issue the certificate by delivering or mailing it to the applicant or his agent.

(1) If the certificate to be issued by the Board is for recapping service, the Board shall note on Parts A and B thereof whether the certificate entitles the applicant to truck-type camelback or to passenger-type camelback, as provided in § 1315.505 (c), and shall mark Part B thereof "good for (truck or passenger-type) camelback only".

(2) If the certificate to be issued by the Board is for implement tires, the Board shall mark Part B thereof "good for implement or tractor tires only".

(3) If a consumer desires to obtain tires or tubes stored by him in a public warehouse, he shall inform the Board of this fact, and, if the Board issues a certificate to him, it shall tear off and destroy Part B of such certificate.

§ 1315.610 *Action by certificate holders*—(a) *Use of certificate.* A certificate properly executed and issued may be used by the person to whom it was issued within the time and for the purposes specified thereon. After the expiration date thereon, the certificate shall be void and the applicant shall surrender it to the issuing Board.

(b) *Replaced tires or tubes to be turned in.* (1) If the certificate indicates that a tire or tube being replaced must be turned in and does not indicate that such tire is a recappable carcass, the applicant shall, before acquiring from a dealer any tire or tube in exchange for the certificate, turn in the tire or tube to be replaced to such dealer, except in the case of purchase by mail. If the applicant acquires a tire or tube by mail, or withdraws it from a public warehouse, he shall within five days thereafter deliver the replaced tire or tube to a dealer. In every case in which a tire or tube being replaced by mail is turned in to a dealer, the applicant shall, within five days after receiving the replacement, file with the Board which issued the certificate OPA Form R–3 certifying that the replaced tire or tube has been turned in to a dealer.

(2) If the tire turned in is a recappable carcass, a dealer who is not a recapper shall transfer such tire to a recapper in exchange for a proof of sale on OPA Form R–22.

(c) *Signing of certificates.* The applicant or his agent shall sign and execute the appropriate portions of the certificate in accordance with the instructions thereon, prior to acquiring the tires, tubes, recapping services or camelback specified thereon. The same person shall sign Parts B, C and D of OPA Form R–2 (revised) where the signature of the certificate holder is required. No member or employee of the Board issuing the certificate, no authorized tire inspector, and no dealer shall act as agent of the applicant in signing Parts A, B, C or D of OPA Form R–2 (revised).

§ 1315.611 *Action by suppliers*—(a) *Turn in of tire or tube prerequisite to transfer.* If the applicant is required to turn in a tire or tube, no dealer shall transfer any tire or tube pursuant to the certificate until the applicant has turned in to him the tire or tube to be replaced, except in the case of purchase by mail.

(b) *Certificate to be completed.* No dealer or warehouseman shall transfer tires, tubes or camelback until both he and the applicant have properly signed and executed the certificate in accordance with the instructions thereon.

(c) *Delivery pursuant to certificate.* If the foregoing requirements have been fulfilled, the dealer or warehouseman to whom the certificate has been surrendered shall deliver to the person indicated thereon, or to his agent, the exact number, type, grade and size of tires or tubes or the type of recapping service or camelback set forth on the certificate.

(1) Any dealer may, in exchange for a certificate for a Grade I tire, transfer to the holder thereof a Grade I or Grade II tire.

§ 1315.612 *Splitting of certificates.* A certificate holder who is unable to acquire from one supplier all the tires, tubes, recapping service or camelback which he has been authorized to acquire shall return the certificate to the issuing Board and the Board shall thereupon cancel the returned certificate and issue as many certificates as are necessary to permit the acquisition of such tires, tubes, recapping service or camelback from several suppliers.

REVOCATION OF CERTIFICATES OR RIGHT TO USE TIRES

§ 1315.651 *Revocation of certificates.* Any certificate, part of a certificate or authorization issued under Ration Order No. 1A shall be subject to revocation, cancellation, suspension, correction or modification by a Board or other agent designated for this purpose by the Office of Price Administration, Washington, D. C.

§ 1315.652 *Revocation of certificates issued by mistake.* Any certificate issued to a person not entitled thereto on the basis of the facts stated in the application and which has not been used by the person to whom it was issued, may be revoked by the issuing Board and the Board may order that such certificate be surrendered to it. If in such a case the Board finds that the certificate holder is entitled to a tire or tube of a different grade or type, it shall, subject to quota limitations, issue a certificate for such tire or tube in lieu of the certificate revoked.

§ 1315.653 *Revocation of certificates or declaration of ineligibility after hearing.* (a) *Procedure by Board.* When a Board has reason to believe that a consumer (1) has made a false statement in an application for a certificate, (2) has used a tire in connection with the use of a special ration issued under Ration Order No. 5A or Ration Order No. 5C for a purpose other than that for which such ration was obtained, or in connection with the use of a ration issued under Ration Order No. 5A or Ration Order No. 5C for a purpose other than one for which such ration may be obtained under Ration Order No. 5A or Ration Order No. 5C, or (3) has violated any provision of § 1315.901 (f) or (g), it or any other Board acting at its request may serve written notice of hearing upon such consumer and may recall any certificate issued to such consumer pending the determination of the proceedings before the Board. The notice shall be served at least three days prior to the date fixed for such hearing, and shall state the time and place of the hearing, the charge against such person, and the purpose for which the hearing is to be held. If the person against whom the proceeding is instituted admits the charges or fails to appear at the hearing, or if the Board determines on the basis of the evidence presented before it at the hearing that the consumer has committed any of the acts above specified, the Board shall by order revoke the certificates, if any, issued to him and direct him to surrender them to the Board, unless the certificates have been surrendered to a dealer, and declare that he shall not be eligible to receive a certificate for such period as it shall deem appropriate in the public interest: *Provided,* That if any person against whom an order was issued for failure to appear for hearing shows good cause to the Board, within five days from the effective date of the order, for such failure, the order shall be rescinded and the Board shall grant him a full hearing on the charges made. A copy of the Board's order shall promptly be served on the person against whom it is issued personally or by registered mail directed to his last known address, and copies thereof shall be sent to the district and state offices which have jurisdiction over the area in which the Board is located. Such order shall, if personally served, become effective twenty-four (24) hours after such service, or if served by mail, three (3) days after the date of mailing. The Board may designate one or more of its members to perform the functions prescribed in this paragraph.

(b) *Review by District Manager or State Director.* Any person against whom an order has been issued pursuant to the provisions of paragraph (a) of this § 1315.653 may within five (5) days after the effective date thereof request a hearing on the charges and a review of such order by filing a statement of objections to the order with the Board which issued it. Within three (3) days after receipt of the statement the Board shall forward it, together with the application and a copy of the notice served to the District Office or, if there is no District Office with jurisdiction over the area in which the Board is located, to the State Director. Within three (3) days after receipt of such statement from the Board, the District Manager, or the State Director, as the case may be, shall set a date for a hearing on the charges and at least three (3) days prior to the hearing notify the person requesting the hearing personally or by registered mail directed to his last known address of the time and place set for the hearing. Such hearing shall be conducted by a presiding officer appointed by the Regional Administrator or by such person as he may designate to make such appointment. The presiding officer may administer oaths and affirmations and rule on the admission or exclusion of evidence. The provisions of paragraphs (c) (3) and (4) of § 1315.656 shall apply in the conduct of such hearing. If after such hearing it is determined by the District Manager or State Director (as the case may be) that the person requesting the hearing is a consumer and (1) has made a false statement in an application for a certificate, (2) has used a tire in connection with the use of a special ration issued under Ration Order No. 5A or Ration Order No. 5C for a purpose other than that for which such ration was obtained or in connection with the use of a ration issued under Ration Order No. 5A or Ration Order No. 5C for a purpose other than one for which such ration may be obtained under Ration Order No. 5A or Ration Order No. 5C or (3) has violated any provision of § 1315.901 (f) or (g), he shall affirm the order but may extend or reduce the period of ineligibility established by the Board as he may deem appropriate in the public interest. If he finds that the charges have not been proved he shall rescind the order. A copy of his decision shall promptly be served upon the person against whom the order was issued and upon the Board.

(c) *Stay of action by District Manager or State Director.* The District Manager or the State Director (as the case may be) may for good cause shown upon application by the person against whom the order was issued, stay or suspend the operation of any order issued pursuant to the provisions of § 1315.653 (a) pending the hearing and determination of the proceedings provided for in paragraph (b) hereof.

(d) *Appeal to Washington Office.* An appeal from an affirmance or modification of the order of the Board may be taken by the person against whom it was issued by filing in the Office of the Secretary, Office of Price Administration, a notice of appeal, which may be accompanied by any affidavits or briefs which the person filing the notice desires to submit. Within a reasonable time after the filing of the notice of appeal, the Administrator or such person as he may designate for such purpose shall affirm, modify, rescind or stay the order, or direct that a further hearing be held.

(e) *Action by Board on remand.* Whenever an order issued by a Board pursuant to the provisions of § 1315.653 has been rescinded, the Board shall issue to the original holder any certificate to which he is entitled.

§ 1315.654 *Effective period of Board order.* Whenever any Board, pursuant to the provisions of § 1315.653 (a) has revoked a certificate or declared that a person should be ineligible to receive a certificate during a specified period, no certificate shall be issued to him except in accordance with the provisions of such order, unless a restoration is directed pursuant to the provisions of § 1315.655.

§ 1315.655 *Restoration of certificates or eligibility upon application.* A person whose certificate has been revoked and who has surrendered it to any Board as required by an order of the Board pursuant to the provisions of § 1315.653 (a) or has been declared by an order of a Board issued under that section to be ineligible to receive a certificate, may apply in writing to the State Director for a restoration of his certificate or his eligibility. Such application shall be granted if the State Director finds that the violation, on the basis of which the certificate was revoked or the applicant declared ineligible, was excusable under the circumstances, or that the granting of such application is necessary to the war effort or in the interest of public health or safety. In such case, the State Director shall direct the Board which revoked the certificate or declared such ineligibility to issue to such person any certificate to which he may be entitled under the provisions of Ration Order No. 1A.

§ 1315.656 *Authority of Regional Administrators, State Directors, and District Managers to revoke certificates or to forbid acquisition or use of tires or tubes*—(a) *When procedure available.* The several Regional Administrators of the Office of Price Administration within their respective regions, and such State Directors or District Managers as may be designated by the Regional Administrators for such purposes, are authorized to determine, after a hearing held in accordance with the provisions of this section, whether any person has (1) acquired a certificate to which he is not entitled under the provisions of Ration Order No. 1A, (2) acquired a tire or tube in violation of Ration Order No. 1A, (3) has used a tire in connection with the use of a special ration issued under Ration Order No. 5A or Ration Order No. 5C for a purpose other than that for which such ration was obtained, or in connection with the use of a ration issued under Ration Order No. 5A or Ration Order No. 5C for a purpose other than one for which such ration may be obtained under Ration Order No. 5A or Ration Order No. 5C, or (4) has violated any provision of § 1315.901 (e), (f) or (g) or any provision of § 1394.8172 of Ration Order No. 5C, and upon making such determination may take the action permitted under paragraph (b) of this section.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 271]

CERTAIN PERISHABLE FOOD COMMODITIES, SALES EXCEPT AT RETAIL

In the judgment of the Price Administrator, it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, that maximum prices be established for the sale of certain perishable food commodities, f. o. b. country shipping point, and at wholesale. The following regulation supersedes Temporary Maximum Price Regulation No. 22 and establishes maximum prices in a manner calculated to promote equitable distribution of these important food commodities through normal channels of trade.

The maximum prices established by this regulation are, in the judgment of the Price Administrator, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 271 is hereby issued.

AUTHORITY: §§ 1351.1001 to 1351.1018, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1351.001 *Applicability of this Maximum Price Regulation No. 271*—(a) *Commodities to be priced under this regulation.* This regulation applies to the following perishable food commodities:

(1) All white potatoes used for human consumption, not including seed potatoes.

(2) All dry onions used for human consumption, produced in the calendar year 1942.

(b) *To what types of sellers this regulation applies.* This regulation applies to country shippers and all intermediate sellers, as defined herein, of the commodities listed in paragraph (a) of this section, but does not apply to retailers.

(c) *Purposes of this regulation.* (1) Appendix A sets forth maximum prices and repeats the applicable differentials set forth in § 1351.1002 (b) for the country shipper, at the country shipping point, on board car or any other common carrier, for each variety and grade, in the month of sale and area in which the commodities were produced.

(2) Appendix B sets forth the figures which different classes of intermediate sellers must use in calculating maximum prices.

(d) *Prohibition against sales above maximum prices.* On and after November 9, 1942, regardless of any contract or other obligation, no person is permitted to sell or deliver perishable food commodities at prices higher than the maximum prices established by this regulation, and no person is permitted to buy or receive perishable food commodities in the course of trade or business at prices higher than the maximum prices herein established. Lower prices may be charged and paid.

§ 1351.1002 *How a country shipper establishes his maximum price for a perishable food commodity, as set forth in Appendix A.* (a) The maximum price, at the country shipping point, on board car or any other common carrier, shall be established by the country shipper as follows:

(1) For each hundred pounds of each variety of U. S. No. 1 grade of white potatoes, in bags, on board car or any other common carrier, the maximum price shall be the amount set forth as the maximum price for the month of sale and the area in which the white potatoes were produced, listed in Appendix A hereof. Differentials above or below the maximum price are listed in paragraph (b) of this section.

(2) For each fifty pounds of each variety of dry onions, graded and in sacks, on board car or any other common carrier, the maximum price shall be the amount set forth as the maximum price for the month of sale and the area in which the dry onions were produced, listed in Appendix A hereof. Differentials above or below the maximum price are listed in paragraph (b) of this section.

(b) The following differentials for certain grades and certain types of shipment shall be applicable to country shippers:

(1) White potatoes: (i) For white potatoes which grade below U. S. No. 1, packed in 100 pound bags, the country shipper shall subtract 30 cents per cwt. from the maximum prices for U. S. No. 1 grade listed in Appendix A.

(ii) For white potatoes, U. S. Extra No. 1, or U. S. No. 1-A, 2 inch minimum packed in 100 pound bags, the country shipper may add 20 cents per cwt. to the maximum prices for U. S. No. 1 grade listed in Appendix A.

(vii) If the purchaser furnishes bags, the country shipper shall subtract from any sacked price 15 cents per 50 pounds.

(c) If a country shipper makes a sale of food commodities for delivery to a place other than his country shipping point, his maximum price shall be the price established by him under paragraphs (a) and (b) of this section and Appendix A, plus the transportation charges he has actually paid, at lowest available common carrier rates, from his country shipping point to the place where the commodities are to be delivered. In no case shall the country shipper include transportation charges, whether paid by him or not, from the farm where the commodities were produced to his country shipping point.

§ 1351.1003 *How an intermediate seller calculates his maximum prices for perishable food commodities listed in Appendix B.* (a) For the purposes of this regulation "intermediate sellers" are divided into the following classes and the term means any wholesale seller, including, but not limited to terminal distributors, service and cash-and-carry wholesalers, carlot receivers, jobbers or any other person who purchases for the purpose of reselling, except country shippers and retailers, and who take title and make sales to any person who is not the ultimate consumer. The term "ultimate consumer" does not include institutional, commercial or industrial users.

(1) *Class 1: Retailer-owned cooperative wholesaler.* A retailer-owned cooperative wholesaler is either a non-profit organization or a corporation, 51% or more of the stock of which is owned by its retail customers and which distributes food commodities for resale without materially changing their form.

(2) *Class 2: Cash and carry wholesalers.* A cash and carry wholesaler is a wholesaler not in Class 1 who distributes food commodities for resale or to commercial, industrial and institutional users without materially changing their form and who does not customarily deliver or extend credit.

(3) *Class 3: Service wholesalers.* A service wholesaler is a wholesaler not in Class 1 who distributes food commodities for resale or to commercial, industrial or institutional users without materially changing their form and who customarily delivers, or delivers and extends credit to purchasers.

(b) The intermediate seller shall calculate once every week on the day set forth opposite the name of the food commodity in Appendix B his maximum price for each variety and grade of such food commodity as follows:

(1) The intermediate seller shall first find from paragraph (a) of this section in what class of intermediate seller he falls.

(2) The intermediate seller shall next determine the "largest single purchase" of each variety and grade made during the seven days prior to the day set forth opposite the name of the food commodity in Appendix B, on which he is calculating his maximum price.

(3) "Largest single purchase" means the greatest quantity (in pounds, dozens or the like) of the variety and grade of the food commodity which the intermediate seller is pricing, and which was purchased by him during the seven days prior to the day set forth opposite the name of the food commodity in Appendix B.

(4) The intermediate seller shall then determine his "net cost" of his "largest single purchase" as defined above, of the food commodity being priced. "Net cost" means the amount he paid for the food commodity delivered at his customary receiving point less all discounts allowed him except the discount for prompt payment; however, no charge or cost for local unloading or local trucking shall be included.

(5) The intermediate seller shall then multiply his "net cost" as defined above, by the figure in Appendix B which applies to the class in which the intermediate seller falls. The resulting figure is the maximum price which the intermediate seller is permitted to charge for the 7-day period from the day set forth opposite the name of the food commodity set forth in Appendix B, provided that if an intermediate seller purchases food commodities from another intermediate seller, he shall resell such food commodities directly to a retailer, and shall not resell to another intermediate seller.

(c) If an intermediate seller makes sales and deliveries of Russet Burbank potatoes which he has re-graded for uniform size, individually wrapped in paper, and packed in boxes of not over 60 pounds, he may add 90¢ per cwt. to the maximum price determined by him under this section.

§ 1351.1004. *Information which each country shipper and intermediate seller must pass on to his purchaser.* Whenever a country shipper or an intermediate seller makes a sale and delivery after the effective date of this regulation, he shall supply in writing, to his purchaser on his invoice, sales ticket, cash receipt, or other written evidence of the sale, the following information:

(a) The variety of the food commodity being sold;

(b) The grade of the food commodity being sold; and

(c) The selling price, not exceeding the maximum price, which the country shipper or intermediate seller has determined for the variety and grade being sold. The invoice, sales ticket, cash receipt or other written evidence of the sale, when containing the above required information shall be deemed to be proper notification to the purchaser.

§ 1351.1005 *Fractions of cents.* Any calculation of a maximum price per 100 pounds or other customary unit of sale by a country shipper or intermediate seller which results in a fraction of a cent shall be reduced to the nearest lower cent if the fraction is less than one-half cent and shall be increased to the nearest higher cent if the fraction is one-half cent or more.

§ 1351.1006 *Customary allowances.* No country shipper or intermediate seller is permitted to change his customary allowances, discounts, and price differentials, including allowances, discounts and price differentials for different classes of purchasers, unless such change results in a lower net price.

§ 1351.1007 *Relationship between this regulation, General Maximum Price Regulation and Temporary Maximum Price Regulation No. 22.* (a) The provisions of this Maximum Price Regulation No. 271 supersede the provisions of Temporary Maximum Price Regulation No. 22, with respect to sales and deliveries by country shippers and intermediate sellers of the food commodities listed in Appendix A. However, the following provisions of the General Maximum Price Regulation, as well as any amendments thereto, continue to be applicable to every country shipper and intermediate seller selling such food commodities:

(1) Transfers of business or stock in trade (§ 1499.5).

(2) Federal and State taxes (§ 1499.7).

(3) Current records (§ 1499.12).

(4) Sales slips and receipts (§ 1499.14).

(5) Definitions (§ 1499.20).

(b) The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation are applicable to every person subject to this regulation, other than country shippers, selling food commodities at wholesale.

§ 1351.1008 *Evasion.* The price limitations which are set forth in this Maximum Price Regulation No. 271 shall not be evaded whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of or relationship to any of the commodities listed in Appendix A or B hereof, alone or in conjunction with any other commodity or by way of commission, service, transportation or any other charge or discount, premium, or other privilege or by tying-agreement or other trade understanding or otherwise.

§ 1351.1009 *Enforcement.* Persons violating any provisions of this Maximum Price Regulation No. 271 are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided by the Emergency Price Control Act of 1942.

§ 1351.1010 *Petitions for amendment.* Persons seeking a modification of this Maximum Price Regulation No. 271 may file a petition therefor in accordance with the provisions of Revised Procedural Regulation No. 1,[1] issued by the Office of Price Administration.

§ 1351.1011 *Records and reports.* (a) Every person selling food commodities, maximum prices for which are established by this regulation, shall:

(1) Preserve for examination by the Office of Price Administration all his records including invoices, sales tickets, cash receipts or other written evidence of a sale and delivery relating to the prices which he charges pursuant to the provisions of this regulation.

(2) Prepare on or before December 1, 1942, on the basis of all available information and records, and thereafter keep for examination by any person during ordinary business hours, a statement showing all of his customary allowances, discounts and other price differentials.

(b) Every person making sales of commodities, maximum prices for which are established by this regulation, shall keep and make available for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, is in effect, records of the same kind as he has customarily kept relating to the prices which he charges for these commodities after the effective date of this regulation and in addition, records showing as precisely as possible, the basis upon which he determined maximum prices for these commodities.

§ 1351.1012 *Export sales.* The maximum prices at which a person may export food commodities covered by this Maximum Price Regulation No. 271 shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[2] issued by the Office of Price Administration.

§ 1351.1013 *Exempt sales.* (a) This regulation shall not apply to:

(1) Sales and deliveries by a farmer of any food commodity listed in Appendix A directly to ultimate consumers, if during the preceding month the farmer's sales to ultimate consumers of all food commodities produced on his farm did not exceed $75.00; and

(2) This regulation shall not apply to sales at retail.

§ 1351.1014 *Definitions.* (a) When used in this Maximum Price Regulation No. 271 the term:

(1) "Person" means individual, corporation, partnership, association, or other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, any other government, or any of its political subdivisions, and any agencies of any of the foregoing.

(2) "Country shipper" means any person who makes sales and deliveries directly to any intermediate seller or retailer, whether for his own account, the account of a farmer, or for the joint account of himself and a farmer. This term includes farmers' cooperatives and associations, but does not include commission merchants, brokers, or any other person who does not take title to the food commodities covered by this regulation.

(3) "Variety" means any of the varieties of food commodities listed in Appendix A.

(4) "Grade" means official U. S. grades for potatoes and onions, as set forth in "U. S. Standards for Potatoes" and "U. S. Standards for Onions," issued by the U. S. Department of Agriculture.

(5) "Country shipping point" means the first place in or near the producing area where perishable food commodities are received and made ready for shipment to any intermediate seller or any commercial, industrial, or institutional user.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used in this regulation.

§ 1351.1015 *Geographic applicability.* The provisions of this Maximum Price Regulation No. 271 shall apply to the forty-eight states of the United States and the District of Columbia.

§ 1351.1016 *Effective date.* This Maximum Price Regulation No. 271 (§§ 1351.1001 to 1351.1018, inclusive) shall become effective November 9, 1942.

[1] These prices are subject to the following differentials for grades other than U. S. No. 1 and for certain types of shipment: A. *Differentials For Grades Other Than U. S. No. 1.*

1. For white potatoes which grade below U. S. No. 1, packed in 100 pound bags, the country shipper shall subtract 30¢ per cwt. from the maximum prices listed above.

3. For Russet Burbank potatoes, U. S. No. 1, 6 ounce minimum, packed in 100 pound bags, the country shipper may add 20¢ per cwt. to the maximum prices listed above.
4. For Russet Burbank potatoes, U. S. No. 1, 6 ounce minimum to 14 ounce maximum packed in 100 pound bags, the country shipper may add 35¢ per cwt. to the maximum prices listed above.

B. *Differentials For Certain Types of Shipment:*

1. For white potatoes graded and packed in bags of 25 pounds or less, the country shipper may add 20¢ per cwt. to the maximum prices for each grade.
2. For white potatoes shipped in bulk, graded and unsacked, the country shipper shall subtract 20¢ per cwt. from the maximum prices for each grade.

6. If the purchaser furnishes bags, the country shipper shall subtract 25¢ per cwt. from the maximum prices for each grade.

[2] *Example.*—How the country shipper establishes maximum prices for white potatoes: A country shipper located in Maine must determine a maximum price for sales of 100 pound bags of U. S. No. 1 Green Mountain white potatoes during the month of November, 1942. He refers to the table above which shows that his maximum price for sales of U. S. No. 1 white potatoes in bags for delivery during that month is $1.90 per cwt. He also has a buyer who during the month of November wants to purchase a carload of bulk, ungraded, and unsacked white potatoes. The country shipper establishes his maximum price for a sale of this type by referring to the maximum price for U. S. No. 1 potatoes in bags, shown in the table above, which is $1.90. He then subtracts the differential for this type of sale shown in footnote 1 (B) (3) which is 50¢ per cwt. and arrives at a maximum price of $1.40 per cwt.

[1] These prices apply only to dry onions produced in the calendar year 1942 and are subject to the following differentials:

(*a*) For white onions, U. S. Grade No. I, in 50-pound sacks, the country shipper may add 30¢ per 50 pounds to the maximum prices shown above.

(*b*) For dry onions, U. S. Grade No. I, 3 inches and larger in 50-pound sacks, the country shipper may add 20¢ per 50 pounds to the maximum prices shown above.

(*c*) For dry onions, graded and packed in 10-pound sacks or less, the country shipper may add 15¢ per 50 pounds to the maximum prices shown above.

(*d*) For white boiler and pickler onions, graded and packed in 50-pound sacks, the country shipper may add $1.00 per 50 pounds to the maximum price.

(*e*) For dry onions, ungraded and packed in sacks of any size, the country shipper shall subtract 15¢ per 50 pounds from the maximum prices shown above.

(*f*) For dry onions, ungraded and unsacked, the country shipper shall subtract 30¢ per 50 pounds from the maximum prices shown above.

(*g*) If the purchaser furnishes sacks, the country shipper shall subtract 15¢ per 50 pounds from the maximum price.

[2] Example: How the country shipper establishes his maximum price for dry onions. A country shipper located in Massachusetts must determine a maximum price for sales of 50 pound bags of graded yellow globe onions during the month of November, 1942. He refers to the table above which shows that his maximum price for sales of bagged and graded dry onions for delivery during that month is $1.45 per fifty pound bags. He also has a buyer who during the month of November wants to purchase 500 pounds of U. S. No. I white onions. The country shipper refers to the table above and finds for the month of November that his maximum price for fifty pounds is $1.45 plus the differential set forth in footnote 1 (*a*) above which is 30¢ per fifty pounds. He adds 30¢ to $1.45 and arrives at a maximum price of $1.75 per fifty pounds.

§ 1351.1018 *Appendix B: Figures to be used by intermediate sellers in calculating maximum prices under § 1351.1003 of this regulation*

[After the effective date of this regulation, maximum prices for any sale must be established as set forth below]

Column 1	Column 2	Column 3	Column 4		
Perishable food commodity	Date on which intermediate seller must calculate ceiling	Basis on which intermediate seller will calculate his maximum price	Figure to be multiplied by cost established as indicated in column 3		
			Class 1—Retailer owned cooperative	Class 2—Cash-and-carry	Class 3—Service and delivery
White potatoes (of each variety and grade). Dry onions (of each variety and grade).	Monday of each week.	Net delivered cost of the "largest single purchase" delivered at his customary receiving point during the 7 days, immediately preceding Monday of each week.	1.095	1.095	1.21

[1] Separate maximum prices must be calculated for each variety and grade handled and sold by the intermediate seller.

Example: (a) A terminal market wholesaler wishes to set a maximum price for the week beginning Monday, November 16. During the preceding week he bought his largest quantity of U. S. Grade No. 1 white potatoes from Maine. He received a car of these potatoes directly from a country shipping point on Friday, November 16. Looking at his cost, as set forth by the country shipper's invoice, he finds his "net cost" for these potatoes to be $1.90 per cwt. for the month of November or $760 for a carlot of 400 bags. To this "net cost," which represents his "largest single purchase" made during the week preceding November 16, he adds the actual freight of $179, thereby establishing the sum of $939. He divides the sum of his "net cost" and the freight ($939) by the number of bags in the (400) to secure his delivered cost per bag, in this case $2.34. This wholesaler's customary sales are on a cash-and-carry basis. Therefore he takes the multiplier of 1.095 established for Class 2 wholesalers and multiplies by his delivered "net cost" per bag to secure his ceiling price for the period November 16 through November 22 This will give a price per bag of $2.56 as his ceiling price.

Example: (b) A secondary wholesale receiver or jobber in a terminal market, who may extend credit but who customarily does not deliver, wishes to set a maximum price for the week beginning Monday, November 23. On November 18, he bought 50 bags of potatoes from the wholesaler described in Example (a). He customarily buys his largest supplies of white potatoes from this wholesaler. He paid $2.62 per bag for these. This jobber customarily sells to retail stores. Therefore, he takes the mark-up of 1.095 established for Class 2 wholesalers as shown above, and multiplies this by his cost to arrive at his ceiling price of $2.87 per bag for the period November 23 to November 29, inclusive.

Example: (c) A secondary wholesale receiver or jobber in this terminal market wishes to set a maximum price for the week beginning Monday, November 23. On November 18, he bought 200 bags of potatoes from the wholesaler described in Example (a). He customarily buys his largest supplies of potatoes from this wholesaler. He paid $2.62 per bag for these. This jobber customarily sells on a service and delivery basis to retail stores. Therefore, he takes the multiplier of 1.21 established for service and delivery wholesalers in Class 3 of the above chart and multiplies this by his cost to arrive at his ceiling price of $3.17 per bag for the period November 23 to 29, inclusive.

Since the fractional part of a cent is less than one-half cent, the wholesaler's permitted ceiling is $3.17 under §1351.1005 of this regulation which provides that fractions of less than one-half cent shall be adjusted to the next lower cent. Fractions *equal to* one-half cent or more shall be rounded to the next higher cent.

This secondary wholesale receiver or jobber is not permitted to re-sell to another wholesale distributor. Under this regulation the maximum price he has determined applies only for sales to retail establishments.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 268]

SALES OF CERTAIN PERISHABLE FOOD COMMODITIES AT RETAIL

In the judgment of the Price Administrator, it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 that maximum prices be established for the sale of certain perishable food commodities at retail. The following regulation supersedes Temporary Maximum Price Regulation No. 22 insofar as sales at retail of certain perishable food commodities are concerned, and establishes maximum prices at retail in a manner calculated to promote equitable distribution of these commodities through normal channels of retail trade.

The maximum prices for retail sellers established by this regulation are, in the judgment of the Price Administrator, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 268 is hereby issued.

1351.1116 Appendix A: Figures to be used by retailers in determining maximum prices under § 1351.1103 of this regulation.

AUTHORITY: §§ 1351.1101 to 1351.1116, inclusive issued under Pub. Laws 421 and 729, 77th Cong., E.O. 9250, 7 F.R. 7871.

§ 1351.1101 *Applicability of this Maximum Price Regulation No. 268*—(a) *What commodities must be priced under this regulation.* This regulation applies only to the food commodities listed in Appendix A (§ 1351.1115) of this regulation.

(b) *To what types of sellers this regulation applies.* This regulation applies only to sellers at retail (hereinafter referred to as retailers) which for the purpose of this regulation are divided into the following five classes:

(1) *Class 1.* Independent retail outlets with an annual gross sales volume of less than $20,000.

(2) *Class 2.* Independent retail outlets with an annual gross sales volume of $20,000 to $50,000.

(3) *Class 3.* Independent retail outlets with an annual gross sales volume of $50,000 to $250,000.

(4) *Class 4.* Chain retail outlets with an annual gross sales volume of less than $250,000.

(5) *Class 5.* Chain or independent retail outlets with an annual gross sales volume of $250,000 or more.

(c) *Purposes of this regulation.* This regulation provides new maximum prices for the particular food commodities listed in Appendix A. These maximum prices are to be the only maximum prices for all sales at retail of such food commodities after the effective date of this regulation and are to be used instead of the maximum prices established by any other applicable price regulation or order issued by the Office of Price Administration.

(d) *Prohibition.* On and after November 12, 1942, the date this regulation takes effect, regardless of any contract or other obligation, no person is permitted to sell or deliver at retail any of the food commodities listed in Appendix A at a price which is higher than the maximum price fixed by this regulation, and no person is permitted to buy or receive any of these food commodities at a price higher than that maximum price. Lower prices than the maximum prices may be charged and paid.

§ 1351.1102 *When a retailer must calculate maximum prices for the food commodities listed in Appendix A.* A retailer must calculate maximum prices for the food commodities covered by this regulation once every week. This calculation shall be made on the day of the week set forth opposite the food commodity in Appendix A and before any sales of such commodity are made on

that day. All maximum prices shall be calculated and stated in the unit of sale designated for the commodity in Appendix A (for example, maximum prices for potatoes will be calculated and stated for 5 lbs.)

§ 1351.1103 *How a retailer calculates his maximum prices for the food commodities listed in Appendix A.* (a) The retailer shall calculate his maximum price for the designated unit of sale of each item (that is, for each grade and variety) of food commodities listed in Appendix A as follows:

(1) The retailer shall first find in §§ 1351.1106 and 1351.1107 of this regulation in what class of retailers he falls as set forth in paragraph (b) of § 1351.1101 hereof.

(2) The retailer will then find his net cost of the item he is pricing.

(i) "Net cost" shall in all cases be based on the unit of purchase of the retailer's largest single purchase during the preceding week of each grade and variety from his customary type of supplier. "Largest single purchase" means the purchase of the greatest quantity which was received by the retailer at his customary receiving point during the 7 days before the day of the week on which the maximum price must be calculated. (For example, if a retailer during the preceding week purchased 25 bags of 100 lbs. each of white round, U.S. No. 1 potatoes at $2.10 per bag, and also purchased 15 bags of the same grade and variety of potatoes at $2.35 per bag, then the purchase of 25 bags at $2.10 per bag is the "largest single purchase" of that grade and variety of potatoes made during that week, and the unit of purchase is the 100 lb. bag.)

(ii) Where the item being priced is purchased by the retailer from other than an intermediate seller such as, but not limited to, a grower, primary seller, country shipper, processor, packer or the like, "net cost" in this regulation means the amount paid by the retailer for the unit of purchase of his "largest single purchase" delivered at his customary receiving point, less all discounts allowed him except the discount for prompt payment; however, no charge or cost for local trucking or local unloading shall be included.

(iii) Where the item being priced is purchased by the retailer from an intermediate seller such as, but not limited to, wholesalers, carlot receivers, branch warehouses or jobbers, but not another retailer, "net cost" in this regulation means the amount paid by the retailer for the unit of purchase of his "largest single purchase" as shown on the intermediate seller's invoice (sales ticket, cash receipt, or other written evidence of sale), less all discounts allowed to the retailer except the discount for prompt payment. When transportation charges, other than local trucking, are paid by the retailer and are not shown on the intermediate seller's invoice, they may be added to the invoice in calculating "net cost".

(3) The retailer shall then multiply his "net cost" of the unit of purchase by the figure in Appendix A which applies to a retailer of his class for the food commodity being priced.

(4) The retailer will then divide this amount by the number of designated units of sale in his unit of purchase. (For example, if his unit of purchase is a 100 lb. bag and the designated unit of sale is 5 lbs., he will divide by 20.) The resulting figure will be the retailer's maximum price for the designated unit of sale for the item being priced and shall be his maximum price until such time as the "net cost" of his "largest single purchase" changes.

(b) Before making any sales of such item at this maximum price, the retailer must post his maximum price as set forth in § 1351.1105 of this regulation.

(c) In calculating the first maximum price after the effective date of this regulation, a retailer, who made no purchases during the 7 days before the effective date of this regulation, shall use as his "largest single purchase" in determining "net cost" his most recent purchase.

§ 1351.1104 *How a retailer calculates the sales price of amounts other than the designated units of sale.* If a retailer sells an amount other than the designated unit of sale, he shall multiply his maximum price for the designated unit of sale by the number of times the designated until of sale is divisible into the quantity being sold. (For example, if the retailer sells 15 lbs. of potatoes and has a maximum price of 15¢ for 5 lbs. (the designated unit of sale), he multiplies 15¢ by 3 and gets 45¢; if he sells one lb. he multiplies 15¢ by ⅕ and gets 3¢.)

§ 1351.1105 *How a retailer must post his maximum prices.* A retailer must post his maximum prices for each grade and variety calculated under § 1351.1103 in clear and legible printing or writing at the opening of business on the day set forth opposite the food commodity in Appendix A, at the place in the store or retail establishment where the food commodity is offered for sale, stating in addition to the maximum prices, the grade and variety of each item.

§ 1351.1106 *How a retailer determines whether he is an independent outlet or a member of a chain.* For the purposes of this regulation, a retailer shall be considered an independent outlet or a member of a chain as follows:

(a) A retail outlet shall be an independent outlet if it is not a unit of four or more retail outlets under one ownership.

(b) A retail outlet shall be a member of a chain if it is a unit of four or more retail outlets under one ownership.

§ 1351.1107 *How a retailer determines his annual gross volume.* (a) For the purposes of this regulation, a retailer shall determine his annual gross sales volume as follows:

(1) If the retailer filed a Federal income tax return for the taxable year 1941, then his annual gross sales volume shall be his total gross sales as stated in such return.

(2) If the retailer did not file a Federal income tax return for the year 1941, or was not in operation during the year 1941, then his annual gross sales volume shall be determined by dividing his total gross sales for the period in operation during 1942, as shown on his records, by the number of weeks in operation during 1942 and multiplying the result by 52.

(3) If the retailer filed a Federal income tax return for the taxable year 1941, which return covered a period of less than 12 weeks, then his annual gross sales volume shall be determined by dividing his total gross sales as shown in such tax return by the number of weeks covered by such return and multiplying the result by 52.

(b) If a retailer makes sales through more than one retail outlet or is a department store in which the sales of food commodities are made in a separate department, then each retail outlet or department shall be considered a separate retailer for the purpose of determining annual gross sales volume. If the retailer in such a case did not file a separate Federal income tax return for the taxable year 1941 for each outlet or department, then the gross sales volume for the particular outlet or department, as shown on the retailer's records for the same period covered by the retailer's Federal income tax return for the taxable year 1941, shall be the annual gross sales volume of that outlet or food department.

(c) If a retailer sells food commodities in a retail outlet in which sales of food commodities are made by more than one retailer, and in which no more than one retailer sells the same food commodity, then each retailer shall use as his annual gross sales volume for the purpose of determining in what class of retailers he falls, the combined annual gross sales volume of all the retailers in that retail outlet. (For example, a retailer who leases the fresh produce department in his retail outlet must include his annual gross sales volume for the fresh produce department as well as the sales of all other departments in determining his class of retailers. Similarly, the produce retailer in this outlet must include the annual gross sales of all other departments in determining his class of retailers.)

(d) If a retailer sells food commodities in a retail outlet in which the sales of food commodities are made by more than one retailer, and in which more than one retailer sells the same food commodities, then, each retailer shall be considered a separate retailer for the purpose of determining annual gross sales volume. (For example, if more than one retailer operates a fresh produce stall in a public market, then each fresh produce retailer shall use only his own annual gross sales volume in determining his class of retailers.)

§ 1351.1108 *Fractions of cents.* Any calculation of a maximum price for a designated unit of sale or for another sale as provided in § 1351.1104 which results in a fraction of a cent shall be reduced to the nearest lower cent if the fraction is less than one-half cent and shall be increased to the nearest higher cent if the fraction is one-half cent or more.

*Copies may be obtained from the Office of Price Administration.

§ 1351.1109 *Records.* Every retailer of food commodities covered by this regulation shall keep all records upon which he calculated any maximum price, "net cost" or "largest single purchase" under this regulation, whether currently in effect or not, which records shall be kept for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

§ 1351.1110 *Relationship between this regulation, Temporary Maximum Price Regulation No. 22 and the General Maximum Price Regulation.* (a) This regulation supersedes the provisions of Temporary Maximum Price Regulation No. 22 insofar as sales by retailers of food commodities covered by this regulation are concerned.

(b) The following provisions of the General Maximum Price Regulation, as well as any amendments thereto, shall continue to be applicable to every retailer selling the food commodities covered by this regulation.

(1) Determination of maximum prices by sellers at retail operating more than one retail establishment (§ 1499.4a).

(2) Transfers of business or stock in trade (§ 1499.5).

(3) Sales for export (§ 1499.6).

(4) Federal and State taxes (§ 1499.7).

(6) Sales slips and receipts (§ 1499.14).

(7) Registration (§ 1499.15).

(8) Licensing (§ 1499.16).

§ 1351.1111 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 268 shall not be evaded, whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to, any of the commodities listed in Appendix A hereof, alone or in conjunction with any other commodity or by way of commission, service, transportation, or any other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or by calculating "net cost" on purchases other than his "largest single purchase" or otherwise.

§ 1351.1112 *Enforcement.* Persons violating any provisions of this Maximum Price Regulation No. 268 are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided by the Emergency Price Control Act of 1942, as amended.

§ 1351.1113 *Definitions.* Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, and in § 1351.1014 of Maximum Price Regulation No. 271, (potatoes and onions), § 1429.18 of Maximum Price Regulation No. 269 (turkeys) shall apply to terms used herein wherever applicable.

§ 1351.1114 *Geographic applicability.* The provisions of this Maximum Price Regulation No. 268 shall apply to the forty-eight states of the United States and the District of Columbia.

§ 1351.1115 *Effective date. This Maximum Price Regulation No. 268* (§§ 1351.1101 to 1351.1116, inclusive) shall become effective November 12, 1942.

§ 1351.1116 *Appendix A: Figures to be used by retailers in determining maximum prices under § 1351.1103 of this regulation.* (a) Maximum prices for any transactions after the effective date of this regulation must be calculated on the basis established in this regulation and a retailer will have a new maximum price whenever his "net cost" increases or decreases.

Food commodity	Day of the week on which retailer must calculate maximum prices	Figures to be multiplied by net cost of item in determining maximum prices under this regulation					
		Independent retailer with annual volume—			Class 4—chain retailer with annual volume under $250,000	Class 5—any retail (chain or independent) with annual volume of $250,000 or more	Unit of—sale for which base maximum selling price must be calculated
		Class 1—under $20,000	Class 2—$20,000 but less than $50,000	Class 3—$50,000 but less than $250,000			
							Pounds
1. White potatoes*	Thursday	1.33	1.33	1.30	1.30	1.28	5
2. Dry onions*	Thursday	1.50	1.50	1.50	1.39	1.35	3
3. Turkeys bought, dressed and sold dressed (boxed* and other pack).	Thursday	1.20	1.20	1.20	1.18	1.18	1

6. Quick-frozen Turkeys bought and sold eviscerated.*	Thursday	1.25	1.25	1.25	1.25	1.25	1

*Separate price must be computed for each grade and variety. The retailer's supplier must show the grade and variety on the invoice.

(b) (1) *Example of how to compute new maximum retail price for potatoes and onions.* A retailer must secure a new maximum price for round white potatoes to be used during the period November 12 (Thursday) to November 18 (Wednesday), inclusive. He customarily buys most of his potatoes from a jobber who delivers. His largest single purchase of white potatoes from his customary supplier during the seven days preceding November 12 (November 5 to November 11, inclusive) was 15 100-pound bags, at a cost of $2.75 per bag. This independent retailer had an annual volume of $18,000 in 1941.

Therefore, he takes the applicable figure for potatoes as shown in the table for retailers in Class I (Independent retailers with annual volume under $20,000), which in this case is 1.33, and multiplies it by the cost per hundred-pound bag. He next divides the number of pounds in the bag (which in this case is 100) by the designated number of pounds in the unit of sale, (5 lbs. for white potatoes), and this new figure (20) is then divided into the $3.6575 which he obtained by multiplying his cost by the multiplier for his class. The resulting figure of $.18 (rounding off to the nearest cent) is his ceiling price for 5 pounds of white potatoes.

The price ($.18) is the retailer's new ceiling on white potatoes in 5-lb. quantities—the designated unit of sales.

If this retailer wishes to sell 3-lb. quantities, he must reduce the ceiling price calculated above, as follows:

He takes the ceiling price calculated for the designated unit of sale ($.18 for 5 lbs.) and multiplies it by the number of pounds in the unit he wishes to sell (which in this case is 3). This new figure is then divided by the number of pounds in the designated unit of sale (5), and the figure arrived at is his new ceiling price for white potatoes to be sold by him in units of 3 pounds.

$.18×3=$.54

5)$.54($.108

($.11 is maximum price)

(2) *Additional instructions.* (i) A maximum price must be calculated before making a sale of any grade of the food commodities included in this appendix after the effective date of this regulation.

(ii) A new maximum price must be calculated on the first Thursday following a change, either up or down, in "net cost" as defined in this regulation. If "net cost" does not change, no new maximum price need be calculated.

(iii) "Net cost" shall be based on the amount paid for the unit of purchase of the retailer's largest single purchase from his customary type of supplier. "Largest single purchase" means the purchase of the greatest quantity which was made during the seven days before the day of week on which the maximum price must be calculated.

(c) *Definitions.* (1) "Potatoes" means all white potatoes used for human consumption not including seed potatoes.

(2) "Onions" means all dry onions used for human consumption produced in the calendar year 1942.

(3) "Turkeys" means all turkeys sold for human consumption except baby poults and turkeys sold only for breeding purposes.

Issued this 7th day of November 1942.

PART 1346—BUILDING MATERIALS

[MPR 261]

CONTRACT SALES OF FINISHING BUILDERS' HARDWARE

In the judgment of the Price Administrator it is necessary and proper, in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 to replace those provisions of Revised Price Schedule No. 40 and the General Maximum Price Regulation, affecting the distribution of finishing builders' hardware by contract sales, with a separate regulation establishing maximum prices for all contract sales of finishing builders' hardware.

So far as practicable, the Price Administrator has consulted with representatives of the trade and industry and in the judgment of the Price Administrator, the maximum prices established by this Regulation are generally fair and equitable and in conformity with the general level of maximum prices prevailing during the period October 1, 1941 to March 31, 1942. A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

§ 1346.204 *Less than maximum prices.* Lower prices than those set forth under § 1346.203 may be charged, demanded, or offered.

§ 1346.205 *Notification of purchasers of existence of regulation.* Every person selling finishing builders' hardware pursuant to a contract sale which is subject to this Maximum Price Regulation No. 261 shall, before entering into a contract or making a sale, notify the purchaser of the existence of this Maximum Price Regulation No. 261, and, upon request of the purchaser, make available a copy of this Maximum Price Regulation No. 261 at the seller's principal place of business and at every branch office for examination by the purchaser.

§ 1346.209 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 261 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, obligation, or delivery of, or relating to contract sales of finishing builders' hardware, either alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or by breaking up orders for two or more items into sales of single items, or by breaking up orders into two or more orders for the purpose of securing higher mark-ups, or otherwise.

C.

§ 1346.213 *Petitions for amendment or adjustment*—(a) *Government contracts or subcontracts.* Any person who has entered into or proposes to enter into a government contract or a subcontract under any such contract, who believes that the maximum price impedes or threatens to impede the distribution of finishing builders' hardware pursuant to a contract sale, for use in connection with governmental building construction, may file an application for adjustment of a maximum price established by this Maximum Price Regulation No. 261, in accordance with Procedural Regulation No. 6[3] issued by the Office of Price Administration.

(b) The classes and grades of dry edible beans specified in this Regulation are those set forth in the United States Standards for Beans issued by the United States Department of Agriculture.

(c) The maximum price per cwt., f. o. b. carrier at country shipping point, which country shippers may charge for any item of dry edible beans packed in 25 pound cartons or bags shall be the maximum price listed for the item in paragraph (a) plus 25 cents.

(d) The maximum price per cwt., f. o. b. carrier at country shipping point, which country shippers may charge for any item of dry edible beans packed in a container smaller than a 25 pound carton or bag shall be the maximum price listed for the item in paragraph (a) plus the customary differential per cwt, which he used in sales of the smaller size during the 90-day period preceding November 9, 1942.

(e) If a country shipper makes a sale of dry edible beans which have been moved to a place other than the original country shipping point, his maximum price shall be the price stated in paragraph (a) plus the transportation charges actually incurred, figured at the lowest available common carrier rate, from the original country shipping point to the place where the goods are located when sold. But in no case shall the shipper add the transportation charges from the farm to the country shipping point.

(f) No country shipper shall change any customary allowance, discount, or other price differential to a class of purchasers if the change results in a higher net price to that class of purchasers.

§ 1351.1204 *Class and grade labeling requirement.* Every country shipper shall plainly indicate on each 100 pound sack of dry edible beans which he delivers on and after November 9, 1942, the class and United States grade of dry edible bean enclosed. § 1351.1205 *Exempt sales.* This Maximum Price Regulation No. 270 shall not apply to these transactions:

(a) Sales and deliveries of dry edible beans produced on the country shipper's own farm. However, this regulation shall apply to a sale or delivery of dry edible beans by a farmer's cooperative or by a country shipper selling beans grown by him to an ultimate consumer if during the preceding month the country shipper's sales to ultimate consumers of all dry edible beans produced on his farm exceeded $75.

(b) Deliveries to the United States or any of its agencies under contracts entered into before October 5, 1942.

(c) Sales and deliveries by others than country shippers.

§ 1351.1206 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 270 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to dry edible beans covered by this regulation, alone or in conjunction with any other commodity or by way of any commission, service, transportation or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or by changing a business practice relating to the price line, grading, labeling, packaging or branding of dry edible beans.

§ 1351.1207 *Export sales.* The maximum prices at which a person may export dry edible beans covered by this Maximum Price Regulation No. 270 shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation [1] issued by the Office of Price Administration.

§ 1351.1208 *Records which country shippers must keep.* (a) Every country shipper selling dry edible beans shall prepare on or before December 15, 1942, on the basis of all available information and records, a statement showing all of his customary allowances, discounts and other price differentials, and he shall keep the statement for examination by any person during ordinary business hours. Any country shipper who claims that he would be substantially injured by showing this statement to another person may file it with the appropriate field office of the Office of Price Administration. The information will not be shown to anyone unless withholding it would be contrary to the purposes of this regulation.

(b) Every country shipper selling dry edible beans shall keep for examination by the Office of Price Administration, as long as the Emergency Price Control Act of 1942 remains in effect, records of the same kind as he has customarily kept, relating to the prices which he charges after November 8, 1942; and in addition, records showing as precisely as possible the basis upon which he calculated the maximum price for any item of dry edible beans under § 1351.1203 (d), which provides for the pricing of small-sized packages.

§ 1351.1209 *Enforcement.* (a) Any person violating a provision of this Maximum Price Regulation No. 270 is subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 270 or of any price schedule, regulation, or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation, are urged to communicate with the nearest district, state, or regional office of the Office of Price Administration, or its principal office in Washington, D. C.

§ 1351.1210 *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation No. 270 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[2] and amendments, issued by the Office of Price Administration.

§ 1351.1211 *Relationship between this regulation and Temporary Maximum Price Regulation No. 22, Maximum Price Regulations Nos. 237 and 238, and the General Maximum Price Regulation.* (a) The provisions of this Maximum Price Regulation No. 270 supersede the provisions of Temporary Maximum Price Regulation No. 22 [3] in so far as they apply to sales and deliveries of dry edible beans made by growers and country shippers.

(b) The following sections of the General Maximum Price Regulation,[4] as well as amendments to them, shall be applicable to every country shipper selling dry edible beans:

[MPR 270, Amendment 1]

DRY EDIBLE BEANS

A statement of the considerations involved in the issuance of this Amendment No. 1 to Maximum Price Regulation No. 270 has been issued and filed with the Division of the Federal Register.*

A new § 1351.1203a and a new § 1351.1215 are added as follows:

§ 1351.1203a *Maximum prices which primary jobbers may charge for dry edible beans.* (a) Any primary jobber (that is, one who purchases dry edible beans, receives shipment of them into a warehouse and distributes them from such warehouse for resale customarily by wholesalers) shall calculate his maximum price for any item of dry edible beans by adding a 2% markup to his net cost for the item. "Net cost" means the amount the primary jobber paid for the item delivered at his customary receiving point less all discounts allowed him, except the discount for prompt payment. However, no charge or cost of local unloading or local trucking shall be included. "Net cost" shall be based on the primary jobber's most recent purchase, since May 11, 1942, of a customary quantity from a customary supplier and received by a customary mode of transportation.

(b) If, after calculating a maximum price, a primary jobber before December 20, 1942 purchases a customary quantity of the same item from a customary supplier at a higher "net cost" than he used in calculating his maximum price under paragraph (a) of this section, he may calculate a new maximum price on the basis of his new "net cost".

(c) A maximum price for any item of dry edible beans calculated by a primary jobber under paragraph (a) of this regulation shall be his maximum price for that item from that time forward. However, where a primary jobber recalculates his maximum price under paragraph (b) of this section, such recalculated price shall be his maximum price for that item of dry edible beans from and after the date of recalculation.

§ 1351.1215 *Effective dates of amendment.* (a) Amendment No. 1 (§ § 1351.-1203a and 1351.1215) to Maximum Price Regulation No. 270 shall become effective November 9, 1942.

PART 1392—PLASTICS

[MPR 263]

NEW PHONOGRAPH RECORDS AND RECORD SCRAP

In the judgment of the Price Administrator, the prices of new phonograph records and of record scrap are threatening to rise to an extent, and in a manner, inconsistent with the purposes of the Emergency Price Control Act of 1942.

In the judgment of the Price Administrator, the maximum prices established by this Maximum Price Regulation No. 263 are necessary to check inflation and to effectuate the purposes of the Act.

In the judgment of the Price Administrator, the maximum prices established by this Maximum Price Regulation are generally fair and equitable. So far as practicable, the Price Administrator has given due consideration to prices prevailing between October 1 and October 15, 1941, and to relevant factors of general applicability. So far as practicable, the Price Administrator has consulted with representatives of the industry, which will be affected by this Maximum Price Regulation No. 263.

A statement of the considerations involved in the issuance of this Maximum Price Regulation No. 263 has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and in accordance with Revised Procedural Regulation No. 1 [1] issued by the Office of Price Administration, Maximum Price Regulation No. 263 is hereby issued.

§ 1392.51 *Prohibition against sales and purchases of new records in excess of maximum price.* On and after November 12, 1942, no person shall sell or purchase any new phonograph record at a price higher than the maximum price.

(a) *Maximum prices for new records.* The maximum price for a new record shall be as set forth in this paragraph (a), subject to the discounts and allowances prescribed in § 1392.54 (a):

(1) For a record in the manufacturer's catalogue during March, 1942, the highest price therein set forth, less any portion thereof attributed to federal excise tax.

(2) For a record (except a limited edition) not in the manufacturer's catalogue in March, 1942, the highest price (less any portion thereof attributed to federal excise tax) regularly established in the manufacturer's catalogue in effect during March, 1942, for a record of the same label, series, size and classification. For the purposes of this subparagraph (2), a label shall not cease to be the same label if shortage or prohibitive cost of ink of a particular color requires the printing of the label with ink of a different color.

(3) For a record issued in a limited edition, a price approved by the Office of Price Administration, which approval shall be obtained before any such record is sold or offered for sale:
Provided, That sales of records for which no maximum price is authorized by this Maximum Price Regulation No. 263 shall be subject to the General Maximum Price Regulation.

(b) *Allowances for record scrap.* If the seller of new records requires the buyer to furnish record scrap in order to purchase new records, he shall make an allowance to the purchaser for such record scrap at the following rates:

(1) In the case of a sale by a dealer, not less than:

(i) 2 cents for each 10-inch solid-stock scrap record;

(ii) 3 cents for each 12-inch solid-stock scrap record;

(iii) 1 cent for each 10-inch laminated scrap record;

(iv) 1½ cents for each 12-inch laminated scrap record;

(v) 4 cents per pound for broken-record scrap in bulk.

(2) In the case of sales by manufacturers or distributors, not more than:

(i) 2½ cents for each 10-inch scrap record;

(ii) 4 cents for each 12-inch scrap record;

(iii) 6 cents per pound for record scrap in bulk.

The foregoing allowances when made by a distributor or manufacturer may be increased by an amount not exceeding the sum of all transportation charges actually incurred in forwarding the scrap from a dealer to a manufacturer or from a distributor to a manufacturer.

§ 1392.52 *Prohibition against sales and purchases of record scrap in excess of maximum price.* On and after November 13, 1942, no person shall, in the regular course of trade, sell or purchase record scrap at a price higher than 6 cents per pound, f. o. b. point of shipment.

---

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 8961.

§ 1392.53 *Less than maximum prices.* Lower prices than those established as maximum prices by §§ 1392.51 (a) and 1392.52 of this regulation may be charged, demanded, paid or offered for new records and for record scrap, except as set forth in § 1392.51 (b).

§ 1392.54 *Discounts and allowances.* (a) Every manufacturer and every distributor shall continue to grant to persons buying new records discounts from catalogue or list prices, and allowances and terms of sale, not less favorable to the purchaser than those generally in effect during March 1942, for a sale of similar records by such manufacturer or distributor to a purchaser of the same class.

(b) Every dealer selling new records shall continue to grant discounts and allowances for quantity purchases not less favorable to the purchaser than those regularly granted by him during March 1942.

§ 1392.55 *Taxes*—(a) *Taxes in effect during March, 1942.* A seller may add to his maximum prices hereunder any federal, state or local taxes on sales of records, which were in effect during March, 1942, to the extent that, during such month, such taxes were collected by the seller in addition to the prices established by this maximum price regulation. If such taxes are added, the seller shall state and collect them as an item separate from the price of the records.

(b) *Taxes which were first imposed after March, 1942.* Any federal, state, or local taxes or tax increases on sales of records, which were first imposed after March, 1942, may be added to the maximum prices established hereunder, *Provided,* That such taxes or tax increases be stated and collected as an item separate from the price of the records.

§ 1392.56 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 263 shall not be evaded directly or indirectly in connection with any sale or delivery of records or record scrap, alone or in conjunction with any other commodity, by way of any service, transportation, or other charge, or by the reduction of any discount, premium or privilege, or by tying agreement, trade understanding, or otherwise.

§ 1392.57 *Posting of maximum prices for records and allowances for scrap.* (a) On and after January 15, 1943, every seller at retail of new records covered by this Maximum Price Regulation No. 263 shall post conspicuously in his retail premises a legible statement of the maximum prices hereunder for such records and the minimum allowances which he is required to make for record scrap.

(b) Every manufacturer of records covered by this Maximum Price Regulation No. 263 shall make available to dealers selling such records:

(1) Placards for display in the dealers' premises on and after January 15, 1943, setting forth the information required by paragraph (a) of this § 1392.57;

(2) Envelopes, albums or containers for records or sets of records made by such manufacturer, bearing a legible statement showing the maximum prices established by this Maximum Price Regulation No. 263 for records or sets of records made by such manufacturer. The requirements of this subparagraph (2) shall be put into effect with respect to each size or type of envelope, album or container, upon exhaustion of each manufacturer's supply thereof on hand on the effective date of this regulation but in no event later than May 1, 1943.

(c) The printed matter referred to in paragraph (b) of this section shall be in a form approved in writing by the Office of Price Administration.

§ 1392.58 *Applicability of General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 263 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this regulation. The following sections of the General Maximum Price Regulation are made a part of this regulation:

(a) Sales for export (§ 1499.6).[3]
(b) Sales slips and receipts (§ 1499.14).[3]
(c) Registration (§ 1499.15).[3]

Any amendments to these sections are automatically applicable to this Maximum Price Regulation No. 263. In applying these sections, the words "Maximum Price Regulation No. 263" shall be substituted for the words "the General Maximum Price Regulation." The text of these sections is set forth in Appendix A incorporated herein as § 1392.63.

§ 1392.59 *Penalties.* (a) Persons violating any provisions of this Maximum Price Regulation No. 263 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942, and to proceedings for suspension of licenses.

§ 1392.60 *Definitions.* When used in this Maximum Price Regulation No. 263, the term:

PART 1415—PROTECTIVE COATINGS

[MPR 264]

§ 1415.51 *Prohibition against sales of industrial waxes above maximum prices.* On and after November 13, 1942, regardless of any contract, agreement, lease or other obligation:

(a) No person shall sell, deliver, or transfer any domestic industrial waxes or imported industrial waxes entering the continental United States after the 20th day of August, 1942 at higher prices than the maximum prices set forth in Appendix A (§ 1415.65) of this Maximum Price Regulation No. 264.

(b) No person shall buy or receive any such industrial waxes in the course of trade or business at higher prices than the maximum prices set forth in Appendix A (§ 1415.65) of this Maximum Price Regulation No. 264.

(c) No person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided,* That the provisions of this Maximum Price Regulation No. 264 shall not apply to sales or deliveries of domestic industrial waxes to a purchaser if prior to November 13, 1942, such industrial waxes had been received by a carrier other than a carrier owned or controlled by the seller for shipment to such purchaser.

§ 1415.52 *Applicability of the General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 264 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries of industrial waxes for which maximum prices are established by this regulation except sales and deliveries of less than 1 pound.

§ 1415.53 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 264 may be charged, demanded, paid or offered.

§ 1415.54 *Export sales.* The maximum price at which a person may export industrial waxes shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation,[2] issued by the Office of Price Administration.

§ 1415.56 *Federal and state taxes.* Any tax upon, or incident to, the sale or delivery of industrial waxes, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such commodity and in preparing the records of such seller with respect thereto:

(a) *As to a tax in effect during the year 1941.* (1) If the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price during the year 1941 the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 264.

(2) In all other cases, if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount or tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this Maximum Price Regulation No. 264.

In appropriate situations where a petition for amendment requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1415.58 *Petitions for amendment.* Persons seeking any modifications of this Maximum Price Regulation No. 264 or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

The maximum prices for sales of cane blackstrap molasses and beet sugar final molasses produced in the continental United States by producers thereof and by distributors other than those exempted in subdivision (ii) shall be the applicable maximum prices set forth in this subdivision (i), or the seller's maximum price as determined under § 1499.2, General Provisions, of the General Maximum Price Regulation, whichever is higher.

PART 1429—POULTRY AND EGGS

In the judgment of the Price Administrator, it is necessary and proper, in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 issued by the President on October 3, 1942, that maximum prices be established for the sale of the poultry and eggs named in this regulation.

[1] 7 F.R. 8961.

§ 1429.2 *Maximum prices for live and dressed turkeys listed in Appendix A, § 1429.19 when sold to primary distributors.* (a) The maximum prices for all sales and deliveries of the live or dressed turkeys listed in Appendix A, § 1429.19 by all persons selling to the "first wholesaler" at any particular place in the United States shall be calculated as follows:

"The first wholesaler" means the wholesaler or any other distributor making the first purchase at the particular place for which the price is to be determined, including but not limited to wholesalers, jobbers, processors, packers, processor- or packer-wholesalers and other distributors who purchase for resale with or without processing. It shall also include commercial, governmental, and institutional users, except when making purchases of poultry and eggs from "first wholesalers" and "secondary wholesalers" as defined in § 1429.3 (a).

(1) The seller or buyer must first find his basing point city. Five basing point cities are listed in Appendix A. The seller will select as his basing point city that one of the five cities which is closest freightwise to the place where the seller intends to sell his turkeys.

A basing point city is "closest freightwise" when the railroad freight rate from the place of sale to that city is lower than that to any of the other basing point cities.

Example. City X is 100 miles nearer to New York City than it is to Los Angeles. However, the freight rate to Los Angeles is ¼¢ per pound lower than it is to New York. Los Angeles is the basing point city because it is closer freightwise.

(2) If the seller's closest basing point city is the City of New York, New York, and if the seller's place of sale is located at any point east, northeast, or southeast of the City of Chicago, Illinois, the seller's maximum price for each turkey item delivered to "the first wholesaler" at the place of sale shall be determined as follows:

(i) First, the seller or buyer shall take the maximum price for such turkey item in the basing point city of New York, as set forth in Appendix A, § 1429.19 and subtract therefrom the railroad freight rate from the City of Chicago, Illinois to the City of New York.

(ii) Second, the seller or buyer shall add to the difference so obtained the freight rate from the City of Chicago, Illinois, to the place of sale. The total thus reached shall be the seller's maximum price for such turkey item in the place of sale.

(3) In all other cases, the seller's maximum price for each turkey item delivered to the "first wholesaler" shall be the maximum price for such turkey item in the seller's basing point city less the railroad freight rate from the place of sale to such basing point city.

(4) In all cases other than the shipment of live turkeys the seller shall compute his railroad freight rate by multiplying his lowest railroad rate per pound of gross weight by 1.22 to provide for tare and icing. In the case of live turkeys his freight rate shall be the actual lowest railroad freight rate per pound.

§ 1429.3 *Maximum prices for sales of live and dressed turkeys by "first and secondary wholesalers".* (a) The maximum prices for sales and deliveries of the live and dressed turkeys listed in Appendix A, § 1429.19 by all "first wholesalers" and by all "secondary wholesalers" shall be calculated as follows:

(1) A "first wholsaler" shall follow the procedure set forth in Appendix B, § 1429.20.

(2) A "secondary wholesaler" shall follow the procedure set forth in Appendix C, § 1429.21.

(3) (i) A "first wholesaler" is defined in § 1429.2 (a) above.

Example. The ABC Co. is a poultry wholesale house in Chicago, Illinois. It customarily buys turkeys in carlot quantities at the terminal receiving point in Chicago from an original shipper in Texas. It then sells such turkeys in smaller quantities to other wholesalers or jobbers in Chicago. It, therefore, is a "first wholesaler".

(ii) "A secondary wholesaler" is any person who purchases any of the live or dressed turkeys listed in Appendix A, § 1429.19 from a "first wholesaler" for the purpose of resale other than at retail.

Example. The XYZ Co. is a poultry wholesale house in Chicago, Illinois. It purchased 25 boxes of dressed turkeys from the ABC Co., another wholesaler, and sold these 25 boxes to a retail store. Later, it purchased a carlot of dressed turkeys from a packing house in Texas and later sold this carlot in small quantities to both retail stores and other wholesale firms. With respect to the 25 boxes of dressed turkeys purchased from the ABC Co., the XYZ Co. is a "secondary wholesaler". However, with respect to the carlot of dressed turkeys purchased from the Texas processor, the XYZ Co. is a "first wholesaler".

(4) In no case shall a person selling turkey items as "a first wholesaler" follow the procedure set forth in Appendix C, § 1429.21 for "a secondary wholesaler".

§ 1429.4 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 269 may be charged, demanded, paid, or offered.

§ 1429.5 *Customary discounts.* Every seller shall continue his discounts, allowances, and other price differentials customarily given in connection with the sale and delivery of the poultry and egg items covered by this Maximum Price Regulation No. 269.

§ 1429.6 *Sales at export.* The maximum prices at which a person may export any commodity covered by this Maximum Price Regulation No. 269 shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[2] issued by the Office of Price Administration.

(1) To half-hire for time consumed in making owners' repairs of the nature described in Clauses 4 (a) and 4 (b) of Part II of Warshiptime (General Order No. 11) (§ 302.50), during the period of defensing;

(2) To half-hire for time consumed in excess of 48 hours in the cleaning of boilers and overhauling machinery, as prescribed in the last paragraph of Clause 4 of Part II of Warshiptime (§ 302.50), during the period of defensing;

(b) During any period with respect to which full hire is allowed the owner, but the use of the vessel is lost to the charterer, credit shall be given for any expenses set forth in Clause 6 of Part II of Warshiptime (§ 302.50) which are saved by the owner.

(c) During any period with respect to which hire is suspended or reduced, the cost of fuel and water consumed, and port charges, pilotage, towage, and other expenses for the charterer's account, as prescribed in the last paragraph of Clause 4, in Clause 12, and in Clause 17 of Part II of Warshiptime (§ 302.50), shall be borne by the owners.

§ 302.78 *Determination of and payment for time lost resulting from defensing, for which the owner has not been previously compensated, prior to the delivery of the vessel to the Administration.* (a) Owners shall prepare public vouchers in the usual form which shall be supported by a statement, or statements, reflecting:

(3) Deduct: Time consumed in making owners' repairs as prescribed in Clauses 1, 4, and 12 of Part II of Warshiptime (§ 302.50);

In addition to the above statements there shall also be required a statement, in duplicate, from the yard which performed such defensing setting forth the time consumed in such defensing, such statement to contain the written approval of the Administration's local district Manager of Maintenance and Repairs.

(b) Public vouchers (Form 1034, revised) shall be prepared for each vessel and shall be submitted in quintuplicate to the local District Auditor or Port Auditor, or the Chief, Auditing and Financial Analysis Section, Division of Finance, Washington, D. C. (if there is no District Auditor or Port Auditor in the home port of the owner), and shall be prepared to read substantially as follows:

Payment by the War Shipping Administration of all, or any part of the amounts claimed herein shall not be construed as an approval of the correctness of the amounts stated to be due the Owner, nor as a waiver of any of the rights or remedies of the War Shipping Administration under the terms of the applicable time charter agreement or otherwise.

§ 302.79 *Disputes.* In the event of a dispute between the owner and the War Shipping Administration as to the amount of time consumed in performing defensing, owner's repairs, etc., the decision of the Administrator, War Shipping Administration, shall be final and binding.

(1) Time lost from circumstances described in subparagraphs (a) and (b) of Clause 4: *Provided, however,* That the events described in said subparagraph (a) are not caused by the charterer or caused or contributed to by war or warlike acts as described in subparagraph (i) of said Clause 4;

(2) Time lost in excess of 48 hours in any two-month period in the cleaning of boilers and overhauling of machinery as prescribed in the last paragraph of Clause 4; and

(3) Time lost in the event of a disabled winch or winches or insufficient power to operate winches as prescribed in Clause 17.

(c) Hire is suspended under circumstances within the following Clauses of Part II of Warshiptime (§ 302.50):

(2) Time lost in drydocking, cleaning and painting the bottom of the vessel as described in Clause 12;

(3) Time lost in remedying defects caused by the owner's failure to maintain the condition of the vessel as prescribed in Clause 1;

(5) Time lost due to any act of neglect, fault, omission to act, breach of contract, or breach of any order of the charterer, by the owner pursuant to the provisions of Warshiptime. (§ 302.50)

§ 302.82 *Savings required to be credited to the charterer during periods in which hire continues, is suspended, or is reduced to one-half.* (a) During periods in which full hire accrues under circumstances described in paragraph (a) of § 302.81 hereinabove, the provisions of Warshiptime (§ 302.50) provide that credit shall be given the charterer for savings effected by owners with respect to those expenses set forth in Clause 6, and a corresponding deduction therefor should be made from monthly charter hire.

(b) During periods in which hire is reduced to one-half or suspended under circumstances described in paragraphs (b) and (c) of § 302.81 hereinabove, the provisions of Warshiptime provide that the cost of fuel and fresh water consumed, which otherwise would be borne by the charterer, shall be assumed by the owner, and the owner also shall pay all port charges, pilotage, towage and other expenses which otherwise would be for the account of the charterer or would be incidental to the periodic drydocking of the vessel.

§ 302.83 *Regulations.* (a) For each event within the provisions of § 302.81 hereinabove, the owner shall execute, in triplicate, a Certificate (hereinafter referred to as "Off-Hire Certificate") setting forth the following information:

(1) The cause or causes which produced such occurrence;

(2) The relevant extracts from the engine, deck or port logs, whichever may be pertinent.

(3) The time lost by the vessel (computed in days and hours) as a result of such occurrence;

(5) Whether hire is to continue, to be suspended, or to be reduced to one-half, a statement should be made of the savings effected by owners or the charges which would otherwise be borne by the Charterer which are assumed by the owner, if any, which should be deducted from the hire accruing under (4) above. (§ 302.83 (a) (4))

(6) Such Certificate of Off-Hire should then be mailed to the Manager, Charterers and Agencies Section, Division of Operations, War Shipping Administration, Washington, D. C. not later than 30 days after knowledge by the owner of the occurrence, except that for occurrences prior to the effective date of this order, such certificate shall be mailed immediately.

(b) Every owner shall be required to exercise due diligence to effect savings during periods in which the vessel remains on hire as more fully described in § 302.82 above.

(c) For repeated failure by owners to furnish voluntarily the certificates of off-hire required hereunder, or for failure to exercise due diligence in effecting savings or assuming the expenses which are ordinarily borne by the charterer (in the applicable circumstances described in § 302.82 hereinabove), the proper officers of the charterer will be authorized to suspend payments of hire in an amount equalling, in the estimate of the charterer, the time lost by the charterer plus any savings which should have been effected by the owners for the benefit of the charterer, and any expenses which should have been borne by the owner in the applicable cases which are normally for the account of the charterer.

§ 302.85 *Applicability of regulations.* The regulations published hereunder shall be applicable, to the extent permissible under the particular charter, to all time charters executed with owners by the charterer from July, 1941. In the event that an "off-hire" situation occurs which is not covered by regulations promulgated hereunder, such situation shall be settled on the basis of the law applicable under the provisions of the charter.

§ 302.86 *Off-Hire Certificate.* The form of Off-Hire Certificate to be used in connection with the foregoing regulations shall be furnished, in triplicate, in the following form:

§ 302.87 *Concurrent "Off-Hire" situations.* When time is lost by the charterer from events or series of events which, under the provisions of the foregoing regulations, would require the simultaneous suspension, reduction or continuation of hire, the charterer will adjust such instances as follows: (1) Determine the number of days and/or hours during which such joint repairs were made; (2) add the hire applicable to the two or more events; and (3) divide the sum thereof by the number of such events, the quotient thereof being the hire payable during such period to the owners.

Cotton Marketing Quota Referendum

TIME AND PLACE FOR BALLOTING, ETC.

In view of the fact that the Secretary of Agriculture of the United States on November 6, 1942, determined and proclaimed, pursuant to the provisions of section 345 of the Act of Congress known as the Agricultural Adjustment Act of 1938, that the total supply of cotton for the marketing year beginning August 1, 1942, exceeds by more than 7 percent the normal supply[1] thereof for such marketing year, a referendum, by secret ballot, of farmers who were engaged in the production of cotton in 1942, will be held on December 12, 1942, pursuant to section 347 of said Act and in accordance with the referendum regulations prescribed by the Secretary of Agriculture, to determine whether they favor or oppose cotton marketing quotas on the 1943 cotton crop.[2]

If two-thirds or more of the cotton farmers voting in the referendum favor cotton marketing quotas, the cotton marketing quotas established pursuant to the provisions of said Act will be in effect for the 1943 cotton crop. If more than one-third of the cotton farmers voting in the referendum oppose the cotton marketing quotas, the quotas will not be in effect in 1943.

Eligibility to Vote

1. Farmers who were engaged in the production of cotton in 1942 as owner-operator, cash tenant, standing-rent or fixed-rent tenant, or landlord of a share tenant, or as share tenant or sharecropper are eligible to vote (except as provided in paragraph 2 below).

2. Since the Act provides that marketing quotas are not applicable to cotton the staple of which is 1½ inches or more in length, a person who was engaged in the production of such cotton in 1942 shall not be eligible to vote unless he was also engaged in the production of cotton in 1942 the staple of which was less than 1½ inches in length.

3. No cotton farmer (whether an individual, partnership, corporation, firm, association, or other legal entity) shall be entitled to more than one vote in the referendum, even though he may have been engaged in 1942 in the production of cotton on two or more farms or in two or more communities, counties, or States.

4. In case several persons, such as husband, wife, and children, participated in the production of cotton in 1942, under the same rental or cropping agreement or lease, only the person or persons who signed or entered into the rental or cropping agreement or lease shall be eligible to vote.

5. In the event two or more persons engaged in producing cotton in 1942 not as members of a partnership but as tenants in common or joint tenants or as owners of community property, each such person is entitled to vote.

6. There shall be no voting by proxy, or agent, or in any manner except the eligible voter personally depositing his ballot marked by him in the ballot box, but a duly authorized officer of a corporation, firm, association, or other legal entity, or duly authorized member of a partnership, may cast its vote. There shall be no voting by mail except that any eligible farmer who will not be present in the county in which he was engaged in the production of cotton in 1942 on the day of the referendum may obtain a ballot in the county in which he is located and cast his ballot by mailing it to the county office of the county in which he was a cotton producer in 1942 in time to reach that office before the polls are closed.

PLACE FOR BALLOTING

The place for voting in the referendum in the ------------------- community will be -------------------.

TIME

The polls, in accordance with the regulations for holding the referendum, shall be opened promptly at -- o'clock a. m. and closed promptly at -- o'clock p. m. on Saturday, December 12, 1942, local standard war time.

Handling of Eggs in Certain States

OPPORTUNITY TO PETITION FOR REVIEW OF DETERMINATION

Notice of opportunity to petition for review of the determination denying the application for exemption of the procuring, hauling, handling, cooling, candling, grading, packing, and shipping of eggs in the States of Iowa, Minnesota, North Dakota, and South Dakota from the maximum hours provisions of the Fair Labor Standards Act of 1938 as an industry of a seasonal nature.

Whereas, an application was filed by sundry parties for exemption of the procuring, hauling, handling, cooling, candling, grading, packing, and shipping of eggs in the States of Iowa, Minnesota, North Dakota, and South Dakota from the maximum hours provisions of the Fair Labor Standards Act of 1938 pursuant to section 7 (b) (3) of the Act and Part 526, as amended, of the regulations issued thereunder; and

Whereas, the Administrator of the Wage and Hour Division gave notice of a public hearing to be held at Hotel Nicollet, Minneapolis, Minnesota, on February 10, 1942 before Mr. Marshall S. Spaulding, a duly authorized representative of the Administrator, who was authorized to take testimony, hear argument, and determine:

Whether the procuring, hauling, handling, cooling, candling, grading, packing, and shipping of eggs in the States of Iowa, Minnesota, North Dakota, and South Dakota constitutes a separate branch of the egg industry and is of a seasonal nature within the meaning of section 7 (b) (3) of the Act and Part 526 as amended of the regulations issued thereunder, and if so the appropriate limits of that branch of the industry; and

Whereas, following such hearing the said representative of the Administrator duly made his findings of fact and determined as follows:

1. Although comprehensive data are not available, it appears that many establishments engaged in procuring, hauling, handling, cooling, candling, grading, packing, and shipping of eggs in the States of Iowa, Minnesota, North Dakota, and South Dakota receive for packing 50 percent or more of their total annual receipts of eggs during a period of 14 weeks each year.

2. For the country as a whole, establishments engaged in the procuring, hauling, handling, cooling, candling, grading, packing, and shipping of eggs receive less than 50 percent of their total annual receipts of eggs during the peak 14 weeks of the year.

3. Egg handling establishments, wherever located, carry on the same or similar operations and compete for the same markets in various parts of the country.

4. A large proportion of the establishments which engage in these egg handling operations also engage in handling poultry or dairy products and in other operations. Any one or more of these activities are carried on substantially throughout the year; the peak activity in egg handling occurring in the spring and the peak activity in the handling of poultry occurring in the summer and fall. With very few exceptions, the same employees are used to carry on all these operations.

5. The procuring, hauling, handling, cooling, candling, grading, packing, and shipping of eggs in the States of Iowa, Minnesota, North Dakota, and South Dakota does not constitute a separable branch of the egg handling industry within the meaning of section 7 (b) (3) of the Fair Labor Standards Act and Part 526 of the regulations issued thereunder.

6. The procuring, hauling, handling, cooling, candling, grading, packing, and shipping of eggs in the States of Iowa, Minnesota, North Dakota, and South Dakota is not an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Act and Part 526 of the regulations.

The application is denied; and

Whereas, said findings and determination were duly filed with the Administrator on October 29, 1942, at the National Office of the Wage and Hour Division, 165 West 46th Street, New York, New York, and are available for examination by all interested parties;

Now, therefore, pursuant to the provisions of § 526.7 of the aforesaid regulations notice is hereby given that any person aggrieved by the said determination may within fifteen days after the date this notice appears in the FEDERAL REGISTER file a petition with the Administrator at the National Office of the Wage and Hour Division requesting that he review the action of the said representative upon the record of the hearing. Such petition shall set forth the grounds upon which the petition for review is based.

Signed at New York, New York, this 4th day of November, 1942.

L. METCALFE WALLING,
Administrator.

OFFICE OF PRICE ADMINISTRATION.

[Suspension Order 154]

WILLARD M. BLODGETT

ORDER RESTRICTING TRANSACTIONS

Willard M. Blodgett, Fitzwilliam, New Hampshire, hereinafter called respondent, was duly served with a notice of specific charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice, a hearing upon the charges was held on September 25, 1942, in Concord, New Hampshire. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been duly considered by the Deputy Administrator,

It is hereby determined that:

(a) Respondent is a dealer in gasoline within the meaning of Ration Order No. 5A, Gasoline Rationing Regulations.

(b) Respondent has violated § 1394.1503 of Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 17, 1942, and on at least one other occasion between July 22 and August 17, 1942, in Fitzwilliam, New Hampshire, respondent transferred five gallons of gasoline to a private consumer and into the fuel tank of a private passenger automobile without requiring the presentation of a gasoline ration coupon book and on each occasion respondent received in exchange for the transfer a gasoline ration coupon Class S.

Because of the great scarcity and critical importance of gasoline in the New Hampshire area, violations of Ration Order No. 5A, Gasoline Rationing Regulations, by respondent have necessarily resulted in the diversion of gasoline from military and essential civilian uses into nonessential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator that further violations by respondent are likely unless appropriate administrative action is taken.

It is therefore ordered:

(c) During the period in which this Suspension Order shall be in effect,

(1) Respondent shall not sell, transfer or deliver any gasoline to any person.

(2) Respondent shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source any gasoline.

(3) No person, firm or corporation shall deliver, or in any manner directly or indirectly transfer any gasoline to respondent.

(d) Any terms used in this Suspension Order No. 154 that are defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given them.

(e) This Suspension Order shall become effective 12:01 A. M. November 9, 1942, and unless sooner terminated, shall expire 12:01 A. M. December 9, 1942.

(Pub. Law 421, 77th Cong.; sec. 2 (a) of Pub. Law 671, 76th Cong.; as amended by Pub. Law 89, 77th Cong. and by Pub. Law 507, 77th Cong.; E.O. No. 9125, 7 F.R. 2719; WPB Directive No. 1 and Supplementary Directive No. 1H (7 F.R. 3378, 3877, 5216))

Issued this 6th day of November, 1942.

PAUL M. O'LEARY,
Deputy Administrator,
In Charge of Rationing.

FRANK ALEXANDER

ORDER RESTRICTING TRANSACTIONS

Frank Alexander, 69 Storig Street, Closter, New Jersey, hereinafter called respondent was duly served with a notice of specific charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice a hearing on the charges was held on October 2, 1942, in Newark, New Jersey. There appeared a representative of the Office of Price Administration. Respondent did not appear either in person or by attorney. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been considered by the Deputy Administrator in Charge of Rationing.

It is hereby determined that:

(a) Respondent has violated § 1394.1102 of Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 17, 1942, in Demarest, New Jersey, respondent purchased and received the transfer of six A-1 gasoline ration coupons and on the 18th and 21st days of August, 1942, in Creeskill, New Jersey, respondent purchased and received delivery of gasoline and gave in exchange therefor certain of the gasoline ration coupons so purchased by him.

Because of the great scarcity and critical importance of gasoline in the New Jersey area, violations of Ration Order No. 5A, Gasoline Rationing Regulations, by respondent have resulted in the diversion of gasoline from military and essention civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator in Charge of Rationing that further violations by respondent are likely unless appropriate administrative action is taken,

It is therefore ordered:

(b) That the gasoline ration heretofore issued to respondent by the Office of Price Administration is hereby revoked.

(c) Respondent shall forthwith surrender for cancellation to the War Price and Rationing Board which issued the same, all gasoline ration coupon books and coupons in his possession.

(d) Any terms used in this Order that are defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given them.

(Pub. Law 421, 77th Cong.; sec. 2 (a) of Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong. and by Pub. Law 507, 77th Cong.; E.O. 9125, 7 F.R 2719; WPB Directive No. 1 and Supplementary Directive No. 1H, 7 F.R. 562, 3478, 3877, 5216)

WAR MANPOWER COMMISSION.

[Directive XIV]

EMPLOYMENT STABILIZATION ON DAIRY, LIVESTOCK, AND POULTRY FARMS

By virtue of the authority vested in me as Chairman of the War Manpower Commission by Executive Order No. 9139[1] establishing the War Manpower Commission, and having found after consultation with the members of the War Manpower Commission that production of dairy, livestock, and poultry products essential to the war effort is being seriously impaired by labor shortages attributable in large part to migration of qualified farm workers to other industries, to induction and voluntary enlistment of such workers in the armed forces, and to wasteful and ineffective utilization of such workers, that a coordinated program, involving employment and wage stabilization measures and measures for the protection of existing herds and flocks, is necessary to assure the fulfillment of agricultural production requirements for our armed forces, our Lease-Lend Program and necessary civilian consumption; that the Secretary of Agriculture will take all necessary or appropriate steps, in cooperation with the War Production Board, to safeguard herds of dairy cattle and calves from undue depletion through sale for slaughter, and will make appropriate investigations and take appropriate action to effect required adjustments in wages of dairy, livestock and poultry farm workers, and having further found that the measures hereinafter set forth will promote employment stabilization on dairy, livestock, and poultry farms and facilitate the recruitment and effective utilization of essential workers on such farms, it is hereby directed:

I. The Director of Selective Service shall take all lawful and proper steps, through appropriate instructions to local and appeal boards of the Selective Service System and otherwise, to the end that:

(a) All persons subject to training and service under the Selective Training and Service Act of 1940 as amended, while engaged as dairy, livestock or poultry farm workers and operators, as defined in paragraph V hereof, who are deferrable under that Act on grounds of dependency, are classified in Class III-B;

(b) All persons subject to training and service under the Selective Training and Service Act of 1940, as amended, while engaged as dairy, livestock, and poultry farm workers and operators who are not deferrable under that Act on grounds of dependency or on other than occupational grounds, and for whom replacements would be required and are not available, as determined in the light of the factors set forth in paragraph VII of this directive, are deferred on occupational grounds;

(c) Each person subject to training and service under the Selective Training and Service Act of 1940, as amended, who is not a dairy, livestock or poultry farm operator, who is skilled in dairy, livestock or poultry farm work and who is not deferrable on occupational or other grounds, is, as his order number is called or as his classification is reviewed, referred to the United States Employment Service for placement on essential dairy, livestock or poultry farms in accordance with such provisions of local Selective Service Board Release No. 149 as are consistent herewith;

(d) Each farm owner, operator or tenant subject to training and service under the Selective Training and Service Act of 1940, as amended, who is skilled in dairy, livestock or poultry farm work and who is not deferrable on occupational or other grounds, is, as his order number is reached or as his classification is reviewed, referred to such agency of the Department of Agriculture as the Secretary of Agriculture may designate, for placement as an operator or tenant on an essential dairy, livestock or poultry farm, in accordance with such provisions of local Selective Service Board Release No. 149 as are consistent herewith.

II. The Department of Agriculture shall take such action as may be necessary or appropriate to:

(a) Cooperate with the United States Employment Service in the War Manpower Commission, in its development and conduct of vigorous campaigns to recruit dairy, livestock, and poultry farm workers and operators from rural areas in which a surplus of such workers or operators exists, for placement on essential dairy, livestock, and poultry farms requiring such workers or operators, and upon request of the Farm Placement Service of the United States Employment Service, make available to it qualified personnel of the Department of Agriculture on a part-time basis to assist in such recruitment and placement campaigns, and particularly to assist in the recruitment and placement of dairy, livestock, and poultry farm operators;

(b) Provide transportation for individuals to dairy, livestock, and poultry farms on which they have agreed to work and to which they have been referred by the United States Employment Service;

(c) Develop training courses and establish training centers, in cooperation with the United States Office of Education in the Federal Security Agency, for the training of dairy, livestock, and poultry farm workers and operators;

(d) Provide reasonable subsistence for individuals transported or trained pursuant to subparagraphs (b) and (c) of this paragraph, during their transportation and training periods;

(e) Furnish such detailed information and standards to the Selective Service System and the United States Employment Service as they may require under this directive, in order to classify dairy, livestock, and poultry farm workers and operators for purposes of the Selective Training and Service Act, as amended, and effectively to carry out recruitment and placement campaigns with respect to such workers and operators;

(f) Conduct a vigorous program to encourage dairy, livestock, and poultry farm operators to secure replacements of required workers through the United States Employment Service and to accept qualified workers referred to them by the United States Employment Service;

(g) Develop and promote active programs for assuring the maximum effective utilization of workers on dairy, livestock, and poultry farms, and for providing additional animal units to essential small farms on which dairy, livestock or poultry farm operators or workers are not fully employed;

(h) Develop and promote an active program to enable farm owners, operators, and tenants who are skilled in dairy, poultry or livestock production but whose farms do not constitute dairy, livestock or poultry farms as defined in paragraph V (c) of this directive, to bring their farms within the purview of this directive by assisting such farm owners, operators, and tenants to secure the necessary livestock, equipment, or land.

III. The United States Office of Education shall cooperate with the Department of Agriculture and the United States Employment Service in the training of dairy, livestock, and poultry farm workers as provided in paragraph II (c) of this directive, and in providing instructors for that purpose.

IV. In order to effectuate the purposes of this directive, it is essential that:

(a) The Army and the Navy (i) refrain from recruiting or accepting for voluntary enlistment any man who does not present a certificate from his Selective Service local board that he is not in Class II-A, II-B or III-B or is not entitled to such classification by reason of being an essential dairy, livestock or poultry farm worker or operator; and

(ii) Refrain from initiating programs to encourage the voluntary enlistment in the armed forces of dairy, livestock or poultry farm workers or operators, particularly in areas which the War Manpower Commission designates as areas in which critical shortages of such workers or operators exist;

(b) The Secretary of Agriculture (i) take such action with respect to wage rates on diary, livestock, and poultry farms as is necessary to assist such farms in securing and maintaining an adequate supply of dairy, livestock, and poultry workers; and

(ii) Take all necessary or appropriate steps in cooperation with such other departments or agencies of Government as he deems proper, to safeguard herds of dairy cattle and calves from undue depletion through sale for slaughter;

(c) Dairy, livestock, and poultry farm operators (i) recruit workers through the United States Employment Service and accept for employment qualified workers, including workers who have received training under dairy, livestock, and poultry worker training programs such as those provided for under paragraph II (c) of this directive;

(ii) Employ relatively inexperienced workers and provide on-the-farm training for such workers; and

(iii) Cooperate fully with the several Government departments and agencies concerned in carrying out the employment stabilization program set forth in this directive;

(d) Dairy, livestock, and poultry farm workers cooperate fully with dairy, livestock and poultry operators and with the several Government departments and agencies concerned in carrying out the employment stabilization program set forth in this directive;

(e) Any employer who is not a dairy, livestock and poultry farm operator refrain from hiring or soliciting for the purpose of hiring, any dairy, livestock or poultry farm worker or operator, unless such worker or operator has been referred to him by the United States Employment Service. The War Manpower Commission will prescribe standards and procedures for such referrals, but no provision of this directive shall be construed to apply to a change of employment or activity by a dairy, livestock or poultry farm worker or operator from one dairy, livestock or poultry farm to another.

V. As used in this directive (a) "Dairy, livestock, and/or poultry farm worker" means an individual (other than a dairy, livestock or poultry operator) who, on or after the date of this directive, performed services on a dairy, livestock or poultry farm on a year-around basis and who devoted substantially full-time services to either or both

(i) The care of dairy cows, livestock, and poultry, and

(ii) The production of dairy, livestock or poultry products as an incident to ordinary farming operations.

The term shall include unpaid members of the family or household of a dairy, livestock or poultry worker or operator, provided such members otherwise are included within the above definition. Services performed on a farm in the production of feed crops used exclusively or primarily for dairy cows, livestock, and poultry on such farm shall be included as services performed in the care of dairy cows, livestock or poultry;

(b) "Dairy, livestock or poultry farm operator" means an individual engaged in the operation of a dairy, livestock or poultry farm, or charged with the direction or supervision of dairy, livestock or poultry farm workers on such a farm. Except where the context clearly requires otherwise, the term includes any corporation or other type of organization which through officers or employees directs or supervises dairy, livestock or poultry workers;

(c) "Dairy, livestock or poultry farm" means a farm (1) upon which the number of dairy cows (milch or dry) maintained is 12 or more and upon which milk is produced at the annual rate of 45,000 pounds or more, or (2) upon which are maintained or produced the number of animal units, from time to time determined by the Secretary of Agriculture as equivalents thereof for the purposes of this directive, except that: (i) Prior to February 1, 1943, the term shall include a farm upon which the number of dairy cows maintained is 8 or more and upon which milk is produced at the annual rate of 30,000 pounds or more, or the equivalent thereof in animal units as hereinabove provided; and (ii) during the period February 1, 1943, to May 1, 1943, the term shall include a farm upon which the number of dairy cows maintained is 10 or more and upon which milk is produced at the annual rate of 37,500 pounds or more, or the equivalent thereof in animal units as hereinabove provided. In the application of the foregoing provisions with respect to the annual rate at which milk is produced on a farm and the number of dairy cows or animal units maintained thereon (1) reasonable allowance shall be made for temporary declines in the rate of milk production or in the number of cows or animal units maintained, and (2) reasonable additions, determined by the Secretary of Agriculture for the purposes of this directive, shall be made if all or substantially all the feed, including roughage, required for such cows or animal units is not produced on the farm on which such cows or animal units are maintained.

VI. Any worker, operator or employer, or group of workers, operators or employers, dissatisfied with any act or failure to act pursuant to this directive, other than an act or failure to act pursuant to paragraph I hereof, shall be given a fair opportunity to present his or their case to an appropriate Area War Manpower Committee. Such Committee shall make recommendations concerning such cases as well as other matters pertinent to the carrying out of this directive in its area, to the War Manpower Area Director, or such other official of the War Manpower Commission as may be designated for that purpose, for appropriate action. The Chairman of the War Manpower Commission shall prescribe rules, regulations and procedures for the carrying out of the responsibilities of Area Committees under this directive, including procedures for the review of the recommendations of the local Area Committees, by regional Management-Labor Committees and by the National Management-Labor Policy Committee.

VII. In determining whether a replacement for a particular dairy, livestock or poultry farm worker or operator would be required and is not available, for the purpose of paragraph I of this directive, or for the purpose of any other provision of this directive, consideration shall be given to the following factors, as determined in each case by the United States Employment Service:

(a) The labor required for the farm, as evidenced by conversion tables prepared by the United States Department of Agriculture indicating the number of animal units a single person is reasonably able to handle when (1) the required feed for dairy cows, livestock, and poultry is produced on the farm, and (2) the required feed is purchased;

(b) The workers available on the farm, and for this purpose each person devoting substantially full-time service to dairy, livestock, or poultry production on the farm shall be considered an available worker, with suitable allowance for reduced physical capacity, if any, of children, women, and handicapped persons; and

(c) The importance and skill of the particular individual under consideration and the possibility of recruiting a replacement of sufficient skill, experi-

ence, and training to carry on the work of such individual without impairment of production.

VIII. Each department and agency of the Federal Government is hereby directed to utilize its facilities and services, and take all lawful and appropriate steps under authority vested in it by law to achieve or promote compliance with the provisions of this directive. Each procurement agency of the Federal Government is hereby directed to instruct its contractors to refrain from hiring or soliciting for the purpose of hiring, any dairy, livestock or poultry farm worker or operator for other than dairy, livestock or poultry farm work, unless such worker or operator has been referred to him by the United States Employment Service.

IX. This directive may be cited as the "Directive to Promote Employment Stabilization on Dairy, Livestock, and Poultry Farms."

PROCLAMATION 2570

ARMISTICE DAY, 1942

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

The calm which settled over the Western Front at 11 a. m. on November 11, 1918, closed one phase of a world-wide struggle against lawless aggression and for the basic freedoms of mankind; and

The United States, in company with the United Nations, must once more champion the essential freedoms—freedom of speech, freedom of worship, freedom from want and freedom from fear—on a world-wide battlefield; and

Faith can be kept with those who died in the first World War only by resolutely prosecuting to final victory the great war in which we are now engaged, and by crowning that victory with a peace which shall safeguard and extend these essential freedoms.

WHEREAS Senate Concurrent Resolution 18 of the Sixty-ninth Congress, passed June 4, 1926 (44 Stat. 1982), requests the President of the United States to issue a proclamation for the observance of Armistice Day, November 11:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby call upon the people of the United States to rededicate this Nation, on November 11, 1942, to the great task of winning this war and building a just peace in order that we and our children may live in a world made free to work toward human advancement; and I direct that the flag of the United States be displayed on all Government buildings on that day.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this seventh day of November in the year of our Lord nineteen hundred and forty-two, and of the Independence of the United States of America the one hundred and sixty-seventh.

[SEAL]

FRANKLIN D ROOSEVELT

CORDELL HULL,
Secretary of State.

SOURCE: The regulations in §§ 71.1 to 71.18 are also contained in Army Regulations No. 600-750, September 30, 1942, the particular paragraphs being shown in brackets at end of sections.

§ 71.1 *Enlistments and reenlistments*—(a) *Regular Army.* Enlistments for the Regular Army are suspended for the duration of the war.

(b) *Army of the United States.* (1) Enlistments will be made only by officers designated as recruiting and induction officers under authority contained in Army Regulations.

(2) Enlistments in the Army of the United States will be for the duration of the war plus 6 months.

(c) *Regular Army Reserve.* No enlistments will be made for the duration of the war.

(d) *Enlisted Reserve Corps.* See §§ 64.1 to 64.12. [Par. 5]

§ 71.2 *Eligibility for enlistment and reenlistment in the Army of the United States*—(a) *General.* Any male citizen of the United States who is of authorized age for enlistment, able-bodied, free from disease, of good character, temperate habits, and who meets the required mental tests may be enlisted or reenlisted in the Army of the United States within authorized quotas. Each applicant for enlistment or reenlistment will be required to state, under oath, whether or not he is a citizen of the United States. Persons other than citizens of the United States will be enlisted or reenlisted only in accordance with general instructions or by special authority of the War Department.

(b) *Enlistment of Puerto Ricans.* Puerto Ricans will not be enlisted within the continental limits of the United States. If they meet the requirements for enlistment prescribed in paragraph (a) above, they will be directed to apply to their local selective service board for voluntary induction.

(c) *Enlistment of Filipinos.* Citizens of the Philippine Commonwealth are acceptable for enlistment in the Army of the United States under the same regulations as are applicable to citizens of the United States.

(d) *Men 45 and 50.* (1) Citizens of the United States who reached their forty-fifth birthday prior to February 16, 1942, and who, at the time of application for enlistment, have not attained their fiftieth birthday, will be accepted for enlistment and direct assignment to service command units or War Department overhead units or installations, provided they are otherwise qualified and vacancies exist in the units, or that the assignment of these volunteers will release enlisted men fit for general military service.

(2) The acceptance of volunteers in this age group will be restricted to individuals having character, skills, or aptitudes which make their enlistment desirable, including bandsmen. Prior to acceptance, men enlisted under this authority will be cleared through their local selective service boards.

(e) *Soldiers' Home inmates.* Men discharged to enter the United States Soldiers' Home will be enlisted only after a period of 3 months has elapsed since date of discharge.

(f) *Reenlistment.* As a general policy, any man honorably discharged from his last enlistment with character very good or better who has not reached his fifty-fifth birthday and is otherwise qualified for enlistment may be reenlisted in the grade of private. (See § 71.9 (c) for reenlistment of men 55 and over.)

(g) *Waiting list.* A list will be maintained of applicants for enlistment for whom there is no immediate vacancy, graded in order of desirability as A, B, and C. [Par. 6]

§ 71.3 *Classes ineligible for enlistment.* Personnel of the following classes are ineligible for enlistment or reenlistment:

(a) *Insane or intoxicated persons.*

(b) *Deserters and felons.* Deserters from the military service of the United States and persons who have been convicted of a felony are ineligible except that the Secretary of War may, by regulations or otherwise, authorize the enlistment or reenlistment of such persons in especially meritorious cases. In such cases investigation will be made and evidence will be submitted to prove that each case is a meritorious one and that an exception should be made.

(c) *Persons who have been imprisoned under sentence of a court.* Commanding generals of service commands are authorized to waive this disability in the cases of applicants for enlistment within the service commands who have served only short sentences for minor offenses. Notation of such waivers will be noted under "Remarks" on page 1 of the enlistment record.

A record of adjudication of conduct by a juvenile court in the State of Ohio under the statute quoted below or by a juvenile court of any State having a similar law is not a bar to enlistment under section 1113, Revised Statutes. Recruiting officers will carefully scrutinize the juvenile court record of an applicant for enlistment to determine whether he is of good character and otherwise eligible for enlistment, and will submit to higher authority any case in which doubt arises as to the effect of a particular statute.

Sec. 1639-30, Supplement to the General Code of Ohio, 1936, June 1938, provides that:

> No adjudication upon the status of any child in the jurisdiction of the court (juvenile court) shall operate to impose any of the civil disabilities ordinarily imposed by conviction, nor shall any child be deemed a criminal by reason of such adjudication, nor shall such adjudication be deemed a conviction, nor shall any child be charged with or convicted of a crime in any court; * * * nor shall such disposition * * * operate to disqualify a child in any future civil service examination, appointment or application. [Par. 7]

§ 71.4 *Clearance of selective service registrants.* Men who volunteer for enlistment either in the Enlisted Reserve Corps or for active service will be cleared by their respective local selective service boards prior to acceptance, except the following cases:

(a) Men who have attained their eighteenth birthday but have not yet reached their twentieth birthday.

(b) College students enlisting in the Enlisted Reserve Corps. [Par. 8]

§ 71.5 *Age*—(a) *Under 18.* Minors under 18 years of age are by law ineligible for enlistment.

(b) *Between 18 and 21.* A person who has reached his eighteenth birthday will be enlisted or reenlisted in any component of the Army of the United States, including Reserves, prior to his twenty-first birthday only with the written consent of his parents or guardian. If the applicant has neither parent nor guardian, a statement to that effect will be included under "Remarks" under the "Declaration of Applicant" on his enlistment record. The written consent will conform to the following:

(1) It will be signed by both parents but the consent of one parent may be accepted if the other is absent for an extended period of time. Enlistment is not authorized if either parent objects.

(2) The parents or guardian will be required to include a statement of the date of birth of the applicant in the document giving their consent to his enlistment.

(3) The consent will not include any written or oral qualifications relative to allotments of pay, special training, or service in any particular arm or service or at a certain post or locality.

(4) If the parents are not personally known to the recruiting and induction officer or to the individual authorized to accept the applicant for enlistment, he may require verification of signature by a witness known to him, or in the absence of such, by notarization. The latter practice will be used only as a final resort.

(5) The original only of the parents' consent will be signed. True copies may be made for retention.

(c) *Over 45.* The original enlistment in the Army of the United States of a person who has passed his forty-fifth birthday is prohibited, except as stated in § 71.2 (d), or in accordance with general instructions or special authority from the War Department. This includes those who have passed their forty-fifth birthday even though they have had prior service in the Navy, Marine Corps, or the Coast Guard, unless they have also had prior enlisted service in the Army, and are otherwise qualified. [Par. 9]

§ 71.6 *Grade*—(a) *Original enlistments.* Original enlistments in the Army of the United States will be made in the grade of private, except when the chief of a supply service or the commanding officer of an organization considers it in the best interest of the service to enlist an especially qualified man in any grade for which he has an existing vacancy and receives authority therefor from The Adjutant General.

(b) *Enlistment in grade in the Enlisted Reserve Corps.* See §§ 64.1 to 64.13, inclusive.

(c) *Reenlistment in grade within 20 days from date of discharge.* Any noncommissioned officer discharged with character "Excellent" after 3 years in active service and who is otherwise qualified will be permitted to reenlist in the Army of the United States in the organization and grade from which last discharged provided he reenlists within 20 days after the date of such discharge. In order to be reenlisted in grade, a discharged noncommissioned officer, qualified as in (a) above, must apply for reenlistment at the station of the organization from which discharged, except that such noncommissioned officer on detached service or absent sick from the station of his organization will be reenlisted in grade for the organization to which he is assigned. A noncommissioned officer sent to the United States from foreign service for discharge will not be reenlisted in grade for an organization on foreign service without special authority from The Adjutant General.

(d) *Reenlistment of men discharged to accept commissions.* An enlisted man discharged to accept a commission or who serves on active duty as an officer of the Army of the United States, whose active service as a commissioned officer terminates honorably, and who tenders himself for reenlistment within 6 months after the termination of such commissioned service will, regardless of physical disqualifications incurred or having inception while on active duty in line of duty, and regardless of whether a vacancy exists in the appropriate enlisted grade, be accepted and restored without loss of seniority to the grade held by him prior to such commissioned service; and will be entitled to count active commissioned service in the Army of the United States as service for all purposes. [Par. 10]

§ 71.7 *Men with dependents, including married men.* The enlistment of a married man or a man with dependents is authorized. Married applicants and applicants with dependents will no longer be required to sign a statement that their dependents have sufficient means of support. No man will be accepted for enlistment conditional upon any written, oral, or implied promise that any portion of his pay will be allotted to a relative or other person. [Par. 11]

§ 71.8 *Special assignments.* All enlistments will be for the Army of the United States, unassigned, except as otherwise directed from time to time by the War Department. Enlistments for assignment to a particular arm or service or organization will be made only when authorized by the War Department. Cases presented to the War Department must clearly indicate why an exception to the normal policy is necessary such as when a man is a rare specialist not ordinarily obtainable through classification. [Par. 12]

§ 71.9 *Enlistments and reenlistments requiring special authority.* The following classes of persons will be enlisted or reenlisted in the Army of the United States only with special authority in each case from The Adjutant General or the commanding general of a service command or department;

(a) *Discharged before expiration of term of service.* Former enlisted men who have been discharged before expiration of term of service, except those discharged for the convenience of the Government, by purchase, or on account of minority.

(b) *Over 45.* Former enlisted men over 45 years of age (except as provided in § 71.2 (d) who were last discharged as privates and failed to reenlist within 3 months thereafter. In such cases the application must show that the reenlistment will be for the interest of the service.

(c) *Over 55.* For the duration of the war no man who has passed his fifty-fifth birthday, regardless of the grade in which he was last discharged from the military service, will be reenlisted without special authority from the War Department.

(d) *Physical disabilities.* Persons who cannot pass the required examination in all respects, except where waivers are authorized in these regulations. Applications of this nature will show that any existing defects will not prevent the performance by the applicant of full military duty.

(e) *Deserters, discharged other than honorably, etc.* Former enlisted men, sailors, marines, and coast guardsmen of the following classes:

(1) Those who deserted the service of the United States from their last enlistment (except as provided in § 71.3 (b)).

(2) Those whose service during the last enlistment was terminated by other than honorable discharge.

(3) Those who were last discharged with character less than "Good."

(4) Those whose last discharge certificate bears the notation "Not recommended for reenlistment."

Authority to enlist persons of these classes will be granted only in view of the good conduct of the applicant subsequent to his desertion or last service. See R.S., 1998, as amended by sec. 1, act August 22, 1912 (37 Stat. 356; 10 U.S.C. 624; M.L., 1939, sec. 249). [Par. 13]

§ 71.10 *Physical examination*—(a) *General.* (1) Except for men enlisted for appointment as aviation cadets and men enlisted in the Enlisted Reserve Corps, all men enlisted in the Army of the United States will, prior to their enlistment, appear before a board of officers and undergo the same physical examination, including a chest X-ray, a serological test for syphilis, and a careful neuropsychiatric study as is required in the case of selective service registrants prior to their induction.

(2) Individuals may be accepted as applicants for enlistment at recruiting and induction stations which lack complete examination facilities, but actually enlisted only at recruiting and induction stations which do have complete examination facilities. Recording of the date and fact of chest X-ray examination on the service record of men enlisted in the Army of the United States is not required, except for men enlisted for appointment as aviation cadets and men enlisted in the Enlisted Reserve Corps.

(b) *Physical examination of aviation cadets.* Aviation cadets must either pass the prescribed physical examination for flying duty, W.D., A.G.O. Form No. 64 (Physical Examination for Flying), or must meet the requirements for a Reserve officer, W.D., A.G.O. Form No. 63 (Report of Physical Examination), except that visual acuity must be 20/20 and color perception normal. For ground duty the physical examination will be the same as that prescribed for Reserve officers. See § 74.3.

(c) *Candidates for U. S. Military Academy.* Every applicant who is known to be enlisting in the Army of the United States with the expectation of entering the United States Military Academy at any time after enlistment will be examined according to the standards prescribed in AR 40–100. See § 75.22.

(d) *Use of civilian physicians.* If medical officers or contract surgeons are not available for physical examination, applicants for enlistment in the Army of the United States or the Enlisted Reserve Corps will be physically examined by civilian physicians, preferably Army Medical Corps Reserve officers not on active duty, employed under authority of the commanding general of the service command. Civilian physicians employed for such purpose must be citizens of the United States. Authority is hereby granted for the hire of such physicians at $15 per day, unless the number to be examined is so small that it would be more economical to hire them under the provisions of §§ 77.1 to 77.8, inclusive, which allows the payment of $2 for a single physical examination and $1 for each additional examination that may be made on the same day. A physician employed to make examinations at more than one recruiting and induction station will be allowed the above-mentioned rates in full for the examinations at each station. Vouchers will be prepared on War Department Form No. 354 (Voucher for Examining and Vaccinating Recruits by Civilian Physicians) and forwarded to The Surgeon General for settlement. [Par. 14]

§ 71.11 *Intelligence tests.* The minimum educational standards for all arms and services, including the Air Corps, require that applicants for enlistment must have the capacity of reading and writing the English language as commonly prescribed for the fourth grade in grammar school. [Par. 15]

§ 71.12 *Waivers*—(a) *General.* Commanding generals of service commands are authorized to grant waivers for physical defects which will not interfere with the full performance of military duty. At general hospitals such waivers may be granted by the commanders thereof.

(b) *Upon immediate reenlistment.* The commanding officer of a post, camp, or station is authorized to waive minor physical defects or to continue in force waivers previously granted by proper authority in cases of men who apply for reenlistment immediately following their discharge, provided the men are qualified to perform full military duty and the physical condition of such men warrants reenlistment.

(c) *When previously discharged for disability or similar reasons.* The authorizations indicated in (a) and (b) above do not extend to applicants for enlistment or reenlistment who were last discharged from the Army, Navy, Marine Corps, or any other service on certificate of disability by reason of medical survey or by a similar procedure, or because of mental or moral deficiencies. Only special cases of waivers for men discharged for disabilities will be favorably considered. Requests submitted to The Adjutant General to enlist such men must include all available information which will aid in determining action. [Par. 16]

§ 71.13 *Retention of accepted applicants at Government expense.* (a) Applicants who have signified their intention to enlist in the Army of the United States may be retained at Government expense for such reasonable time as may be necessary to make appropriate disposition of their cases. In no case will the period of retention at Government expense exceed 7 days without special authority from The Adjutant General.

(b) At recruiting substations at which no medical officer or recruiting and induction officer is on duty, determination will be made by the senior enlisted man on duty at the station whether the applicant for enlistment may be retained for any part of the period indicated above.

(c) The following toilet articles will be supplied for the use of applicants when necessary.

1 comb, medium.

1 towel, face. (When circumstances so indicate, one towel, bath, may be issued in lieu of one towel, face).

1 soap, hand, cake.

Toilet paper. [Par. 17]

§ 71.14 *Transportation of accepted applicants.* (a) Transportation at Government expense from place of acceptance to designated place of enlistment will be furnished to an applicant only when he has been accepted for enlistment.

(b) Return transportation at Government expense to point of acceptance will be furnished only to applicants for enlistment who are rejected upon final examination: *Provided, however,* That return transportation will not be furnished to an applicant for enlistment who is rejected because of disqualification concealed by him at time of acceptance as an applicant. [Par. 20]

§ 71.15 *Date of enlistment; antedating enlistments*—(a) *General.* Except as hereinafter set forth, the date upon which the enlistment or reenlistment of an enlisted man is completed by administering the oath is the date of enlistment and it must be shown on the enlistment record above the signature of the officer who administers the oath. No enlistment will be antedated without prior approval by the War Department. Under no circumstances will an enlistment be postdated.

(b) *Exceptions.* When the enlistment or reenlistment of an enlisted man is delayed through no fault of the enlisted man, but for the convenience of the Government, and it appears that the enlisted man has a well-founded claim to have a prior date recorded as the date of enlistment, a full report of all the facts, with recommendations, will be made to The Adjutant General. [Par. 24]

§ 71.16 *General.* No applicant for enlistment who receives transportation, lodging, or subsistence at Government expense or who is responsible for the loss or destruction of Government property, and then declines or fails to enlist and does not refund the costs involved, will be accepted for enlistment or reenlistment in the Army of the United States, without special authority from The Adjutant General. [Par. 26]

§ 71.17 *Reimbursements.* When practicable before rendering reports of applicants for enlistment in the Army of the United States who decline or elope, the men will be given an opportunity to reimburse the Government for the expense incurred, and if reimbursement is made the names of such men will not be reported to The Adjutant General. If reimbursement is declined, the men will be informed that they cannot again be accepted for enlistment in the Army of the United States without special authority from The Adjutant General. [Par. 27]

§ 71.18 *Certificates of discharge.* Certificates of discharge left in the possession of the recruiting and induction officer will be returned to the applicant without delay, or forwarded to The Adjutant General for file. [Par. 28]

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S–131]

COLONIAL SUPPLY CO.

Colonial Supply Company, Louisville, Kentucky, is a partnership composed of B. H. Collings and Bess H. Collings in the business of furnishing building materials including sand, gravel, and cement on various contracts. Subsequent to April 9, 1942, the Colonial Supply Company began the construction of a swimming pool costing approximately $3,500 on residential premises for private use at Louisville, Kentucky, without obtaining the authorization of the War Production Board as required by Conservation Order L–41. The Colonial Supply Company, also purchased brass parts for this swimming pool on a rating of A–10 applied under Preference Rating Order No. P–100.

The beginning of construction by the partnership without obtaining authorization of the War Production Board constituted a wilful violation of Conservation Order L–41, and the purchase of materials on a Preference Rating assigned by Preference Rating Order P–100, which were not intended for maintenance, repair or operating supplies, constituted a wilful violation of Preference Rating Order P–100. These violations have hampered and impeded the war effort of the United States. In view of the foregoing facts,

It is hereby ordered:

§ 1010.131 *Suspension Order S–131.* (a) Deliveries of material to B. H. Collings and Bess H. Collings, their successors and assigns, and to the partnership known as the Colonial Supply Company, its successors and assigns shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned or applied to such deliveries to B. H. Collings and Bess H. Collings, their successors and assigns, or to the partnership known as the Colonial Supply Company, its successors and assigns, by means of Preference Rating Certificates, Preference Rating Orders, General Preference Orders and any other orders or regulations of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocation shall be made to B. H. Collings and Bess H. Collings, their successors and assigns, or to the partnership known as the Colonial Supply Company, its successors and assigns, of any material the supply or distribution of which is covered by any order to the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) Nothing contained in this order shall be deemed to relieve B. H. Collings and Bess H. Collings, or the partnership known as the Colonial Supply Company from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order is to take effect November 12, 1942, and is to expire on February 12, 1943, at which time the restrictions contained in this order are to be of no further effect.

Part 1010—Suspension Orders

[Suspension Order S-133]

ARTCRAFT FLUORESCENT CORP.

Artcraft Fluorescent Corporation is a New York corporation located at 132 Bleecker Street, New York, New York. The Company assembles and sells, at wholesale and retail, fluorescent lighting fixtures. The Company knew that General Limitation Order L–78 prohibited the sale of fluorescent lighting fixtures, constructed for the operation of a tube or bulb having a wattage in excess of 30 watts, except to fill orders rated A–2 or higher. During the period of June 2 through September 23, 1942, the Company wilfully violated this order by selling and delivering in fulfilment of unrated orders 97 fixtures constructed for the operation of a tube or bulb having a wattage in excess of 30 watts.

This violation of General Limitation Order L–78 has hampered and impeded the war effort of the United States. In view of the foregoing facts,

It is hereby ordered, That:

§ 1010.133 *Suspension Order S–133.* (a) Deliveries of material to Artcraft Fluorescent Corporation, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other orders or regulations of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocation shall be made to Artcraft Fluorescent Corporation, its successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) Nothing contained herein shall be deemed to relieve Artcraft Fluorescent Corporation, its successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on November 10, 1942, and shall expire on February 10, 1943.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2(a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

[Suspension Order S–134]

FEDERAL PIPE AND TUBE CO.

Federal Pipe and Tube Company is a Michigan corporation doing business at 6464 E. McNichols Road, Detroit, Michigan, and is engaged in retail sales of plumbing and heating supplies to the general public and to industrial firms. During the period from April 16, 1942 to May 23, 1942 the company made numerous sales of items of plumbing and heating equipment in excess of five dollars ($5) to installers on orders which appeared to bear a preference rating of A–10 applied under the provisions of Preference Rating Order P–84, but to which, as the company knew, said preference rating had not been applied by the purchasers in the manner required by said order. Subsequent to May 23, 1942 the company made numerous sales of items of plumbing and heating equipment in excess of five dollars ($5) to ultimate consumers on orders which appeared to bear a preference rating of A–10 applied under the provisions of Preference Rating Order P–84, but to which, as the company knew, said preference rating had not been applied by the purchasers in the manner required by said order. During the period from April 24, 1942 to May 23, 1942 the company purchased plumbing and heating equipment from various suppliers and extended an A–10 preference rating to obtain these materials by certifying that said preference rating was extended under the provisions of Preference Rating Order P–84. At the time that these preference ratings were extended as aforesaid, the company did not have A–10 preference rating orders from its customers to support these extensions.

These actions constituted wilful violations of Limitation Order No. L–79 and Preference Rating Order No. P–84.

The company fabricated, assembled and delivered steel flag poles subsequent to August 3, 1942.

These actions constituted wilful violations of Conservation Order No. M–126.

The foregoing violations of War Production Board Orders have impeded and hampered the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board.

It is hereby ordered:

§ 1010.134 *Suspension Order S–134.* (a) Deliveries of material to Federal Pipe and Tube Company, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) Nothing contained in this order shall be deemed to relieve Federal Pipe and Tube Company, its successors and assigns, from any restriction, prohibition, or provision contained in any order or regulation of the Director of Industry Operations or the Director General for Operations, whether now in force or hereafter issued except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on November 12, 1942, and shall terminate on May 12, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9215, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

HAYES MANUFACTURING CORP.

Hayes Manufacturing Corporation is a Michigan corporation doing business at 551 Seventh Street, N.W., Grand Rapids, Michigan, and is engaged in the manufacture of aircraft wings, parachutes, bomb fins, torpedoes, army truck parts, and other war work. It was formerly engaged in the manufacture of dies and stamps. During the period from April 1, 1942 to June 30, 1942 the company was permitted under Limitation Order L–29 to use 24.64 tons of steel in the manufacture of metal signs exceeding 36 square inches in area. Notwithstanding this limitation, the company used during said period 133.6 tons of steel in the manufacture of signs exceeding 36 square inches in area.

The use of steel during this period in excess of 24.64 tons for this purpose constituted a wilful violation of Limitation Order L–29.

The foregoing violation of War Production Board orders has impeded and hampered the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board.

It is hereby ordered:

§ 1010.135 *Suspension Order S–135.* (a) The Hayes Manufacturing Corporation is hereby prohibited from making

delivery of any and all metal signs and metal sign parts now in its possession to any person, firm, corporation, or partnership until such time as control of these materials by the War Production Board has terminated, except as directed by the Director General for Operations for the purpose of recovery of the scarce materials contained in such signs and sign parts for use in the war effort.

(b) Nothing contained in this order shall be deemed to relieve Hayes Manufacturing Corporation, its successors and assigns, from any restriction, prohibition, or provision contained in any order or regulation of the Director of Industry Operations or the Director General for Operations, whether now in force or hereafter issued, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect November 12, 1942.

Part 1054—Lead and Tin Scrap

[Interpretation 1 of Supplementary Order M–72–a, as Amended October 20, 1942]

TINNED AND DETINNED SCRAP

The following official interpretation is hereby issued by the Director General for Operations with respect to § 1054.2, *Supplementary Order M–72–a,* as amended October 20, 1942:

(a) Permission to acquire used tin cans granted under the provisions of paragraph (b) (4) of Supplementary Order M–72–a, as amended October 20, 1942, to applicants who are manufacturers of crown caps or engaged in the business of bottling or distributing beverages shall not be construed as including permission to acquire tinned scrap in any form other than that of a can from which the contents have been removed, unless other forms of tinned scrap are expressly designated in the authorization issued to the applicant by the Director General for Operations. A "prepared can" from which the label and ends have been removed and the sides flattened in accordance with the instructions contained in paragraph (2) of Exhibit 1 of Order M–72–a, as amended, for delivery to, and use by a shredding or detinning plant, is deemed to be in the form of a can.

(b) If a used tin can has been processed in such a way (for example, by rolling or pressing out its sides) so that it takes the shape of a flat sheet, it is deemed to be no longer in the form of a can but instead, is deemed to be tinned scrap consisting of tin plate. Specific permission to acquire tinned scrap in the form just described, must be applied for under paragraph (b) (3) of Order M–72–a as amended, independently of any application under paragraph (b) (4) thereof. Inasmuch as paragraph (b) (3) of Order M–72–a as amended, permits certain specified deliveries of tinned scrap with a view to assuring its availability for vital war purposes, it will be the general policy of the Director General for Operations to deny such permission to persons other than those specified in said paragraph unless it can be clearly demonstrated by the applicant that the scrap will be used in lieu of some material which is more critical in the war program, or unless other circumstances exist which the Director deems sufficient to warrant a departure from this general policy.

(c) Paragraph (b) (4) of Order M–72–a as amended, provides that an applicant for permission to acquire used tin cans pursuant to its provisions "when authorized shall be held responsible for using his best efforts, in cooperation with official local collecting agencies to collect for such agencies all cans smaller than size No. 10." The responsibility thus imposed includes the requirement that all cans of a size smaller than size No. 10 acquired by a person authorized pursuant to paragraph (b) (4) must be prepared by him in accordance with the instructions contained in paragraph (2) of Exhibit 1 of Order M–72–a as amended, and includes the further requirement that all such cans must be delivered, in their entirety, either directly to a shredding or detinning plant or to a local salvage committee or municipal agency for ultimate delivery to a shredding or detinning plant.

Part 3000—Petroleum Sulfonates

[General Preference Order M–188]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of petroleum sulfonates for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3000.1 *General Preference Order M–188*—(a) *Definitions.*

(2) "Producer" means any person who produces or refines petroleum sulfonates, and includes any person who has petroleum sulfonates produced for him pursuant to toll agreement.

(3) "Distributor" means any purchaser of petroleum sulfonates from any person for purpose of resale as petroleum sulfonates.

(b) *Restrictions on deliveries and use.* (1) Subject to paragraph (c) hereof, no producer or distributor shall deliver, use or refine petroleum sulfonates, and no person shall accept delivery of petroleum sulfonates from a producer or distributor, except as specifically authorized or directed by the Director General for Operations.

(3) Each person specifically authorized to accept delivery of petroleum sulfonates shall use such material for the purpose authorized, and only for such purpose, except as otherwise specifically directed.

(4) Producers who prepare oil bases and other products from petroleum sulfonates, shall be considered users and must receive authorization for such use.

(c) *Small order exemption.* No specific authorization shall be required for:

(1) Acceptance of delivery by any person in any one calendar month of 50 pounds or less of petroleum sulfonates in the aggregate; provided that such person has not been specifically authorized to accept delivery of any quantity of such material during such month;

(2) The delivery by any producer or distributor to any person who shall certify to him in writing that he is entitled pursuant to paragraph (c) hereof to accept delivery;

(d) *Applications and reports.* (1) Each person seeking authorization to accept delivery of petroleum sulfonates during any calendar month, beginning with December 1942 (except as provided in paragraph (c) hereof), whether for his own consumption or resale, shall file application therefor on or before the 15th day of the month preceding the month for which authorization for delivery is requested. Applications by producers for authorization to use or refine shall be filed in the same manner. Where delivery, use or refining is to be in November 1942, such application shall be made as many days as possible in advance of the requested delivery, use or refining. In any case, such application shall be made on Form PD–600, in the manner prescribed therein, subject to the following instructions for the purpose of this order:

(i) Copies of Form PD–600 may be obtained at local field offices of the War Production Board.

(ii) Five copies shall be prepared, of which one shall be forwarded to supplier and three forwarded to the War Production Board, Chemicals Branch, Washington, D. C., Ref: M–188. A producer applying for authorization to refine petroleum sulfonates shall file a separate set of Form PD–600 covering such application.

(iii) In the heading, under name of chemical, specify petroleum sulfonates; under WPB Order No., specify M–188; under unit of measure, specify pounds (dry soap basis); under name of your company, specify name and mailing address; and specify the month and year for which authorization for acceptance of delivery is sought.

(iv) In columns 1, 11 and 19, specify sulfonate ingredient and percentage thereof.

Cutting oil base.
Lubricant additive.
Wetting agent.
Resale (as petroleum sulfonates).
Petroleum emulsion breaker.
Rust preventative.
Fat-splitting.
Refining.
Others (specify).

Where the application is made by a producer for leave to refine, insert in columes 3, 20 and 22 the refined product in terms of dry soap base sulfonate.

(vi) In column 4, specify ultimate use of product (for example, if the "primary product" called for in columns 3, 20 and 22, is "lubricant additive," the "ultimate use of product" might be "lubricant for marine diesel engines"), and also specify in each case whether your customer is Army, Navy, other government agency, Lend-Lease, or commercial customer.

(vii) Remarks in column 10 may, if necessary, be extended on the reverse side of the sheet. Include in remarks quantity of petroleum sulfonates used in manufacture for preparation of primary products in corresponding period of year 1941. If requirements have increased appreciably, state reasons.

(2) Each producer or distributor seeking authorization to make delivery of petroleum sulfonates during any calendar month beginning with December, 1942, shall file application on or before the 20th day of the month preceding the month for which authorization is requested. Where authorization is sought for November delivery, application shall be filed as many days as possible in advance of the proposed delivery. Such application shall be made on Form PD–601, in the manner prescribed therein, subject to the following special instructions:

(i) Copies of Form PD–601 may be obtained at local field offices of the War Production Board.

(ii) Prepare four copies and forward three to the War Production Board, Chemicals Branch, Washington, D. C., Ref.: M–188, retaining the fourth copy for your files.

(iii) Producers or distributors who have filed application on Form PD–600, specifying themselves as their suppliers, shall list their own names as customers on Form PD–601, and shall list their requests for allocation in the manner prescribed for other customers.

(vi) Column 5 may, at your discretion, be left blank.

(vii) Names of customers to whom small order deliveries are to be made during the next month pursuant to paragraph (c) of this order need not be given, but insert in column 1 "Total small order deliveries (estimated)" and in column 4, the estimated quantity.

(viii) If it is necessary to use more than one sheet to list customers, number each sheet in order and show grand totals for all sheets on the last sheet, which is the only one that need be certified.

(3) On or before November 30, 1942, each person who as of November 1, 1942, owned 500 pounds or more of petroleum sulfonates shall report the amount of each grade of petroleum sulfonates owned on such date by letter addressed to the War Production Board, Chemicals Branch, Washington, D. C., Ref: M–188.

(4) The Director General for Operations may require each person affected by this order to file such other reports as may be prescribed, and may issue other and further directions to any such person with respect to preparing and filing Forms PD–600 and PD–601.

(e) *Notification of customers.* Each supplier shall notify his regular customers, as soon as possible, of the requirements of this order, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. PART 1364—FRESH, CURED, AND CANNED MEAT AND FISH

[MPR 265]

SALES BY CANNERS OF SALMON

In the judgment of the Price Administrator the prices of salmon have risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of salmon prevailing between October 1, 1941 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable, and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

The maximum prices established herein are not below the average price of such commodities in the year 1941.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 265 is hereby issued.

AUTHORITY: §§ 1364.551 to 1364.562 inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1364.551 *Prohibition against dealing in salmon at prices above the maximum.* On or after November 9, 1942, regardless of any contract, agreement or other obligation, no canner, or agent or other person acting on behalf, or under control, of such canner shall sell or deliver any salmon, and no person in the course of trade or business shall buy or receive from a canner any salmon at prices higher than those set forth in Appendix A hereof, incorporated herein as § 1364.562; and no person shall agree, offer, solicit, or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of salmon to a purchaser if prior to 1942, such salmon has been received by a carrier, other than a carrier owned or controller by the seller, for shipment to such purchaser.

§ 1364.552 *Conditional agreement.* No canner of salmon shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1364.562 in the event that this Maximum Price Regulation No. 265 is amended or is determined by a court to be invalid or upon any other contingency: *Provided,* That if a petition for amendment has been duly filed, and such petition requires extensive consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment.

§ 1364.553 *Export sales.* The maximum price at which a person may export salmon shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[1] issued by the Office of Price Administration.

§ 1364.554 *Less than maximum prices.* Lower prices than those set forth in § 1364.562 may be charged, demanded, paid, or offered.

§ 1364.555 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 265 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of, or relating to salmon, alone or in conjunction with any other commodity, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or by changing the selection or style of processing or the canning, wrapping or packaging of salmon.

§ 1364.556 *Records and reports.* (a) Every person making a purchase or sale of salmon in the course of trade or business, or otherwise dealing therein, after November 8, 1942, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 as amended remains in effect, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer and of the seller, the price contracted for or received, the quantity and a description of the grade or brand, style of pack, and container size of salmon.

(b) Such persons shall submit such reports to the Office of Price Administration and keep such other records in addition to or in place of the records required in paragraph (a) of this section as the Office of Price Administration may from time to time require.

§ 1364.557 *Enforcement.* (a) Persons violating any provision of this maximum Price Regulation No. 265 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 265 or any price schedule, regulation, or order issued by the Office of Price Administration or of any act or practices which constitute such a violation are urged to communicate with the nearest district, state, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1364.558 *Petitions for amendment.* Any person seeking an amendment of any provision of this Regulation No. 265 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1[2] issued by the Office of Price Administration.

§ 1364.559 *Applicability of General* Maximum Price Regulation.[3] The provisions of this Maximum Price Regulation No. 265 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this regulation.

(2) At delivered prices higher than the maximum prices provided for in §§ 1381.413 and 1381.414, Appendices B and C, where the shipment originates at a mill and the purchaser takes delivery within the Eastern area.

(b) No person shall offer, agree, solicit, or attempt to do any of the foregoing.

(c) The provisions of this Maximum Price Regulation No. 253 shall be applicable to sales of millwork, moulding and pattern items only where the mill manufacturing such items produces at least 75 percent of its lumber from logs.

(d) Any sale which comes within the definition of a "direct-mill retail sale" as defined in § 1381.408 (a) (8) is not subject to this Maximum Price Regulation No. 253.

(e) The provisions of this Maximum Price Regulation No. 253 supersede the provisions of the General Maximum Price Regulation [2] with respect to sales and deliveries for which maximum prices are established by this regulation.

§ 1381.402 *Less than maximum prices.* Lower prices than those set forth in §§ 1381.412, 1381.413, and 1381.414, may be charged, demanded, paid or offered.

§ 1381.403 *Conditional agreements.* No seller subject to this Maximum Price Regulation No. 253 shall enter into an agreement permitting the adjustment of the price of Redwood lumber to prices which may be higher than the maximum prices in effect upon the date of the agreement: *Provided,* That if a petition for amendment has been duly filed, and such petition requires extensive consideration the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1381.404 *Prohibited practices.* (a) The price limitations set forth in this Maximum Price Regulation No. 253 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to redwood lumber and millwork items, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) Unnecessarily routing lumber through a distribution yard, whether wholesale or retail;

(2) Unreasonably refusing to ship except in specified or restricted random lengths, or under other circumstances entitling the seller to a premium;

(3) Making charges for delivery in the Western area which exceed the actual cost to the seller of such delivery except as otherwise provided in § 1381.411;

(4) Falsely or wrongly grading or invoicing lumber;

(5) Grading as a special grade lumber which can be graded as a standard grade;

(6) Selling as specified lengths a shipment of lumber which is substantially equivalent to standard or random lengths, or reselling as specified lengths a shipment purchased by the seller as standard or random lengths;

(7) Breaking up an order which would normally be a single order into a series of smaller orders in order to obtain a premium and unreasonably refusing to ship an item of lumber except in a small quantity which entitles the seller to a premium;

(8) Quoting or charging a delivered price computed on the basis of estimated weights which are higher than those set forth in §§ 1381.412 and 1381.413;

(9) Refusing to ship except on the basis of "estimated weights";

(10) Charging a premium for "partially dry" lumber when the purchaser ordered "green lumber" and a sufficient quantity of "green lumber" was available to fill the order;

(11) Charging "dry lumber" prices for "partially dry" or "green lumber";

(12) Charging "partially dry" prices for "green" lumber.

(c) The maximum prices established in this Maximum Price Regulation No. 253 shall not be increased by any charges for the extension of credit or by any decrease in the time customarily allowed for payment, and shall be decreased for prompt payment to the same extent that the sale price would have been decreased on October 1, 1941.

(d) No person shall pay, and no person shall charge or receive a commission for purchasing an item of Redwood lumber or millwork which is based on the amount or value of the item purchased if the amount of the commission plus the purchase price is higher than the maximum price permitted by this Maximum Price Regulation No. 253.

(e) The maximum price for sales on combination grades shall be the maximum price established for the lowest grade named in the combination.

(f) A gross price above the maximum price established in this Maximum Price Regulation No. 253 shall not be quoted, even if accompanied by a discount the effect of which is to bring the net price below such maximum price.

§ 1381.405 *Records and reports.* (a) On and after November 13, 1942, every person who, during any calendar month, offers or agrees to sell, sells, or delivers, or offers or agrees to buy, buys or receives a total of 34,000 pounds or more of Redwood lumber in the course of trade or business, shall keep for inspection by the Office of Price Administration for a period of not less than two years, a complete and accurate record of every such offer, agreement of sale, purchase, sale or delivery of Redwood lumber and millwork made by him showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the quantity, size, grade, specifications and condition of seasoning of the lumber in each transaction.

(b) Such persons at the close of each 30 day period commencing November 19, 1942 and ending 60 days therefrom, shall send to the Lumber Branch of the Office of Price Administration, certified copies of invoices of all shipments of lumber containing any lumber sold as "dry" or "partially dry".

(c) Such person shall keep such other records in addition to or in place of the records required in paragraph (a) of this section and shall submit such reports to the Office of Price Administration as that Office may from time to time require or permit.

§ 1381.406 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 253 are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 253, or any price schedule, regulation, or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest District, State, or Regional office of the Office of Price Administration or its principal office in Washington, D. (c) No war procurement agency, nor any contracting or paying finance officer thereof, shall be subject to any liability, civil or criminal, imposed by this Maximum Price Regulation No. 253 or the Emergency Price Control Act of 1942.

(b) Delivered prices in the western area, except as otherwise provided in tables 12 and 13, shall be determined as follows:

(1) A delivered price in excess of the maximum f. o. b. mill prices set forth in paragraph (a) of § 1381.411 may be charged consisting of such maximum prices plus the transportation costs permitted by this paragraph: *Provided,* That (i) the invoice shows the point of origin of the shipment, the destination, and the applicable railroad or truck rate, or, in place of such rate, where shipment is by motor vehicle owned or controlled by the seller, the amount added for transportation; and (ii) the invoice is marked "direct mill shipment."

(2) Where shipment is exclusively by motor vehicle owned or controlled by the seller, the charge for delivery may be no greater than the actual cost to the seller of delivery by motor vehicle; and in no event shall the charge exceed the railroad charge at the carload rate for the most nearly comparable haul. If the actual cost is less than such railroad charge, only the actual cost may be added to the maximum price.

(3) Where shipment is by common or contract carrier the amount added for transportation may be no greater than the actual amount paid to the carrier, except as provided in subparagraph (4) of this paragraph (b): *Provided,* That where shipment is by both rail and truck (either owned or controlled by the seller or a common or contract carrier), the following shall govern:

(i) Where shipment is by rail followed by truck delivery, the amount added for transportation may include, in addition to the amount added for rail transportation, the actual cost of truck delivery, provided such cost is shown separately on the invoice.

(ii) Where a truck haul precedes the rail shipment, as where a mill located away from a railhead hauls lumber by truck to the railhead, no addition may be made for such truck haul.

(4) In computing transportation costs, the following practices are permitted:

(i) The charging of a sum equivalent to the one-quarter of a dollar per thousand feet nearest to such transportation costs.

(ii) The averaging of transportation charges where a single order for which a single flat delivered price has been quoted and accepted is shipped from more than one mill to a single destination:

Provided, That the following procedure is followed:

(*a*) The seller shall set forth in each invoice the transportation charges for the particular shipment, and indicate that the particular shipment is part of a larger order.

(*b*) At the completion of the transaction, the seller shall render a final invoice to the purchaser for the complete order, showing the individual prices of each item separately f. o. b. mill, the quantity of each item shipped from each mill, the exact amount of actual transportation charge applying to each shipment, and a reconciliation of the total amount so computed with the agreed delivered sales price and the maximum price permitted by this Maximum Price Regulation No. 253.

(*c*) The seller must send a copy of such final invoice to the Office of Price Administration in Washington, D. C., within ten days of the completion of the last shipment.

(iii) The use of the estimated weights per one thousand feet board measure, set forth herein at Table 16 (even though higher than the actual weights) is permissible, but the purchaser may require that shipment be made upon actual weights.

§ 1381.413 *Appendix B: Maximum delivered prices for Redwood lumber and millwork items shipped from the mill and delivered to purchaser in Eastern area.* (a) The maximum delivered prices for Redwood lumber and millwork items where shipment originates at the mill and purchaser takes delivery within the Eastern area, shall be as follows per thousand board feet or other designated measure:

(c) In computing delivered prices in accordance with this section, it shall be permissible to use the appropriate estimated weights set forth herein, even though higher than actual weights, but the purchaser may require that shipment be made upon actual weights.

§ 1381.414 *Appendix C: Maximum prices for grades, classes and items of Redwood lumber and millwork not specifically priced in §§ 1381.412 and 1381.413 where shipment originates at the mill.* (a) The maximum prices in Eastern and Western areas for grades, classes, and items of Redwood lumber and millwork not specifically priced in §§ 1381.412 and 1381.413 but referred to in one or more of the publications set forth in § 1381.408 (a) (15), shall be determined as follows:

(1) The seller shall determine a tentative price by taking the price of the most nearly comparable grade or item specifically priced in the appropriate section (§ 1381.412 for Western deliveries, § 1381.413 for Eastern deliveries) and applying thereto the average price differential between the two items (determined in accordance with subparagraph (2) (iv) of this section) maintained by the seller during the period January 1, 1941 to July 31, 1941. If the seller had no established differential during that period, he shall apply the average differential maintained by his most closely competitive seller during that period. If neither the seller nor a competitive seller had such a differential the seller shall apply a differential based on comparative grade value.

(2) The tentative price so determined shall be submitted for approval to the Lumber Branch of the Office of Price Administration in Washington, D. C., within ten days of the use of such price together with a detailed statement as to the manner of determining the price. The statement shall include the following:

(i) The place where purchaser will take delivery.

(ii) The item to be priced, designated according to the paragraph number of each publication referred to in § 1381.408 (a) (15) in which the item appears or is referred to.

(iii) The item specifically priced in the appropriate § 1381.412 (Western deliveries) or § 1381.413 (Eastern deliveries) which was considered as the most nearly comparable.

(iv) The price, reduced to a mill basis, of the largest volume sale made by the seller or his most closely competitive seller of each item mentioned in this subparagraph (2) (ii) and (iii) from January 1, 1941 to July 31, 1942, for each month in which a sale was made.

(v) The highest price, reduced to a mill basis, charged by the seller or his most closely competitive seller during the month of March 1942, for each commodity mentioned in subparagraph (2) (ii) and (iii).

(vi) Any other information which applicant deems appropriate or which the Lumber Branch of the Office of Price Administration may from time to time require.

If within thirty days after receipt of the request for approval, the Office of Price Administration does not adjust or require further justification of such tentative maximum price, the price shall be considered approved and shall thereafter be the maximum price for such item for that seller. Pending such approval the seller may deliver the lumber and receive payment therefor subject to the condition that a refund will be made if the price is in excess of that finally determined or approved by the Office of Price Administration.

(b) No additions may be made for items of millwork or mouldings, or for workings, specifications, services, or other extras not expressly provided for: *Provided*, That the seller may apply to the Office of Price Administration in Washington, D. C., for instructions as to the making of such additions. In such application the seller shall describe in detail the grade, item, workings, specification, service, or extra not expressly provided for. Pending receipt of such instructions the seller may quote and deliver at a price which is agreed by the parties to be subject to adjustment to the price determined by the Office of Price Administration, but the seller may not accept payment and the purchaser may not make payment until such instructions have been received.

Issued this 9th day of November 1942.

Administrator.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 262]

SEASONAL AND MISCELLANEOUS FOOD COMMODITIES

This regulation provides for the determination of maximum prices of certain listed seasonal and miscellaneous food commodities. The formulae set forth herein for determining maximum prices for these commodities are designed to give a maximum price consisting of (1) the ceiling price or, if none, the March 1942 price of ingredients (with certain added increases over 1941 prices in the case of fresh berries, fruits and peanuts), and (2) the ceiling price or, if none, the March 1942 price of packaging materials, (3) labor costs at March 1942 wage rates, and (4) plus a markup as of March 1942 or, if none, as of the last selling season.

In the judgment of the Price Administrator, the maximum prices established by this regulation are fair, just and equitable and tend to effectuate the purpose of the Emergency Price Control Act of 1942, as amended.

A statement of considerations involved in the issuance of this Maximum Price Regulation No. 262 is issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator in the Emergency Price Control Act of 1942, as amended, and Executive Order 9250, and in accordance with Revised Procedural Regulation No. 1[1] issued by the Office of Price Administration, this Maximum Price Regulation No. 262 is hereby issued:

AUTHORITY: §§ 1351.951 to 1351.968, inclusive, issued under Pub. Laws 421, 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1351.951 *Scope and purpose of this regulation.* This regulation provides for and prescribes the maximum prices for the seasonal and miscellaneous food commodities listed in Appendix A and B hereof. It provides that each producer shall compute his maximum prices on these commodities on the basis of specified costs plus last season's markup in the case of seasonal commodities or the March 1942 markup in the case of miscellaneous commodities. These maximum prices must be calculated and reported to the Office of Price Administration within thirty days after the effective date of this regulation. Unless this is done the producer cannot sell these commodities at all after said thirty-day period until he does calculate and report his prices under this regulation. Once the producer has calculated and reported his maximum prices under this regulation he cannot sell these commodities at a higher price though he may sell them at a lower price and he must continue all customary allowances, discounts and other price differentials. Further, once a maximum price on a commodity covered by this regulation is calculated and reported as required by this regulation it cannot be changed except with the written permission of the Office of Price Administration in cases of excusable clerical error or other mistake.

§ 1351.952 *Applicability of the General Maximum Price Regulation.* After a producer has calculated and reported his maximum prices under this regulation on any seasonal or miscellaneous food commodity covered hereby, the provisions of the General Maximum Price Regulation shall have no further application to sales or deliveries by him thereof; and thirty days after the effective date of this regulation, the provisions of the General Maximum Price Regulation shall not apply to sales or deliveries by producers of seasonal and miscellaneous food commodities hereinafter listed in Appendix A and B hereof.

§ 1351.953 *Prohibition against dealing in listed seasonal and miscellaneous food commodities above maximum prices.* (a) Thirty days after the effective date of this regulation and regardless of any contract or any other obligation:

(1) No producer shall sell or deliver or offer to sell or deliver any seasonal or miscellaneous food commodity hereinafter listed in Appendix A or B hereof unless he has calculated and reported his maximum price thereon as provided in this regulation nor shall any producer sell or deliver or offer to sell or deliver any such seasonal or miscellaneous food commodity at a price higher than the maximum price permitted by this regulation; and

(2) No person shall buy or receive any such commodity from a producer at a price higher than the price permitted by this regulation.

§ 1351.954 *Maximum prices for listed seasonal food commodities.* Each producer of a seasonal food commodity listed in Appendix A of this regulation shall determine his maximum prices to each class of purchasers thereof as follows:

(a) Each producer shall first ascertain the actual or estimated cost to him of ingredients and packaging materials per unit of the commodity to be priced, subject to the following limitations:

(1) No ingredient or packaging material subject to maximum prices prescribed by the Office of Price Administration shall be included in such costs at higher than the maximum purchase price to said producer.

(2) Except as provided in subparagraphs (3) and (4) of paragraph (a) of this section, no ingredient or packaging material for which no maximum price has been prescribed by the Office of Price Administration shall be included in such costs at higher than the market price of the ingredient or packaging material in question in March 1942 or in the event there were no substantial sales of a particular ingredient or packaging material during March 1942 at higher than the market price of that ingredient or packaging material in the base period of 1941 as set forth in Appendix A hereof opposite the seasonal commodity to be priced.

(3) Where one of the following commodities is not subject to maximum

prices prescribed by the Office of Price Administration and constitutes an ingredient of the commodity to be priced, the producer shall not include the same in such cost at higher than the weighted average actual price paid by the producer during 1941 plus the amount hereinafter set forth opposite each such ingredient commodity:

	Per pound
Fresh berries except strawberries	$ 0.03
	Per ton
Fresh apples	$6.50
Fresh apricots	23.00
Fresh cherries, red sour and pitted	50.00
Fresh cherries, sweet	56.00
Fresh figs	34.00
Fresh grapes	14.00
Fresh peaches, cling stone, including cling stone nectarines	7.00
Fresh peaches, free stone, including free stone nectarines	15.00
Fresh pears	15.00
Fresh plums	2.00
Fresh prunes	13.00

If the producer made no such purchases during 1941 he shall not include the same in such costs at higher than the weighted average actual price paid by his most closely competitive producer during 1941 as ascertained through the Office of Price Administration if reasonable inquiry by him fails to disclose the same, plus the aforesaid amounts.

(4) Where one of the following commodities is not subject to maximum prices prescribed by the Office of Price Administration and constitutes an ingredient of the commodity to be priced, the producer shall not include the same in such costs at higher than the prices hereinafter set forth opposite such ingredient commodity:

	Per pound
Fresh strawberries	$0.08
U. S. Grade No. 1 Virginia shelled peanuts	.14
U. S. Grade No. 1 Spanish shelled peanuts	.13
U. S. Grade No. 1 Runners shelled peanuts	.12¾

The customary differentials for other grades of peanuts shall be in continuing force.

(b) To the cost of ingredients and packaging materials as above ascertained, the producer may add "direct labor cost" per unit of the commodity to be priced at the "March 1942 wage rates." "Direct labor cost" shall include the labor involved in the manufacturing, packaging and shipping of the commodity but shall not include the labor involved in the purchase of ingredients and supplies, plant and machinery maintenance, distribution, selling or advertising of the commodity, or administrative expenses. Said "March 1942 wage rates" shall be the highest wage rates paid by the producer in March 1942 for each class of labor involved in the production of the commodity to be priced. If the producer did not employ a given class of labor in March 1942 he shall take the highest wage rate paid in March 1942 by that producer of the same or a comparable commodity operating under the most nearly comparable conditions who did employ that class of labor during March 1942.

(c) The producer shall next ascertain (1) his weighted average actual selling price to each class of purchasers during the base period of 1941 as set forth in Appendix A hereto opposite each commodity and (2) his weighted, average actual costs of ingredients, packaging materials and direct labor per unit of the same commodity or of a commodity of a comparable type produced and sold by him during said base period.

The producer shall then ascertain his former markup in dollars and cents by subtracting item (2) (old costs) from item (1) (old selling price); and also by percentage by dividing item (2) (old costs) into item (1) (old selling price).

The producer shall then take the total cost of ingredients, packaging materials and labor as computed under paragraphs (a) and (b) of this section and: (1) add to this total the dollars and cents markup (to a given class of purchasers if he sold to more than one class) as above calculated and (2) multiply this total cost of ingredients, packaging materials and labor by the percentage (to a given class of purchasers if he sold to more than one class) as above calculated. The lower of the two resulting figures shall be his maximum price of the commodity which is being priced (to that class of purchasers to whom the markup appertains if he had more than one class; and in like manner he should calculate his maximum prices on the commodity which is being priced to other classes of purchasers, if any).

If the producer did not produce the commodity or a commodity of a comparable type during said base period, he shall use the markup determined in a like manner as above provided of that producer of the same commodity or a commodity of a comparable type operating under the most nearly comparable conditions during said base period as ascertained through the Office of Price Administration if reasonable inquiry by him fails to disclose the same.

§ 1351.955 *Maximum prices for listed miscellaneous food commodities.* Each producer of a miscellaneous food commodity listed in Appendix B of this regulation shall determine his maximum prices to each class of purchasers thereof as follows:

(a) Each producer shall first compute the cost of ingredients and packaging materials per unit of the commodity to be priced, in the following manner:

(1) He shall include in such cost every ingredient or packaging material subject to maximum prices prescribed by the Office of Price Administration at the maximum price to the class of purchasers to which he belongs.

(2) Except as provided in subparagraphs (3) and (4) of paragraph (a) of this section, he shall include in such cost every ingredient or packaging material for which no maximum price has been prescribed by the Office of Price Administration at the market price of the ingredient or packaging material in question in March 1942.

(3) Where one of the following commodities is not subject to maximum prices prescribed by the Office of Price Administration and constitutes an ingredient of the commodity to be priced, the producer shall include the same in such cost at the weighted average actual price paid by the producer during 1941 plus the amount hereinafter set forth opposite each such ingredient commodity:

	Per pound
Fresh berries except strawberries	$0.03
	Per ton
Fresh apples	$6.50
Fresh apricots	23.00
Fresh cherries, red sour and pitted	50.00
Fresh cherries, sweet	56.00
Fresh figs	34.00
Fresh grapes	14.00
Fresh peaches, cling stone, including cling stone nectarines	7.00
Fresh peaches, free stone, including free stone nectarines	15.00
Fresh pears	15.00
Fresh plums	2.00
Fresh prunes	13.00

If the producer made no such purchases during 1941 he shall include the same in such costs at the weighted average actual price paid by his most closely competitive producer during 1941 as ascertained through the Office of Price Administration if reasonable inquiry by him fails to disclose the same, plus the aforesaid amounts.

(4) Where one of the following commodities is not subject to maximum prices prescribed by the Office of Price Administration and constitutes an ingredient of the commodity to be priced, the producer shall include the same in such costs at the prices hereinafter set forth opposite each ingredient commodity:

	Per pound
Fresh strawberries	$0.08
U. S. Grade No. 1 Virginia shelled peanuts	0.14
U. S. Grade No. 1 Spanish shelled peanuts	0.13
U. S. Grade No. 1 Runners shelled peanuts	0.12¾

The customary differentials for other grades of peanuts shall be in continuing force.

(b) The producer shall next ascertain (1) his weighted average actual selling price to each class of purchasers during March 1942 and (2) his weighted average actual costs of ingredients and packaging materials per unit of the same commodity or of a commodity of a comparable type produced and sold by him during March 1942.

The producer shall then ascertain his former markup in dollars and cents by subtracting item (2) (old costs) from item (1) (old selling price); and also by percentage by dividing item (2) (old costs) into item (1) (old selling price).

The producer shall then take the total cost of ingredients and packaging materials as computed under paragraph (a) of this section and: (1) add to this total the dollars and cents markup (to a given class of purchasers if he sold to more than one class) as above calculated; and (2) multiply this total cost of ingredients and packaging materials by the percentage (to a given class of purchasers if he sold to more than one class) as above calculated. The lower of the two resulting figures shall be his maximum price of the commodity which is being priced (to that class of purchasers to whom the markup appertains if he had more than one class; and in like manner he should calculate his maximum prices on the commodity which is being priced to other classes of purchasers, if any).

If the producer did not produce the commodity or a commodity of a comparable type during said base period, he shall use the markup determined in a like manner as above provided of that producer of the same commodity or a commodity of a comparable type operating under the most nearly comparable conditions during paid base period as ascertained through the Office of Price Administration if reasonable inquiry by him fails to disclose the same.

§ 1351.956 *Package or unit net weight changes in lieu of price changes.* Where it is the customary practice of a producer of a commodity listed in Appendix A or B hereto to reflect cost changes by package or unit net weight changes, he may reflect the price changes prescribed by this regulation by corresponding package or unit net weight changes determined in the following manner: The producer shall (a) divide the maximum price per unit of the commodity as determined under this regulation into his selling price per unit of the commodity prevailing immediately before the effective date of this regulation; and (b) multiply the existing package or unit net weight of the commodity by the percentage so determined. The resulting figure shall be the new package or unit net weight for sales under this regulation.

§ 1351.957 *Information which packers must give their customers of price increases*—(a) *Notice from packers to wholesalers of price increases.* In the case of any item of any commodity listed in Appendix B hereof which is being sold by a producer to a wholesaler for the first time after the packer's maximum price for it has been established under § 1351.955, the producer shall send the wholesaler (before or at the time of delivery) a written statement which lists for each such item included in the sale (1) the weighted average price charged by the packer during the month of March 1942, called the "base price", (2) the producer's maximum price, as calculated under the provisions of this regulation, called the "maximum price", and (3) the amount of the difference between the "base price" and the "maximum price", called the "wholesaler's permitted increase". When any producer has established a maximum price by taking the maximum price of his competitor, as provided in § 1351.955 (b), his base price shall be the base price of the competitor. When calculating the "wholesaler's permitted increase", the producer shall adjust any fraction of a cent to the nearest fractional unit in which the wholesaler customarily quotes prices for the item.

(b) *Notice from producers to retailers of price increases*—(1) *General package requirement.* Every producer who sells any item of a commodity listed in Appendix B hereof during the 90-day period from and after the effective date of this regulation whether to a wholesaler or a retailer, shall include with the shipping case (or other package unit in which the retailer usually purchases the product) a "Notice of Retailer's Permitted Increase." This notice must be either pasted or stamped on the outside of each shipping case sold, or printed on a slip and enclosed. In the latter case the producer shall place this statement on the outside: "Retailer's Notice Enclosed." The producer shall calculate the retailer's permitted increase for the item by reducing the permitted increase which he computed for the wholesaler under paragraph (a), where necessary, to the units in which the commodity is usually sold at retail. When making this calculation, the packer shall adjust fractions of one-half cent or more to the next higher cent and fractions of less than one-half cent to the next lower cent. Except for the proper insertion, the Notice of Retailer's Permitted Increase shall read as follows:

> *Notice of Retailer's Permitted Increase.* Your new OPA ceiling price for the enclosed item is your March ceiling price *plus* ---- cents per retail container. OPA requires you to keep this information for examination.

(2) *First sales directly to retailers; where notices do not accompany packages.* In the case of any item of a commodity listed in Appendix B hereof which is being sold by a producer to any retailer for the first time after the producer's maximum price for it has been established under § 1351.955 and which for any reason is being sold in a form which does not include a producer's Notice of Retailer's Permitted Increase, the producer shall send the retailer (before or at the time of delivery) a written statement that (i) clearly identifies each such item included in the sale and (ii) states the "permitted increase" for it which the retailer is directed to add to his maximum price as established under the General Maximum Price Regulation. When preparing the statement the packer shall calculate the retailer's permitted increase for the item by reducing the permitted increase which he computed for the wholesaler under paragraph (a), where necessary, to the units in which the commodity is usually sold at retail. When making this calculation, the packer shall adjust fractions of one-half cent or more to the next higher cent and fractions of less than one-half cent to the next lower cent. Each statement shall be accompanied by this notice:

> Your new OPA ceiling price for each item noted is your March ceiling price *plus* the permitted increase shown per retail container. OPA requires you to keep this information for examination.

This statement may also contain similar information for any other items covered by this regulation even though they are not included in the sale.

§ 1351.958 *Wholesaler and retailer not to adjust prices in case of producer's package or unit net weight changes.* If a package or unit net weight change has been effected by the producer, as permitted under § 1351.956 above, the wholesaler and retailer shall each respectively continue their previous maximum prices on the new package or unit net weight commodity in question without adjustment or change in price. The producer shall send the wholesaler and the wholesaler or producer shall send all retailers a written statement of any package or unit net weight change.

§ 1351.959 *Reporting of maximum prices calculated and determined hereunder.* Within thirty days after the effective date of this regulation, the producer shall calculate and report his maximum price or prices under this regulation to the Office of Price Administration in Washington, D. C., setting forth by verified statement in writing, the detailed figures used in determining his maximum price or prices hereunder and any permitted package or unit net weight changes, itemizing each ingredient, packaging material and labor cost and selling price or prices used in the several calculations herein required.

Once reported, a maximum price calculated and determined under this regulation may not be changed except with the written permission of the Office of Price Administration in cases of excusable clerical error or other mistake.

Every maximum price or package or unit net weight change reported under this regulation shall be subject to adjustment (not to apply retroactively) at any time upon the written order of the Office of Price Administration.

§ 1351.960 *Retention of customary allowances, discounts and other price differentials.* Every producer shall continue all customary allowances, discounts and other price differentials in effect during the respective base periods set forth in Appendix A hereof in regard to seasonal food commodities and during March 1942 in regard to the miscellaneous food commodities set forth in Appendix B hereof, unless a change will result in lower maximum prices.

§ 1351.961 *Evasion.* The provisions of this Maximum Price Regulation No. 262 shall not be evaded whether by direct or indirect methods in connection with any offer, solicitation, agreement, sale, delivery, purchase, or receipt of any commodity covered by this regulation alone or in conjunction with any other commodity or by way of commission, service, transportation or other charge, or discount, premium or other privilege or by tying-in agreement or other trade understanding or otherwise.

§ 1351.962 *Export sales.* The maximum prices at which a producer or other person may export any commodity covered by this regulation shall be determined in accordance with the provisions of the Revised Maximum Export Regulation issued by the Office of Price Administration.

§ 1351.963 *Petitions for amendments.* Any person seeking an amendment to any provisions of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

§ 1351.964 *Enforcement.* (a) Any persons violating any provisions of this Maximum Price Regulation No. 262 shall be subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 262 or of any price schedule, regulation or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation are urged to communicate with the nearest district, state or regional office of the Office of Price Administration or its principal office in Washington, D. C.

(b) If the accounting periods used by a slaughterer during 1941 do not correspond to the base and quota periods established by Restriction Order No. 1, he may substitute such accounting periods for such base and quota periods: *Provided,* That:

§ 1407.911 *Persons becoming slaughterers and slaughterers owning retail outlets.* (a) In the case of a person who owns five or more establishments selling controlled meat principally at retail and who is also a slaughterer and in the case of a person who became or becomes a slaughterer after October 1, 1942, the operation of the slaughtering plant or plants operated by him shall be deemed to be separate from all his other activities for the purposes of Restriction Order No. 1, including the determination of the applicable quota base and quotas. Deliveries to such person shall be deemed made without charge against quotas only if made to such plant or plants, and only inventories of, and deliveries to and from such plant or plants shall be included in any computations required by Restriction Order No. 1. The restrictions in §§ 1407.902 and 1407.909 shall apply to such person only with respect to deliveries of controlled meat from, and the use of controlled meat in, such plant or plants.

(1) The Army, Navy, Marine Corps, Coast Guard, Coast and Geodetic Survey, War Shipping Administration, Maritime Commission, Panama Canal, Advisory Committee for Aeronautics, Office of Scientific Research and Development and Defense Supplies Corporation, and any agency of the United States or of any foreign government, to the extent that controlled meat is delivered to it for export to any foreign country or any territory or possession of the United States other than the District of Columbia: *Provided, however,* That post exchanges, organized messes, sales commissaries, service men's clubs, ship service stores, and similar organizations, shall not be deemed part of the Army, Navy, Marine Corps or Coast Guard.

(2) Any person, to the extent that controlled meat is delivered to him for export to any foreign country or any territory or possession of the United States other than the District of Columbia.

(3) Any person operating an ocean-going vessel engaged in the transportation of cargo or passengers in foreign, coastwise or intercoastal trade, to the extent that controlled meat is delivered to him as ships' stores for consumption aboard such vessel.

(4) Any hospital, asylum, orphanage, prison, or other similar institution, which is operated by any federal, state or local government or agency thereof, other than an agency listed in paragraph (a) (1) of this section, which took delivery of controlled meat in the year 1941 under contracts awarded upon the basis of competitive bids.

(5) Any person, to the extent that the delivery of controlled meat to him, without charge against quotas, has been specifically authorized by the Director of the Food Rationing Division of the Office of Price Administration.

§ 1407.912a *Deliveries permitted without charge against quotas*—(a) *Deliveries by slaughterers to U. S. government agencies, covered by written contract.* In computing the conversion weight of controlled meat delivered during a quota period without charge against quotas for the purposes of § 1407.907 (a) (5), any slaughterer may include the conversion weight of controlled meat delivered by him, or contained in canned meat or sausage delivered by him, during such period to an exempt purchaser designated in § 1407.912 (a) (1), if such delivery was covered by a written contract between him and such exempt purchaser: *Provided, however,* That no slaughterer shall so include the conversion weight of such controlled meat unless he retains the contract in his files and, not later than the close of the quota period in which the controlled meat, canned meat or sausage was delivered, attaches to such contract receipts or bills of lading evidencing such delivery, the invoices relating thereto, and a certification signed by him referring to such contract and stating the conversion weight of each type of controlled meat delivered, or contained in canned meat or sausage delivered, by him during such quota period.

(b) *Deliveries by slaughterers to persons holding written contracts with U. S. government agencies.* In computing the conversion weight of controlled meat delivered during a quota period without charge against quotas for the purposes of § 1407.907 (a) (5), any slaughterer may include the conversion weight of controlled meat delivered by him, or contained in canned meat or sausage delivered by him, during such period to any person who is required to deliver, or has on or after October 1, 1942, delivered, either controlled meat, or canned meat or sausage made therefrom, to an exempt purchaser designated in § 1407.912 (a) (1), if the delivery of controlled meat, sausage or canned meat to the exempt purchaser is covered by a written contract between such person and such exempt purchaser: *Provided, however,* That no slaughterer shall so include the conversion weight of such controlled meat unless he obtains from such person, either before or after delivery to the exempt purchaser, but in any event not later than the close of the quota period in which controlled meat, canned meat or sausage was so delivered to such person, a certification signed by such person referring to such contract by date and number and setting forth the following:

(1) The name of such person;

(2) The name of the exempt purchaser;

(3) The total weight of each type of controlled meat, canned meat or sausage covered by such certification, a description thereof permitting conversion in accordance with the provisions of § 1407.913, and the date or dates of delivery to such person;

(4) A statement that the quantity of controlled meat of any type covered by all certifications signed by such person and referring to such contract, does not exceed the quantity of controlled meat of such type required for the performance of the contract.

The person holding the contract with the exempt purchaser shall retain it in his files and shall attach thereto receipts or bills of lading evidencing the delivery of such meat, the invoices relating thereto, copies of all certifications referring to such contract and, in addition thereto,

a certification signed by him stating the conversion weight of each type of controlled meat delivered by him pursuant to the contract during each quota period, or in the case of a contract calling for the delivery of canned meat or sausage, the conversion weight of controlled meat used in the preparation of the canned meat or sausage delivered by him pursuant to the contract during each quota period.

(c) *Deliveries by slaughterer directly to exempt purchasers other than U. S. government agencies, to other slaughterers, and to U. S. government agencies if not covered by written contract.* In computing the conversion weight of controlled meat delivered during a quota period without charge against quotas for the purposes of § 1407.907 (a) (5), any slaughterer may include the conversion weight of controlled meat delivered by him during such period to any exempt purchaser designated in § 1407.912 (a) (2) to (5) inclusive, or to any exempt purchaser designated in § 1407.912 (a) (1) when such delivery was not covered by written contract, or to another slaughterer whose deliveries are subject to the quota provisions of Restriction Order No. 1, and may also include the conversion weight of controlled meat contained in canned meat or sausage delivered by him during such period to any such exempt purchaser (but not to other slaughterers): *Provided, however,* That no slaughterer shall so include the conversion weight of such controlled meat unless, not later than the close of the quota period in which such delivery is made, he obtains from the exempt purchaser or slaughterer to whom such controlled meat, canned meat or sausage is delivered, a certification signed by such exempt purchaser or slaughterer, acknowledging delivery of the controlled meat, canned meat or sausage, and satisfying the following requirements:

(1) The certification shall state the name and address of the slaughterer who delivered the controlled meat, canned meat, or sausage, and the date or dates of delivery; the name and address of the exempt purchaser or slaughterer; the total weight of each type of controlled meat, canned meat, or sausage covered by such certification; and a description thereof permitting conversion in accordance with the provisions of § 1407.913.

(2) If the exempt purchaser is an exporter designated in § 1407.912 (a) (2), there shall be attached to such certification a Shipper's Export Declaration bearing the notation of an authorized customs official to the effect that, to the best of his knowledge and belief, the amount of controlled meat, canned meat or sausage therein stated has been exported.

(3) If the exempt purchaser is a person operating a vessel as provided in § 1407.912 (a) (3), there shall be attached to such certification a statement signed by the collector of customs or his deputy authorizing the delivery of such controlled meat as ships' stores and evidencing the fact that such delivery has been made.

(4) If the exempt purchaser is an institution referred to in § 1407.912 (a) (4), the certification shall state that such purchaser took delivery of controlled meat in the year 1941 under contracts awarded upon the basis of competitive bids, and that the controlled meat described in the certification will be used solely by such institution.

(5) If the exempt purchaser is a person to whom quota-free delivery of controlled meat has been authorized by the Director of the Food Rationing Division of the Office of Price Administration, he shall attach to the certification a copy of such authorization.

(6) If canned meat or sausage is covered by the certification signed by an exempt purchaser, the slaughterer shall attach thereto a statement signed by him setting forth, on the basis of the formula for such canned meat or sausage (which need not be set forth in full), the conversion weight of controlled meat of each type contained therein.

(d) *Deliveries by slaughterers to persons other than exempt purchasers, to replace inventory delivered to U. S. government agencies, to vessels, or for export.* In computing the conversion weight of controlled meat delivered during a quota period without charge against quotas for the purposes of § 1407.907 (a) (5), any slaughterer may include the conversion weight of controlled meat delivered by him, or contained in canned meat or sausage delivered by him, during such period to any person other than a slaughterer to replace in the inventory of such person controlled meat, canned meat or sausage delivered by, or contained in canned meat or sausage delivered by, such person on or after October 1, 1942, to an exempt purchaser designated in § 1407.912 (a) (1) if such delivery was not covered by a written contract, or to an exempt purchaser designated in § 1407.912 (a) (2), (3), or (5): *Provided, however,* That no slaughterer shall so include the conversion weight of such controlled meat unless, not later than the close of such period, he obtains from such person a certification signed by such exempt purchaser, acknowledging delivery of controlled meat, canned meat or sausage, and containing the statements and attachments provided for in paragraph (c) of this section, and in the case of an exempt purchaser designated in § 1407.912 (a) (1), also stating that such delivery was not covered by a written contract.

(e) *Deliveries to boners.* Any person who desires to deliver, or has on or after October 1, 1942, delivered controlled meat, canned meat or sausage to an exempt purchaser designated in § 1407.912 (a) (1) pursuant to a written contract between such person and such exempt purchaser, may sign and transmit to the boner who boned or will bone the controlled meat for him, a certification containing the statements and information provided for in paragraph (b) of this section. The boner to whom any such certification is so transmitted may endorse and deliver it to the slaughterer who delivered or delivers such controlled meat to him. In computing the conversion weight of controlled meat delivered during a quota period without charge against quotas for the purposes of § 1407.907 (a) (5), any slaughterer may include the conversion weight of the controlled meat delivered by him during such period to such boner, if covered by such certification transmitted to him during the quota period. For the purposes of this paragraph, "boner" means a person to whom carcasses or primal cuts of beef, veal, lamb, mutton or pork are delivered, and by whom boneless controlled meat and trimmings are delivered.

(f) *Deliveries by slaughterers to any person, for storage in anticipation of government contracts.* In computing the conversion weight of controlled meat delivered during a quota period without charge against quotas for the purposes of § 1407.907 (a) (5), any slaughterer may include the conversion weight of controlled meat delivered by him to any person for storage in anticipation of contracts with exempt purchasers designated in § 1407.912 (a) (1), if such delivery, quota-free, is specifically authorized by the Director of the Food Rationing Division of the Office of Price Administration: *Provided, however,* That no slaughterer shall so include the conversion weight of such controlled meat unless, not later than the close of such period, he obtains from such person a copy of the authorization and a certification signed by such person, referring to such authorization by date, and stating that such controlled meat has been segregated for use pursuant to a contract with an exempt purchaser, and that the quantity of controlled meat of any type covered by all certifications referring to such authorization does not exceed the quantity of controlled meat of such type the delivery of which has been specifically authorized thereby.

Any person to whom a specific authorization is issued shall retain together in his files the original authorization, copies of all certifications referring thereto, any contract with an exempt purchaser designated in § 1407.912 (a) (1), pursuant to which controlled meat or canned meat or sausage is subsequently delivered, the invoices relating thereto, and receipts or bills of lading evidencing deliveries against such contract.

(g) *Duplication prohibited.* No controlled meat shall be included more than once by a slaughterer in computing the conversion weight of controlled meat delivered during a quota period without charge against quotas.

(h) *Military information of a secret character.* If any of the information required by paragraphs (a) to (f) inclusive of this section is military information of a secret character, such information may be omitted.

(i) *Form of certification.* The certifications required by this section and the statements which are required to be attached thereto may be in the form of receipts with appropriate notations thereon and do not require verification or acknowledgment, but no certification shall be valid for the purposes of this section unless it bears the required attachments. An authorized agent or employee of the person by whom any certification or statement is required to be signed may sign such certification or statement in behalf of such person.

§ 1407.913 *Conversion weight factors.* (a) For the purposes of §§ 1407.906 and 1407.907, the conversion weight of swine slaughtered during a period shall be determined exclusively by computing the average live purchase weight of all swine slaughtered (less condemnations) and multiplying the total live purchase weight of such swine by the conversion factor set forth below for the weight range within which the average live purchase weight falls:

Weight range:	*Conversion factor*
200 lbs., and under	.55
201–240 lbs	.57
241–300 lbs	.59
301 lbs. and over	.61

(b) The conversion weight of carcasses, and of cuts and trimmings of controlled meat derived therefrom, shall be determined by multiplying the weight thereof by the appropriate conversion factor set forth below:

Type of controlled meat	Description of product	Conversion factor (multiplier)	
Beef	Dressed carcasses and cuts, not boned, fresh (chilled) or frozen.	1.00	
	Boned beef and trimmings, fresh (chilled) or frozen.	1.41	
	Cured other than dried	1.05	
	Dried (including smoked)	2.00	
Veal	Dressed carcasses hide off, and cuts, not boned, fresh (chilled) or frozen.	1.00	
	Dressed carcasses hide on, fresh (chilled) or frozen.	.90	
	Boned, fresh (chilled) or frozen	1.41	
Lamb and mutton.	Dressed carcasses pluck out, and cuts, not boned, fresh (chilled) or frozen.	1.00	
	Dressed carcasses pluck in, fresh (chilled) or frozen.	.90	
	Boned, fresh (chilled) or frozen	1.41	
Pork	Dressed carcasses (with cutting fats on), fresh (chilled) or frozen.	.83	
		Not boned	Boned
	Cuts:		
	Fresh (chilled)	1.00	1.15
	Wiltshire sides, fresh or cured.	1.00	-----
	Cured	1.00	1.10
	Smoked	1.10	1.20
	Cooked	1.20	1.35
	Trimmings: Fresh (chilled) or frozen.	------	1.10

(c) In paragraph (b) of this section, "boned" describes cuts from which 50% or more of the bone by weight has been removed by the process of boning, and "not boned" describes cuts from which none, or less than 50%, of the bone by weight has been removed, and primal cuts which contain no bone.

(d) The conversion weight of controlled meat of each type used in the preparation of sausage or canned meat shall be computed by determining, on the basis of the manufacturing formula, the net weight of controlled meat of such type used in the processing thereof, and multiplying such net weight by 1.41 in the case of boned beef, veal, lamb and mutton, and 1.10 in the case of pork.

§ 1407.914 *Registration of slaughterers.* (a) No slaughterer who during the first nine months of 1942 slaughtered cattle, calves, sheep, lambs or swine which produced controlled meat having an aggregate conversion weight in excess of 1,500,000 pounds shall deliver controlled meat on or after November 15, 1942, unless he shall have filed with the Office of Price Administration a registration statement, executed in duplicate on OPA Form No. R501:1 and completed, except that information with reference to the second and third quarters of 1941 need not be supplied. Both copies of such registration statement shall be signed by the slaughterer, a partner (if a partnership), an officer (if a corporation), or a manager of the slaughterer. No such slaughterer shall deliver controlled meat on or after December 13, 1942, unless he shall have filed with the Office of Price Administration on such form a supplemental registration statement covering the second and third quarters of 1941, executed and signed in duplicate by the slaughterer, a partner (if a partnership), an officer (if a corporation), or a manager of the slaughterer.

* * * * *

§ 1407.914a *Statements of deliveries from other slaughterers or non-quota slaughterers required.* * * *

(b) Such statement shall be prepared in two parts. Part 1 shall include deliveries during Base Periods 1 and 2. Part 2 shall include only deliveries during Base Periods 3 and 4. On or before November 2, 1942, every slaughterer required to prepare a statement pursuant to paragraph (a) of this section shall send by registered mail, return receipt requested, the original of Part 1 of each statement to the slaughterer or non-quota slaughterer who made the deliveries described therein. On or before November 30, 1942, every such slaughterer shall send by registered mail, return receipt requested, the original of Part 2 of each statement to the slaughterer or non-quota slaughterer who made the deliveries described therein. If deliveries during Base Periods 3 and 4 are included in any statement mailed on or before November 2, 1942, the portions of such statement relating to deliveries during Base Periods 1 and 2 shall be deemed Part 1 thereof and the portions relating to deliveries during Base Periods 3 and 4 shall be deemed Part 2.

(c) Every slaughterer shall attach to a duplicate of each statement sent by him the return receipt for the original of such statement, and shall file Part 1 of all such duplicate statements with the Office of Price Administration together with the registration statement filed on or before November 15, 1942, pursuant to § 1407.914. Every slaughterer shall file Part 2 of all such duplicate statements with the Office of Price Administration either with such registration statement or with the supplemental registration statement filed on or before November 30, 1942, pursuant to such section.

* * * * *

§ 1407.918 *Certification deemed a representation.* (a) Any certification delivered to or made by a slaughterer pursuant to the provisions of § 1407.912a shall be held by the slaughterer for delivery to the Office of Price Administration upon request by it.

(b) Statements contained in or accompanying any such certification shall be deemed representations to an agency of the United States.

In the judgment of the Price Administrator it is necessary and proper to establish maximum prices for sales and purchases of standard newsprint paper. The Price Administrator has ascertained and given due consideration to the price of standard newsprint paper prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act.

AUTHORITY: §§ 1347.271 to 1347.283, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1347.271 *Maximum prices for standard newsprint paper.* On and after May 11, 1942, in the continental limits of the United States, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver standard newsprint paper, and no person shall buy or receive standard newsprint paper in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1347.283; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of standard newsprint paper to a purchaser if prior to April 1, 1942, such standard newsprint paper had been received by a carrier owned or controlled by the seller, for shipment to such purchaser, or to the extent, and only to the extent, permitted by the Revised Maximum Export Price Regulation [2] of July 2, 1942, to agreements for the sale of standard newsprint paper made by an exporter at prices in excess of the maximum prices herein established.

§ 1347.272 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1347.283) may be charged, demanded, paid, or offered.

§ 1347.273 *Federal and State taxes.* There may be added to the maximum price established by this Revised Maximum Price Regulation No. 130 the amount of tax levied by any Federal excise tax statute or any State or municipal sales, gross receipts, gross proceeds, or compensating use tax statute or ordinance, under which the tax is measured by gross proceeds or units of sale, if, but only if, (a) such statute or ordinance requires the vendor to state the tax, separately from the purchase price paid by the purchaser, consumer, or user on the bill, sales check, or evidence of sale, at the time of the transaction; or (b) such statute or ordinance requires such tax to be separately paid by the purchaser, consumer or user with tokens or other media of State or municipal tax payment; or (c) such a statute or ordinance permits the vendor to state such tax separately, and such tax is in fact stated separately by the vendor. The amount of tax permitted to be added by this provision shall in no event exceed that paid by the purchaser, consumer, or user.

§ 1347.274 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment requires extended consideration, the Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1347.275 *Evasion.* (a) The price limitations set forth in this Revised Maximum Price Regulation No. 130 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to standard newsprint paper, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited: (1) Shipment of standard newsprint paper to or receipt of standard newsprint paper at a point other than the destination point as defined in § 1347.281, paragraph (a) (12), when the effect of such shipment or receipt is to increase the price above the maximum prices herein provided.

§ 1347.276 *Records.* (a) Every person making a purchase or sale of standard newsprint paper in the course of trade or business, or otherwise dealing therein, after November 16, 1942 shall keep records for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, which records shall include, with respect to each purchase or sale of standard newsprint paper:

(1) The date of such purchase or sale;

(2) The name of the buyer or seller;

(4) The basis on which such standard newsprint paper was bought or sold, i. e., whether f. o. b., f. a. s., c. i. f., or delivered, and the f. o. b., f. a. s., c. i. f., or delivered point;

(5) The price paid or received at the particular f .o. b., f. a. s., c. i. f., or delivered point involved in the purchase or sale, including, as separate items, any costs of transportation, brokerage, or delivery, or any other costs charged as a part of the price by or to the person keeping the record;

(6) The mark-up or discount, if any, paid or received, and in the case of exports or sales for export, any additional charges or commissions paid or received including, if shipment is from an emergency port, the computation of the extra freight charged, if any.

§ 1347.277 *Reports.* Persons required to keep records shall submit such reports to the Office of Price Administration and keep such other records in addition to or in place of the records required in § 1347.276 (a) as the Office of Price Administration may from time to time require or permit.

(vi) *Ash.* The ash content of the paper shall not be in excess of 6.5%.

(vii) *Degree of sizing.* The time of transudation of water shall not be more than ten seconds by the groundglass method or five seconds by the alternate method. (Valley Size Tester or curl method.)

(viii) *Color.* The paper shall consist of such colors as are used in the publication of newspapers.

(ix) *Thickness.* The thickness of the paper shall not be in excess of 0.004 of an inch, with a five percent tolerance.

(3) "Super Standard" newsprint paper is a quality of standard newsprint paper, with an average basis weight per shipment of 34 pounds, subject to normal trade variation, which has been specially manufactured and processed in a manner to render it more suitable than ordinary standard newsprint paper for printing by the rotogravure process.

(4) "Manufacturer" means any person who manufactures standard newsprint paper, and any person who distributes or sells standard newsprint paper as a del credere agent or other representative of a manufacturer.

(5) "Merchant," "distributor" or "merchant or distributor" means any person who in the normal course of business buys standard newsprint paper in any quantity from a manufacturer or other seller and who, either with or without converting the same, resells such paper.

(6) "Conversion" as applied to standard newsprint paper means either the operation of sheeting, trimming, rewinding, coloring, repacking, or other processing operation, whether performed by the manufacturer or a person other than the manufacturer. "Converter" means any person performing a conversion operation.

(8) "Basis weight" means the weight in pounds of 500 sheets each containing 864 square inches.

(9) "Non-returnable core" means a core on which standard newsprint paper is wound in a roll and which is not subject to return to the manufacturer for credit, and the weight of which is included in the billing weight of the paper.

(10) "Returnable core" means a metal capped, iron or other heavy duty core on which standard newsprint paper is wound in a roll and for which a unit charge is made by the seller in the event the core is not returned for further use.

(11) "Point of origin" means the door of the manufacturer of the standard newsprint paper, or in the case of carload sales from a merchant's warehouse, his warehouse door.

(12) "Destination point" means the railway siding, if delivery is by rail, or dock, if delivery is by water, nearest to the purchaser's door in the city or town where the purchaser is located, or any other point, delivery to which does not involve a higher delivered cost to the purchaser at his door than would delivery of the same quantity from the same point of origin to the nearest railway siding or dock in the city or town where the purchaser is located.

(13) "Export sale" means any "export" or "export sale" as defined in § 1375.8, paragraph (a) (1) of the Revised Maximum Export Price Regulation.[5]

(14) "Sale for export" means any domestic sale of standard newsprint paper prior to an "export sale" of standard newsprint paper, where such standard newsprint paper, or the wrapper or container thereof, is clearly marked so as to indicate that the standard newsprint paper is to be exported.

(15) "Normal port of export" means the port of exit in the continental United States from which standard newsprint paper manufactured by a particular mill or sold from a particular merchant's warehouse would have customarily been shipped in export to a particular destination during the period July 1 to December 31, 1941.

(16) "Emergency port" means the port from which standard newsprint paper is actually shipped in export, when the "normal port of export" is not available.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1347.282 *Effective date.* This Revised Maximum Price Regulation No. 130 (§§ 1347.271 to 1347.283 inclusive) shall become effective on November 16, 1942.

§ 1347.283 *Appendix A: Maximum prices for standard newsprint paper*—(a) *Maximum prices per ton of white standard newsprint paper in rolls sold either in carload or less than carload quantities.* (1) The maximum prices established herein, except those established for Zone 10,[6] shall be f. o. b. point of origin, lowest carload rate of freight allowed to destination point: *Provided*, That in all sales of l. c. l. quantities by a merchant from his warehouse stocks, maximum prices may be f. o. b. warehouse without freight allowance.

(2) The maximum price for shipments to destinations in Zone 4, exclusive of conversion charges, super standard differential and merchants' markups as set forth in paragraphs (b), (c) and (d) of this section respectively, shall be $51.00, hereinafter referred to as the "base price".

(3) (i) Maximum prices for shipments to destinations in zones other than Zones 4 and 10, exclusive of conversion charges, super standard differential and merchants' markups, shall be determined by subtracting from or adding to the base price the zone differentials set forth below.

Destination—Zone Price Differentials per Ton

Zone 1	minus $1.50
Zone 2	minus 1.00
Zone 3	minus .50
Zone 4	Base price
Zone 5	plus $1.00
Zone 6	plus 2.00
Zone 7	plus 3.00
Zone 8	plus 4.00
Zone 9	plus 5.00

(ii) With respect to shipments to destinations in Zone 10, exclusive of conversion charges, super standard differential and merchants' markups:

First, when delivery is all rail from mill to destination point and actual freight does not exceed $5.00 per ton, such freight shall be allowed by the seller and the maximum price shall be determined by subtracting $1.00 from the base price.

Second, when delivery is all rail from mill to destination point and freight exceeds $5.00, the maximum price shall be determined by subtracting $6.00 from the base price and adding the actual freight.

Third, when delivery is made via a Pacific Coast seaport, the maximum price shall be determined by deducting $1.00 from the base price, allowing the actual freight to the receiving Pacific Coast seaport and adding any further rail freight to the destination point to the price.

(4) For shipments to destinations in port cities, other than in Zone 10, the port price differential of $1.00 per ton shall be deducted from the base price.

(5) *Newsprint zones by counties.* (i) The following list indicates in which of the 10 zones referred to herein, each state in the United States and each county in each state and the District of Columbia, is located. The presence of a single asterisk (*) before the name of or reference to a state or county indicates such state or county contains a port city. Port cities are listed in inferior subdivision (*a*) of this subdivision (i). The presence of a double asterisk before the name of a county or reference to a county not in Zone 4 indicates said county contains a city that takes the Zone 4 or base price. Such cities are listed in inferior subdivision (*b*) of this subdivision (i).

(6) *Cores.* (i) No charge shall be made for any non-returnable core in any sale of standard newsprint paper, beyond the inclusion of its weight in the billing weight of the paper. (ii) No charge shall be made for any returnable core which is returned by the buyer to the seller. (iii) For returnable cores not returned, the seller may charge an amount per core not in excess of the amount charged by him for similar returnable cores in the period October 1 to 15, 1941, or, if he made no such charge for returnable cores in such period, the amount charged for such cores in that period by his most closely competitive seller. Returnable cores shall be billed by the linear foot subject to full credit less any return freight not prepaid by the buyer.

(b) *Maximum conversion charges.* (1) Manufacturers or other persons performing any of the conversion operations set forth in subparagraph (2) below may add to the maximum prices established in paragraph (a) of this section the appropriate conversion differential or differentials for the conversion operation or operations performed. No charge may be made for any conversion operation not mentioned in said subparagraph (2). The amount of any conversion differential shall not exceed the maximum amount charged by the converter in the period from October 1 to October 15, 1941, inclusive. If a conversion operation was not priced in said period, the amount of the charge shall be determined by using such cost factors, wage rates, charges for machine hours, overhead, etc., as would have been used to compute such charge during said period, even though such cost factors may have increased since that date. Conversion differentials shall not include more than the cost and profit factors for the operation itself, and any extra margin included during the base period by a converter other than a manufacturer, to cover merchandizing markup, shall be excluded in determining any conversion charge. Before making any conversion charge, converters other than manufacturers must file with the Paper and Paper Products Branch of the Office of Price Administration, Washington, D. C., and their nearest Regional Office of the Office of Price Administration a written statement of their maximum conversion differentials for standard newsprint paper during the aforesaid base period, with respect to any conversion processes they are equipped to perform. If conversion charges varied in the base period with respect to varying quantities or sizes, such various charges must also be reported. The statement shall declare that it is filed pursuant to Maximum Price Regulation No. 130.

(2) The conversion operations for which maximum charges are established by paragraph (1) of this section are:

(i) Sheeting and standard packaging.

(ii) Special packaging.

(iii) Trimming.

(iv) Resheeting to sizes smaller than 20" x 30" in either dimension.

The payment of this differential by the purchaser shall constitute a guarantee to the Administrator that the purchaser will use such paper only for rotogravure printing.

(ii) Such conversion charges or super standard differential as may properly be charged in the particular case, pursuant to paragraphs (b) and (c) of this section, plus, where one or more merchants sell the paper for export, an amount not in excess of the appropriate merchant's markup provided in paragraph (d) of this section.

(iii) If paper is to be shipped from an emergency port, the difference between lowest carload rate of freight from mill to mill's normal port of export and actual emergency port of exit, or, if the paper is shipped from a merchant's warehouse, the difference between the freight from the merchant's normal port and the actual emergency port.

PART 95—CAR SERVICE

REFRIGERATOR CAR AGENT

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 9th day of November, A. D. 1942.

It appearing, that certain representations having been made to this Commission by the Office of Defense Transportation with respect to the necessity of further conservation in the use of refrigerator cars and locomotives, and that due to the existing state of war an emergency exists which, in the opinion of the Commission, requires immediate action to promote such conservation and more efficient utilization of such equipment:

It is ordered, That:

§ 95.302 *Refrigerator car agent*—(a) *Designation.* Robert B. Hoffman, Manager, Refrigerator Car Section, Car Service Division, Association of American Railroads, 59 East Van Buren Street, Chicago, Illinois, is hereby designated and appointed as agent of the Interstate Commerce Commission and vested with authority to control the movement of refrigerator cars and to carry out the Commission's directions as to refrigerator car service.

(b) *Outline of duties.* As agent he is authorized and directed to set up, subject to the approval of the Commission, and utilize the services of an Advisory

Committee consisting of at least one representative of the Office of Defense Transportation, of the Association of American Railroads, of the railroad industry, of railroad controlled refrigerator car companies, of non-railroad controlled refrigerator car companies and a representative of shipper-owned refrigerator car companies. As agent of the Commission, he is authorized and directed to supervise, coordinate, and direct the distribution of all refrigerator cars according to the needs of the various loading areas and with due regard to economy in their use and mileage. When necessary he shall direct the distribution of all refrigerator cars, without regard to ownership or assignment, so as to accomplish the following purposes:

(1) To accord preference or priority over other traffic normally transported in refrigerator cars, for the transportation of materials and supplies of war, and commodities requiring special protection from heat or cold;

(2) The elimination of unnecessary hauls and reduction in cross-hauling of refrigerator cars;

(3) Such reduction as may be necessary or advisable in the use of refrigerator cars for the transportation of canned goods, bottled goods, barreled goods, and other similar commodities in areas where seasonal or weather conditions permit the movement of such commodities without special protection from heat or cold.

As agent, he is directed to make every effort to obtain the short routing of empty refrigerator cars so that the burden of empty mileage will be minimized and, so far as possible, equalized as between railroads. As agent, he is authorized and directed to determine and advise the Commission of all measures which will reduce the time for loading and unloading of refrigerator cars or increase the efficiency in the utilization, operation, and transportation of refrigerator cars.

§ 95.303 *Exemptions.* Refrigerator cars owned or operated by or leased to, any of the military or naval authorities of the United States are exempted from the operation of this order.

And it is further ordered, That this order shall become effective November 9, 1942, and shall remain in force until further order of the Commission; that copies of this order and direction be served upon the various refrigerator car lines, the Railway Express Agency, and upon the Association of American Railroads, Car Service Division, as agent of the carriers subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy of it in the office of the Secretary of the Commission at Washington, D. WAR DEPARTMENT.

MOTOR PURCHASES APPROVAL UNDER WAR DEPARTMENT CIVIL APPROPRIATION ACT, 1943[1]

OCTOBER 23, 1942.

1. *Assignment of administrative functions.* Section 6 of the Act April 28, 1942 (Bull. No. 21, W.D., 1942) requires the approval of the Secretary of War before certain appropriated funds may be used by various Government departments and agencies for the purchase or exchange of any motor-propelled passenger-carrying vehicles. As to the War and Navy Departments, such approval is required when the purchase or exchange is made out of funds appropriated for the civil functions of those departments, but is not required where the purchase or exchange is made out of funds appropriated for their military or naval functions. The administration of section 6 of the act is vested in the Contract Clearance Branch, Purchases Division, Services of Supply, in which Branch a Motor Purchases Approval Section has been established. Communications should be addressed to Motor Purchases Approval Section, Contract Clearance Branch, Purchases Division, Services of Supply, War Department, Washington, D. C. (Telephone Republic 6700, Extension 71438).

2. *Procedure.* *a.* The application of the requisitioning government department or agency (in the case of the War Department, the service concerned) for such approval by the Secretary of War will be submitted to the Treasury Procurement Division, if the purchase or exchange is to be made by that division, accompanied by all other papers required by that division. That division, after obtaining such clearance as may be necessary from the War Production Board (see General Conservation Order M–130 requiring Form PD–501) or the Office of Price Administration (see Rationing Order 2A requiring Form R–217), will transmit the application to the Motor Purchases Approval Section.

b. If the purchase or exchange is not to be made by the Treasury Procurement Division, the requisitioning government department or agency (in the case of the War Department, the service concerned) will itself obtain such clearance as may be necessary from the War Production Board or the Office of Price Administration, and submit to the Motor Purchases Approval Section its application for approval by the Secretary of War, accompanied by a copy of the permit granted by the War Production Board or the Office of Price Administration (or the substance and serial number thereof), or a statement that no such permit is required.

c. The chief or acting chief of the Motor Purchases Approval Section will supervise the examination of all applications for approval by the Secretary of War, will file his recommendations concerning them with the Secretary of War, and will forward a certificate to the applicant in the event of approval.

d. The fact that clearance of the War Production Board or of the Office of Price Administration is not required for certain types of purchases or exchanges (for example, purchases or exchanges of used cars) will not dispense with the necessity for obtaining the approval of the Secretary of War, if otherwise required by section 6 of the act.

3. *Information to be furnished in applications.* *a.* No special form of application for the approval of the Secretary of War will be required, but each application for the approval of the purchase or exchange of a motor-propelled passenger-carrying vehicle will be filed in duplicate and will contain the following information:

(1) Type and model of car to be purchased and reasons for its acquisition.

(2) If the application is for a replacement, a statement of type, year of manufacture, mileage, and condition of car to be replaced.

(3) Statement from the administrative chief or his assistant of the requisitioning department or agency (in the case of the War Department, the service concerned), as to the necessity of acquiring the cars to be purchased or exchanged.

(4) Name, address, and telephone number (including departmental extension number) of the person associated with the applicant who has full information about the application.

(5) Substance and serial number of the permit granted by the War Production Board or Office of Price Administration, or a statement that no such permit is required.

b. The chief or acting chief of the Motor Purchases Approval Section in any case may require further information which he may deem relevant.

4. *Report required.* Each government department or agency and each service of the War Department concerned will submit to the Motor Purchases Approval Section a report showing the number of motor-propelled passenger-carrying vehiles, if any, which have been purchased since May 18, 1942, without the approval of the Secretary of War, together with the dates of such purchases.

5. *Definition of "service."* The term "service," as used in this circular, includes all supply services, Services of Supply; the Commanding General, Army Ground Forces; the Matériel Command, Army Air Forces; the commanding generals of all service commands; the commanding generals of all defense commands; the Director, Special Service Division and the Chief of Administrative Services, Services of Supply; the Command and General Staff School; the Army War College; the United States Military Academy; and the Chief of Military Intelligence Service. which no peanuts were grown in any of the years 1939, 1940, or 1941) operated by persons who were producers of such crop on the land so acquired. Insofar as possible the allotments for farms operated by such persons shall be comparable to the allotments for other farms in the locality taking into consideration the allotment for the farm on which the operator was located in 1941.

In the case of cotton and wheat, the allotment established, or which would have been established, for any land acquired in 1940 or thereafter by any Federal agency for national defense purposes shall be placed in a State pool and shall be used only for making equitable allotments for farms owned or acquired by owners dispossessed by a Federal agency because of acquisition of the farm for national defense purposes. The allotment made for any such farm, including farms on which such crop was not planted during any of the three years 1939 to 1941, shall compare with the allotments for such crops established for other farms in the same area which are similar except for the past acreage of such crop, taking into consideration the character and adaptability of the soil and other physical facilities affecting the production of the crop.

In the case of tobacco, the allotment established, or which would have been established, for any land acquired in 1940 or thereafter by any Federal agency for national defense purposes shall be placed in a state pool and shall be used only for making equitable allotments for farms owned or acquired by owners dispossessed by a Federal agency because of acquisition of the farm for national defense purposes. Upon application to the local committee, any person so dispossessed shall be entitled to have an allotment for any one of the farms owned or acquired by him equal to an allotment which would have been made to such farm plus the allotment which would have been made to the farm acquired by the Federal agency: *Provided*, That such allotment shall not exceed 50 percent of the acreage of cropland on the farm in the case of flue-cured tobacco, and 20 percent of the acreage of cropland on the farm in the case of other kinds of tobacco: *Provided further*, That this paragraph shall not apply so long as there is any marketing quota penalty due and unpaid, or a failure to account for the disposition of tobacco produced on the farm acquired by a Federal agency, or if the allotment established for such farm in 1942 would have been reduced because of the false or improper identification of tobacco produced on or marketed from such farm.

Notwithstanding any other provision of this bulletin, the permitted acreage established for any crop on a farm operated in 1942 by a person who was a producer of such crop on a farm acquired by a state or Federal agency or for use in connection with the national defense program, shall be considered as an allotment and payment shall be computed thereon at the same rates and under the same conditions as provided for other farms for which allotments are determined.

(6) *Errors in measurement.* Where a farmer relied solely upon the measured acreage furnished to him in writing by the county committee in planning his 1942 farming operations or in adjusting his 1942 crop acreages, such measured acreage may be used in determining compliance with the provisions of the 1942 program even though it subsequently proves to be incorrect.

Section 701.303 (a) (1) is amended by adding at the end thereof the following new paragraph:

§ 701.303 *Division of payments and deductions*—(a) *Payments and deductions in connection with crop acreage allotments and restoration land.* (1) * * * In cases where landlords, tenants, or sharecroppers have lost their interests in any crop for which special crop allotments are determined after planting but prior to harvest thereof, by reason of the acquisition of title to or lease of the farm for use in connection with the national war effort, the net payment (excluding any compensation for the loss of payment) or the net deduction computed with respect to such crops shall be divided among such persons in the same proportion that the county committee determines that such persons would have been entitled, as of the time of harvest, to share in the proceeds of such crops except for such acquisition of title or lease.

Done at Washington, D. C., this 12th day of November 1942. Witness my hand and the seal of the Department of Agriculture.

§ 741.303 *Division of payment and deductions.* * * * In cases where landlords, tenants, or sharecroppers have lost their interest in any crop for which parity payments are authorized after planting but prior to harvest thereof, by reason of the acquisition of title to or lease of the farm for use in connection with the national war effort, the net payment (excluding any compensation for the loss of payment) or the net deduction computed with respect to such crops shall be divided among such persons in the same proportion that the county committee determines that such persons would have been entitled, as of the time of harvest, to share in the proceeds of such crops except for such acquisition of title or lease.

MEMORANDUM for the Commanding General, Services of Supply.

Subject: Delegation of Authority.

1. In confirmation of and supplementing the memorandum of the undersigned to the Commanding General, Services of Supply dated June 29, 1942 on the above subject, authority is hereby delegated to the Commanding General, Services of Supply, to act for the Secretary of War or the Under Secretary of War in clearing, approving, and taking other action in respect to contracts, change orders, supplemental agreements, advance payments, awards, letters of intent, letter contracts, letter purchase orders, leases, amendments of contracts, and other contractual instruments; to make, authorize and approve sales or contracts for the sale of equipment, supplies and material; to prescribe and modify regulations in respect of procurement; and to approve new War Department contract forms and deviations from approved forms of contracts, including all authority heretofore delegated to the undersigned by the Secretary of War pursuant to Public Law 354, 77th Congress and Executive Order 9001.

2. Without any limitation of the powers and authority hereinbefore granted, there is hereby vested in the Commanding General, Services of Supply, pursuant to and subject to the provisions of Title II of the First War Powers Act (Public Law 354, 77th Congress) and Executive Order 9001 the authority to take the following action:

a. He may enter into, amend or modify contracts, may make purchases, may place orders, and may make advance progress and other payments on such contracts, purchases and orders without regard to the provisions of law relating to the making, performance, amendment or modification of contracts.

b. The contracts hereby authorized to be made include agreements of all kinds (whether in the form of letters of intent, purchase orders, or otherwise) for all types and kinds of things, and services necessary, appropriate or convenient for the prosecution of war, or for the invention, development, or production of, or research concerning any such things, including but not limited to, aircraft, buildings, vessels, arms, armament, equipment, or supplies of any kind, or any portion thereof, including plans, spare parts and equipment, or supplies of any kind, or any portion thereof, including plans, spare parts and equipment therefor, materials, supplies, facilities, utilities, machinery, machine tools, and any other equipment, without any restriction of any kind, either as to type, character, location or form.

c. Whenever, in the judgment of the Commanding General, Services of Supply (or of an officer or civilian employee of the War Department to whom authority has been delegated to exercise such powers), the prosecution of the war is thereby facilitated, he may amend or modify contracts heretofore or hereafter made for the purpose of (1) obtaining continued operations by contractors engaged in war production, (2) encouraging greater diligence on the part of contractors, (3) protecting contractors from the consequences of unforeseen or unexpected events, (4) adjusting contracts to new conditions and circumstances, including those created by the rules, orders, instructions and determinations of Government departments, or (5) for any other purposes for facilitating the prosecution of the war.

Such amendments and modifications of contracts may be without consideration, other than the determination that the prosecution of the war will thereby be facilitated, and may be utilized to accomplish the same things as any original contract could accomplish, irrespective of the time or circumstances of the making of or the form of the contract amended or modified, or of the amending or modifying contract, and irrespective of rights which may have accrued under the contract or the amendments or modifications thereof. Browning, A. U. S., by memoranda of the undersigned dated June 1, 1942, and September 15, 1942, nor shall anything herein contained be construed to limit or affect the power and authority of any commander in any theatre of operation.

4. The Commanding General, Services of Supply, or any person acting by delegation from him in the exercise of the powers hereby granted, shall have power to ratify and approve any contractual documents entered into or action taken by others, which he himself might have entered into or taken by virtue of the powers hereby granted.

5. The powers, authority and discretion hereby conferred upon the Commanding General, Services of Supply, or any portion or portions thereof, may be redelegated by him to whomsoever he may designate, including without limitation the Director, Purchases Division, Services of Supply, with the power of redelegating such powers, in whole or in part, to any officer or officers or civilian official or officials of the War Department. One continuous series of lettering or numbering as the case may be, will be used for each contract, even though it is modified or amended, both by supplemental agreements and change orders. § 81.321 *Advance payments.* * * *

Paragraph (f) is redesignated as follows:

(e) *Reports.* * * *

§ 81.321a *Telegraph charges in cost-plus-a-fixed fee contract*—(a) *General.* Under date of May 5, 1941, (Docket 6257) the Federal Communications Commission affirmed the position of the War Department that cost-plus-a-fixed-fee contractors are entitled to send official telegrams at Government rates. This order has been clarified by the Commission so as to require the telegraph companies to render separate bills covering service since May 1, 1942, for each contract and at Government rates. Government rates on the telegrams are fixed annually by order of the Federal Communications Commission. The Commission Order No. 98, dated May 26, 1942, covers the fiscal year July 1, 1942 to June 30, 1943.

(b) *Cost-plus-a-fixed-fee subcontracts executed under cost-plus-a-fixed-fee prime contracts.* The principle of the ruling of the Federal Communications Commission referred to in paragraph (a) of this section is regarded as extending to cost-plus-a-fixed-fee subcontracts executed under cost-plus-a-fixed-fee prime contracts.

(c) *Procedure.* The following procedure for the handling of such messages at Government rates is prescribed for the guidance of procurement agencies administering cost-plus-a-fixed-fee contracts and cost-plus-a-fixed-fee subcontracts executed under cost-plus-a-fixed-fee prime contracts:

All telegrams sent by contractors and subcontractors or their representatives which are necessary in connection with such cost-plus-a-fixed-fee contracts or subcontracts will bear a certificate signed by an authorized officer, employee or agent of the United States as follows:

> I certify that this message is on official business, is necessary in the public service, and will be paid by check on the Treasury of the United States from United States Funds.

Monthly invoices for telegrams must be certified and verified by the contractor or subcontractor, as the case may be. The contracting officer or his representative will certify and verify the particular contract. If in proper order and rendered in accordance with provisions of paragraphs (a) and (b) of this section, such telegrams will be paid by check on the Treasurer of the United States directly by a disbursing officer of the War Department. Such bills should not be sent to the Signal Corps for audit or payment. Invoices covering Government messages not submitted by the contractor or subcontractor by Government rates or not otherwise in proper form will be returned to the contractor or subcontractor for correction.

The Comptroller General has ruled that where direct payment is made by the Government to the telegraph companies for telegrams sent in connection with cost-plus-a-fixed-fee contracts, certified copies of such telegrams may be submitted in support of the invoices in lieu of submitting the original messages, as required by AR 35–6100, and the vendor's certificate provided for by AR 35–1040 will not be required, provided that the invoices are certified and verified both by the contractor and the contracting officer or his representative as being proper charges against the contract work.

In the absence of the originals of outgoing messages in connection with such contracts, all services are directed to exercise due caution to avoid duplication of payments for such messages.

§ 81.321b *Cable and radio messages in cost-plus-a-fixed-fee contracts.* Cable and radio messages sent by cost-plus-a-fixed-fee contractors, or their representatives, pertaining to cost-plus-a-fixed-fee contracts will also be paid for directly by the Government, and the procedure outlined in § 81.321a (c) will be followed in handling and in paying for such messages when transmitted by telegraph companies.

§ 81.332 *Government-owned facilities clause.* In those cases where the contractor is to procure necessary facilities for the account of the Government for use in connection with the work under the contract, and in those cases where the Government furnishes the contractor new facilities which the Government has acquired or will acquire directly, the contract will contain a clause substantially as follows:

* * * * *

(b) As each item of the facilities listed in Schedule A is delivered to, or manufactured by, the contractor, for the Government's account, it shall become and remain the property of the Government, and title thereto shall vest in the Government. (All of the facilities listed in Schedule B are the property of the Government, and title to them is, and shall remain, in the Government.)[1] The Government hereby grants to the contractor the right to use, without the payment of rental therefor, such facilities in connection with the work herein contracted for and, subject to the written approval of the Contracting Officer, for any additional work for which the Government may contract.

* * * * *

§ 81.359 *Telegrams, cablegrams, radiograms.* Every cost-plus-a-fixed-fee contract will contain a clause substantially as follows:

(a) The Government will pay directly for all telegraphic communications, cablegrams, radiograms, and similar messages that may be sent by the contractor pertaining directly to the contract for work to be done or materials to be furnished thereunder, and the Contractor is hereby designated as an agent of the Government for the purpose of causing to be transmitted any such messages, but not for the purpose of signing the certificate referred to in paragraph (b) below.

(b) All such messages hereafter sent by the contractor or his representatives in connection with this contract will bear a certificate signed by an authorized officer, employee or agent of the United States, as follows:

> I certify that this message is on official business, is necessary in the public service, and will be paid by check on the Treasurer of the United States from United States funds.

(c) Telephone messages (including teletype and facsimile, when authorized by the Contracting Officer to be installed) sent by the contractor or its representatives, in connection with this contract, shall be paid by the contractor tax free. Such payments by the contractor shall be accompanied by a tax exemption certificate.

§ 81.360 *Minimum wages.* Each contract subject to the Davis-Bacon Act will contain a clause substantially as follows:

> The minimum wages to be paid laborers and mechanics on this project, as determined by the Secretary of Labor to be prevailing for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the pertinent locality, are as follows:

Classification of laborers and mechanics	Minimum rates of wages per hour

Any class of laborers and mechanics not listed in the preceding paragraph, which will be employed on this contract, shall be classified or reclassified conformably to the foregoing schedule. In the event the interested parties cannot agree on the proper classification or reclassification of a particular class of laborers and mechanics to be used, the question, accompanied by the recommendation of the contracting officer, shall be referred to the Secretary of Labor for final determination.

PROCUREMENT AND PURCHASE OF SUPPLIES

§ 81.601 *Rescission of regulations.* Army Regulations 5–300, December 10, 1936, as amended; Army Regulations 5–320, October 10, 1936, as amended; and all other prior directives and instructions relating to interbranch and interdepartmental procurement inconsistent herewith are hereby rescinded.

§ 81.602 *Definitions*—(a) *Procurement responsibility.* The term "procurement responsibility" as used in this Procurement Regulation No. 6 means the responsibility assigned to a designated service or services to make all necessary arrangements short of actual purchase for the procurement of a given item or class of items. This responsibility includes procurement planning, preparation of estimates, defense of such estimates and custody of funds.

(b) *Purchase responsibility.* The term "purchase responsibility," as used in this Procurement Regulation No. 6, means the responsibility assigned to a designated service to buy, inspect and accept from industry or produce in Government-owned establishments under such service, a given item, component part thereof, or class of items.

PROCUREMENT RESPONSIBILITY AND PURCHASE RESPONSIBILITY

§ 81.603 *Action of Procurement Assignment Board.* When reference is hereinafter in this section made to the assignment of procurement responsibility and purchase responsibility by the Procurement Assignment Board, Headquarters, Services of Supply, it will be understood that such action is to be taken only upon the approval of the Director of Procurement. When such action is to be taken in regard to an item in which the Army Air Forces have a substantial interest it will be further understood that the Army Air Forces will be given an opportunity to be heard on the matter, and that if the Army Air Forces disagree with any action proposed to be taken by the Procurement Assignment Board, an effort will be made by the Director of Procurement to reconcile the disagreement by a conference with a representative designated by the Commanding General, Matériel Command, Army Air Forces; and that, in the event that a satisfactory agreement cannot be reached in this manner, the Director of Procurement and the representative of the Army Air Forces will jointly prepare a brief setting forth their respective views on the matter, which brief shall be submitted to the Under Secretary of War, who shall make the final decision.

§ 81.604 *Assignment of procurement and purchase responsibility.* The Procurement and Assignment Board shall have authority, with the approval of the Director of Procurement, to assign procurement responsibility and purchase responsibility in regard to all items or classes of items. Such responsibilities may be assigned to the same service or to different services. Appendix I to these procurement regulations contains a list of items and classes of items, for which procurement and purchase responsibility have been assigned by the Procurement Assignment Board. Additions to and changes in this list will be made from time to time. Procurement responsibility and purchase responsibility for a given item or class of items will remain with the service or services exercising such responsibilities unless and until otherwise assigned by the board.

(a) In any given transaction, purchase of any item may be effected by a service other than the service having purchase responsibility provided that (1) the service having purchase responsibility has first been consulted and has expressed its agreement and (2) a report of the transaction is made to the Procurement Assignment Board, Headquarters, Services of Supply, promptly after the completion of the transaction.

(b) The purpose of assigning purchase responsibility as a separate and distinct function is (1) to permit centralization of purchase or purchase control and thereby to eliminate competition among the several supply services purchasing from industry, (2) to secure for the War Department the advantages incident to mass buying, and (3) to facilitate the control of purchasing procedure in cases where War Production Board Limitation Orders affect the supply of raw material and manufactured articles. Responsibility for inspection and acceptance in regard to a particular item or class of items may be assumed by the service having procurement responsibility, provided such procedure is agreed upon by the service having purchase responsibility in regard to such item or class of items.

§ 81.605 *Procedure.* (a) All services requiring an item or class of items, for which procurement responsibility has been assigned to another service, will furnish to the service charged with procurement responsibility statements of their requirements at such times as such statements may be called for by the service having procurement responsibility. This will enable the service having procurement responsibility to make provision for adequate funds on an annual and supplemental basis.

---

[1] Use these provisions only where the Government is furnishing facilities which it has acquired, or will acquire, directly.

In addition, in the event that a service has an unusual or emergency requirement for such an item or class of items, it will furnish a statement of such requirement to the service having procurement responsibility.

(b) The service having procurement responsibility will forward to the service having purchase responsibility at such times as may be specified by the service having purchase responsibility requisitions for normal periodic requirements (in which will be consolidated, with the requirements of the service itself, the requirements of any other services which have furnished statements pursuant to paragraph (a) of this section.

(c) The service having procurement responsibility will forward, in the most expeditious manner practicable, requisitions for unusual or emergency requirements to the service having purchase responsibility, and will confirm such requisitions by a formal requistion.

(d) Each requisition will contain a certificate of availability of funds and citation of the applicable procurement authority.

(e) When practicable, requisitions will call for not less than minimum carload lots.

(f) Commercial units will be the basis of all requisitions.

(g) Requisitions will be filed as a result of individual or collective purchases. No attempt will be made by the service having only purchase responsibility for a particular item or class of items to maintain depot stocks of such item or class of items from which requisitions could be filled. Any such depot stocks will be maintained by the service having storage and issue responsibility.

§ 81.805 *Cost-plus-a-fixed-fee contracts.* (a) * * *

(b) Telephone messages sent by cost-plus-a-fixed-fee contractors or their representatives, in connection with such contracts may be paid by the contractor tax free. Such payments by the contractor should be accompanied by a tax exemption certificate. The contract provision relating to this subject is set forth in § 81.359.

§ 81.811 *Standard tax exemption forms.* * * *

Paragraphs (d) and (e) are redesignated (c) and (d) respectively, paragraph (c) having been rescinded.[1]

§ 81.812 *Preparation and execution; identification cards*—(a) *Preparation and execution.* (1) In the preparation of tax exemption certificates the typewriter will be used when practicable; otherwise ink or indelible pencil will be used. The use of ordinary lead pencil is prohibited. All blank spaces must be properly filled in or lined out, and no such exemption certificate will be delivered to a contractor unless fully and properly executed, except that the Bureau of Internal Revenue has advised that it is not necessary to state the amount of Federal tax upon the exemption certificate (Ltr. to the Chief Signal Officer from D. S. Bliss, Deputy Commissioner of Internal Revenue, June 19, 1942). The amount of tax should be stated, however, if readily available. If at the time of entering into a contract for articles or supplies to be sold for the exclusive use of the Government or for exportation under the Lend-Lease Act, Federal tax excluded, it is impossible to determine the amount of such taxes, for example as in the case of an indefinite quantity contract, it is permissible to issue a blanket tax exemption certificate to cover all sales under the contract. The certificate should cover all articles purchased under such contract, including delivery orders placed thereunder by other officers. As to blanket tax exemption certificates covering purchases under contracts of the General Schedule of Supplies, see paragraph (c) of this section.

§ 81.905 *Applicability of eight-hour law.* The basic law applies to contracts for work which may require or involve the employment of laborers or mechanics. It does not apply to the following classes of contracts:

* * * * *

(f) *Qualification of exceptions.* In exceptions contained in paragraphs (a) to (e) (but not the exception for Walsh-Healey contract) are subject to the qualifications contained in the Act that the basic law shall apply to "all classes of work which have been, are now, or may hereafter be performed by the Government * * *". The meaning of this qualification is not clear since, taken literally, it would nullify the exceptions. (See 29 Op. A. G. 505 (1912).) Accordingly, it is suggested that unless the work is of a nature which has habitually been performed by the Government, said exceptions should be disregarded.

§ 81.911 *Applicability of Davis-Bacon Law.* * * *

(4) Wage rates payable to employees of railroads operating under collective bargaining agreements which are subject to the provisions of the Railway Labor Act. (Letter of Secretary of Labor to Secretary of War, dated March 14, 1942)

The regulations formerly in § 81.914 are now contained in § 81.360. Accordingly § 81.914 has been deleted and § 81.915 has been redesignated § 81.914 as follows:

§ 81.914 *Underpayment of wages.* * * *

OVERTIME WAGE COMPENSATION

§ 81.962 *Executive Order.* Executive Order No. 9240, dated September 9, 1942 (7 F.R. 7159) with Article V as amended by Executive Order No. 9248, dated September 17, 1942 (7 F.R. 7419), reads as follows:

REGULATIONS RELATING TO OVERTIME WAGE COMPENSATION

WHEREAS many labor organizations have already adopted the patriotic policy of waiving double time wage compensation or other premium pay for work on Saturday, Sunday and holidays, as such, for the duration of the war; and

WHEREAS it is desirable and necessary in the prosecution of the war, and to insure uniformity and fair treatment for those labor organizations, employers, and employees who are conforming to such wage policies that this principle be universally adopted:

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and the statutes, as President of the United States and as Commander in Chief of the Army and Navy, *It is hereby ordered:*

I. That the following principles and regulations shall apply for the duration of the war to the payment of premium and overtime wage compensation on all work relating to the prosecution of the war:

A. No premium wage or extra compensation shall be paid to any employee in the United States, its territories or possessions, for work on Saturday or Sunday except where such work is performed by the employee on the sixth or seventh day worked in his regularly scheduled workweek and as hereinafter provided.

(1) Where because of emergency conditions an employee is required to work for seven consecutive days in any regularly scheduled workweek a premium wage of double time compensation shall be paid for work on the seventh day.

(2) Where required by the provisions of law or employment contracts, not more than time and one-half wage compensation shall be paid for work in excess to eight hours in any day or forty hours in any workweek or for work performed on the sixth day worked in any regularly scheduled workweek.

B. No premium wage or extra compensation shall be paid for work on customary holidays except that time and one-half wage compensation shall be paid for work performed on any of the following holidays only:

New Year's Day
Fourth of July
Labor Day
Thanksgiving Day
Christmas Day

and either Memorial Day or one other such holiday of greater local importance.

II. All Federal departments and agencies shall conform the provisions in all existing and future contracts negotiated, executed, or supervised by them to the policies of this order. All such departments and agencies shall immediately open negotiations to alter provisions in existing contracts to conform them to the requirements of this order.

III. Nothing in this order shall be construed as requiring a modification of the principle that every employee should have at least one day of rest in every seven days. The continuous operation of plants and machines in prosecuting the war does not require that employees should work seven consecutive days.

IV. Nothing herein shall be construed as superseding or in conflict with the provisions of the statutes prescribing the compensation hours of work and other conditions of employment of employees of the United States.

V. All Federal departments and agencies affected by this order shall refer to the Secretary of Labor for determination questions of interpretation and application arising hereunder. In any industry or occupation in which the Secretary finds that a wage stabilization agreement approved by a Government department or agency is operating satisfactorily, or in any industry or occupation in which the Secretary finds that a wage stabilization agreement approved by a Government department or agency is operating satisfactorily, or in any industry or occupation in which the Secretary finds that the nature and exigencies of operations make such action necessary or advisable for the successful prosecution of the war, the Secretary may determine that any or all of the provisions of this order shall not apply to such industry or occupation or to any classes of employees therein.

VI. The provisions of this order shall become effective October 1, 1942.

§ 81.963 *Elimination of inconsistencies through amendment of contracts; nonreimbursement, etc.* By memorandum dated September 17, 1942, (see S.O.S. Circ. 65) the Under Secretary of War acting jointly with the Under Secretary of the Navy and the Chairman of the Maritime Commission, issued instructions reading in part as follows:

> 2. Wherever any contract of the War Department, the Navy Department, or the Maritime Commission contains a provision which required the payment of overtime or premium wages in a manner inconsistent with the provisions of Executive Order No. 9240, contracts will be amended to eliminate such inconsistency for the period beginning October 1, 1942, and no future contract will contain any such inconsistent provision. It is not required that any amendment be made of the usual contract articles included with respect to the provisions of the Walsh-Healey Act, the Eight Hour Law, and the Fair Labor Standards Act of 1938, all as amended.
>
> 3. On and after October 1, 1942, no reimbursement of cost will be made under any cost-plus-a-fixed-fee contract nor will any recognition be given for inclusion in the case of Navy so called "price-minus" contracts, of any cost which represents the payment of premium or overtime compensation at rates or under circumstances which are not permitted by the foregoing order.

§ 81.964 *Current interpretations.* The Secretary of Labor has issued interpretations of Executive Order Number 9240 as amended. Certain of these are contained in an official release dated September 25, 1942 and a letter of the same date to the Under Secretary of War. Extracts from these are contained in paragraphs (a) and (b) of this section.

(a) *Basic purposes of the order as stated by the Secretary of Labor.* "* * * The order seeks to accomplish two basic purposes. It is designed, first, to facilitate "round-the-clock" war production by removing the absenteeism which frequently results from premium pay for work on Saturday and Sunday as such, and second, it seeks wider application, in the interest of efficiency and health, of the salutary principle that every worker shall have one day of rest in seven * * *" (2nd paragraph, release of September 25, 1942)

(b) *The work to which Executive Order No. 9240, as amended, is applicable.* The order applies to "all work performed by prime contractors on Government war contracts, by their subcontractors and those who make the materials and supplies necessary for the performance of such contracts and subcontracts. If the employer is engaged both in war work and in work unrelated to the prosecution of the war, the order would apply in the absence of segregation. The order should be construed liberally." (Section 7, release of September 25, 1942)

(c) *Classes of employees to which the order is applicable.* "The question as to which classes of employees in a covered industry or plant are within the terms of the order should be resolved by determining how the purposes of the order can best be achieved. The order would not apply, for example, to executive or supervisory employees whose compensation is not customarily or by requirements of applicable statutes or agreements based upon the number of hours worked in any day or the number of days worked in any workweek. On the other hand, the order would apply to production, maintenance, and office employees whose compensation is usually related to the number of hours and days worked." (Section 8, release of September 25, 1942)

(d) *Premium pay for any calendar day as such prohibited.* "* * * Premium wages and extra compensation for work on Saturday and Sunday [as such] * * * are prohibited * * * [and] any attempt to vest any other day of the week, as such, with an unusual status calling for extra pay would be an evasion of the purposes of the order * * *" (Section 1, release of September 25, 1942)

(e) *When double time for seventh consecutive day worked not mandatory.* "* * * when work is actually performed on any seven consecutive days, double time must be paid for the work on the seventh day, unless by agreement the employer and employees have arranged a mutually satisfactory work schedule which affords a day of rest in each regular work week. A regular work week would be seven successive days starting on the same calendar day each week * * *" (Section 2, release of September 25, 1942)

(f) *Computation of number of days worked.* "The order does not require that any particular number of hours be worked in any day for that day to be regarded as a day worked under paragraphs I (A) (1) and I (A) (2)." (Section 4, release of September 25, 1942)

(g) *Same: Inability to work.* Whether or not seven or six days have been worked in any work week within the meaning of paragraphs I (A) (1) and I (A) (2), respectively of the order, where, through no fault of the employee, he does not work on one of the previous work days in the work week, although he is ready and willing to do so, "* * * [will] upon the circumstances of each case, and [the question] is generally to be solved in accordance with the custom, practice or agreement in the industry or plant * * *" (Section 3, release of September 25, 1942). Thus, "where the employee reports for work pursuant to instructions and is sent home, such days will be considered days actually worked where so regarded by custom, practice or agreement in the industry or plant." (Footnote No. 2, release of September 25, 1942)

(h) *Same: absenteeism.* "* * * since one of the purposes of the order is to discourage absenteeism, where the employee absents himself for reasons of personal convenience the day is not included in the computation." (Section 3, release of September 25, 1942)

(i) *Same: enumerated holidays included in the computation.* "* * * Since it is the purpose of the order to give recognition to the enumerated days as holidays, they should be counted as days worked for the purpose of computation of the seventh and sixth days of work under paragraphs I (A) (1) and I (A) (2) whether or not work is actually performed and whether or not compensation is paid for the holidays if no work is performed." (Section 5, release of September 25, 1942)

(j) *Premium pay on holidays: when forbidden.* (1) "* * * Double time on holidays is forbidden unless such holidays fall on the seventh worked under paragraph I (A) (1) [of the order] * * *". (Section 5, release of September 25, 1942)

(2) Time and one-half on undesignated holidays is forbidden unless such holidays fall on the sixth day worked in any regularly scheduled work week under paragraph I (A) (2) of the order, and unless such premium pay is "* * * required by the provisions of law or employment contracts * * *". (Paragraph I (A) (2), Executive Order 9240)

(k) *Same: when mandatory.* "* * * time and a half is required for work on the six holidays named [in the order] * * *". (Section 5, release of September 25, 1942)

(l) *Same: not pyramided.* See paragraph (o) herein.

(m) *Other kinds of premium payments not prohibited.* It is not the intention of the order "* * * to prevent the payment of special compensation under other justifiable circumstances which do not depend upon the number of hours or days worked in a week. [For example], if the parties agree, or if the custom has been to provide for premiums for working on late shifts, the order does not prevent the continuance of such arrangements." (Paragraph (f), letter of September 25, 1942)

(n) *Employment contract for time and one half for work for the sixth day worked may be implied.* An employer may, consistent with paragraph I (A) (2) of the order, continue to pay the employees time and one half for the sixth day worked even though no express employment contract or applicable law so requires, since past custom has the force of an implied term in the employment contract. (See paragraph (g), letter of September 25, 1942)

(o) *Premium rates not pyramided.* "Where particular work is subject to different premium rates under separate paragraphs of the order or applicable statutes, (e. g. work on a holiday which is also the seventh successive day of work), the order does not require that the several premium rates by pyramided, but does require that the highest single rate be paid.

§ 81.965 *Exceptions*—(a) *Shipbuilding stabilization agreement.* Work in the shipbuilding and ship repair industry has been excepted from the provisions of the order for a period of 60 days from October 1, 1942, as more fully set out in an order of the Secretary of Labor, dated September 30, 1942.

(b) *Building trades stabilization agreement.* Work on construction projects subject to the wage stabilization agreement for the building and construction trades industry engaged in war construction (July 1941) is exempted from the provisions of Executive Order No. 9240. The agreement is entitled "Memorandum of Agreement between the Representatives of Government Agencies Engaged in Defense Construction and the Building and Construction Trades Department of the American Federation of Labor." (See order, Secretary of Labor, September 30, 1942)

(c) *Miscellaneous.* The order does not extend to enterprises which are not engaged in the manufacture either of any product used by the Government in the prosecution of the war, or of any product used by a Government contractor or subcontractor in the manufacture of war products. Enterprises which provide public transportation or communication facilities, storage, distribution, or warehousing facilities, etc., are not covered by the order. Accordingly, employees of railroads, air lines or other common or contract carriers, seagoing personnel, longshoremen, dock workers, and similar waterfront workers, are not within the order. Employees of telephone and telegraphic companies engaged in the normal communication operations of such companies are also excluded as are employees of power and light and other public utility companies who do not manufacture any war products but merely furnish power or other facilities for their manufacture. As to the distribution field, employees of wholesalers who do not process any war products, and employees of warehouses not engaged in any processing activity and the brokers who merely buy and sell the materials were not intended to be covered by the terms of the order. (Statement of Secretary of Labor, October 3, 1942)

§ 81.966 *Future interpretations.* (a) Paragraph V of Executive Order No. 9240, as amended, requires that all questions of its interpretations and application will be referred to the Secretary of Labor. Such questions requiring action by the Secretary of Labor insofar as they are posed by representatives of the War Department, will be directed to the Director of the Civilian Personnel Division, Services of Supply, who will take any necessary steps to obtain such interpretations in appropriate cases. The Director of Civilian Personnel will clear with the Director, Purchases Division, all such questions relating to contracting or procurement procedure. Interpretations of Executive Order 9240, made by the Secretary of Labor from time to time will be promptly forwarded to the chiefs of supply services, and to the Commanding General, Matériel Command, Army Air Forces, and will be summarized for inclusion in these regulations or in Services of Supply circulars. Auditors, Finance Officers, and other persons reviewing War Department vouchers and payments will present to the Director of Civilian Personnel, through the Director, Fiscal Division, all requests for instructions as to the application of the Executive Order to fiscal matters.

(b) *Requests for interpretations will be prepared in the following form and submitted in triplicate:*

(1) A brief statement of the question for which interpretation is requested.

(2) A statement as to the person, official, department, or organization requesting the interpretation.

(3) Any facts or comments which are necessary for interpretation. These comments should not exceed one or two paragraphs.

WAGE AND SALARY STABILIZATION

§ 81.967 *Executive Order No. 9250,* dated October 3, 1942, establishes a national wage and salary stabilization policy pursuant to the Act of October 2, 1942 entitled "An Act to Amend Emergency Price Control Act of 1942, to Aid in Preventing Inflation, and for Other Purposes". Titles II, III, and VI of the order deal with wage and salary stabilization, and, in general, provide that the administration and enforcement of the stabilization policy will be under the direction of the National War Labor Board and of the Economic Stabilization Director.

(a) Title II of Executive Order No. 9250 provides in part:

> 1. No increases in wage rates, granted as a result of voluntary agreement, collective bargaining, conciliation, arbitration, or otherwise, and no decreases in wage rates, shall be authorized unless notice of such increases or decreases shall have been filed with the National War Labor Board and unless the National War Labor Board has approved such increases or decreases.
>
> 2. The National War Labor Board shall not approve any increase in the wage rates prevailing on Sept. 15, 1942, unless such increase is necessary to correct maladjustments or inequalities, to eliminate substandards of living, to correct gross inequities, or to aid in the effective prosecution of the war.
>
> *Provided, however,* That where the National War Labor Board or the Price Administrator shall have reason to believe that a proposed wage increase will require a change in the price ceiling of the commodity or service involved, such proposed increase, if approved by the National War Labor Board, shall become effective only if also approved by the Director.
>
> 3. The National War Labor Board shall not approve a decrease in the wages for any particular work below the highest wages paid therefor between Jan. 1, 1942, and Sept. 15, 1942, unless to correct gross inequities and to aid in the effective prosecution of the war.
>
> 4. The National War Labor Board shall, by general regulation, make such exemptions from the provisions of this title in the case of small total wage increases or decreases as it deems necessary for the effective administration of this order.
>
> 5. No increases in salaries now in excess of $5,000 per year (except in instances in which an individual has been assigned to more difficult or responsible work), shall be granted until otherwise determined by the Director.
>
> 6. No decreases shall be made in the salary for any particular work below the highest salary paid therefor between Jan. 1, 1942 and Sept. 15, 1942, unless to correct gross inequities and to aid in the effective prosecution of the war.

* * * * *

(b) Title III, paragraphs 3 and 4, provide:

> 3. No provisions with respect to wage contained in any labor agreement between employers and employes (including the shipbuilding stabilization agreements as amended on May 16, 1942, and the wage stabilization agreement of the building construction industry arrived at May 22, 1942) which is inconsistent with the policy herein enunciated or hereafter formulated by the Director shall be enforced except with the approval of the National War Labor Board within the provisions of this order. The National War Labor Board shall permit the shipbuilding stabilization committee and the wage adjustment board for the building construction industry, both of which are provided for in the foregoing agreements, to continue to perform their functions therein set forth, except in so far as any of them is inconsistent with the terms of this order.
>
> 4. In order to effectuate the purposes and provisions of this order and the act of October 2, 1942, any wage or salary payments made in contravention thereof shall be disregarded by the executive departments and other governmental agencies in determining the costs or expenses of any employer for the purpose of any law or regulation, including the Emergency Price Control Act of 1942 or any maximum price regulation thereof, or for the purpose of calculating deductions under the revenue laws of the United States or for the purpose of determining costs or expenses under any contract made by or on behalf of the government of the United States.

(c) Title IV, paragraph 1 provides:

> 1. The prices of agricultural commodities and of commodities manufactured or processed in whole or in substantial part from any agricultural commodity shall be stabilized, so far as practicable, on the basis of levels which existed on Sept. 15, 1942, and in compliance with the act of Oct. 2, 1942.

(d) Pending the establishment by the War Labor Board and the Economic Stabilization Director of procedures and regulations for the administration and interpretation of the Executive Order, officials and civilian employees of the War Department will not approve any modification of the wages and salaries paid by any War Department contractor.

§ 81.1101 *Discounts in purchasing.* (a) All purchases made directly by the War Department regardless of the method used (after advertising or by negotiation), when made on a firm price basis, will be made without regard to seller's offer of prompt payment or cash discount provisions.

(b) For all purchases hereafter initiated, all prompt payment or cash discount provisions in invitations for bids, requests for quotations or estimates, or other purchase instruments will be deleted. All requests for bids, formal or informal, will contain a clause reading substantially as follows:

> No offers of prompt payment or cash discounts will be rendered to or considered by the Government.

(c) Nothing in paragraphs (a) and (b) of this section will be construed to apply to:

(1) Purchases made from a contractor under circumstances where the contractor has no competition,

(2) Purchases made under a contract executed by another Federal department or agency, or

(3) A cash discount offered after acceptance of an offer and making of award.

The Contractor shall advise and consult with the subcontractors on this project and shall direct and supervise their work, subject to the provisions of Article VII; and shall, subject to the direction of the Contracting Officer, store materials and equipment for use in connection with the project.

3. It is estimated that the construction cost of the work listed in Section 1 of this Article will be------------------------------ -- dollars ($------------), exclusive of the Contractor's fee, and that the work herein contracted for will be ready for utilization by the Government on or before-------------------. It is expressly understood, however, that neither the Government nor the Contractor guarantee the correctness of either of these estimates. In consideration of his undertaking under this contract the Contractor shall receive the following:

a. Reimbursement for expenditures as provided in Article II.

b. Rental for Contractor's equipment as provided in Article II.

c. A fixed fee in the amount of----------- -- dollars ($----------), which shall constitute complete compensation for the Contractor's services including profit and all general overhead expenses.

4. When in the opinion of the Contracting Officer it is to the best interest of the Government, the Contractor shall when so ordered or authorized, subcontract any or all items or classifications of work required under this contract or subsequently added thereto. Such subcontracting of work, or the performance thereof with the Contractor's own forces, regardless of the amount and/or extent of work performed or subcontracted, all with the prior written approval or order of the Contracting Officer, shall entail no adjustment in the fixed fee stipulated in Section 3c of this Article has been determined in the light of the fact that all of the work may be subcontracted pursuant to the foregoing provision. Such fee includes compensation for the services which may be rendered by the Contractor in the negotiation, supervision, and coordination of any work subcontracted and the responsibilities assumed by the Contractor in connection therewith, and is deemed to be reasonable, regardless of the amount or extent of work performed or subcontracted.

5. The Contracting Officer may at any time by written order issue additional instructions, require additional work or services or direct the omission of work or services covered by this contract. If such changes cause a material increase or decrease in the amount or character of the work to be done under this contract an equitable adjustment of the amount of the fixed fee to be paid the Contractor shall be made and the contract shall be modified in writing accordingly. Any claim for adjustment under this Article must be asserted within 10 days from the date the change is ordered. Nothing provided in this Article shall excuse the Contractor from proceeding with the prosecution of the work so changed. There shall be no adjustment in the amount of the fixed fee as provided herein, nor any claim therefor because of any errors and/or omissions made in computing the estimated cost of the construction of the work under this contract or where the actual cost varies from the estimated cost.

ART. II. *Cost of the work.*

1. *Reimbursement for contractor's expenditures:* The Contractor shall be reimbursed in the manner hereinafter described for such of his actual expenditures in the performance of the work as may be approved or ratified by the Contracting Officer and as are included in the following items:

Each contract for the rental of construction plant or parts thereof by the Contractor from third parties shall be in a form prescribed by the Contracting Officer and shall be subject to his approval and shall include provisions 1. that title to such construction plant or parts thereof free of all liens and encumbrances shall vest in the Government when and if the total rental paid and/or accrued to the lessor for any item of construction plant or parts thereof shall equal the approved value thereof plus one percent (1%) of the approved value per month for each contract month or fraction thereof such piece of equipment shall have been in use, and that on demand the lessor will deliver to the Contracting Officer such evidences of title as he shall demand; and 2, that at any time prior to termination of such rental agreement, the Government may at its option purchase any piece of equipment by paying the lessor the difference between the valuation of such piece of equipment plus one percent (1%) of the approved value per month for each contract month or part thereof such piece of equipment shall have been in use, and the total rental theretofore paid for such piece of equipment: *Provided, however,* That either of such provisions may be omitted from such rental agreements if the omission is approved by the Chief of the Supply Service.

d. Unloading and assembling at the site of the work of construction plant owned or rented by the Contractor; transportation thereof to the place or places where it is to be used in connection with said work, dismantling, unloading and return transportation to the point of original shipment or equivalent mileage, but in no event will the payment made for return transportation exceed the payment made for transportation to the job site unless such excess cost results solely from an increase of freight rates, or is required by Government transfer of such equipment to another site more distant from the point of origin than the site of the work set out in Article I hereof. Charges for transportation over distances in excess of 500 miles must have the written authorization of the Contracting Officer in advance. Loading at the site of origin and unloading when returned to the original shipping point or other return shipping point will not be paid by the Government and is not a reimbursable item.

e. Repairs and repair parts as are not included in the rental or are not made necessary by the fault or negligence of the Contractor or his employees.

h. Salaries of resident engineers, superintendents, timekeepers, foremen, and other field employees of the Contractor in connection with the work. In case the full time of any field employee of the Contractor is not applied to the work, his salary shall be included in this item only in proportion to the actual time applied thereto. No person shall be assigned to service by the Contractor as superintendent of construction, chief engineer, chief purchasing agent, chief accountant, or similar position in the Contractor's field organization, or as principal assistant to any such person, until there has been submitted to and approved by the Contracting Officer a statement of the qualifications, experience, and salary of the person proposed for such assignment. The regular salary or compensation rate of any such person shall not be in excess of the highest salary or compensation rate received by him during the year preceding the date of this contract plus such increase as the Contracting Officer may approve. The payment of any excess salary over such scheduled amounts shown in the approved salary schedule, Appendix C, attached hereto and made a part hereof shall not be reimbursable, unless and until the Chief of the Supply Service has so approved in writing.

j. Temporary rights in land required in connection with the work.

k. Premiums on such bonds and insurance policies as the Contracting Officer may approve or require as reasonably necessary for the protection of the Government or the Contractor. In every instance where this contract requires or permits the United States to pay the premium on a bond or insurance policy either directly or ultimately as a reimbursable item, the bond or insurance policy shall contain an indorsement or other recital excluding by appropriate language any claim on the part of the insurer or obligor to be subrogated, on payment of a loss or otherwise, to any claim against the United States.

l. Losses and expenses, not compensated by insurance or otherwise (including settlements made with the written consent of the Contracting Officer), actually sustained by the Contractor in connection with the work and found and certified by the Contracting Officer to be just and reasonable unless reimbursement therefor is expressly prohibited.

n. Payments from his own funds made by the Contractor under the Social Security Act, and any disbursements required by law, which the Contractor may be required on account of this contract to pay on or for any plant, equipment, process, organization, materials, supplies, or personnel; and, if approved in writing by the Contracting Officer in advance, permit and license fees and royalties on patents used, including those owned by the Contractor.

o. If the Contractor and/or his representative shall be required to travel, the Government will reimburse the Contractor for the transportation, including Pullman where necessary, and will allow for such travel Six Dollars ($6.00) per day in lieu of all other expenses. Transportation by automobile on such required travel shall be reimbursed at the rate of Five Cents ($.05) per mile as representing the actual cost of such transportation.

All travel shall be either authorized or approved in writing by the Contracting Officer. Should the Contractor, or any representative thereof, remain in a travel status in excess of six (6) days at any one time, not including the time consumed in travel, the cost for such excess travel status shall be at the expense of the Contractor, unless otherwise ordered in writing by the Contracting Officer.

q. Disbursements incident to payment of payrolls, including but not limited to the cost of disbursing cash, necessary guards, cashiers, and paymasters. If payments to employees are made by check, facilities for cashing checks must be provided without expense to employees, and the Contractor shall be reimbursed therefor.

r. Such other items not expressly excluded by other provisions of this contract as should, in the opinion of the Contracting Officer, be included in the cost of the work. When such an item is allowed by the Contracting Officer, it shall be specifically certified as being allowed under this Subsection.

s. All expenditures for which reimbursement has not been made pursuant to Letter Contract dated ----------------, a copy of which is attached hereto. Such Letter Contract is hereby merged and superseded by this contract.[1] This Subsection s. shall be deemed to be included herein if and only if this contract is preceded by a Letter Contract.

2. *Rental for construction plant owned by contractor:*

a. Rental shall be paid to the Contractor for construction plant in sound and workable condition, owned and furnished by him for the proper and economical prosecution of the work, as shown in the attached "Appendix B" hereby made a part hereof, at rental rates prescribed by the Under Secretary of War in "Uniform Rental Rates for Contractor-Owned Construction Plant", August 27, 1941.

b. In the event the Contractor, with the approval of the Contracting Officer, furnishes additional equipment that is not included in "Appendix B", rental for such equipment will be paid in accordance with the said "Uniform Rental Rates for Contractor-Owned Construction Plants."

c. Except as otherwise specified herein, rental shall begin on the date of delivery of the construction plant to a common carrier for shipment to the site of the work, as evidenced by bill of lading or other satisfactory evidence covering such shipment. In the event the construction plant is conveyed by the Contractor, the rental shall start at the time transportation to the site begins; however, the rental paid shall not exceed that for the equivalent time of shipment by common carrier.

d. If such construction plant is not in sound and workable condition, to the satisfaction of the Contracting Officer, when delivered at the site of the work, the rental period therefor shall not begin until the construction plant shall have been placed in sound and workable condition at the expense of the Contractor, and rental therefor shall not be paid for any prior period.

e. If such construction plant cannot be placed in sound and workable condition within reasonable time to the satisfaction of the Contracting Officer, no transportation charges for the shipment thereof, to or from the site of the work, shall be paid.

f. The approved value of the construction plant as shown in "Appendix B" shall be deemed binding unless the Contracting Officer shall, within twenty days after such plant has been set up and working, modify or change such valuation. In the event a change is made in the valuation of the construction plant, a corresponding change shall be made in the rental rate in accordance with said "Uniform Rental Rates for Contractor-Owned Construction Plant". Thereafter the valuation and the related rental rate shall be binding unless the rental is modified as specified below.

g. Furnish within 15 days of the date of the receipt of written notice from the Contracting Officer, construction plant listed in "Appendix B": *Provided*, That the date upon which the Contractor is required to furnish such plant shall not precede the date on which such construction plant is listed as available in said "Appendix B". In the event the Contractor fails to furnish construction plant as required by such notice, the additional cost of acquiring replacement construction plant from any source other than the Contractor shall be paid by the Contractor and shall not be a reimbursable expenditure.

h. Rental for time consumed for repairs, in excess of the time normally required for such repairs as determined by the Contracting Officer, shall be deducted from the rental in the amount of one-thirtieth of the monthly rental rate for each day determined to be in excess. When in the opinion of the Contracting Officer the amount of repairs or maintenance is excessive, a deduction shall be made from the rental.

i. The payment of rental shall cease on a date to be established in a written notice by the Contracting Officer to the Contractor, that the Construction plant is no longer required. The date of release thus established shall include an allowance for the time necessary for final repairs, dismantling and loading for shipment.

GENERAL

3. Title to all materials, tools, machinery, equipment and supplies for which the Contractor shall be entitled to reimbursement under Article II shall vest in the Government at such point or points as the Contracting Officer may designate in writing: *Provided*, That the right of final inspection and acceptance or rejection of such materials, tools, machinery, equipment and supplies at such place or places as he may designate in writing is reserved to the Contracting Officer: *Provided further*, That upon such final inspection, the Contractor shall be given written notice of acceptance or rejection as the case may be. In the event of rejection, the Contractor shall be responsible for the removal of the rejected property within a reasonable time.

4. The work shall be executed in the best and most workmanlike manner by qualified, careful, and efficient workers, in strict conformity with the best standard practices.

5. Except as otherwise authorized by the Contracting Officer, all materials shall be of the best quality of their respective kinds. In any event the Contractor shall not be entitled to be reimbursed for any salary, wages or like compensation paid for such direction of the work, whether performed by an individual, a partner, a corporate officer or other representative.

---

[1] This Contract will bear same date as Letter Contract.

7. The Government reserves the right to furnish any materials, construction equipment, machinery, tools, or services, including communication services necessary for the completion of the work. The Contractor shall cause all equipment, machinery, and tools to which title is vested in the Government to be suitably marked with an identifying mark or symbol indicating that such items are the property of the United States. The Contractor shall maintain at all times, in a manner satisfactory to the Contracting Officer, records showing the disposition and/or use of all equipment, machinery, tools and materials purchased for the work and for which he has been reimbursed by the Government or which have been furnished by the Government. Upon the completion of this contract or upon demand, the Contractor shall return such equipment, machinery, tools and unused materials to the place designated by the Contracting Officer.

8. a. The Government reserves the right to pay directly to common carriers any or all freight charges on construction plant, materials, and supplies.

b. Insert [¶ 359] (§ 81.359).

9. The Government reserves the right to pay directly to the persons concerned all sums due from the Contractor for labor, materials, or other charges.

10. No salary of the Contractor, partners or corporate officers of the Contractor's organization shall be included in the cost of the work. No part of the expense incurred in conducting the Contractor's main office or regularly established branch offices, and no overhead expense of any kind, except as specifically authorized in Section 1 of this Article, shall be included in the cost of the work; nor shall any interest on capital employed or on borrowed money be included in the cost of the work.

11. The Contractor shall, to the extent of his ability, take all cash and trade discounts, rebates, allowances, credits, salvage, commissions, and bonifications, and when unable to take advantage of such benefits he shall promptly notify the Contracting Officer with the reason therefor. In determining the actual net cost of articles and materials of every kind required for the purpose of this contract, there shall be deducted from the gross cost thereof all cash and trade discounts, rebates, allowances, credits, commissions, and bonifications which have accrued to the benefit of the Contractor or would have so accrued but for the fault or neglect of the Contractor. Such benefits lost through no fault or neglect on the part of the Contractor, or lost through fault of the Government, shall not be deducted from gross costs.

12. All revenue received by the Contractor from the operations of the hospital, commissaries, or other facilities, or from rebates, discounts, refunds, etc., shall be accounted for by the Contractor and, except for any reasonable compensation accruing to a third party or parties for the operation of commissaries, hospitals, or other facilities, applied in reduction of the cost of the work.

ART. III. *Payments.*

1. *Reimbursement for cost:* The Government will currently reimburse the Contractor for expenditures made in accordance with Article II upon certification to and verification by the Contracting Officer of the original signed pay-rolls for labor, the receipted invoices for materials, and such other documents as the Contracting Officer may require. Generally, reimbursement will be made weekly but may be made at more frequent intervals if the conditions so warrant.

2. *Rental for contractor's equipment:* Rental as provided in Article II for such construction plant or parts thereof as the Contractor may own and furnish shall be paid monthly upon presentation of proper vouchers.

3. *Payment of the fixed-fee:* Ninety percent (90%) of the fixed-fee set out in Article I shall be paid as it accrues, in monthly installments based upon the percentage of the completion of the work as determined from estimates submitted to and approved by the Contracting Officer. Final payment upon completion of the work and its final acceptance shall be made in accordance with Section 5. If the contract is terminated by the Government, payment shall be made in accordance with Article VI.

4. *Payments by contractor:* If bills for purchase of material, machinery or equipment, or payrolls covering employment of laborers or mechanics incurred by the Contractor or by any subcontractor hereunder are not paid promptly by the Contractor or subcontractor as the case may be, the Contracting Officer may, in his discretion, withhold from payments otherwise due the Contractor an amount equivalent to the amount of any such bill or payroll. Should the Contractor neglect or refuse to pay such bills or pay-rolls or to direct any subcontractor to pay such bills or pay-rolls within five (5) days after notice from the Contracting Officer so to do, the Government shall have the right to pay such bills or pay-rolls directly, and in such event a deduction equal to five percent (5%) of the amount so paid directly shall be made from the Contractor's fee.

5. *Final payment:* Upon completion of the work and its final acceptance in writing by the Contracting Officer, the Government shall pay to the Contractor the unpaid balance of the cost of the work determined under Article II hereof, and of the fee, less any sum that may be necessary to settle any unsettled claims in connection with this contract, or any claim the Government may have against the Contractor. The Contracting Officer shall accept the completed work with reasonable promptness. Prior to final payment and as condition thereto, the Contractor shall furnish the Government with a release of all claims against the Government arising under and by virtue of this contract other than such claims, if any, as are specifically excepted by the Contractor from the operation of the release in stated amounts to be set forth therein.

ART. IV. *Records and accounts inspection and audit.*

1. The Contractor agrees to keep records and books of account, showing the actual cost to him of all items of labor, materials, equipment, supplies, services, and other expenditures of whatever nature for which reimbursement is authorized under the provisions of this contract. The system of accounting to be employed by the Contractor shall be such as is satisfactory to the Contracting Officer.

2. The Contracting Officer shall at all times be afforded proper facilities for inspection of the work and shall at all times have access to the premises, work and materials, to all books, records, correspondence, instructions, plans, drawings, receipts, vouchers, and memoranda of every description of the Contractor pertaining to said work except such documents as have been submitted in support of reimbursement vouchers; and the Contractor shall preserve such papers without additional compensation therefor, for a period of three (3) years after completion or termination of this contract.

3. Any duly authorized representative of the Contractor shall be accorded the privilege of examining the books, records, and papers of the Contracting Officer relating to the cost of the work for the purpose of checking and verifying such cost.

4. In order to avoid so far as possible duplication in accounting and auditing functions performed by the Contractor and the Government, it is agreed that the following accounting and auditing functions shall be performed by the Government exclusively:

a. Time checking (not time keeping) in the field, or in the Contractor's plant.

b. Audit of original pay-rolls of the Contractor (or such portions thereof as are applicable), where such pay-rolls are prepared by the Contractor.[1]

c. Checking of equipment rentals and the preparation and delivery of properly approved rental rolls to the Contractor for payment.[2]

d. Such other accounting and auditing functions as may be effectively performed by Government employees and to which the Contracting Officer and the Contractor may mutually agree in writing.

5. It is further agreed that if any of the accounting and auditing functions performed exclusively by the Government do not adequately discharge such accounting and auditing functions, to the satisfaction of the Contractor, the Contractor, with the approval in writing of the Contracting Officer, may perform such additional checking and auditing as may be so approved. The Contractor shall be reimbursed for the cost of such additional accounting and auditing functions as are so approved.

ART. V. *Special requirements.*

1. The Contractor hereby agrees that he will:

a. Procure and maintain such bonds and insurance in such forms and in such amounts and for such periods of time as the Contracting Officer may require.

b. Procure all necessary permits and licenses; obey and abide by all applicable laws, regulations, ordinances, and other rules of the United States of America, of the State, Territory, or political subdivision thereof wherein the work is done, or of any duly constituted public authority.

c. Reduce to writing, unless this provision is waived in writing by the Contracting Officer, every contract in excess of Two Thousand Dollars ($2,000) made by him for the purpose of the work hereunder for services, materials, supplies, machinery, equipment, or for the use thereof; insert therein a provision that such contract is assignable to the Government; make all such contracts in his own name, and not bind or purport to bind the Government or the Contracting Officer thereunder. No purchase in excess of $2,000 shall be made or placed without the prior approval of the Contracting Officer.

d. Enter into no subcontract for any portion of the work, except in the form prescribed by the Chief of Supply Service with the written approval of the Contracting Officer. Subcontracts are defined as contracts entered into by the Contractor with others which involve the performance, wholly or in part at the site of the work, of some part of the work described in Article I hereof.

e. At all times during the progress of the work, keep at the site thereof a duly appointed and qualified representative who shall receive and execute on the part of the Contractor such notices, directions, and instructions as the Contracting Officer may give.

f. The Contracting Officer may require the Contractor to dismiss from work such employee or employees as the Contracting Officer deems incompetent, careless, or insubordinate or whose continued employment is deemed inimical by the Contracting Officer to the public interest. The Contractor shall make every reasonable effort in the selection of his employees and in the prosecution of the work under this contract, to safeguard plot drawings and schematic drawings furnished him and drawings and specifications, and to prevent the theft or unauthorized use of the same.

g. Furnish sufficient technical, supervisory and administrative personnel to insure the prosecution of the work in accordance with a progress schedule approved by the Contracting Officer. If, in the opinion of the Contracting Officer, the Contractor falls behind a progress schedule approved by the Contracting Officer, the Contractor shall take such steps as may be necessary to improve his progress and the Contracting Officer may direct him to increase working days, or hours of labor per day. Failure to promptly comply with such directions shall be deemed sufficient cause to terminate the contract for the fault of the Contractor.

---

[1] Where pay-rolls are prepared by the Government the audit thereof by the Government will be concurrent with such preparation.

[2] If not applicable, this section will be omitted.

h. Immediately upon termination of third party rental agreement, make all repairs to equipment rented thereunder which are required to be made by the terms of such rental agreements and remove such equipment from the site of the work. When, in connection with the audit and check by the Contracting Officer or his authorized representative, of the Contractor's payrolls prior to reimbursement as contemplated in Section 1 of Article II hereof, it is found that one or more laborers and/or mechanics have been paid wages at rates in excess of the wage rates approved as herein provided, the reimbursement made to the Contractor on account of such payrolls will not include any such excess payments.

*a corporation organized and existing under the laws of the State of ------------------ --

*a partnership consisting of ---------------- -- -- --

*an individual trading as ---------------- ------------ of the City of ------------ ------------ in the State of ------------ ---------- (hereinafter for brevity called the "A-E-M"), Witnesseth That:

Whereas, the Government desires to engage the services of an architect-engineer-manager to perform such architect-engineering services as are hereinafter described, the construction of certain portions of the work, and management services for the entire project; and

Whereas, the accomplishment of the work by the A-E-M under a cost-plus-a-fixed-fee contract, entered into after negotiations approved by the Secretary of War, and without advertising for proposals, is authorized by law and will facilitate the prosecution of the war; and

Whereas, as a result of such negotiations, the Secretary of War has directed that the Government enter into such contract with the A-E-M for the accomplishment of the work hereinafter described:

Now, Therefore, the parties hereto do mutually agree as follows:

ARTICLE I. *Statement of work.*

1. The A-E-M shall, in the shortest reasonable time, furnish the labor, materials, tools, machinery and equipment, facilities, supplies not furnished by the Government, and services, and do all things necessary for the completion of the following described work: -- -- all in accordance with the drawings and specifications or instructions contained in Appendix "A" hereto attached and made a part hereof, or to be furnished hereafter by the Contracting Officer and subject in every detail to his supervision, direction and instructions.

ART. II. *General statement of work and services.*

1. The A-E-M shall render all architect-engineering and other services incident to design, inspection and supervision of the project, more specifically described in Article I hereof.

2. Insofar as is practicable, where such action will not, in the opinion of the A-E-M, result in delay in completion of the facilities, all construction work shall be accomplished by contracts; either on lump sum or unit price basis awarded and entered into by the Government after negotiations therefor with the assistance of the A-E-M.

3. The A-E-M shall, in the shortest reasonable time, prepare adequate plans, specifications, bills of material, and estimates covering:

a. Items of materials and equipment.

b. Any and all items of construction work for which contracts may be awarded on lump sum or unit price basis.

c. All other items of construction work for which lump sum or unit price contracts are not awarded.

4. When drawings and specifications are sufficiently complete with respect to any portion of construction work, which in the judgment of the A-E-M and the Contracting Officer may be contracted for on lump sum or unit price basis, the A-E-M shall furnish complete bid documents, conforming to law and regulations, for the letting of such contracts by the Government, and shall assist the Contracting Officer in evaluating proposals, and shall render such other services in connection with the award of contracts, based upon such approved drawings and specifications, as the Contracting Officer may require.

5. The A-E-M shall furnish or assemble such necessary force of superintendents, foremen, skilled workmen and laborers, construction tools and equipment and shall construct all items of construction work required by this contract for which contracts are not awarded by the Government on lump sum or unit price basis, except that the A-E-M may with the prior approval of the Contracting Officer subcontract in his own name for the performance of construction work on a lump sum, unit price, or fixed-fee basis when this method will in his opinion result in decreasing the time of completion of the project and/or the cost to the Government. Cost-plus-a-fixed-fee subcontracts wil be entered into only after a written determination with reasons therefor by the A-E-M, and the approval of the Contracting Officer.

6. The A-E-M shall provide the necessary office space, at the site of the work for the representatives of the Contracting Officer and himself.

ART. III. *Statement of Architect-Engineer Services.*

1. The A-E-M shall, in the shortest reasonable time, establish and maintain an office at or near the site of the work under the full-time resident direction of the A-E-M, if an individual; of one or more principal partners if the A-E-M is a partnership; or in case the A-E-M is a corporation, association or similar legal entity, one or more senior officers thereof: *Provided, however*, That the A-E-M, whether an individual, a partnership, a corporation, or other legal entity may be represented in the direction of the work by some person or persons of a class other than those specified above, if the Contracting Officer gives his approval. It is agreed that there shall be ------ representative(s) of the A-E-M for the purpose above mentioned. The A-E-M shall perform the following services:

a. Make all necessary topographical and other surveys and maps; arrange for and supervise necessary test borings and other subsurface investigations. *Provided, however*, That this provision is not to be deemed to require the A-E-M to make real estate surveys.

b. Prepare, subject to the approval of the Contracting Officer, preliminary studies, sketches, and layout plans and reports including estimates of cost of the proposed project and of all structures, utilities and appurtenances thereto.

c. Adapt and modify Government designs, drawings, specifications and standards for buildings and other structures as necessary to meet the requirements of the approved layout of the proposed project, and prepare detailed designs, specifications and drawings in required form for which Government designs are incomplete or unavailable.

d. Obtain necessary permits and approvals from all local, State and Federal authorities. Should it become necessary in the performance of the work and services for the A-E-M to secure the right of ingress or egress to perform any of the work required by this contract on properties not owned or controlled by the Government, the A-E-M shall secure the consent of the owner, his representative, or agent, prior to effecting entry on such property. In the event the owner requires the payment of any fee for a license to enter upon and/or use such property, the A-E-M, when so directed by the Contracting Officer, shall pay such fee and obtain a receipt therefor.

e. Prepare estimates of material quantities required to construct the project.

f. When preliminary drawings are approved in writing by the Contracting Officer, prepare final designs, detailed working drawings and specifications in accordance with Government standards necessary for the effective coordination and efficient execution of the construction work and revise such drawings and specifications if necessary. All reservation, topographical, utility and unit layout maps shall be inked in on linen. If deemed practicable by the Contracting Officer, all other drawings for structures and other items may be made on paper in pencil. Prepare copies of the specifications and sets of full size copies of working drawings in such manner and in such numbers as the Contracting Officer may require.

There shall be included in the specifications all provisions which the Contracting Officer may direct to have incorporated therein relating to the awarding of the construction contracts, contemplated by Section 2 of Article II, conditions under which the work shall be done, including a provision that the Contractors (lump sum and unit price contractors and lump sum subcontractors) and all persons employed directly or indirectly under such construction contracts, will utilize the hospital and first-aid facilities furnished by the A-E-M, and any special provisions required by statute or existing War Department regulations or instructions.

g. Prepare an estimate of the cost of the proposed project based on the approved designs, drawings and specifications therefor, and furnish for the approval of the Contracting Officer:

(1) Schedules and charts showing the proposed sequence of operations in the construction of each of the several portions of the work.

(2) Estimates showing the amounts of critical and important materials and dates when such materials will be required on the site.

(3) Labor estimates, to be prepared with the assistance of other construction contractors, contemplated by Section 2 of Article II, showing the approximate numbers, trades and dates required to meet the schedule in (1) above.

(4) In addition to the requirements of Article XXVI, semimonthly progress reports in approved form showing the progress of the construction work and any deviation from the approved construction schedule.

k. Make or cause to be made such field and laboratory tests of concrete and concrete aggregates and other materials at the site or at any time or place as the Contracting Officer may require. Inspect and report to the Contracting Officer in writing as to the conformity or nonconformity of the workmanship and materials to specifications; and on the progress of the project.

(1) When so directed by the Contracting Officer, arrange for, by subcontract or otherwise, and supervise tests and inspections of materials and workmanship by commercial testing laboratories or other similar agencies, either at such laboratories or at the points of manufacture or fabrication of materials. The cost of such tests and inspection shall be reimbursable and the subcontracting thereof shall entail no adjustment in the fixed fee. Subcontracting of any other architect-engineer services, unless otherwise expressly provided for in this contract, shall be subject to a decrease in the fixed fee by an equitable adjustment on the basis of the decrease in services due to such subcontracting.

---

*Delete all lines which do not apply.

l. Upon termination or prior to completion of this contract, as determined by the Contracting Officer, and before final payment of the fixed-fee, the A-E-M shall:

(1) Prepare record drawings in required form, or correct drawings and specifications to show construction as actually accomplished as follows:

(a) Drawings of topographical surveys, project layouts, utility layout maps, unit layout maps (including utilities), landscape layouts and detailed drawings for all special structures of a permanent nature, including sewage disposal plants, and water and electrical supply systems, shall be inked in on linen.

(2) Supervise the testing of operating units designed by the A-E-M to assure their conformance with specifications and furnish all engineering services necessary to secure such conformance.

(3) Prepare instructions for the proper operation and maintenance of all utilities and operating equipment designed by the A-E-M.

m. Without additional compensation the A-E-M, or any member of the organization, when requested, shall consult and advise with the Contracting Officer on any questions which may arise in connection with the work.

n. Prepare partial and final estimates of quantities and values of work done under lump sum and unit price contracts and subcontracts necessary to provide data required under the payment provisions of such contracts and subcontracts.

o. Perform all other architectural and engineering services within the scope of this contract required by the Contracting Officer.

ART. IV. *Statement of construction services.*

1. The A-E-M shall, in the shortest practicable time, furnish the services, labor, materials, tools, machinery, equipment, facilities and supplies not furnished by the Government and do all things necessary for the construction of that portion of the project not performed by the Government or performed under the contracts contemplated by Sections 2 and 5 of Article II, all in accordance with the approved drawings and specifications.

ART. V. *Statement of management services.*

1. The A-E-M shall furnish management services to assure the satisfactory completion of the project. Such services shall include, among other functions, the preparation of contract documents, and scheduling such contracts as to units of work, time of completion, and other salient phases so as to assure the orderly prosecution of the work. Such services shall also extend to the scheduling and/or purchasing of items of materials and equipment to avoid any delays in the prosecution of the work hereunder. The A-E-M shall advise and consult with the construction contractors on this project and shall direct and supervise their work, subject to the provisions of Article XVII; and shall, when directed or authorized by the Contracting Officer, procure and store materials and equipment for use in connection with the project.

ART. VI. *Estimated cost, fee and performance period.*

1. It is estimated that the cost of the construction of the project will be ------------ ------------------ Dollars ($-------------- ------) exclusive of the A-E-M's fee, and that the work herein contracted for will be ready for utilization by the Government ---- -------------------------- It is expressly understood, however, that neither the Government nor the A-E-M guarantees the correctness of either of these estimates.

2. In consideration for his undertaking under this contract the A-E-M shall receive the following:

a. Reimbursement for expenditures as provided in Article XI.

b. Rental for A-E-M's equipment as provided in Article XI.

c. A fixed fee in the amount of -------- ---------------------- Dollars ($---------- ----------) which shall constitute complete compensation for the A-E-M's services, including profit and all general overhead expenses.

3. When in the opinion of the Contracting Officer it is to the best interests of the Government, the A-E-M shall when so ordered or authorized, subcontract any or all items or classifications of construction work required under this contract or subsequently added thereto, for which contracts are not awarded by the Government on a lump sum or unit price basis. Such subcontracting of construction work, or the performance thereof with the A-E-M's own forces, regardless of the amount and/or extent of work performed or subcontracted, all with the prior written approval or order of the Contracting Officer, and such awarding of contracts for construction work hereunder by the Government on a lump sum or unit price basis, irrespective of the amount and extent thereof, shall entail no adjustment in the fixed fee stipulated in Section 2*c* of this Article VI. The fixed fee stipulated in Section 2*c* of this Article VI has been determined in the light of the fact that all of the construction work may be subcontracted or contracts for such work may be awarded by the Government on a lump sum or unit price basis. Such fee includes compensation for the services which may be rendered by the A-E-M in the negotiation, supervision, and coordination of any construction work subcontracted or for which contracts have been awarded by the Government on a lump sum or unit price basis and the responsibilities assumed by the A-E-M in connection therewith, and is deemed to be reasonable, regardless of the amount or extent of construction work performed, subcontracted, or for which contracts are awarded by the Government on a lump sum or unit price basis.

ART. VII. *Changes.*

1. The Contracting Officer may at any time by written order issue additional instructions, require additional work or services or direct the omission of work or services covered by this contract. If such changes cause a material increase or decrease in the amount or character of the work to be done under this contract an equitable adjustment of the amount of the fixed fee to be paid the A-E-M shall be made and the contract shall be modified in writing accordingly. Nothing provided in this Article shall excuse the A-E-M from proceeding with the prosecution of the work so changed. There shall be no adjustment in the amount of the fixed fee as provided herein, nor any claim therefor, because of any errors and/or omissions made in computing the estimated cost of the construction of the work under this contract or where the actual cost varies from the estimated cost.

ART. VIII. *Title to work.*

1. Title to all materials, tools, machinery, equipment and supplies for which the A-E-M shall be entitled to reimbursement under Article XI shall vest in the Government at such point or points as the Contracting Officer may designate in writing: *Provided*, That the right of final inspection and acceptance or rejection or such materials, tools, machinery, equipment and supplies at such place or places as he may designate in writing is reserved to the Contracting Officer: *Provided further*, That, upon such final inspection, the A-E-M shall be given written notice of acceptance or rejection as the case may be. In the event of rejection, the A-E-M shall be responsible for the removal of the rejected property within a reasonable time.

ART. IX. *Workmanship and materials.*

1. The work shall be executed in the best and most workmanlike manner by qualified, careful and efficient workers, in strict conformity with the best standard practices. Except as otherwise authorized by the Contracting Officer all materials shall be of the best quality of their respective kinds. If the Contracting Officer requires that the A-E-M submit for prior approval samples of materials proposed for use in the work covered by this contract, the A-E-M shall make no commitments for such materials until the submitted sample has been approved by the Contracting Officer.

ART. X. *Expert technical assistance.*

1. When in the judgment of the Contracting Officer the complexity and nature of the project are such as to require expert technical assistants, or services, or advice in connection with special phases of the work, such as site planning, aerial surveys, manufacturing processes, or other problems of a highly technical character, the Architect-Engineer-Manager may obtain by subcontract or otherwise, when so ordered by the Contracting Officer, such supplemental professional services as are necessary for the proper performance of this contract. The obtaining of such supplemental professional services shall entail no adjustment of the fixed-fee.

2. The provisions of the above Section shall not apply to the usual professional services normally furnished by Architect-Engineers, including but not limited to topographic surveys, design of water supply and sewerage systems, power plants and other utilities, structures and foundations. If, in the opinion of the Contracting Officer, it is essential for the proper prosecution of the work that the Architect-Engineer-Manager obtain expert technical advice or consulting service in connection with those classes of service not included in Section 1 above, the cost of obtaining such advice or service shall not be reimbursable except for the salaries of employees of such consultants, when assigned to the work on a full-time basis.

ART. XI. *Cost of the work.*

1. *Reimbursement for A-E-M expenditures.* The A-E-M shall be reimbursed in the manner hereinafter described for such of his actual expenditures in the performance of the work as may be approved or ratified by the Contracting Officer and as are included in the following items:

a. All labor, materials, tools, machinery, equipment, supplies, services, utilities, power and fuel necessary for either temporary or permanent use for the benefit of the work.

b. All subcontracts made in accordance with the provisions of this contract.

c. Rental actually paid by the A-E-M at rates not to exceed those approved by the Contracting Officer, for construction plant in sound and workable condition exceeding $300 in value as may be necessary for the proper and economical prosecution of the work. Each contract for the rental of construction plant or parts thereof by the A-E-M from third parties shall be in a form prescribed by the Contracting Officer and shall be subject to his approval and shall include provisions (1) that the lessor shall deliver to the Government title to such construction plant or parts thereof free of all liens and encumbrances when and if the total rental paid and/or accrued to the lessor for any item of construction plant or parts thereof shall equal the approved value thereof plus one percent (1%) of the approved value per month for each contract month or fraction thereof such piece of equipment shall have been in use, and (2) that any time prior to termination of such rental agreement, the Government may at its option purchase any piece of equipment by paying the lessor the difference between the valuation of such piece of equipment plus one percent (1%) of the approved value per month for each contract month or part thereof such piece of equipment shall have been in use, and the total rental theretofore paid for such piece of equipment, *Provided, however*, That either

coordination and efficient execution of the

of such provisions may be omitted from such rental agreements if the omission is approved by the Chief of the Supply Service.

d. Unloading and assembling at the site of the work of construction plant owned or rented by the A-E-M; transportation thereof to the place or places where it is to be used in connection with said work, dismantling, loading and return transportation to the point of original shipment or equivalent mileage, but in no event will the payment made for return transportation exceed the payment made for transportation to the job site unless such excess cost results solely from an increase of freight rates, or is required by Government transfer of such equipment to another site more distant from the point of origin than the site of the work set out in Article I hereof. Charges for transportation over distances in excess of 500 miles must have the written authorization of the Contracting Officer in advance. Loading at the site of origin and unloading when returned to the original shipping point or other return shipping point will not be paid by the Government and is not a reimbursable item.

Transportation and traveling expenses to the work of the necessary field forces for the economical and successful prosecution of the work, and return when such services are no longer required; expenses of procuring labor and expediting the production and transportation of material and equipment. Expenditures under these items shall be either authorized or approved in writing by the Contracting Officer.
